

CDP/CCP/ CLEP DATA PROCESSING EXAMINATIONS

Certificate in Data Processing (CDP)

Certificate in Computer Programming (CCP)

Computers and Data Processing
Subject Exam (CLEP)

A basic review manual in computer data processing, this reference guide includes study questions covering computer hardware, software, management and other EDP topics.

Useful to the newly graduated student *and* the experienced EDP technician, this book will help you find your weaknesses and do something about them *before* the test.

PREFACE

If you have Electronic Data Processing (EDP) experience and the training, you should sit for the next Certificate in Data Processing (CDP) Examination. This test will help you in getting ahead and in obtaining a better EDP job. The CDP certificate adds to job qualifications--something beyond the college degree. This certificate demonstrates computing experience and/or academic work, and character qualification as well as examination success. The CDP certificate provides a new recognition of data processing knowledge and training.

Individuals taking the February CDP test need not take all five sections; but once a section is passed, all remaining sections must be completed during the next three testing years. The CDP Examination is concerned with the following sections, each containing 60 questions:

- Section 1: Data Processing Equipment
- Section 2: Computer Programming and Software
- Section 3: Principles of Management
- Section 4: Quantitative Methods
- Section 5: Systems Analysis and Design

The February CDP Examination changed little from the previous tests. It is known that there were additional accounting and audit questions as well as ethical-legal type questions on the examination. There was less emphasis on the history of data processing (at least one question) and unit record equipment use (fewer questions about interpreters, sorters, calculators, collators, and similar machines). Do not expect any questions exactly from the ICCP Study Guide as was the case in recent Examinations. All questions will be a four alternative choice. The CDP Examination will be given in May 1979, and the information should be available in June, 1978 from the Institute for Certification of Computer Professionals at 304 East 45th Street, New York, New York, 10017, telephone A/C 212-888-3208.

There is increased interest at ICCP to promote a separate certificate examination for the senior-level computer programmer (Computerworld, March 28, 1977, p. 12). The examination for the Certificate in Computer Programming (CCP) will be given in October, 1978 for the second time; three separate examinations (250 questions) will be offered: Systems Programming, Business Programming, and Scientific Programming. Many of the areas to be tested are similar to sections of CDP Examinations, i.e., "data and file organization, principles and techniques of programming, programming languages, interaction with software and hardware as well as people problems in business, scientific and systems programming applications."

The bulletin information for the February, 1978 CDP Examination starting on page 69 is included only to give an idea of what to expect concerning deadlines, fees, and other related information about the test. The CDP Examination fees may be subject to change.

A professional engaged in computer operations, programming, system design, or first-level management must:

1. Be precise and logical in thought and in oral and written communication.
2. Be creative and eager to learn new techniques--no matter how much he already knows.
3. Dislike repetitious activity for himself and others.
4. Be aware of the major historical and current trends in the data processing field.
5. Work effectively with colleagues without jealousy or sensitivity.
6. Exercise sound judgment, consistent with his age and experience, in the true interest of his employer.

It is important to realize that a professional environment supports the professional staff by maximizing the effect of their special skills and abilities and by minimizing redundant or duplicate activity. Prerequisite to a professional environment is a firm management commitment to disciplined, orderly planning and activity. If professionals are to comply with project control procedures, documentation requirements, and technical standards, the organization cannot be constantly changing the rules and shifting priorities in response to every little problem. Managers and data processing professionals must share a sincere belief that these disciplines have practical benefits. In some organizations, management and the professional staff have come to respect each other and to trust each other to perform consistently within the disciplined structure.

ARCO Editorial Board

This book was written as an introduction to the principles of electronic data processing and provides a comprehensive review document of all major subject areas in the field today. This one volume reference guide, includes a broad variety of multiple-choice study questions in virtually any aspect of computer hardware, software, management and other EDP topics. As a convenient EDP manual, it should be of considerable value to managers who face computer problems and work with data processing personnel as well as the undergraduate EDP technician who will be able to use this book of data processing principles as his guide to professional development in preparing for advanced positions in the computer world.

James W. Morrison

CDP EXAMINATION INFORMATION

For additional information, applications, or copies of this Certificate in Data Processing Examination Study Guide, contact:

Institute for Certification of Computer Professionals
304 East 45th Street
New York, New York 10017
 (212) 754-3208 (until 8/29/77)
 (212) 888-3208 (after 8/29/77)

or any of the member groups listed in this booklet.

The CDP Examination is administered under the auspices of the Institute for Certification of Computer Professionals by the Professional Examinations Division of The Psychological Corporation.

APPLICATION PROCEDURE

In order to be scheduled for the Certificate in Data Processing Examination (CDP), the enclosed Application must be completed and returned, together with the appropriate fee (see page 11), in the envelope provided by the deadline on page 3. An incomplete or incorrectly filled out Application will be returned to the candidate.

Use only a number 2 pencil in completing the Application. Since the Application will be optically scanned, do NOT use a ball-point pen, colored pencil, or any other type of writing instrument. Read these instructions completely before attempting to complete the Application.

1. Remove the Application from the envelope in the center of this booklet and turn the Application so that the word "PAGE 1" appears in the upper left corner. Print your last name, skip a space, then first name, starting in the first box to the right of the arrow. After printing your name, make a single HEAVY line within the brackets around each letter in the column directly below each letter of your name. Be sure to cover the letter completely.
2. In the row of empty boxes under "NUMBER AND STREET" and "CITY, STATE, and ZIP CODE" print your mailing address and blacken in the corresponding letters or numbers in the columns below each letter or number of your mailing address. Abbreviate wherever possible, using the appropriate address and state or province abbreviations from the following lists:

Addresses

TENNESSEE	TN		
TEXAS	TX	FOREIGN	FR

Canadian candidates should indicate their zip code in the space provided on Page 2. Candidates with foreign mailing addresses should put the name of their country in the space provided for Canadian zip code on Page 2.

3. If you have previously filed an Application under another name or address, print that name and/or address in the space indicated directly below the name grid.
4. *DANTES (Defense Activity for Non-Traditional Education Support) candidates only:* Indicate your branch of military service in the designated section, and enter the testing center name. In the lower right corner of Page 2, indicate and grid your DANTES testing center number.
5. In the area labeled "FEES", blacken in the boxes following Application Fee (if you are applying for the first time), Testing Fee, and each section you plan to take. To the right, indicate the appropriate amounts to be paid, add them, and record and grid the total amount due in the section labeled "TOTAL AMOUNT ENCLOSED".
6. In the space entitled, "Have you ever previously filed an application for the CDP Examination?" indicate no or yes. If yes, indicate the month and year.
7. Turn to Page 2 of the Application.
8. Choose the most convenient testing center from the list on page 9 and indicate the testing center number, city, and state in the space provided under "GENERAL INFORMATION". Blacken in the corresponding numbers in the columns under "TESTING CENTER NUMBER".
9. In the section under "Which of the following options do you choose with regard to ICCP's use of your name and address?" indicate your choice by blackening in the space next to the appropriate option.
10. Enter and grid the last two numbers of your "YEAR OF BIRTH".
11. To the right, indicate any professional affiliations you have by blackening in the space under the initials of the appropriate organization. If you have no professional affiliations, blacken in the space under NONE.
12. Under "HIGHEST EDUCATIONAL LEVEL" blacken in the appropriate box to the right of the highest educational level you have attained to date. Do NOT blacken more than one box.
13. If you have a college degree, indicate your major in the section under "DEGREE MAJOR".
14. Enter the appropriate "COLLEGE ATTENDANCE" information in the center of the page and fill in the appropriate boxes immediately below, relating to substitution of academic credits for work experience.

15. In the upper right under "EMPLOYMENT INFORMATION", print the information requested concerning your present and most recent employment in data processing.
16. In the section labeled "PRESENT EMPLOYMENT", indicate month and last two digits of year started, total number of years and months employed at your present organization, and the codes for the type of organization in which you are presently employed and your position from the following lists:

Type of Organization	Position
01 Insurance	11 President/Owner/Partner or General Manager
02 EDP Services	12 Vice President (Assistant Vice President)
03 Education	13 Treasurer/Controller/Financial Officer
04 Government	14 Research
05 Public Utilities	21 Director/Manager Operations, Planning, Administrative Services
06 Mining/Construction	22 Director/Manager/Supervisor Data Processing
07 Transportation	23 Systems Manager
08 Consulting/Services	24 Manager/Supervisor of Programming
09 Financial	25 Education Administration
10 Retail/Marketing	26 Educator/Teacher
11 Distribution	27 Consultant
12 Research/Engineering	28 Applications Engineer
13 Other Non-Manufacturing	29 Manufacturer's Sales Representative
50 Equipment (including Computers)	31 Systems Analyst
51 Instruments/Electrical	32 Methods Analyst
52 Chemicals/Allied Products	33 Operations Research
53 Printing/Publishing	34 Accounting
54 Food/Tobacco	35 Programming (Business Applications)
55 Primary/Fabricated Metal	36 Programming (Scientific Applications)
56 Transportation Equipment	37 Programming (Software Systems)
57 Petroleum/Rubber	41 Engineering
58 Paper/Paper Products	42 Marketing
59 Textiles/Apparel	43 EAM Operating
60 Other Manufacturing	44 EDP Operating
	99 Other

17. Under "PREVIOUS EMPLOYMENT" indicate and grid the number of years and months in each of your three most recent positions indicated above.
18. Date and sign the Application. NOTE: If you are applying for the first time, a CDP holder or your supervisor must complete the section below your signature. *This is required of all first-time candidates.*
19. Mail the completed Application together with the required fee (see page 11) in the envelope provided to:

Institute for Certification of Computer Professionals
Post Office Box 2497
Grand Central Station
New York, N.Y. 10017

(Note: Do NOT use Special Delivery, Certified, or Registered mail for return of Applications.)

Admission Cards showing the exact place of the examination will be sent approximately three weeks before the scheduled testing date. (See page 10 under "Admission to Testing".)

DANTES candidates only: Military candidates who are connected with the Defense Activity for Non-Traditional Education Support (DANTES) program should apply to take the CDP Examination through the regular channels within their respective branch of service.

CDP ELIGIBILITY REQUIREMENTS

Although any interested individual may take the examination, in order to receive the Certificate in Data Processing of the Institute for Certification of Computer Professionals, a candidate must complete the following requirements:

1. Experience:

Have at least 60 months of full-time (or part-time equivalent) direct experience in computer-based information systems.

The 60 months need not be consecutive or in a single position. Acceptable forms of experience include that in data processing systems, programming, management, and teaching computer-based information systems. Systems and programming experience gained while employed by data processing equipment manufacturers, service centers, management consulting firms, or educational institutions may also be applied toward this requirement. Clerical, keypunch, direct sales, or experience gained in connection with formal classwork will NOT be considered acceptable.

2. Academic Alternative:

Candidates having less than five years work experience may substitute college-level academic work for up to two years of experience on the following basis *provided official transcripts of academic work are submitted to ICCP before the examination date:*

- a. **24 months** = Bachelor's or graduate degree in data processing or computer sciences.
- b. **18 months** = Bachelor's or graduate degree in related area including accounting, business, engineering, mathematics, sciences, and statistics.
- c. **12 months** = Bachelor's or graduate degree in nonrelated area such as English, foreign languages, history, liberal arts, etc.

3. Professional Qualifications:

Each candidate will be required to obtain the signature of a responsible person who can verify both the candidate's work experience and professional qualifications through personal knowledge or access to the necessary information. A CDP holder is to make this verification whenever possible. The candidate's immediate supervisor may be accepted as an alternative when a CDP holder is not in a position to provide the required verification.

4. Examination:

Pass all five sections of the CDP Examination. All five sections of the CDP Examination must be passed within four consecutive testing sessions. Once a section is passed, all remaining sections must be completed during the next three testing sessions. Otherwise credit will be lost for the passed section and the candidate will be required to take it again.

5. ICCP Codes:

Subscribe to the Codes of Ethics, Conduct, and Good Practice. Holders of the Certificate in Data Processing are entitled to use the designation "CDP" after their names. The Council endorses the use of the term "CDP" as meaning that the individual has achieved the credential "Certificate in Data Processing", having met all of the requirements pertaining to it.

COLLEGE TRANSCRIPTS

Candidates electing to substitute academic work for up to two years' work experience (see page 7) must arrange for official transcripts supporting their degree to be sent directly to ICCP (see page 2 for address) by the schools.

Note: Any transcript accompanying the Application or any transcript that does not bear the original signature of the school registrar and/or the original seal of the institution will not be considered official.

Candidates who received schooling in countries other than the United States and Canada may submit alternative proof of courses taken, in the form of a letter from a senior administrative official at each school attended or an evaluation of academic experience by the United States Department of State.

Transcripts must be received by ICCP before the examination date.

Candidates meeting the five-year work experience requirement should NOT submit transcripts.

TESTING CENTER INFORMATION

The following cities will serve as testing centers for the CDP Examination. Indicate the code number, city, and state or province of your choice of center on the Application in the space provided.

Established Testing Centers

ALABAMA 501 Birmingham 503 Huntsville 504 Mobile 303 Montgomery	LOUISIANA 577 New Orleans 815 Shreveport	OREGON 666 Portland

Sunday and Special Testing Centers

Special Sunday centers will be established on May 6, 1979, for those candidates submitting satisfactory evidence that their religious convictions prevent them from taking an examination on Saturday. Upon ICCP approval, additional centers may also be arranged for the handicapped or those living excessive distances from an established center.

Time of Examination

Candidates taking all five sections of the examination will be allowed 250 minutes to complete all sections of the examination. Candidates taking fewer than five sections will be allowed the following amount of time:

- 1 section = 50 minutes
- 2 sections = 100 minutes
- 3 sections = 150 minutes
- 4 sections = 200 minutes

A short rest break will be included during the testing for those taking more than two sections.

Admission to Testing

Each candidate must present an Admission Card in order to be admitted to the examination. Candidates scheduled for fewer than five sections will be required to present an Admission Card for each section to be taken. In case Admission Cards are lost, write or call ICCP (see page 2 for address or telephone number) for authorization to take the test.

Testing Center Regulations

The following regulations will be observed at all testing centers in order to insure uniform testing procedure:

1. Candidates should bring several sharpened Number 2 pencils with them to the testing center.
2. Calculators or slide rules may be taken into the examination room, but no other reference materials of any sort are permitted.
3. No test materials, documents, or memoranda of any sort are to be taken from the examination room.
4. Anyone giving or receiving assistance of any kind will have his test materials taken from him and will be asked to leave the room. Any irregularities connected with the administration of the CDP Examination will be reported to ICCP.
5. The examination will be held only on the day and at the time scheduled.
6. Visitors are not permitted in the examination room.
7. Candidates should use their complete name (e.g. John Thomas Jones, Jr.) on their Application, answer sheets, and any correspondence concerning the CDP Examination.

FEES

General

The entire amount due in United States or equivalent funds must accompany the completed Application. Make check or money order payable to CDP Examination. Do NOT send cash.

Application Fee—\$25.00

A nonrefundable fee of \$25.00 is required of all candidates who have not previously registered for the CDP Examination or who registered prior to the 1976 Examination. The fee will be waived for those who registered to take the 1976, or later, examination.

Testing Fee—\$10.00

A nonrefundable fee of \$10.00 is required for each candidate taking one or more sections of the CDP Examination.

Section Fees—\$12.00 per section

Candidates may choose to take sections of the CDP Examination in any combination from the minimum of one to the maximum of all five sections. A fee of \$12.00 is required for each section specified to be taken, as follows:

One section specified	\$12.00
Two sections specified	\$24.00
Three sections specified	\$36.00
Four sections specified	\$48.00
Five sections specified	\$60.00

Refunds

Candidates who are unable to take the examination will receive a refund of their Section Fees only, provided a written request for the refund is received within 30 days following the scheduled testing date.

All correspondence and requests for information concerning the ICCP Certificate in Computer Programming Examination should be directed to:

Institute for Certification of Computer Professionals
304 East 45th Street
New York, New York 10017
(212) 888-3208

CCP EXAMINATION INFORMATION

The Certificate in Computer Programming (CCP) Examination program is administered by The Psychological Corporation under the auspices of the Certification Council of the Institute for Certification of Computer Professionals (ICCP). Any qualified person may take the CCP Examinations, which are intended to aid in the establishment of recognized professional standards within the data processing industry. There are three separate examinations oriented toward business, scientific, and systems programming. Candidates *must* choose one of these three examinations when filing their Applications. The examinations are given once each year at established testing centers, usually located at colleges and universities. In order to qualify for the Certificate in Computer Programming, candidates must satisfy the eligibility requirements in effect at the time of their initial application, including satisfactory performance on one of the CCP Examinations.

DEADLINES FOR THE 1978 CCP EXAMINATION

Examination Date:	December 9, 1978
Deadline for Requesting Additional Centers:	October 2, 1978
Deadline for Receiving Applications:	October 15, 1978

APPLICATION PROCEDURE

In order to be scheduled for the December 9, 1978, Certificate in Computer Programming Examination (CCP) an Application must be completed and returned together with the appropriate fee (see page 11) by the deadline indicated on page 3. An application without the correct fee or one that is incomplete or incorrectly filled out will be returned to the candidate.

Use only a number 2 pencil in completing the Application. Since the Application will be optically scanned, do NOT use a ball-point pen, colored lead pencil, or any other type of writing instrument. Read these instructions completely before attempting to complete the Application.

1. Remove the Application from the center of this booklet and turn the Application so that "PAGE 1" appears in the upper left corner. Print your last name, skip a space, and then first name starting in the first box to the right of the arrow. After printing your name, make a single heavy line within the brackets around each letter in the column directly below each letter of your name. Be certain to cover the letter completely.

2. In the row of empty boxes under "NUMBER AND STREET" and "CITY, STATE, and ZIP CODE" print your mailing address and blacken in the corresponding letters or numbers in the columns below each letter or number of your mailing address. Abbreviate where possible, using the appropriate address and state or province abbreviations from the following lists:

Canadian candidates should indicate their zip code in the space provided on Page 2. Candidates with foreign mailing addresses should put the name of their country in the space provided for Canadian zip code on Page 2.

3. In the bottom section indicate the CCP Examination (Business Programming, Scientific Programming, or Systems Programming) for which you are applying and whether you have taken any of the three examinations previously.
4. DANTES (Defense Activity for Non-Traditional Education Support) candidates only: Indicate your branch of military service in the section under the city and state of your mailing address and record and grid your DANTES testing center number in the section below.

5. Turn to Page 2 of the Application. In the upper left corner, indicate any professional affiliations you have by blackening in the space under the initials of the appropriate organization. If you have no professional affiliations, blacken in the space under NONE.
6. Choose the most convenient testing center from the list on page 9 and indicate the testing center number, city, state, and date of Examination in the space provided. Blacken in the corresponding numbers in the column under "TESTING CENTER NUMBER".
7. In the section under "Which of the following options do you choose with regard to ICCP's use of your name and address?", indicate your choice by blackening in the space next to the appropriate option.
8. Enter and grid the last two numbers of your "YEAR OF BIRTH".
9. Enter and grid the total number of years you have worked in computer programming in the section labeled "YEARS OF EXPERIENCE".
10. In the section under "PRESENT EMPLOYMENT" enter and grid the appropriate codes from the following lists for type of organization in which you are presently employed and your current position.

Type of Organization	Position
01 Insurance	12 Officer of Organization
02 EDP Services	13 Military
03 Education	14 Research
04 Government	21 Director/Manager
05 Public Utilities	Operations, Planning,
06 Mining/Construction	Administrative Services
07 Transportation	22 Director/Manager/
08 Consulting/Services	Supervisor Data
09 Financial	Processing
10 Retail/Marketing	23 Systems Manager
11 Distribution	24 Manager/Supervisor of
12 Research/Engineering	Programming
13 Other Non-Manufacturing	25 Education Administration
50 Equipment (including	26 Educator/Teacher
Computers)	27 Consultant
51 Instruments/Electrical	28 Applications Engineer
52 Chemicals/Allied	29 Manufacturer's Sales
Products	Representative
53 Printing/Publishing	31 Systems Analyst
54 Food/Tobacco	33 Operations Research
55 Primary/Fabricated Metal	34 Accounting
56 Transportation Equipment	35 Programming (Business
57 Petroleum/Rubber	Applications)
58 Paper/Paper Products	36 Programming (Scientific
59 Textiles/Apparel	Applications)
60 Other Manufacturing	37 Programming (Software
	Systems)
	38 Programmer Analyst
	41 Engineering
	99 Other

11. Under "HIGHEST EDUCATIONAL LEVEL" blacken in the appropriate box to the right of the highest educational level you have attained to date. Do NOT blacken more than one box.
12. If you have a college degree, indicate your major in the section under "DEGREE MAJOR".
13. Blacken the appropriate box in the section under "Where did you learn most of your computer programming skills?"

14. In the middle of your Application indicate if you hold a Certificate in Data Processing (CDP).
15. Date and sign the Application. NOTE: If you are applying for the first time, a CDP holder or your supervisor must complete the section below your signature. *This is required of all first-time candidates.*
16. Mail completed Application with fee of \$75.00 (see page 11) in the envelope provided by regular first-class mail to:

Institute for Certification of Computer Professionals
Post Office Box 2497
Grand Central Station
New York, New York 10017

(Note: Do NOT use Special Delivery, Certified, or Registered mail for return of Applications.)

An Admission Card showing the exact place of the examination will be sent approximately three weeks before the scheduled testing date. The Admission Card must be presented at the testing center in order to gain admission to the examination. If you have not received your Admission Card by November 27, contact ICCP at (212) 888-3208. BE CERTAIN TO NOTIFY ICCP OF ANY CHANGE IN MAILING ADDRESS.

DANTES candidates only: Military candidates who are connected with the Defense Activity for Non-Traditional Education Support (DANTES) program should apply to take the CCP examination through the regular channels within their respective branch of the service.

CCP ELIGIBILITY REQUIREMENTS

Although any interested individual may take the examination, a candidate must complete the following requirements in order to receive the Certificate in Computer Programming of the Institute for Certification of Computer Professionals:

1. Professional Qualifications:

Each candidate is required to obtain the signature of a responsible person who can verify the candidate's professional qualifications through personal knowledge or through access to the necessary information. A CDP holder is to make this verification whenever possible. The candidate's immediate supervisor may be accepted as an alternative when a CDP holder is not in a position to provide the required verification.

2. Examination:

Only one CCP Examination may be taken during an annual testing session. The entire CCP Examination must be passed in a single testing session in order for the candidate to be awarded the CCP designation.

A candidate may seek additional CCP designations in succeeding years.

3. ICCP Codes:

The candidate must subscribe to the ICCP Codes of Ethics, Conduct and Good Practice.

Having met the above requirements, holders of the Certificate in Computer Programming are entitled to use the designation "CCP" after their names. ICCP endorses the use of the term "CCP" as meaning that the individual has achieved the credential "Certificate in Computer Programming", having met all of the requirements pertaining to this designation.

IMPORTANT: This examination is intended for senior-level programmers. While no specific educational or experience requirements must be met in order to take the examination, a candidate who does not have broad experience will find the examination extremely difficult.

TESTING CENTER INFORMATION

The Certificate in Computer Programming Examinations will be given on Saturday, December 9, 1978, at the following established centers. Each candidate must indicate choice of testing center in the appropriate space on the Application, including center number, city, state, and date of test. An Admission Card with exact address will be mailed to each candidate.

Additional Centers

Special Sunday testing centers will be established on Sunday, December 10, 1978, for those candidates providing satisfactory evidence that their religious convictions prevent them from taking the examination on Saturday. Additional centers may also be ar-

ranged for the handicapped or those living excessive distances from an established center. In either case, a letter requesting special arrangements must be submitted with the Application. Do NOT staple or otherwise attach the letter to the Application.

Change of Testing Center

Requests for changes of testing center location received after November 20 cannot be honored.

Time of Examination

The following schedule (in local time) will be observed at all testing centers:

- 8:15 A.M. All candidates report to testing center
- 8:30 A.M. Examination begins
- 12:45 P.M. Approximate close of testing period

Candidates taking the examination will be allowed up to four hours to complete the examination.

A short rest break will be included during the testing period.

Admission to Testing

Candidates must present their Admission Cards in order to be admitted to the examination. If you have not received your Admission Card by November 27 or if your Admission Card is lost, contact ICCP (see page 2 for address or telephone number) for authorization to take the test. Be certain to notify ICCP of any change in mailing address.

Testing Center Regulations

The following regulations will be observed at all testing centers in order to insure uniform testing procedure:

1. Candidates should bring several sharpened Number 2 pencils with them to the testing center.
2. Calculators or slide rules may be taken into the examination room, but no other reference materials of any sort are permitted.
3. No test materials, documents, or memoranda of any sort are to be taken from the examination room.
4. Anyone giving or receiving assistance of any kind will have his test materials taken from him and will be asked to leave the room. Any irregularities connected with the administration of the CCP Examination will be reported to ICCP.
5. The examination will be held only on the day and at the time scheduled, with the exception of the special Sunday testing arrangements.
6. Visitors are not permitted in the examination room.
7. Candidates should use their complete name (e.g. John Thomas Jones, Jr.) on their Application, answer sheets, and any correspondence concerning the CCP Examination.

FEES

Examination Fee—\$75.00

The entire examination fee of \$75.00 in United States or equivalent funds must accompany the completed Application. Make check or money order payable to CCP Examination. Do NOT send cash. Note: Canadian fees must be made payable in U.S. funds. Applications accompanied by incorrect fees will be returned.

Refunds

Candidates unable to take the CCP Examination will receive a refund of \$40.00 provided a written request for refund is received no later than 30 days following the scheduled testing date. Refund requests will be processed after January 26, 1979. Candidates wishing to take the next CCP Examination will be required to file a new Application and Examination Fee whether or not they have requested a refund.
