TABLE OF CONTENTS

Session 0448 Fostering Professionalism in the Technical Writing Classroom		The Tutorial and Research CAD System for Electronic Design.....	51
Simulating the Electronic Corporation	1	Session 1230 Improving Engineering Education—Issues in a Changing World	
Technical Communication—As Industry Sees It .	5	Implementation of the Kolb Learning Style Theory in a Unique Faculty Development Program at Brigham Young University.....	54
The Changing Role of the Engineer as a Technical Communicator	8	Six-Year, Six-Topic Engineering Faculty Enhancement Program	59
Session 1206 The Care and Feeding of Successful AE Programs		1230 The Need for a “How to Teach” Course for Graduate Students.....	65
Visiting Professional—An Innovative Approach to Educating Architectural Engineers.....	12	Session 1234 Sound & Vibration for Industry	
Session 1220 Digital Signal Processing		From Rescue to Research: Chronology of a Noise & Vibration Project.....	69
A New Class of Control System VLSI DSP Compensators	18	Machine Diagnostics in Mechanical Engineering Technology.....	73
A PC-Based DSP System for Sonar Signal Simulation.....	23	Session 1238 Visualization and Research I	
Digital Signal Processing (Moderator’s Comments).....	28	Balancing Research and Professional Development with Engineering Graphics Instruction	77
Motorola DSP 5600 and Personal Computer-Based Control System Experimentation Station	29	Session 1242 Quality Management	
Multirate Filtering Using the TMS320C30 Floating-Point Digital Signal Processor.....	34	Total Quality Management and Engineering Education: An Overview	100
Session 1222 Developing CEE Programs in Europe and Asia		Are We Training Tomorrow’s Engineers to Meet Yesterday’s Needs?	83
Developing CEE Programs in Europe and Asia .	38	Need for Case Studies: New Product Development.....	89
Session 1225 Engineering Design Education Systems in East Europe		Optimizing the Cost of Quality Using Quality Economic Models.....	94
Characteristics of Engineering Design Education Systems, As a Basis of any Comparison	42		

Session 1250	
Engineering Technology Project Courses	
A Senior Design Project Experience	105
Capstone Projects for Space as a Cooperative Effort with Industry	108
Combining Hardware and Software in a CET Capstone Course.....	112
Engineering Technology Project Courses	115
Integrating the Cooperative Education with Senior Design Projects	118
Microcomputer-Based Capstone Projects	121
Team Projects in an Advanced Microprocessor Course	124

Session 1251	
Pollution Prevention and Waste Minimization by Design	
Engineering Environment and Economic Elegance into Design Education.....	129
Pollution Prevention and Recycling in the Introductory Materials Science Curriculum ...	134
Pollution Prevention During Process Design: A Changing Paradigm for the Chemical Industry.....	137
Total Quality Management (TQM): Defect Prevention by Design and Pollution Prevention by Design.....	144

Session 1253	
The Relationship of Physics, Chemistry, and Calculus to Beginning Engineering Courses	
A Qualitative Assessment of the Engineering Freshman Year Experience	151
They Don't Belong in Engineering	155

Session 1255	
Should We or Shouldn't We Start a Ph.D. Program	
Establishing a Ph.D. Program in a State University	160

Session 1260	
Engineering Education Around the World	
Engineering Education in Sweden.....	163

Session 1261	
The Role of Liberal Studies in the Engineering Design Curriculum	
Liberal Education: Key to Effective Design	167
Liberal Studies in the CSM Design Curriculum..	170

Session 1264	
Laboratories for Materials Engineering	
Design Project for the Materials Course: To Pick the Best Material for a Cooking Pot.....	174
Fabrication and Evaluation of a Simple Composite Structural Beam	178
Fiber Reinforced Composite Materials	183
Update 90—Standard Experiments in Engineering Materials Science & Technology .	189

Session 1265	
Teaching Applicable Mathematics in an Engineering Atmosphere	
Floating Point Arithmetic Basic Exercises in Mathematical Reasoning for Computer Science Majors.....	191
Promoting Better Preparation for Science and Engineering Courses in Freshman-Level Calculus and Physics: Reflections and Strategies.....	198

Session 1268	
Innovations in Mechanics I	
Introducing a Finite-Element Technique in Statics.....	203
Program MacInTrussSD Computer Structural Modeling in Statics	207
Tutorial Software in Statics.....	211

Session 1275	
Tricks of the Trade: Outside the Classroom	
Time Management for the New Engineering Educator	216

Session 1298
The Recruiting of Females and Minorities into Engineering Technology

Recruiting and Retention of Minority Students with Special Emphasis of Hispanics and American Indians	223
The Recruitment and Retention of Women at Southern College of Technology	226
Twenty-First Century Recruitment Initiatives for African American Students	230

Session 1299
Instructional Uses of Computers in Both the Classroom and Laboratory

The Use of Hypermedia in the Laboratory for Guiding and Recording Student Experimentation	234
Use of Expert Systems Applications as Technology Courseware—An Example	239

Session 1438
Visualization and Research II

Solid Modeling for Architects?	244
--------------------------------------	-----

Session 1468
Undergraduate Composite Mechanics

Hygrothermal Behavior of Paper	248
Industry-University Collaboration in Teaching Composite Materials	252

Session 1602
Topics in Astronautics and Space Systems

ADSAT, Astronaut Deployable Satellite	255
Rocket Building at the USAF Academy	261

Session 1606
The Well-Rounded Architectural Engineer

Implications of Current Investigative Techniques on Architectural Engineering	273
---	-----

Session 1609
Biomedical Engineering Accreditation

Introducing Students to the Engineering Design Experience	277
---	-----

Session 1613
Professional Software Applications in Chemical Engineering Education

Applications of MathCAD to Separation Problems	280
The Use of MathCAD and Theorist in the ChE Classroom	287
TUTSIM and Its Implementation in Process Dynamics and Control Courses	300
Using Mathcad in Teaching Material and Energy Balance Concepts	305

Session 1615
The Civil Engineering Curriculum for the Year 2001

Space Civil Engineering—An Emerging Discipline	310
Weston Institute an Innovative Approach to Stimulating Environmental Education and Research Among Business, Industry, Government and Academia	317

Session 1620
Object Oriented Programming

ACTOR: An Object Oriented System to Develop Windows Applications	325
From C to Object-Oriented Programming with C++: A Step Towards the Right Direction ...	329
Object Programming in the Development of Engineering Courseware: A Case Study	334
Object-Oriented Programming (Moderator's Comments)	339
Switching to Object-Oriented Programming: Do the Costs Outweigh the Benefits?	342

Session 1621
Computers in Construction Education

Establishing a Construction Microcomputer Laboratory	346
Integration of Digital Image Processing and Simulation Technologies for Teaching Design/Construction Integration	349

Session 1625	
Integration of Design into Engineering Curricula	
An Innovative Approach to Space Mission Design: Integrating the Astronautics Curriculum at the USAF Academy	354
Integration of Design into Mechanical Engineering Curriculum	358
Experience in the Integration of Design into Basic "Mechanics of Solids" Course at MIT....	360
Integration of Design into the Construction Engineering and Management Curriculum: A Senior Design Capstone Course	365
Introducing the Undergraduate Engineer to the Design Process	370
The Automatic Controls Curriculum at the USAF Academy: A Coordinated Blend of Analysis and Design.....	375

Session 1626	
NSF/ILI Program	
A Laboratory Course in Blasting in Underground Mines	381
A Program to Author Interactive Instructional Tutorial	387
CAE Workstations for Teaching Digital Systems Design in a General Undergraduate Electrical Engineering Curriculum	391
CNC Turning Center Applications in a Manufacturing Technology Laboratory	401
Computer Integrated Manufacturing and the Information Network	407
Development of a Hypermedia Learning System for Environmental Analysis	421
Digital Laboratory Based on CAD Tools	430
Fermentation, Centrifugation, Distillation and Control Experiments at the University of North Dakota Department of Chemical Engineering.....	435
Human Factors Laboratory Experiences for Industrial Engineering Students	439
Instrumentation for a Contemporary Energy Conversion Laboratory.....	451
Introductory Interdisciplinary Instrumentation Laboratory for Electrical and Mechanical Engineering Students.....	456
Real-Time Digital Filters in C	459

RF/Microwave and Lightwave Engineering Laboratory	463
Sensor-Based Robot Control Laboratory.....	467
The GPIB in EE Education—Two Years of Experience.....	473
VXI in the ATE Lab	477

Session 1630	
Applications of Technology in Engineering Education—The Challenge	
A Hypermedia Solution to a Hyper Problem: Personalized Computer Engineering Career System	482
Evaluation of the Teleconference as an Educational Delivery System.....	489
HyperCard Courseware for Introduction to Circuit Analysis.....	496
Project NORTHSTAR: Curricular Courseware Development in a UNIX Graphical Workstation Environment.....	501

Session 1632	
The Challenges of Attracting and Retaining Minorities and Women into Electrical Engineering	
A Freshman Quality Improvement Program Involving Pre-Electrical Engineering Majors at the University of Texas at El Paso.....	506
Creation of a Summer Enrichment Institute for Middle and High School Students.....	511
The Challenge of Attracting Women into Electrical Engineering Within the Framework of American Culture.....	515
Young Engineering and Science Scholars: Electrical and Computer Engineering for Eighth Graders	521

Session 1639	
Advances in the Teaching of Engineering Economy	
Integration of Economic Principles with Design in the Engineering Science Component of the Undergraduate Curriculum	525
Spreadsheet vs. Formulas for Engineering Economy Instruction.....	530

Session 1646
**Effective Utilization of Industrial Advisory Committees
for Technology Programs**

Effective Utilization of Industrial Advisory Committees for Engineering Technology Programs (Moderator's Comments)	535
How Industrial Advisory Boards Can Help Engineering Technology Programs	537
The Effective Use of Industry Advisory Committees	542
The Recruitment, Organization, and Function of Industrial Advisory Boards	547

Session 1647
**Preparation and Retention Programs for Engineering
Technology Students**

Basic Skills Courses in Computations and Computers for Students Entering a Mechanical Engineering Technology Program	550
Tech Prep—A Comprehensive Approach	555

Session 1664
Materials Laboratories Poster Session

It's Hard to Test Hardness	557
A Nondestructive Testing Method to Diagnose Material Behavior	562
Introduction to Materials Laboratory	573
Unconventional Impact-Tpughness Experiments	577

Session 1675
Tricks of the Trade: Inside the Classroom

Interdisciplinary Teaching in Senior Design	581
Fine Tuning of Classroom Lectures	584
Moderator's Comments	588
On the Delivery of Visualizations for Teaching Engineering Design Using the Laser Videodisc Medium	591
The Three Characteristics Leading to Effective Teaching	595

Session 1687
**Economic Development—Joint College and Industry
Programs**

A Technology Transfer Site: Integrating Engineering Education, Native Americans, and Industry	598
The Industrial Research Institute's Visiting Industrial Scientist/Engineer Program	604

Session 2202
General Topics in Aerospace Education

An Introduction to the Managerial and Business Aspects of Aerospace Engineering	607
Capstone Design Courses: More Computer Usage or Less?	611
Integrating Computer-Use into Courses Based on Classical Methods: Case Study—Aerodynamics	615
Low Speed Aerodynamic Predictions to Support Flying Student Designs	620

Session 2206
Communication and Team Building in AE Programs

Experiences from Teaching Architectural Design to Architectural Engineering Students	625
Hands On Experience in the Classroom: A Dynamic Exposure to Architectural, Structural, Environmental and Construction Concepts	630

Session 2220
Software Tools

Integrated Use of Computer Software in Electrical Engineering Education	635
Integration of Process Simulation Software in Construction Engineering Graduate Courses ..	640
MacInTruss, A Truss Analysis Program for Engineering Education	645

Session 2226
NSF/ILI Program

Internal Combustion Engine Analysis, Design and Testing Project NSF-ILI Grant	650
Laboratory Developments in Membrane Process Technology	653

Session 2230	
The Advanced Technology Classroom—A Glimpse of the Future?	
The Effectiveness of the Advanced Technology Classroom in Teaching Mechanics of Materials	657
The Effectiveness of the Advanced Technology Classroom on Teaching Production	662
The Use of the Advanced Technology Classroom in Distance Education	666

Session 2233	
Energy Conversion and Conservation Student Projects, Courses and Curricula	
A Graduate Course in Energy Management Applications	671
An Economical Thermofluids Lab	675
The Mechanical Engineering Thermofluids Option at the University of Massachusetts	683

Session 2238	
Computer Graphics in Engineering Education I	
Design and Implementation of an Introductory Graduate Course in Graphics	687
Development of a Graduate Course in Computer-Aided Geometric Design	692
Integrating Geometric Modeling into Computer Aided Structural Engineering Courses	696

Session 2242	
Current Issues in Engineering Management	
Implementation of a Packaging Cell in the Engineering Management Laboratories	700
Incorporating Engineering Management Topics into a Traditional Engineering Undergraduate Program	703
Who is the Engineering Management Doctorate? The National Research Council Doesn't Know	708

Session 2244	
Technology Policy and Technical Systems	
University Development Through Science Park Innovation	714

Session 2246	
Engineering Technology Laboratory Exercises, Projects and Experiments	
A Simple Fluid Mechanics Experiment-Effects of Friction Losses	722
High Flyers: Building Satellites for Education: An Outline of the Weber State University Satellite Program	726
Laboratory Experiments Using Hampden HVAC Training Unit	736
Use of Numerical Simulation in Fluid Mechanics Laboratory	741

Session 2247	
Engineering Technology Laboratory Facilities and Equipment	
A Small Computer System Interface (SCSI) for Experimentation and Instrumentation	745
Cost Effective Utilization of Spectrum Analyzers	748
Development of a Transportable Laboratory-Based Fluid Power Course	752
Equipping Engineering Technology Laboratories Through Student and In-House Projects	756
Printed Circuit Board Development Using Laser Printer Toner as a Transfer Medium	759
Polyphase Induction Motor Speed Control Circuit—A Laboratory Mode 1	762

Session 2248	
Innovations in the Teaching Laboratory	
A Digital Design Laboratory Using CAE Tools and Programmable Gate Arrays	767
An Experiment of Determining the Robot Repeatability with Use of a CAD System	772
An Integrated Lecture and Laboratory Course in Introductory Medical Instrumentation	776
An Interesting Electronic Fabrication Course ...	779
Digital System Design Laboratory	782
Innovations in Undergraduate Courses in Logic Design Through the Use of Programmable Logic Devices	786
Microcomputer Hardware/Software Education in the Electrical Engineering Technology: A Practical Approach	791

Modulation Board for Electronic Communications Laboratory	795
Teaching an Introduction to Digital Signal Processing in Technology	799
Using Expert Systems in a Troubleshooting Course	803

Session 2249

Engineering Technology Curricula Developments: New Courses, Programs or Directions (Poster Session): Electrical/Electronic/Computer

A Microprocessor Education Program that Begins with a 16-Bit Processor.....	807
A New Telecommunications Technology Program at RIT.....	812
Adding Microcircuits Fabrication/Test to RF/Microwave Programs	819
Application Problems for Introductory Electrical Circuits.....	823
Development of a Course in Electronics for Administration of Justice	835
Distance Learning as Used to Provide Instruction in Electric Power Systems	838
Embedded Control Using Multi-tasking	846
Microwave Circuit-Analysis/Amplifier-Design in Engineering Technology	849

Session 2250

Engineering Technology Curricula Developments: New Courses, Programs or Directions: Mechanical/Manufacturing/Industrial

A Poster Session for the Development of an Undergraduate Applied Quality Control Laboratory	852
Design Modifications for the Triplett Model 310 Hand-Held Volt OHM Meter.....	858
Development of a Machining Center-Oriented Programming Course	861

Session 2253

Advising Undeclared Engineering Freshman

Changing Majors at Bucknell.....	865
----------------------------------	-----

Session 2255

Issues in Graduate Education

Graduate Courses in Electromagnetics.....	869
---	-----

Session 2259

Data Acquisition in the Instrumentation Lab

Collaborative Data Acquisition	871
Developing Techniques for Acquiring Good Data	875

Session 2263

CAM—From Machine to Systems Integration and Control

BCL: An Emerging Issue in the Teaching of Computer-Assisted Numerical Control Programming.....	879
Development of a Cost-Effective Task Management C Program for the Lathe and Robot in a Flexible Manufacturing System	882

Session 2266

TIME I—Trends in Mechanical Engineering I

An Integration of Social Ethics into the Mechanical Engineering Curriculum—A Rights Based Approach	886
Mechanical Engineers in the Preventive Medicine Clinic: Opportunities for Learning and Teaching.....	892
Safety, Ethics and Legal Aspects of Engineering: A Collaborative Learning Approach	896
Safety, Ethics, Standards, Products Liability and Oral/Written Communication in Mechanical Systems Design at the University of Iowa	899
The Influence of the Perry Model in Teaching Engineering	902

Session 2270

A Pre-Freshman Engineering Program for Minority Students

The RIT Pre-Freshman Engineering Program...	906
---	-----

Session 2275

Tenure and Promotion

Tenure Denied: Assessing Your Options as the Axe Descends	912
The Milestones of the Tedious Tenure Process ..	916

Session 2287
**Senior Engineering Design Projects—A Joint Industry
University Program**

Senior Engineering Design Projects in Partnership with Industry	919
--	-----

Session 2299
**Can We Incorporate a Quality Philosophy into
Engineering Technology**

Engineering Technology—Let's Talk to the Customer	923
The Continuous Improvement Process Applied to an Engineering Technology Department...	926
The Quality of Initiative for Education	929

Session 2438
Computer Graphics in Engineering Education II

Interactive Computer Graphics Software for Teaching CADD	931
Linking Geometric Models with Analysis of System Behavior	936
Solids Modeling in Freshman Engineering Graphics Using Silverscreen	939

Session 2468
Considerations in Mechanics Education

Background for Judging Innovations in the Teaching of Mechanics	944
Tensor Cubes and Their Application to the Derivation of the Constitutive Equations of Fluid Mechanics and Isotropic Elasticity	951

Session 2509
**Graduate Program Emphasis Areas: What's Hot and
What's Not**

Some Aspects of Graduate Education in Orthopedic Biomechanics	959
--	-----

Session 2513
Computer Enhancement of Engineering Education I

Computer Applications in Chemical Engineering: The Introductory Course	962
Computer Enhanced Applications of Engineering Economy	965

Frequency Response Calculations with a Spreadsheet	974
Purdue-Industry ChE Laboratory Modules	981

Session 2520
Computers in Education Poster Session

Digital Signal Processing with MathCAD	1005
Educational Artificial Neural Networks: An Integration of Hypertext and Simulation Software	1009
Engineering Systems Evaluation Using Classical and Bond Graphic Methods, and Computer Simulations	1014
Interactive Approach to Numerical Experiments on Personal Computers: Case Study for Engineering Students	1021
Teaching Data Communications Using Amateur Packet Radio	1027
A Computerized Laboratory for EET Students ..	985
An Interactive Package for Design and Simulation of Gears	988
CAD/CAM at RMC—Six Years of Progress	992
Creating a CIM Environment	997

Session 2522
Issues in Continuing Professional Development

Continuing Professional Development in Coastal Engineering	1032
---	------

Session 2533
**Recent Technological Developments and Their Impact
on Energy Conversion and Conservation Education**

A Monte Carlo Simulation of Cogeneration System Operating Policies	1035
A Simulation Model Development for Transient Performance of Furnaces	1043
Interacting with Turbine Velocity Diagrams Using a PC Engineering Workstation	1047
Performance of Furnace Using a Microcomputer	1052
The Impact of Computer Software on HVAC Course Development	1056

Session 2546	
Innovations in Teaching Engineering Technology	
A Method to Teach an Undergraduate Course on Electric Machinery with Introduction to Power Systems	1060
Control System Simulation—An Instructional Aid to Teaching Control in the Classroom	1065

Session 2547	
Industry-Academic Interface for World Class Manufacturing	
The Ohio Resource Exchange	1070

Session 2548	
Graduate Programs in Engineering Technology: Why and How	
Development of the Master of Technology Degree at Arizona State University.....	1073
Factors and Considerations in Evolving a Technology Graduate Education Program	1076
Master of Science in Engineering Technology—The Program's Development at Southern Tech	1079
Strategies for Starting a Master's Degree in Engineering Technology	1084

Session 2555	
The Graduate Student Recruitment Process	
The Graduate Student Recruitment Process.....	1089

Session 2560	
Continuing Education Around the World	
On At-Post Training for Directors of Institutes of the China Aero-Space Industry.....	1091
On the Features of the Continuing Engineering Education in the Chinese Space System.....	1095
Without Continuing Education There Will be no Development of a Country and its Causes .	1098

Session 2561	
Aesthetics and Technology	
Art & Engineering.....	1101

Session 2563	
CIM Laboratories	
A Laboratory for CIM Instruction	1106
A Structured Plan for Implementing a CIM Laboratory	1110
Advanced Manufacturing at New Jersey Institute of Technology	1114
Integration of Equipment for a Flexible Manufacturing Laboratory	1117

Session 2564	
Computer Usage in Materials Education	
Computer Interactives in the Engineering Curriculum.....	1122
Spreadsheet Versus C Programming Solutions to Materials Problems	1126

Session 2566	
TIME II—Trends in Mechanical Engineering—II	
A New Laboratory for Instruction in Modern Process Control Instrumentation	1130
Industrial Integration of an Experiment into the Mechanical Engineering Laboratory.....	1134
Modification and Evaluation of Sequential Quadratic Programming Method for Engineering Design Optimization	1138
PC Based Data Acquisition and Analysis of a Diesel Engine	1142
Quantitative Imaging in BSME Curricula	1147

Session 2577	
Use of the Computer in the Nuclear Engineering Classroom	
Integrating Computer Literacy into the Nuclear Engineering Curriculum—The Challenges and Rewards	1150
Integration of Analysis Courses in the Nuclear Engineering Curriculum	1153

Session 2587	
The Future Engineering Students—Recruitment and Retention	
A Program to Increase Minority Enrollment in Engineering Schools	1156

Session 2613
The Role of Spreadsheets and Spreadsheets in
Chemical Engineering Design

Professional Software in Process Design Instruction: From Why to How and Beyond...	1161
Rapid Design Evaluation Using Computer Aided Modeling	1166
Use of a Process Simulation Computer Program in an Industry Project Capstone Design Course	1176

Session 2622
Delivery of Undergraduate Engineering Courses via
Television: Issues & Applications

A Non-Traditional Program for Educating Undergraduate Engineers: An Untapped Source	1187
Delivering Undergraduate Courses Via Television: A Survey of Current Policies & Practices	1190

Session 2625
Innovations in Teaching Design Courses

A Computer Graphics Course with an Introduction to the GKS	1194
Building "Real" and Virtual Design-Prototypes..	1199
Concurrent Engineering and Multidisciplinary Engineering Education	1204
Teaching Engineering Design at the USAF Academy: An Innovative Capstone Course for all Undergraduates.....	1218
The Ultimate Design Problem: Teaching Design	1223

Session 2630
Innovation in Engineering Education—Case Studies

Knowledge-Based Expert System Applications and Their Potential as a Teaching Tool	1226
Effective Teaching: Portable and Semi-Portable Instructional Technologies for the Classroom..	1230
Research Initiation from a Junior Faculty Member's View.....	1235
"Technifying" the ET Mathematics Curriculum .	1239
Text and Graphics Integration Using Autocad and Wordperfect	1245

Two Methods of Incorporating Brief Writing Assignments into Technical Courses	1249
--	------

Session 2632
New Teaching Approaches to Meet the Educational
Challenge

An Approach to Electrical Engineering Curriculums	1253
Meeting the Challenges of Electrical Engineering with Computer Algebra Systems	1258
Requirements for a General Purpose Engineering Programming Language.....	1262
Teaching Engineering as the Science of Solving Word Problems.....	1267

Session 2633
Involving Students in Major Projects

Cogeneration-The Wentworth Experience	1272
Reducing Energy Consumption at California State University, Northridge: A Senior Student Capstone Engineering Design Experience.....	1278

Session 2646
Industry Acceptance of Bachelor of Engineering
Technology

Acceptance of BS Engineering Technology Graduates in the Pacific Northwest	1281
Industrial Acceptance of BSET Graduates From NJIT	1286
Industry Acceptance of EET Bachelors Degree Graduates	1294

Session 2647
CAD Implementation and Applications

Converting from Drafting to CAD.....	1300
--------------------------------------	------

Session 2657
Developments in Systems Integration

Developments in Systems Integration (Moderator's Comments)	1306
Manufacturing Systems Integration Via Kanbans	1307

Session 2659
Personal Computers in the Instrumentation Lab

Computer Aided Experimentation Laboratory: A New Approach for Teaching Design.....	1311
Development of a PC Based Laboratory Data Collection and Analysis System.....	1316
Experiments in Data Acquisition and Systems Control Using a Personal Computer	1320
The Use of PCs in Development of Data Acquisition Instrument Built with Embedded Microprocessors	1327

Session 2660
Curricula and Teaching Methodology

Introducing Global Issues into Engineering and Technology Curricula	1331
Teaching Effectiveness and Its Evaluation	1334
Third World Development as an Issue in Engineering Education	1344

Session 2661
Teaching the History of Technology: New Approaches

Origins of Engineering: A Study Abroad Course	1349
Synthesis: Civilization and Civil Works.....	1352

Session 2663
Graduate Programs in Manufacturing

A Graduate-Level Manufacturing Systems Course	1356
--	------

Session 2666
TIME III—Trends in Mechanical Engineering—III

Ergonomics and Occupational Biomechanics for Engineers: The Need for an Understanding of Human Functional Anatomy	1367
Evaluation of Commercial Robotics Equipment ..	1373
Flow Visualization Apparatus to Study Flow Fields Around Streamlined and Bluff Bodies ..	1378
Integrating Design Principles into Manufacturing Process Laboratory Experiments.....	1382
Modernization of an Engineering and Computer Graphics Laboratory at Loyola Marymount University	1385

Surface Tension Experiments for the Fluid Mechanics Laboratory	1390
---	------

Session 2675
Innovation in Engineering Education—Case Studies

Computer-Aided Testing in Electrical Engineering Technology	1397
--	------

Session 2677
**Use of the Computer in the Nuclear Engineering
Laboratory**

Ownership of Professional Software.....	1402
---	------

Session 2678
Ocean Engineering in the Pacific Rim

Impact of Industrial Base Shift on Engineering Student Employment in Japan.....	1404
Professional Engineering Programs at the Australian Maritime College.....	1408
The Second International Submarine Races	1413

Session 3209
Clinical Issues in Biomedical Engineering Education

A Laboratory Experience for Undergraduate Clinical Engineering Programs	1423
A Regional Clinical Engineering Internship Program.....	1425
The Give and Take of an Internship in Clinical Engineering.....	1428
What You Need for a Successful Internship	1429

Session 3213
Computer Enhancement of Engineering Education II

A Comprehensive Computer Program for Process Control.....	1431
DIST: A Computer Supplement Used in the Teaching of a Graduate Distillation Course ...	1449
Computer Tools for Chemical Engineering Courses at Rice University	1459
Educational Applications of a Free-Radical Polymerization Simulator	1464
Scientific Visualization: A New Way to Teach Old Subjects.....	1469

Session 3215 Computer Usage in the Undergraduate Civil Engineering Classroom	
Advancing Civil Engineering Education Should be Computer Oriented.....	1482
The Electronic Classroom	1485

Session 3220 Simulation Software I	
A Hardware Simulator for the HC11 Microprocessor	1488
A Linear Phased Array Antenna Simulator in Pascal	1492
Assembler and Machine Language Simulation Programs—Version 1.0.....	1495
Computer Simulation of a Laboratory Oscilloscope	1500
Logic Simulation: A CAE Tool for Digital Fundamentals	1503

Session 3225 Engineering Design Education in Electrical Engineering	
A Curriculum Approach to Teaching Engineering Design.....	1509
A Project-Oriented Class in Microcomputer System Design.....	1514
Current ABET Accreditation Issues Involving Design	1519
Electronic Engineering Design Education—A UK Perspective.....	1524
Senior Design in Electrical Engineering at University of Minnesota.....	1535

Session 3226 Using Computers in the Laboratory (Part 2)	
An Undergraduate Sound Measurements Laboratory	1538
Application of DAS-16F Based Digital Scope in the Experiment of Motor Control.....	1543
Computer Data Acquisition and Process Control for Undergraduate Heat Exchanger Experiments.....	1546

Data Acquisition in the Unit Operations Laboratory: An Experiment in Thermodynamics	1552
Introduction of Hot-Film Anemometry into Laboratory Courses	1558
Introduction to Wheatstone Bridge and Strain Measurements with Automated Data Acquisition	156

Session 3230 A Potpourri of Educational Topics	
A Tutorial Program Using Undergraduate Teaching Assistants	156
Full Implementation of a First-Year Course in Creativity and Problem Solving	157
I'm Not Even Sure I Want to be an Engineer ...	157

Session 3232 Modern Information Technology in Engineering	
After Requiring PC's—What's Next?	158
Performance-Based Instruction in Electrical Engineering	158
The Challenge of Sophisticated Engineering Software: Modern Information Technology for Teaching Chemical Engineering Concepts to Electrical Engineer	159

Session 3238 Historical Perspectives & Research on Graphics in Technology	
Early Influences of the U.S. Military Academy on Engineering, Technology and Engineering Graphics Education in the United States	160

Session 3246 Mathematics Utilization in Engineering Technology	
A Deconvoluted Approach to Understanding Convolution, Correlation and Deconvolution..	160
Advanced Technical Mathematics for Engineering Technology	161
An Introduction to the Reference Node r Model	161
Improvement of College Algebra Using "Total Quality Management"	162
Spreadsheet Applications in Teaching Finite Element Analysis	162
