

Animation, Games, and Sound for the IBM PC

Tony Fabbri

"(THE) BEST PERSONAL
COMPUTING BOOK I HAVE EVER SEEN."
— LANCE A. LEVENTHAL.

PRENTICE-HALL PERSONAL COMPUTING SERIES

ANIMATION, GAMES, AND SOUND FOR THE IBM PC

Tony Fabbri

Prentice-Hall, Inc.

Englewood Cliffs, New Jersey 07632

FABBRI, TONY

Animation, games, and sound for the IBM PC.

(Prentice-Hall personal computing series)

Includes index.

1. Computer graphics. 2. Computer animation.

3. Computer music. 4. IBM Personal Computer—Programming.

I. Title. II. Series.

T385.F3 1983 794.8 83-13889

ISBN 0-13-037689-2

ISBN 0-13-037631-0 (book & disk)

ISBN 0-13-037623-X (disk)

Editorial/production supervision and
interior design: **Kathryn Gollin Marshak**
Cover design: **Jeannette Jacobs**
Manufacturing buyer: **Gordon Osbourne**

ANIMATION, GAMES,
AND SOUND
FOR THE IBM PC

Prentice-Hall Personal Computing Series

Lance A. Leventhal, series editor

To my bride of yesteryear,
To my friend for all the years,
To my wife forever,
Wanda

PREFACE

While many books deal with computers, hardly any are just plain fun to read and use. This book does not explain the insides of computers or describe all possible ways to assemble and use them. Rather, it lets the reader do exciting things with the computer and see things happen on the screen. It assumes no prior knowledge of computers or programming. The reader will learn computers and have fun doing so.

After introducing a few fundamentals (into each life, some rain must fall), the book slowly leads the beginner through drawing faces, rockets, tanks, ships, spacecraft, and monsters. Then sound is added, and the pictures come alive. Spaceships, airplanes, tanks, and strange creatures make noises as they move, turn, fire, blink, and attack. We then introduce the idea of controlling the action from the keyboard. The reader now is able to create his or her own arcade games.

All discussions and early programs are short. The reader will find it easy to use the examples to create new games and practical applications as well. The programming skills that the reader will learn gradually are the very ones he or she will need to solve business, educational, engineering, management, and scientific problems.

This particular version of the book employs the popular IBM Personal Computer (PC). It assumes that you have at least a 32K system with at least one disk drive. Although some programs use a printer, it is not essential. No special graphics equipment is necessary, since we draw all pictures with ordinary PRINT statements, a technique called text graphics. The reader can enter any program and watch the action unfold on the screen.

Please note that selected programs in Chapters 18 and 19 were designed for use on an IBM monochromatic screen and may not work exactly as written on non-IBM equipment.

I hope this book provides many hours of enjoyment for all its readers, both as a learning tool and as a reference book. I hope it also encourages them to use their imaginations, since that is the only way we can ever get the most out of today's amazing computers.

ACKNOWLEDGMENT

I wish to thank Mel Parker, Assistant Professor of Computer Science at Chattanooga State Technical Community College, who reviewed the book and provided many helpful suggestions. I also wish to thank Angela Slane for her review of the music chapter. I thank my wife, Wanda, for her invaluable assistance in proofreading and typing the manuscript.

Tony Fabbri

DIRECTIONS FOR USING THE ANIMATION DISKETTE THE FIRST TIME

1. Remove the ANIMATION diskette from the package, cutting where indicated.
2. Place the ANIMATION diskette in the right disk drive. Shut the disk drive door.
3. Place the DOS 1.0, DOS 1.1, or DOS 2.0 system's disk in the left disk drive. Shut the disk drive door and turn the computer on.
4. Enter `COPY BASICA.COM B:` . Wait until the red light goes off.
5. Remove both diskettes. Place the ANIMATION diskette in the left disk drive. Shut the disk drive door.
6. Turn the computer off. Wait ten seconds. Turn the computer on.
7. After the system is initialized, follow the directions on the screen.

DIRECTIONS FOR USING THE ANIMATION DISKETTE AFTER THE FIRST TIME

1. Place the ANIMATION diskette in the left disk drive. Shut the disk drive door.
2. Turn the computer on. Follow the directions on the screen. Enter a number between 1 and 56 when so instructed the first time.
3. To run any program on the ANIMATION diskette, enter
`RUN"Pcc-mm` where `Pcc-mm` is a program on the ANIMATION diskette. For example, to run Program 19-6, enter `RUN"P19-06` .
4. To list all programs that are on the diskette after running an ANIMATION program, enter `FILES`

DIRECTIONS FOR A ONE-DISK SYSTEM

1. Follow the directions in the DOS manual and copy the language `BASICA.COM` onto the ANIMATION diskette.
2. After `BASICA.COM` has been copied, turn the computer off. Wait ten seconds. Turn the computer on.
3. After the system is initialized, follow the directions on the screen.

Note that the programs from Chapters 18 and 19 were designed for use on an IBM monochromatic screen and may not work exactly as written on non-IBM equipment.

CONTENTS

	PREFACE	xv
Chapter 1	INTRODUCTION	1
Chapter 2	SIMPLE PRINTING	10
	Program 2-1 Print Animal Names	10
	Program 2-2 Print DOG Twenty Times	13
	Program 2-3 Printing Your Name Ten Times	13
	Program 2-4 Your Name in Columns	14
	Program 2-5 Your Name Filling Screen	14
	Program 2-6 Your Name Fancy	15
	Program 2-7 Your Name on Paper	15
	Program 2-8 Your Name Diagonal	16
	Program 2-9 Friend's Name Diagonal	17
	Program 2-10 Two Names in Crossing Pattern	17
	Program 2-11 Crossing Pattern on Printer	19
Chapter 3	DRAWING PICTURES	20
	Program 3-1 Face Moving Left to Right	20
	Program 3-2 Creature Moving Left to Right	21
	Program 3-3 Two Faces Moving Left to Right	22
	Program 3-4 Monster Face Moving Right to Left	22
	Program 3-5 Gorilla Moving Right to Left	23

Program 3-6	Car Moving Left to Right	24	
Program 3-7	Airplane Moving Left to Right	24	
Program 3-8	Sailboat Moving Right to Left	24	
Program 3-9	Tank Moving Right to Left	24	
Program 3-10	Alien Face Moving Back and Forth	25	
Program 3-11	Bug Moving Back and Forth	25	
Program 3-12	Cow's Face Moving Back and Forth Five Times	26	
Program 3-13	Tank Moving Back and Forth Eight Times	26	

Chapter 4 SOME THINGS MOVE WHILE OTHERS STAND STILL 28

Program 4-1	Small Rocket Moving Left to Right	28
Program 4-2	Tank Firing a Rocket Left to Right	28
Program 4-3	Airplane Firing Rockets Left to Right	29
Program 4-4	Cannon Firing Rocket Left to Right	29
Program 4-5	Arrow Shot at Target	30
Program 4-6	Car Driving Through Town	30
Program 4-7	Bee Flying to Flower, Right to Left	31
Program 4-8	Bee Flying to Flower, Left to Right	32

Chapter 5 ROCKETS FLY, BLAST OFF, AND CHASE ONE ANOTHER 33

Program 5-1	Rocket	33
Program 5-2	Rocket Flying Fast	33
Program 5-3	Enemy Rocket Chasing Three Rockets, with Smoke	34
Program 5-4	Alien Spacecraft Flying, with Smoke	35

Chapter 6 MAKING CREATURES WALK 37

Program 6-1	Moving Bug	38
Program 6-2	Moving Bug with Blinking Eyes and Open Mouth	38
Program 6-3	Stick Figure Walking	39
Program 6-4	Funny, Moving Aliens	40
Program 6-5	Stationary Creature Making Faces	40

Chapter 7 LOCATING THINGS ON THE SCREEN 42

Program 7-1	Moving Face with TABs	42
Program 7-2	Moving Face with LOCATEs	43

Program 7-3	Rearranged Version of Moving Face, with LOCATEs	44
Program 7-4	Names All Over	44
Program 7-5	Space Station Firing a Bullet	45
Program 7-6	Space Station Firing a Missile	46

Chapter 8 MOVING BALLS AND RANDOM DRAWINGS

47

Program 8-1	Moving Ball, without Erasure	47
Program 8-2	Moving Ball, with Erasure	48
Program 8-3	Game of Catch	49
Program 8-4	Asterisks at Random Positions	51
Program 8-5	Asterisks Appear and Disappear at Random Positions	51
Program 8-6	Faces Appear and Disappear at Random Positions	52

Chapter 9 ENTERING NAMES AND DRAWING GREETING CARDS

54

Program 9-1	Printing Your Name Twenty Times	55
Program 9-2	Your Name Moving Right	55
Program 9-3	Names Crisscrossing	56
Program 9-4	Printing Names Around the Screen	57
Program 9-5	Valentine's Day Card	58
Program 9-6	Valentine's Day Card on Paper	59
Program 9-7	Christmas Card	59
Program 9-8	New Year's Card	60
Program 9-9	Birthday Card	60
Program 9-10	Another Birthday Card	61
Program 9-11	Halloween Card	61
Program 9-12	Mother's Day Card on Printer	61
Program 9-13	Easter Card	62

Chapter 10 STORIES AND QUIZZES

63

Program 10-1	Short Story with One Name	63
Program 10-2	Short Story with Two Names	64
Program 10-3	Short Story with Three Names	64
Program 10-4	History Questions	65
Program 10-5	Simple History Quiz	65
Program 10-6	History Quiz with Three Questions	66

Program 10-7	Geography Quiz with One Alphabetic Question	66
Program 10-8	Geography Quiz with Four Alphabetic Questions	67

Chapter 11 **CONTROLLING THE ACTION FROM THE KEYBOARD** 68

Program 11-1	Space Station Firing Missile under Keyboard Control	69
Program 11-2	Eye Creatures Moving Left to Right	70
Program 11-3	Target Practice	70

Chapter 12 **MAKING SOUNDS** 72

Program 12-1	Simple Noise	72
Program 12-2	Random Sounds	73
Program 12-3	A Computer Song	73
Program 12-4	Rocket Launch with Sound	73
Program 12-5	Eyes Making Noises	74
Program 12-6	Blinking Eyes Making Noises	74
Program 12-7	Print Hello Slowly	74
Program 12-8	Three Blinking Eye Creatures Talking	75
Program 12-9	Moving Eye Creatures Making a Single Sound	75
Program 12-10	Moving Alien Making Noise	76
Program 12-11	Police Car with Siren	76
Program 12-12	Alien Spacecraft with Sound	77
Program 12-13	Blinking Eyes and Noise	77

Chapter 13 **MOVING OBJECTS WITH SOUND** 78

Program 13-1	Falling Asterisk without Erasure	78
Program 13-2	Falling Asterisk with Erasure	79
Program 13-3	Falling Spider	79
Program 13-4	Falling Alien	80
Program 13-5	Blinking, Falling Alien	80
Program 13-6	Blinking, Falling Alien (Shortcut)	81
Program 13-7	Blinking, Falling Alien with Strange Sound	81
Program 13-8	Race Car Moving Down the Screen	82
Program 13-9	Race Car Moving Around the Screen	84
Program 13-10	Falling Bug	85
Program 13-11	Falling Bug in Random Column	86
Program 13-12	Many Falling Bugs	86
Program 13-13	Bugs Moving Up and Down	87

Chapter 14 A BOMBING GAME**88**

Program 14-1	Falling Rocket Bomb	89
Program 14-2	Rocket Bomb Falling to Ground with Noise	89
Program 14-3	Small Bomb Falling with Noise	89
Program 14-4	Bombing Under Keyboard Control	90
Program 14-5	Moving Bomb Right and Left and Dropping It	91
Program 14-6	Bombs Away Game	93
Program 14-7	Enemy Bomber Dropping Bombs	95
Program 14-8	Enemy Bomber Bombing Ground with Explosion	96

Chapter 15 DIAGONAL MOTION**98**

Program 15-1	Creature Moving Diagonally with Shadow	98
Program 15-2	Creature Moving Diagonally without Shadow	99
Program 15-3	Alien Moving Diagonally	100
Program 15-4	Asterisk Moving Diagonally from Column 15	101
Program 15-5	Alien Moving Diagonally Left to Right	101
Program 15-6	Alien Moving to Bottom Diagonally, Then Up	102
Program 15-7	Alien Hop	105
Program 15-8	Creature Moving Diagonally Right to Left from Bottom	106
Program 15-9	Creature Moving Diagonally Right to Left from Top	108
Program 15-10	Alien Moving Diagonally Right to Left from Top	108

Chapter 16 COMBINING PROGRAMS**109**

Program 16-1	Moving the Master Spaceship	110
Program 16-2	Drawing the Miniships	111
Program 16-3	Moving a Miniship	112
Program 16-4	Master Alien Ship Attacking with Three Miniships	113

Chapter 17 CONTROLLING MOTION IN ALL DIRECTIONS**116**

Program 17-1	Bomb Drop Game	117
Program 17-2	Rocket Moving Anywhere on Screen	118
Program 17-3	Scattering Objects for Rocket to Hunt	120
Program 17-4	Rocket Attacks Objects	121
Program 17-5	A Rocket Game	124

Chapter 18	COLOR AND BLINK	126
Program 18-1	Blinking Name at Random Positions	126
Program 18-2	Bright Aliens at Random Positions	127
Program 18-3	Blimp with Blinking Message	127
Program 18-4	Christmas Tree with Blinking Lights	128
Program 18-5	Haunted House with Bats, a Cat, and a Spider	129
Program 18-6	Large, Blinking, Walking Bugs	132
Chapter 19	TARGET PRACTICE	134
Program 19-1	Asterisk Moving Up Diagonally	135
Program 19-2	Asterisk Moving Down Diagonally	136
Program 19-3	Rocket Launch and Return to Earth	136
Program 19-4	Tank Shoot	137
Program 19-5	Tank Shooting at Alien Ship	138
Program 19-6	Jet Shooting at Alien Ship	139
Chapter 20	MOVING TWO THINGS AT ONCE	141
Program 20-1	Ship and Submarine Moving in Different Directions	141
Program 20-2	Ship, Submarine, Ocean, and Birds	143
Program 20-3	Keyboard Control of Missile Launch	146
Chapter 21	ANIMATION	148
Program 21-1	Stationary Swimmer	149
Program 21-2	Swimmer Moving Left to Right	150
Program 21-3	Shark and Swimmer in Water	152
Chapter 22	A RACE CAR GAME	155
Program 22-1	Printing Special Characters	155
Program 22-2	Racetrack	156
Program 22-3	Car Racing around Track	157
Program 22-4	Advanced Racetrack	159
Program 22-5	Advanced Car Race	160

Chapter 23	PLAYING MUSIC	161
Program 23-1	Marine March, Eight Measures	165
Program 23-2	Marine March	165
Program 23-3	Marine March with Cannon Shooting	166
Program 23-4	Marine March with Paratroopers	167
Program 23-5	Old MacDonald's Farm	169
Program 23-6	Old MacDonald's Farm with Horse Grazing	169
Program 23-7	Yankee Doodle Dandy	171
Program 23-8	Yankee Doodle Dandy in Two Parts	171
Program 23-9	Yankee Doodle Dandy in Four Parts	171
Program 23-10	Yankee Doodle Dandy with Fireworks	173
Program 23-11	Army Song	175
Program 23-12	Army Song with Tank Command	176
Program 23-13	Mary Had a Little Lamb	177
Program 23-14	Old Folks at Home	177
Program 23-15	America	177
Program 23-16	American National Anthem with 1777 Flag	178
Program 23-17	American National Anthem with Modern Flag	179
Appendix A	MUSIC REVIEW	180
Appendix B	IMPROVED RANDOM NUMBER GENERATION	182
	INDEX	185

1

INTRODUCTION

The IBM Personal Computer (PC) is one of the most popular of the new desk-top computers. Although it is only the size of a stereo receiver or small packing crate (with a television set mounted on top and a keyboard attached in front), it is as powerful as large computers of the 1960s that occupied entire rooms and cost hundreds of thousands of dollars. What is a PC good for? Listed below are some of the PC's many capabilities:

1. Word processing (electronic creation of letters, reports, and books without erasures, misspellings, and typing errors).
2. Business calculations, such as figuring interest rates, loan payments, rates of return, and cost of capital.
3. Mailing lists (maintaining them and printing sets of labels).
4. Producing club directories, team rosters, indexes, bibliographies, and other collections of information.
5. Handling the accounting, sales records, payroll, and inventory for a small business.
6. Producing tax returns and figuring alternative tax strategies.
7. Billing for doctors, dentists, attorneys, accountants, and other professionals.
8. Computer-aided instruction from grade school through college and in special education as well.
9. Creating charts, graphs, slides, and visual aids.
10. Scheduling parts of projects such as the construction of a building or the development of a new product.
11. Teaching games such as chess, bridge, and blackjack.
12. Keeping track of client records and accounts for insurance agents, realtors, brokers, and merchants.
