# 致 读 者

土木建筑行业是我国社会主义经济的重要支柱之一。土木建筑行业职工素质如何,对这个行业发展关系极大。全国土木建筑行业职工约 2000 万人,其中工程技术人员和管理人员约 300 万人。随着对外开放的不断扩大,我国同世界各国之间的人员往来、学术交流、信息传播、经济活动以及工程承包等业务日益频繁,土木建筑行业不同领域不同层次的读者,尤其是中青年知识分子,学习和进修英语的要求越来越迫切。奉献在读者面前的《土木建筑系列英语》读本,正是为满足这样的需要而编撰的。

《土木建筑系列英语》是一套结合土木建筑类各专业的英语分级读本,整个系列按文章难度分为四级。第一、二级不分专业,内容为土木建筑方面的浅显易懂的科学普及文章。第三级暂分八个专业,即建筑学与城市规划、工业与民用建筑、给水与排水、供热与通风、道路与桥梁、工程机械、管理工程、计算机与自动化,每个专业一册,其他专业视情况再行编撰;内容为各有关专业一般性的科学普及或科学技术文章。第四级内容选收专业性较强的科学技术文章;目前暂出版建筑学与城市规划、工业与民用建筑专业各一册,其他专业留待以后考虑。

我们在组织和编撰《土木建筑系列英语》时,力求使这套读本具有自己的特点。

首先,起点低。这套系列读本的起点为 1000 个单词。凡初中毕业或具有同等英语程度的读者,都可以从第一级开始自修或听课。这就大大地拓宽读者面,使土木建筑行业多数人员有条件有兴趣利用这套读本来学习英语。

其次,便于自学。编撰的四级读本尽量保持一个较为平缓的“坡度”,全部课文均附参考译文,每个练习都有答案,争取使读者在普通英语的“浅基础”上,一步一步地学会阅读专业英语。通过学习第一、二级读本,可以掌握土建类科技英语最常用的 2500 个单词以及阅读科技英语书刊和有关资料所必需的基本语法知识。继之,通过学习第三级读本,可以累计掌握本专业最常用的 3500 个单词和比较系统的英语构词法知识,获得阅读本专业英语书刊和有关资料的能力。最后,通过学习第四级读本,可以累计掌握本专业 4500 个单词和比较全面的英译汉知识;这样,比较流利地阅读和翻译本专业英语书刊和有关资料,就有了比较牢固的语言基础。

这套系列英语读本第一、二级均配有录音磁带,由英、美文教专家朗诵,口音纯正,声质清晰,语调自然,使读者听来亲切、生动。

第三,适应性强。各级英语读本既彼此衔接,又相对独立,可以适应各种不同程度的读者的需要。一般读者如果从第一级学起,循序渐进,持之以恒,每周自修或听课3~4小时,经过一年半左右,便可学完前三级读本,为阅读本专业英语书刊和有关资料创造条件。有意深造的读者,再用半年左右,攻读第四级读本,就可以达到比较流利地阅读和翻译本专业英语书刊和有关资料的目的。对于英语基础较好的读者,如高等院校高年级学生,可把第一、二级读本作为泛读教材,第三、四级读本作为精读教材来学。对于硕士研究生或具有同等英语程度的工程技术人员,则可直接阅读第三、四级读本;在掌握英语构词法和英译汉技巧方面,这两级读本对他们会有所帮助。而广播电视大学、函大、夜大、职大、业大及有关中等专业学校的学生,也可依照自己的水平和需要,选学有关读本。

第四,语言规范可靠。这套系列读本的全部课文,均选自近年来面世的英语国家的出版物。但为了适应系统地学习英语的需要,编撰者对不少课文作了必要的删改和加工;而在删改和加工之后,均送各校聘请的英、美文教专家审阅,使之保持规范的科普或科技文体的现代英语的特点。全部练习均由编撰者按统一要求编写,目的在于帮助读者更好地掌握课文中重要的语言材料。全部参考译文均由有关专业教师一一校阅,术语比较准确,行文比较通达。

《土木工程系列英语》读本是集体智慧的结晶。十几所土木建筑高等院校的五十多位英语教师和专业教师参加了编撰、审订工作,其中某些分册还聘请校外的有关专家过目。哈尔滨建筑工程学院、重庆建筑工程学院、北京建筑工程学院、沈阳建筑工程学院、吉林建筑工程学院、南京建筑工程学院、山东建筑工程学院、西北建筑工程学院、苏州城市建设环境保护学院和河北建筑工程学院等,都对编撰、审订工作表示关怀和支持。各学院聘请的十多位英、美文教专家也提出过宝贵的意见。对此,我们表示深切的谢意。

目前,尚未见到紧密结合本学科、本专业编撰的系列英语分级读本,我们只是做了初步的尝试。万事开头难。尽管编撰、审订人员做了大量的细致的工作,但这套《土木工程系列英语》读本还不是尽善尽美,毫无瑕疵的。我们期待着读者和同行们的批评和指正。

## Lesson 1

### How Does a Town Start? (1)

First, there's a house where people live. Then another house...and another...and another... Finally, there are so many that someone builds a store. And now people can buy things without having to bring them in from far away.①

But that's not always how a town starts. Sometimes the store comes first. This is a story about one that did.② It's a story that starts with the words "Once upon a time ...". But it is a true story—a story that has happened in many places all over the world.

Once upon a time some men in a boat came up a river to explore wild country. The men were traders. They wanted to trade or sell things to the people in the wild country and buy things from them. The people who lived there could have been almost anybody, but these were Indians.

Day and night, day and night, the men in the boat kept moving up the river. Finally, they came to a place where another big river empties into their river.

"Look," the leader said, "here where the two rivers meet — a good place to build our store. Plenty of trees that we can cut down to make our buildings. Land's high enough that we can fight off any enemies that attack. And the Indians can come to us from both rivers to sell things to us and to buy what we have to sell to them."

The men landed and cut down trees and built a store, or trading post. They built some houses to live in. And they built a strong fence around everything so that they would be safer if Indians attacked.

Some traders cheated the Indians. This made the Indians so angry that they sometimes attacked the traders and tried to make them go away.

## Lesson 2

### How Does a Town Start? (2)

Let's say those traders didn't cheat the Indians, or not very much. ① So the Indians brought valuable furs to the trading post and traded them for guns, food and many other things. The men at the trading post sent the furs downriver to the big cities by the ocean ② and brought back more and more things to trade with the Indians for more and more furs.

One day a man came and built a mill by the river. Now the people who lived there could have fresh flour. Another man came who knew how to make leather from animal skins, and shoes for people. Another man came who knew how to fix broken guns and even make new ones. He also knew how to put iron shoes on horses. Someone else came who knew how to make clothes for people. And all the time, more people were coming and cutting down trees and starting gardens and farms.

Finally, there were enough people there at the place where the rivers met that they built a school, a church and a post office...and later a man built a bank.

More and more boats were travelling on the river now. Even steam-boats. Finally, a road was built through the woods all the way from the ocean to that town where the river met. Now big wagons came rolling, loaded with things for people to buy, and loaded with people who wanted to stay and live in that new country, which wasn't so wild anymore. ③

After steam engines were invented and people found out how to build railroad tracks, trains started coming to the town where the rivers met. And the town kept growing ④ and growing.

The town is still there today, only now it is full of automobiles and factories and tall buildings. The town could be called Pittsburgh or St. Louis or any one of a lot of cities you have heard of and will surely visit someday. ⑤
