Introduction

This dictionary represents a major departure from traditional dictionaries on several fronts: it looks different; it provides essential information in a totally new way; the two sides of the dictionary have very distinct functions. In all, the dictionary approaches the needs of the English-speaking learner of Italian from a very different angle, making it a uniquely accessible and user-friendly introduction to the Italian language.

It looks different

The dictionary page is uncluttered, with a streamlined typeface providing a consistent structure for the information, both in English and in Italian.

Subdivisions are clearly indicated, using bullet points and numbers. The move from one language to another is explicitly indicated with = signs. Points of basic grammar are reinforced using the ! sign, informal Italian usage is marked with the * symbol, and * indicates words to be used with special care.

It provides information in a new way

Every effort has been made to approach the foreign language from the point of view of the beginner who may be unfamiliar with the conventions of the more traditional bilingual dictionary.

Parts of speech and grammatical terms are given in full, not in abbreviated form, with a glossary providing explanations of all the terms used. Basic grammatical issues and specific points of usage are dealt with in short notes at appropriate points in the text.

Sets of words which behave in a similar way are treated in a consistent manner, and the user is encouraged to cross-refer to different parts of the dictionary, for example to verb tables and usage notes dealing with such concepts as jobs, illnesses, and telling the time.

The language used in examples and sense indicators (or signposts to the correct translation) has been carefully screened to ensure maximum clarity. The word list contains all the material a beginner would need and reflects current American and British English and Italian in clear, lively examples.

The two sides have different functions

Each side of the dictionary is shaped by its specific function. The English-Italian side is longer, providing the user with maximum help in expressing the message in the foreign language in the form of detailed coverage of essential grammar, clear signposts to the correct translation for a particular context, and a wide selection of example material.

The English-Italian side is designed to capitalize on what English speakers already know about their language, hence the more streamlined presentation of English-language information. From irregular verb forms to common idiomatic usage, such as might be encountered in the media, the dictionary provides generous coverage of those aspects of Italian which are less easy to decipher for English speakers. Irregular verbs, adjectives, and plurals are all featured in the wordlist, referring the user to the base form where the translations are given.

How to use the dictionary

Every entry in the dictionary tells you whether that particular word is a noun, verb, adjective, or another part of speech. If you need to know what the parts of speech are, look them up in the glossary of grammatical terms.

If there is more than one part of speech within an entry, numbers are used to separate them. Within each part of speech, different senses are given bullet points (•):

bene**1 adverb**

= well

stanno bene = they're well**bene!** = good!**va bene!** = OK!**tutto bene?** = is everything OK?**2 noun, masculine****i beni** = possessions**Italian ► 199****1 adjective**

= italiano/italiana

2 noun• (*the people*)**the Italians** = gli italiani• (*the language*)**Italian** = l'italiano

The English–Italian entries tend to be longer, in order to offer detailed guidance on how to write and speak correctly in Italian, so it is a good idea to scan the whole entry to find the sense which is closest to the one you need.

Each Italian verb entry is marked with a number pointing you to the table of Italian verbs at the back of the dictionary. The number refers to the model verb in the table where you can find the information you need about how to form the tenses.

perdonare *verb* **1**

= to forgive

Cross-references are shown by an arrow ►. These are especially useful for identifying verb forms, which you might not otherwise recognize:

so ► sapere

In examples, different words with which a phrase can be used are put in square brackets. This means that it is possible to substitute another word for the alternatives given in the dictionary.

little¹**1 determiner**

= poco/poca

little [sugar | wine | time] = poco [zucchero | vino | tempo]

Notes giving additional information are designed to help you produce correct Italian in areas where it is all too easy to forget important points of grammar or usage:

uovo *noun, masculine* (plural **uova**)**un uovo** = an egg! Note that **uova** is feminine.**actually** *adverb*! Note that **actually** is not translated by **attualmente**.**did she actually say that?** = ha veramente detto così?**actually, I'm rather tired** = veramente sono piuttosto stanco

Boxed usage notes covering certain themes and sets of related words form a very useful feature of this dictionary. Topics covered include dates, the human body, illnesses, and the time of day. In relevant entries, a number refers you to the page with a note on the particular topic:

January noun ► 155 |
January = gennaio

Dictionary know-how

This section contains a number of short exercises which will help you to use your dictionary more effectively. You will find answers to all of these exercises at the end of the section.

1 Identifying Italian nouns and adjectives

Here is an Italian advertisement for a German restaurant. See if you can find ten different nouns and underline them. Then look for eight different adjectives and underline them. Make a list of each type of word. If you are not sure of some of the words, look them up in the Italian-English half of the dictionary and see if the term 'noun' or 'adjective' is used to describe them.

RISTORANTE TEDESCO

Il più moderno ristorante nel centro della città. Venite ad assaggiare le tradizionali specialità della cucina tedesca e a bere le migliori birre mondiali. Trascorrete una serata straordinaria. Musica tutte le sere.
Ampio parcheggio.

2 Checking the gender of Italian nouns

Here are some English nouns that appear in the English-Italian half of the dictionary. Find out what their Italian equivalents are and make two separate lists, masculine nouns and feminine nouns.

answer	hotel	magazine	salt
calendar	island	oyster	tiger
doorbell	jumper	pencil case	wallpaper
fever	library	raincoat	water-skiing

3 Identifying Italian and English pronouns

Each of the following phrases appears in the Italian-English half of this dictionary in entries where a pronoun is the headword. In each one, underline the pronoun(s) and give the English equivalent(s).

sono io	vado con loro
quello rosso	ne ho tanti
voglio questi qui	ci hanno visto
vieni con me?	divertitevi!
mi ha spiegato come funziona	

4 Recognizing Italian verbs

Underline the verb in each sentence.

I ragazzi vanno a scuola in bicicletta.

Sofia non sa nuotare.

I pompieri arrivarono dopo cinque minuti.

Ogni anno passiamo le vacanze in Italia.

Mia sorella ha avuto in regalo un orologio.

5 Identifying subjects and objects

We have left out the subjects and objects from this Italian message. Choose suitable words from the list below in order to complete it. When you have finished, list the subjects and objects separately.

Luciana ha appena telefonato. Oggi è di suo fratello.

..... ha adesso e vuole preparargli

..... Naturalmente di questo non sa niente e

..... dobbiamo tenere lontano da casa per fargli

Così ho mandato questo a Marco: " Ci troviamo alla gelateria del Corso alle 5 per mangiare insieme a te". Goloso com'è, ha risposto che usciva subito! Poi ho chiamato e quasi..... vengono! Ci sarai anche....., vero?

Ciao,

Gemma

6 Word search

Here is a grid in which are hidden twelve Italian words: 3 masculine nouns, 3 feminine nouns, 2 adjectives, 2 verbs, 1 pronoun, and 1 adverb. They may appear horizontally, vertically or diagonally, and in either direction (backwards or forwards). When you have found them, circle them. If you are not sure of any of them, look them up in the Italian-English section of the dictionary.

f	i	o	p	s	t	b	k	l	a	augurare
t	o	p	z	t	r	f	g	a	t	mio
e	x	g	i	a	l	l	o	g	m	difetto

7 Masculine or feminine?

Many Italian nouns also have a feminine form. This is particularly true of words denoting an occupation – *un commesso*, *una commessa*. Some simply change from -o to -a for the feminine form, but not all do. Use your dictionary to find the feminine form of the following nouns:

un alunno	un dentista	un residente	uno zio
un attore	un invitato	uno scrittore	
un chimico	un passeggero	un traduttore	

8 Find the preposition

Use your dictionary to find the English for the following Italian sentences and underline the English and Italian prepositions.

L'aereo parte da Milano alle 8.

A Paolo non piace il tè.

Scusi, c'è un autobus per andare al Colosseo?

Vorrei un po' di formaggio.

Gli occhiali sono sul tavolo.

9 Choosing the right word

Very often you cannot use a word exactly as it is given in the dictionary. In the case of adjectives, you have to make sure that you select the form which is appropriate to the noun you are using. Use your dictionary and your own knowledge to find the correct form of the adjective to match the nouns in the following sentences.

Questi libri mi sembrano (*interesting*)

Le fragole che abbiamo mangiato erano molto (*sweet*)

Mio padre è, ma mia madre è (*Italian*) (*German*)

Le mie scarpe non sono, sono! (*clean*) (*dirty*)

Anna ha dei occhi e dei capelli. (*beautiful*)

Stasera ti metti i pantaloni o quelli? (*white*) (*grey*)

10 Translating phrasal verbs

Use your dictionary to find the correct translation for the following English sentences containing phrasal verbs.

The button's come off.

He has given up smoking.

She took off her shoes.

To get off the train.

He walked out of the room.

11 Forming the subjunctive

It's important not to be afraid of the subjunctive, because it is so common in Italian. Using the English-Italian side of the dictionary and the verb tables on pages 293-313, translate these sentences into Italian.

I think the plane from Rome has already arrived.

I thought the plane from Rome had already arrived.

I hope you didn't give it to your brother..

I think that the show finishes at 9.00.

I expect you to phone me at least once a week.

12 Which meaning?

Some words have more than one meaning and it is important to check that you have chosen the right one. In this dictionary the different meanings of a word are marked by a bullet point *.

We have given you one meaning of the Italian words below. Use your dictionary to find another one.

muto	• dumb	•
un soggiorno	• a living room	•
allora	• then	•
il capo	• the head	•
emozionato	• excited	•
un motivo	• a reason	•
un casino	• a mess	•
frequentare	• to go to	•
una fuga	• an escape	•
la fotografia	• photography	•

13 Italian reflexive verbs

Use your dictionary to translate the following sentences.

He is called James.

We met in France. (got to know each other)

They got up early.

Go and get dressed.

Please sit down. (to several people)

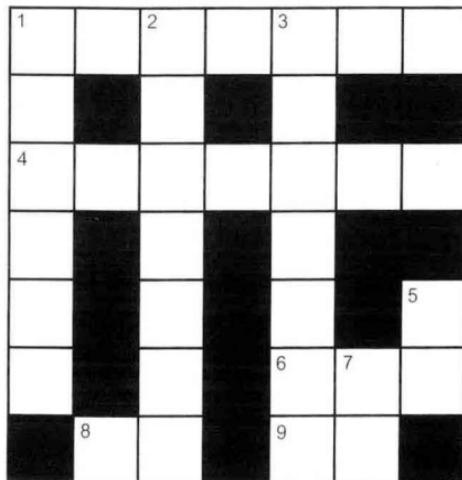

They got married on Saturday.

14 False friends

Some Italian words look the same as, or very similar to English words, but in fact have a different meaning. Use your dictionary to find the meaning of the following Italian words.

agenda	firma
ape	libreria
caldo	mobile
casino	romanzo
fabbrica	rumore
fingere	sensibile

Proprietary terms

This dictionary includes some words which are, or are asserted to be, proprietary names or trade marks. Their inclusion does not imply that they have acquired for legal purposes a non-proprietary or general significance, nor is any other judgement implied concerning their legal status. In cases where the editor has some evidence that a word is used as a proprietary name or trade mark, this is indicated by the symbol ®, but no judgement concerning the legal status of such words is made or implied thereby.
