# WHO'S WHO IN INTERNATIONAL ORGANIZATIONS

1964-65

Though indexing experts all over the world may have reached substantial agreement on what should be standard practice, it is to be feared that the lay user may not be so well-versed as to what is considered to be the correct ordering of entries.

We have adopted what appears to be the simplest method of arrangement where names in a great variety of languages are involved. All titles, general designations, professional descriptions are ignored for purposes of alphabetical arrangement, which is on the « world by word » principle (implying that double-barrelled names are not interspersed among the list of individuals having the same first surname, but they appear in another alphabetical series according to the initial of the second name at the end of first series; the same procedure has been adopted with regard to Spanish names). In cases where the individual's initials are unknown the principle of « nothing before something » has been followed (eg Smith; Smith, A; Smith Arnold; Smith A B). Scandinavian or German names incorporating « ä », « ü », « ö », etc., have been placed as though the diacritic marks were absent.

The index comprises all the personal names appearing in the 10th (1964-65) edition of the Yearbook of International Organizations, whether they are the members of governing bodies shown under the paragraph « Officers » or regional representatives whose addresses are given at the head of the entry, or chairmen of commissions shown under « Structure ».

References are to organization entry numbers, not page numbers, in the Yearbook. Readers will be able to discover the interests of a particular individual without referring to the Yearbook itself from the table overleaf, which shows which entry numbers pertain to each particular sector.
