序

建安七子曹植有言：“览百卉之英茂，无斯花之独灵”。

荷，“出污泥而不染，濯清莲而不妖”，一年四季均有不同的英姿。观赏品味之时常能让人产生许许多多的遐想，撞击心灵的瞬间，获得不同的感应。有观赏其秀气和灵气，有品味其艰辛甘苦，有赞美其高雅圣洁，有陶醉其芬芳，有领悟其正直，有仰慕其傲骨，不与他卉争妍，而一花独放。不同的视觉，不同的感悟，但总能使人萌生联想，产生涌动。

我每每手持相机对荷拍摄时，常物我两忘，如入荷之仙境，梦醒之时仍回味无穷。荷就是这样一次次地让我着了魔似的走向她，走进她的“心灵”，接受她的“恩露”，倾听她的心声：“名利皆如浮云，唯有正直真诚”。

荷，给多少人留下了启迪，只有心中有荷，才能灵光普照。愿世人都有荷的品格，愿人与自然更加和谐一统。

李光成

2006 年秋

Preface

Cao Zhi, one of the seven famous litterateurs at the time of Jian'an during the Three Kingdoms, ever said, "Looking at the fineness and luxuriance of all other flowers, you cannot find the unique nimbus of this flower without lotus."

Lotus, "Coming out of mud but not corrupted, washed clean in water but not bewitching", with seasonal heroic bearings, can often give us a lot of imaginations when we appreciate and have a taste of her, and offer us a kind of different telepathy the moment she reaches our heart. She is endowed with the elegance and nimbus for appreciation from the Creator, the bitterness and hardship of life for a taste, the elegance and sanctity to be praised, the fragrance to be intoxicated with, the honesty to be appreciated, and the unyielding character of not competing with other flowers but blossoming by herself. The different vision and different comprehension can always make people full of imagination and make people excited. How can the charming lotus not be worth praising and eulogizing?

Every time I take pictures whole-heartedly with camera in hand and with body and mind blended, I am full of thoughts as if I were in a fairyland. And when I come to the reality, I am still filled with aftertastes. I'm always fascinated and attracted by lotus, to approach her heart, to accept her favor, and to listen to her utterance, "Reputation and wealth are just like floating clouds while only integrity is genuine."

Lotus has left enlightenment to many people, but only when people have lotus in their inner heart can the miraculous brightness shine. I sincerely hope all the people on the earth have the character of lotus. And I wish there will be better harmonized between man and nature.

Li Guang-cheng
(Autumn of 2006)
