## Program Chairs' Message

This volume contains the papers presented at the 1st International Conference on Distributed Computing and Internet Technology (ICDCIT 2004), December 22–24, 2004. The Conference was held in Bhubaneswar, the capital city of Orissa and the city of a thousand temples. It was hosted by the Kalinga Institute of Industrial Technology (KIIT).

We received 211 contributed papers from researchers in 15 countries across the world. With the help of a strong international program committee that comprised 48 members and four track chairs, Vijay Kumar (Distributed Computing), Sanjay Madria (Internet Technology), Indrakshi Ray (System Security) and Abhik Roychoudhury (Software Engineering), we offered an excellent technical program. Each of the submitted papers was reviewed by two reviewers and by at least one program committee member. Every effort was made to include the papers of the highest quality in the technical programme. Less than 23% of the contributed papers were selected for presentation after the review process. As the conference is a focused one, we had to be selective and had to return even some good papers. We are confident that this volume will attest to the technical quality of the conference.

The presentations were grouped under four tracks, namely Distributed Computing, Internet Technology, Software Engineering, and System Security. Distributed Computing track presentations were organized into three different sessions with first and second sessions each having two parallel sittings. The papers in the Distributed track report results on several important problems like leader election, modeling, protocols and performance, distributed transaction processing, and information dissemination. The Internet Technology track was comprised of three sessions with the second session having two parallel sittings. The track included papers about some recent problems on application development using Internet technologies, related protocols, information retrieval, and service delivery in the Internet environment. The Software Engineering track consisted of two sessions with the second session having two parallel sittings. This track contained some interesting papers on formal modeling, generating systems from specifications, requirements engineering, distributed program analysis and program reusability. The System Security track had three sessions; the second and third sessions had two parallel sittings each. The track contained papers on interesting issues in systems security. Several hot topics like intrusion detection and access control were in the second session. Some security issues pertaining to conventional and ad hoc computer networks were also presented in this session. The third session addressed the issues in the design of secured systems. The papers discussed anonymity in mobile commerce, and techniques of steganography and cryptography for achieving secured services. The preconference activities included tutorials and a workshop. The workshop on Data Mining, Security and Other Applications was organized by Prem Uppuluri (University of Missouri-

Kansas City) and Ashok Srivastava (NASA Ames Research Center, USA). The tutorials were on security issues in distributed systems and enterprise resource planning.

We take this opportunity to thank various people and organizations who contributed to make this conference a grand success. Our heartfelt thanks to the track chairs whose full cooperation and technical assessments were crucial to achieve this high level of quality even in the first edition of the conference. The full participation of the program committee members and the reviewers made it possible to complete the peer-review process in time. We are extremely thankful to them. We would like to thank our advisors and general chair for having confidence in us. Our special thanks go to A. Samanta and P.K. Mishra of KIIT for their support and encouragement in organizing this conference. We gratefully acknowledge the financial and logistic support extended by KIIT in hosting this conference. The All India Council of Technical Education (AICTE), Government of India, New Delhi provided a generous grant-in-aid for organizing ICDCIT. We thankfully acknowledge AICTE's support. We are thankful to Springer for its cooperation in publishing the proceedings in such a short time. We are also thankful to our parent departments, Department of Computer Science and Engineering, IIT Kanpur and Department of Computer and Information Sciences, University of Hyderabad, for providing infrastructural support to carry out the editorial work. We thank Krithi Ramamritham and Pradeep Khosla for agreeing to deliver the lectures in the plenary sessions. We also extend our thanks to Susil Jajodia, Bharat Bhargava and Vijay Kumar for agreeing to deliver the track keynote addresses and Satish Chandra and Sharma Chakravorthy for agreeing to deliver the invited talks. All the talks focused on the themes of the conference and were well appreciated and thought provoking.

We would like to thank all the authors and attendees for making this conference a grand success. We sincerely hope that the three-day program of ICDCIT 2004 provided a platform to researchers for further academic interactions and collaborations. We plan to make the ICDCIT conference an annual event with the support of KIIT and the cooperation of Springer. We hope the ICDCIT proceedings in the coming years will report exciting research results in hot topics in computer science and engineering.

December 2004

R.K. Ghosh  
Hrushikesha Mohanty

## General Chair's Message

The convergence of computing, communication and control is setting the research agenda for the coming years. Distributed computing and Internet technology are two important in this issues. The series of international conferences on Distributed Computing and Internet Technology (ICDCIT 2004) was initiated to provide a forum for researchers around the world. It was indeed a great honor and privilege for me to welcome all the participants to ICDCIT 2004, held in the historical cultural city of Bhubaneswar.

A true measure for a conference is the material being presented and also the participation. I was extremely delighted to see a wealth of material represented here that can be broadly categorized into the following tracks: (i) Distributed Computing, (ii) Internet Technology, (iii) Software Engineering, (iv) System Security. In addition to these tracks, various tutorials were dedicated to Web mining, intrusion detection, enterprise resource planning and distributed secured systems. Gauging the impact of the convergence of computing, communications and control on science and on society is very difficult. This conference is a forum that shall attempt not only to comprehend the impact but also reshape it. It was a delight to see the enthusiastic participation of researchers from a large number of countries. The most interesting feature was that the conference was held in a purely academic environment of a typical college in India that naturally attracted a large number of students from Orissa and other parts of India.

I would like to thank the plenary speakers Krithi Ramamritham, IIT, Bombay and Pradeep Khosla, CMU. In addition, I thank all the keynote speakers of various tracks for joining us in making the conference a success.

I would like to thank R.K. Ghosh and H. Mohanty for compiling such an excellent program. I would like to thank all the PC members, especially the track chairs who did excellent work.

It is a pleasure to thank the Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar who took the brunt of the organization of ICDCIT 2004. My special thanks go to A. Samanta, Chancellor, and P.K. Mishra, Pro-chancellor, KIIT (Deemed University) for all the organizational efforts, and also to the innumerable dedicated volunteers who were responsible for the organization of the conference. Finally, I thank Springer for having accepted to bring out the proceedings in their LNCS series.

December 2004

R.K. Shyamasundar

# Conference Organization

## Advisory Committee

### General Chair

R.K. Shyamasunder, TIFR, Mumbai, India

### Advisors

Chris George, UNU/IIST, Macau, China

Gautam Barua, IIT Guwahati, India

Achyuta Samanta, KIIT, Bhubaneswar, India

M. Bhattacharjee, KIIT, Bhubaneswar, India

## Program Committee

### Program Chairs

R.K. Ghosh, IIT, Kanpur, India

Hrushikesha Mohanty, University of Hyderabad, India

### Track Chairs

#### *Distributed Computing:*

Vijay Kumar, University of Missouri-Kansas City, USA

#### *Internet Technology:*

Sanjay K. Madria, University of Missouri-Rolla, USA

#### *Systems Security:*

Indrakshi Ray, Colorado State University, USA

#### *Software Engineering:*

Abhik Roychoudhury, National University of Singapore, Singapore

## Program Committee Members

### Distributed Computing Track

Albert Burger, Heriot-Watt University, UK

Ashok N. Srivastava, NASA Ames Research Center, USA

Bharat Bhargava, Purdue University, USA

Deendayal Dinakarpandian, University of Missouri-Kansas City, USA

Evaggelia Pitoura, University of Ioannina, Greece

Gi-Chul Yang, Mokpo National University, South Korea

Lein Harn, University of Missouri-Kansas City, USA

Margaret H. Dunham, Southern Methodist University, USA

Panos Chrysanthis, University of Pittsburgh, USA

Prem Uppuluri, University of Missouri-Kansas City, USA

Raj Kannan, Louisiana State University, USA

Sharma Chakravarthy, University of Texas at Arlington, USA

Yugyung Lee, University of Missouri-Kansas City, USA

Vijay K. Garg, University of Illinois, Chicago, USA

Vijay Vaishnavi, Georgia State University, USA

### **Internet Technology Track**

Dheeraj Bhardwaj, IIT Delhi, India  
Gajanan Chinchwadkar, Sybase Inc., USA  
Gi-Chul Yang, Mokpo National University, South Korea  
Kajal Claypool, University of Massachusetts, Lowell, USA  
Kalpdrum Passi, Laurentian University, Canada  
Leszek Lilien, Purdue University, USA  
Mukesh Mohania, IBM Research Lab, India  
N.L. Sarda, IIT Mumbai, India  
Neelima Gupta, University of Delhi, India  
Pabitra Mitra, IIT Kanpur, India  
Sourav Bhowmick, NTU, Singapore  
S.K. Gupta, IIT Delhi, India  
Shiyong Lu, Wayne State University, USA  
Takahiro Hara, Osaka University, Japan

### **Software Engineering Track**

Bikram Sengupta, IBM Research Lab, India  
Gopal Gupta, University of Texas, Dallas, USA  
Giorgio Delzanno, University of Genoa, Italy  
Jin Song Dong, National University of Singapore, Singapore  
Kung-Kiu Lau, University of Manchester, UK  
Rushikesh K. Joshi, IIT Mumbai, India  
Shaoying Liu, Hosei University, Japan  
Supratik Mukhopadhyay, NASA IV&V Center, USA  
Zhiming Liu, UNU/IIST, Macau, China

### **System Security Track**

Aditya Bagchi, Indian Statistical Institute, India  
Brajendra Panda, University of Arkansas, USA  
Csilla Farkas, University of South Carolina, USA  
Duminda Wijesekera, George Mason University, USA  
Elena Ferrari, University of Insubria at Como, Italy  
Elisa Bertino, Purdue University, USA  
Indrajit Ray, Colorado State University, USA  
Pierangela Samarati, University of Milan, Italy  
Ravi Mukkamala, Old Dominion University, USA  
Sabrina De Capitani di Vimercati, University of Milan, Italy  
Vijayalakshmi Atluri, Rutgers University, USA

## **Workshop Organizers**

### **Workshop on Data Mining, Security and Other Applications**

#### *Co-chairs*

Ashok N. Srivastava, NASA Ames Research Center, USA  
Prem Uppuluri, University of Missouri-Kansas City, USA

## Organizing Committee

### **Organizing Chair**

P.K. Mishra, KIIT, Bhubaneswar, India

### **Finance Chair**

Dhanada K. Mishra, KIIT, Bhubaneswar, India

### **Scholarship Chair**

Atul Negi, University of Hyderabad, India

M.M. Gore, IIT-Allahabad, India

### **Host Institution**

Kalinga Institute of Industrial Technology, KIIT, Bhubaneswar, Orissa, India

# Table of Contents

## Plenary Talk – I

Taming the Dynamics of Distributed Data

*Krithi Ramamritham* ..... 1

---

## DISTRIBUTED COMPUTING

---

## Keynote Address – I

Data in Your Space

*Vijay Kumar* ..... 2

## Invited Talk – I

Enabling Technologies for Harnessing Information Explosion

*Sharma Chakravarthy* ..... 21

## Algorithms and Modeling

Fair Leader Election by Randomized Voting

*Siddhartha Brahma, Sandeep Macharla, Sudepkumar Prasant Pal,  
Sudhir Kumar Singh* ..... 22

An Efficient Leader Election Algorithm for Mobile Ad Hoc Networks

*Pradeep Parvathipuram, Vijay Kumar, Gi-Chul Yang* ..... 32

Distributed Balanced Tables: A New Approach

*Amiya Tripathy, Tripti Negi, Anil Singh* ..... 42

## Systems, Protocols and Performance

Performance Evaluation of Gigabit Ethernet and SCI in a Linux Cluster

*Rajesh Kalmady, Digamber Sonwane* ..... 50

Performance Evaluation of a Modified-Cyclic-Banyan Based ATM/IP  
Switching Fabric

*V.S.Tripathi, S.Tiwari* ..... 60

A Scalable and Roboust QoS Architecture for WiFi P2P Networks

*Sathish Rajasekhar, Ibrahim Khalil, Zahir Tari* ..... 65

NEC: Node Energy Based Clustering Protocol for Wireless Sensor Networks with Guaranteed Connectivity  
*Shilpa Dhar, Krishnendu Roy, Rajgopal Kannan* ..... 75

Energy Efficient Cache Invalidation in a Disconnected Mobile Environment  
*Narottam Chand, Ramesh Joshi, Manoj Misra* ..... 85

**Transaction and Information Dissemination**

An Efficient Data Dissemination Schemes for Location Dependent Information Services  
*KwangJin Park, Moon Bae Song, Chong-Sun Hwang* ..... 96

A Publish/Subscribe Based Architecture of an Alert Server to Support Prioritized and Persistent Alerts  
*Sharma Chakravarthy, Nishant Vontella* ..... 106

A Nested Transaction Model for LDAP Transactions  
*Debmalya Biswas, K. Vidyasankar* ..... 117

Team Transaction: A New Transaction Model for Mobile Ad Hoc Networks  
*Ankur Gupta, Nitin Gupta, R.K.Ghosh, M.M.Gore* ..... 127

An Efficient Protocol for Checkpoint-Based Failure Recovery in Distributed Systems  
*D.Goswami, S.Sahu* ..... 135

**Plenary Talk – II**

Cybersecurity: Opportunities and Challenges  
*Pradeep Khosla* ..... 145

---

**INTERNET TECHNOLOGY**

---

**Keynote Address – II**

Vulnerabilities and Threats in Distributed Systems  
*Bharat Bhargava, Leszek Lilien* ..... 146

**Query and Retrieval**

A TNATS Approach to Hidden Web Documents  
*Yih-Ling Hedley, Muhammad Younas, Anne James* ..... 158

## Querying XML Documents from a Relational Database in the Presence of DTDs

*Manjeet Rege, Izabell Caraconcea, Shiyong Lu, Farshad Fotouhi* . . . . . 168

## SAQI: Semantics Aware Query Interface

*M.K. MadhuMohan, Sujatha R. Upadhyaya, P. Sreenivasa Kumar* . . . 178

## Protocol and Replica Management

### Hybrid-Chord: A Peer-to-Peer System Based on Chord

*Paola Flocchini, Amiya Nayak, Ming Xie* . . . . . 194

### A Generic and Flexible Model for Replica Consistency Management

*Corina Ferdean, Mesaac Makpangou* . . . . . 204

### An Efficient Distributed Scheme for Source Routing Protocol in Communication Networks

*Vijayalakshmi Hadimani, R.C. Hansdah* . . . . . 210

## Ontology and Services

### The Roles of Ontology and Metadata Registry for Interoperable Databases

*Jeong-Oog Lee, Myeong-Cheol Ko, Woojin Paik, Heung Seok Jeon, Junghwan Kim, Hyun-Kyu Kang, Jinsoo Kim* . . . . . 217

### DHL: Semantically Rich Dynamic and Active Hyperlinks

*Gi-Chul Yang, Sanjay Kumar Madria* . . . . . 227

### User-Class Based Service Acceptance Policy Using Cluster Analysis

*Hea-Sook Park, Yan Ha, Soon-Mi Lee, Young-Whan Park, Doo-Kwon Baik* . . . . . 237

---

## SOFTWARE ENGINEERING

---

### Invited Talk – II

#### Tools and Techniques for Multi-site Software Development

*Satish Chandra* . . . . . 243

## Analysis and Modelling

### Specifying a Mobile Computing Infrastructure and Services

*Satyajit Acharya, Chris George, Hrushikesh Mohanty* . . . . . 244
