INTRODUCTION

The Yearbook of China Tourism Statistics for 2006 is a yearly review with information on the overall development of the tourism industry in the People's Republic of China in 2005. Written in English and Chinese, the information in this Yearbook covers eight aspects: Statistics Report on China's Tourism Industry in 2005 and visitor arrivals to China, major profile of international visitors to China, international tourism receipts, domestic tourism, business of different regions, business of star-rated hotels, business of travel agencies, travel enterprises and non-business institutions.

A note to the Index of Major Statistic Terms is attached at the end of the Yearbook, which gives a brief explanation of the meaning of main tourism statistics, scope and method of data-collecting.

The data of the Yearbook come from the tourism departments, statistical departments, and ports of entry and exit of public security departments throughout the country. The statistics of Taiwan Province, Hong Kong Special Administrative Region and Macao Special Administrative Region are not included. All the data are processed and compiled in line with the requirements set forth in the tourism statistics reporting system jointly formulated by the National Tourism Administration and the State Statistics Bureau, and explanatory notes are provided in some special cases. Re-check and re-adjustments have been made to the figures of each month in 2005, and if some inconsistency is found between the published figures and the figures in this Yearbook, the latter should be taken as authentic.

This Yearbook provides authoritative data on the development of China's tourism industry in 2005, which is useful to tourism departments, relevant departments of the national economy, education and research institutes, and students and teachers. The overseas travel trade, relevant people of the industry and foreign tourists to China, compatriots from Hong Kong, Macao and Taiwan can also benefit from this Yearbook.

In the Yearbook, wherever a table is continued on the next page,
