Introduction

In 1965 a group of British Textile Librarians took stock of the state of the Industry's information services and the results of their deliberations were published in *The Textile Institute and Industry* in June, 1966.

As a first step to implementing some of the proposals made in that report, they chose to revise 'A Guide to Sources of Textile Information in Great Britain', published originally by Aslib in 1949, although the revised version, published jointly by the Textile Institute and Aslib in 1970, bore little resemblance to the original.

This second edition, while following the basic layout of the first, has been extensively revised, and the first section in particular has been considerably enlarged to include such details as type of organization, activities, and services.

Although it is designed primarily for the aid of those working in the British textile industry, it will, no doubt, also be of use in other countries, and to strangers to the textile industry. The aim has been to provide as much information as possible, but the publication is a guide only and does not claim to be exhaustive. As with all works of this type, there are bound to be some omissions, and changes will have already taken place by the time of publication. Suggestions and items for inclusion in a future edition would be appreciated by the Textile Institute.

The necessary revision for the compilation of this second edition was undertaken by the following:

J.H. Black, BSc, FTI (Shirley Institute)
M.J. Bott, BSc (Courtaulds Ltd)
J. Crampton, BSc, ALA (Manchester Public Libraries)
Ms C.A. Farnfield, BSc, MSc, AIIInfSc
Mrs A.C. Harrison, ALA
Miss I Kaye, BA, FLA (ICI Fibres)
J.A. Smirfitt, MSc, ATI (Hatra)
Miss H. Thornton (Platt International Ltd)
Miss M.M. Toalster, AIIInfSc (ICI Ltd (Organics Division))

The work of the members of the former Aslib Textile Group who contributed to the first edition is also gratefully acknowledged.
