发”。其实，拍摄风光并非都得追求休闲之佳境，也可表现阳刚之美，《天湖纳木错》就属于后者。作者王帮才拍摄高原湖泊奇特的景观，冬春交替冰消凌裂，大自然上演气吞山河的壮丽交响，给人以“无限风光在险峰”的审美体验。作者采用非正常气候拍摄风光，天空浓云蔽日，冰凌在逆光勾勒下峥嵘诡异，画面充满着险情和神秘，这比风和日丽的照片更有吸引力。所以拍摄风光遇到风云变幻，千万不要关闭照相机，它常常是截获奇景的好时机。

—— 杨恩璞（北京电影学院教授 华光摄影学院院长）

I have seen so many scenics with quiet and tasteful pictures, which make me feel that my eyes seem to eat ice cream and my soul to sit on sofa. In fact, the most pleasant stage of leisure is not the whole content of scenic photography, which can also focus on the masculine beauty and the Namucuo Lake—"Lake of the Heaven", for instance, belongs to the latter. Wang Bangcai, the photographer of the scenic, shot the unique landscape of plateau lake, in which snow is melted and ice broken upon alternation of winter and spring and the nature performs a splendid symphony, favoring you with the aesthetic experience of the Most Beautiful Scenery Being Enjoyed Just in the Peak. The photographer conducted his scenic photography under abnormal weather conditions, in which black clouds blot out the sky, ice is outlined by backlighting to be extraordinary and fantastic, and the dangerous conditions and mystery can be seen everywhere. It thus has more fascination than those shot under fine and warm conditions. Therefore, never turn off your camera if the weather conditions suddenly change when you conduct your scenic photography, which may often be the good opportunity to catch the unique scenery.

Yang Enpu (Professor of Beijing Film Academy, President of Huaguang Institute of Photography)
