编者随感 Editorial

从上个世纪末开始,中国开创了人类历史上从未有过的大规模建设时期。新城市建设,老城市更新、内地和边远地区的城市开发以及农村城镇现代化,使建筑设计这一专业成为热门行业,充满了无限的机遇。正是在这样的背景下,深圳市博艺建筑工程设计有限公司(英文代为ADF)于1998年成立了。其设计资质为建筑工程综合甲级和环境景观设计乙级。

经过短短几年的运作,博艺公司的人员编制从小到大,技术力量不断加强,信息资源和设备材料更新升级,承接任务的数量和地区也今非昔比,已经发展成为在设计行业中举足轻重的单位。目前,博艺承接的业务成包括:城市与区域规划咨询、社区规划、城市设计、环境景观、园林绿化及各类建筑工程全方位设计,专业含盖建筑、结构、给排水、电气、空调、采暖、智能化、消防、人防、节能、环保等,配套齐全,综合攻坚力极强。

设计做为基本建设程序的第一环节,其重要要性不用赘言。过去说建筑师笔下一根"线",代表着工程造价多少"钱",这仅仅是指设计对经济性的影响。当今人类已经进入了信息化数字化时代,人们对建筑的思考远

远超越了单单"好用"这一物质层面的要求,在精神层面上期盼更多。博艺公司8年的程,深刻体会到,设计理念是一个项目开发能否成功的基础。因此,追求设计理念创新,如的基础。因此,追求设计理念创新,如约。正本,如此,追求设计理念,这种理念就如船的舵,它确保明到的设计理念,这种理念就如船的舵,它确保明到有的连续前进的过程成为可能。,有是我能相信的设计理念,一个要确立一套我能相信的设计理念,一个要确立一套我能相信的设计理念,一个要确立一套我能相信的设计理念,一个要明显就有一个要明的建筑指引方向并经得起时间考验的建筑的建筑指引方向并经得起时间考验的建筑的建筑指引方向并经得起时间考验。"

博艺致力于创造一种建筑, 不仅仅是建 筑物本身的设计,还是创造一个供人们活动 的场所。通过改善人们所处的环境,从而提高 人自身的质量。想象力、创造性和企业精神是 影响我们设计理念的基本因素。对人的价值 观,人对空间、自然、光线反应的理解是完成 作品必要条件。自然的空间一两个内外部分 一是博艺公司建筑设计的主要手段。公司始 终以创新为信念,积极探寻每一个作品的时 代亮点, 力求完善的体现作品的艺术性与人 文、环境的和谐统一。同时努力把杰出的设计 与经济可行性结合起来。开发知识和业主的 利益,使公司在考虑怎样把想法转变为现实 的设计过程的经济性方面具有独特的思考。 这种广博的知识基础为业主提供了有用的附 加值。

博艺自创业以来,作为忠实于为主的专家集团,一直致力于探求各个项目最本质的要求,追求高质量的体案和成果为宗旨。公司的核心优势还来源于其对卓越的设计的不懈追求和坚韧探索。充分分析设计任务中每个要素的重要性和整体性,自始至终将创造性、和谐性完美统一作为一个完整的卓越设计提供给业主。

博艺的目标是什么?是让业主在最省心、省时、省钱的前提下,得到精品设计!充分尊重业主意见,并在此基础上发挥建筑师的创造性,实现业主与设计师互动,把矛盾的冲突变为具有个性的和谐。这正是博艺全体员工永恒的追求。

博艺成立时间不长,已完成多项建筑、规划和景观设计项目,业务以深圳为原点辐射内地省市,包括江苏、江西、湖南、湖北、广东、甘肃、四川等,成果令人瞩目。

本书回顾了博艺几年来的设计成果,汇总了从居住建筑到公共建筑,从民用建筑到工业建筑,从单体设计到群体规划,从建筑到景观园林……涉及有关城市建设的各个领域。期望通过它,让社会各界认识博艺,了解博艺。书中不足之处,也欢迎大家提出宝贵意见。

公司地址:深圳市福田中心区福中三路 诺德金融中心三十楼 A. F 单元 邮政编码: 518034 电 话: (0755) 8202 2115, 8202 2117 传 真: (0755) 8202 2117 E-MAIL, Boyijianzhu@126, com China has undertaken the great construction period since 20th century. New Urban construction, Old City Regeneration, inland and outland designing, and countryside urbanism, all these make the architectural construction hot trade, full of endless opportunity. ADF established in 1998, entitled as the First-Rate Architectural Engineering and Second-Rate Envirnomental Landscape company.

After several years operation, ADF's ophistication in building technology applications and commitment to design quality have resulted in a portfolio that features some of the most important architectural accomplishments of this century.

ADF's work ranges from the architectural design and engineering of individual buildings to the master planning and design of entire communities. The firm has conceived, designed, and built projects that include urban and regional consultant, community planning, urban designing, landscape,gardening and kinds of architectural engineering, covering architecture, constructure, drainage, electrical, air-condition, heating, intelligentize, fire-protection, mankind-protection, energy-saving and environmental protection as well.

Since its founding, ADF has completed more than thousands of architecture, engineering, interior architecture, and planning projects in China starting from concept design to initial designing, drawing, construction and completion by their professional and senior architects and engineers from different background,

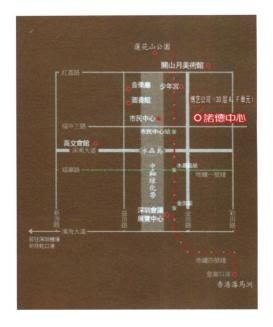

Concept (design) being the vital factor in the basic construction, previously said one line by architects makes sense which means the economical meaning, however, with the informationlized digital ages coming, the thinking of the constructions is not in the practical level, but in the spiritual level. Since its foundation, ADF focuses on the innovation and creation of the design. John Botman said, the architects should have their own concepts, which is like the rudder of the boat leading sailors to the Faramita, to lead them to their's Faramita.

ADF are seeking the design possibilities as the removing Place to enhance people's life quality and to improve one's living conditions. Imagination, creation and team-spiritual factor would be the vital one in our design. Harmonize the natural and human ,art and technology, utilizing the natural resources in designing, which could perfectize the economy and feasibilities. Customers-concerned is to be ours dicta, respect clients's benefits and philosophy, enlarging our designers and engineers awareness and knowledge being the valueable resources.

Since its foundation, ADF seeks the opportunity to enhance the quality and level, continuously to explore the essences of the architecture to show the importance and integration of the design. Thus offering one total and excellent solution to the clients.

ADF aims to provide the total solution to the clients on the premises of economy, time-saving and respect their initial thinkings, to communite with the clients, transferring the contraditions to the individual harmony.

We contribute our commitments to you in THIS BOOK covering all the projects we did and all the fields we are in. Thank for you interests and concerns in ADF

Century Holiday Plaza, Shen Zhen

深圳世纪假日广场

General Situation

The project is located at the Hua Qiao City, Nan Shan district, Shennan Ave to the north, dead against to World Window. This is one of the loft residents in Shenzhen with convenient traffic, gracious environment, elegant nature resources, including World Window, Cultural Folk, Happy Vally, becoming one of the top areas covering green rate in Shenzhen. Surrounded by Central Village, Mayor Communication Center, Zhong Hai Shenzhen Bay, Yitian Holiday Bay, near to the new subway.

I Design Concept

i.To provoke the loft community integrating with ecological, health, gracious, environmental and intelligent.

ii. To offer reasonable space for investors with equipped functions, being the simple and voque inhabit.

iii. To create the modern lively environment Combining with office, shoppingmall, recreational facilities, in line with the atmosphere of existing places, being another charming city-scece apart from the world windows. Il Overall layout

i.Taking World Window, Splendid China and surrounding scapes into consideration. To construct the buildings along the baseline, on the premise of avoiding the inner-corridor residents. The inhabits takes on the square tower, plain-type apartments along Shen Nan Rd, four office buildings in the basements. Adopting uniform architecture layout, to recall the images of the city. Square architecture layout and plain-architectures to show off the concept. Simple shape through volume intersection, utilizing materials and color matching to create vivid images to show modern and vogue space-sytle.

性质:商、住综合体

ii. To create the inside and outside traffic system through improve the environmental conditions and inner traffic structure. The main exits is at the northwest side of the areas, office building exits is at the crosssections of the north of the areas and roads. Commercial buildings exits are at the north commercial square and western square to prevent pedestrain cross-sectioned. Eastern of the commercial building opens to the subway exits to attract more people entering into commercial square.

iii.Environmental design: As the topography waved, it takes on the cubic view, including underground garden, garden swimming, entrance square, pitch landscape, comercial square. Formal tree-array to show the modern commercial atmosphere. Utilizing commercial roof hovering style, office roof hovering floor, 2-4 floors to form the abundance green system.

概况:

本项目位于南山区华侨城片区,深南大道北侧,世界之窗对面。该片区是深圳市高尚住宅物业最密集的区域之一,区内规划良好,交通便利,环境优美,景观资源丰富,世界之窗、锦绣中华、民俗文化村、欢乐谷等著名旅游景点坐落其中,是深圳市绿化率最高区域之一。附近有世纪村、市长交流中心、中海深圳湾畔、益田假日湾名楼,即将开通的地铁与世界之窗站相邻,交通十分便利,地理位置十分优越。

一、设计理念

1、倡导一种以生态、健康、优雅、休闲、环保、智能化为主题的中档高尚生活小区。

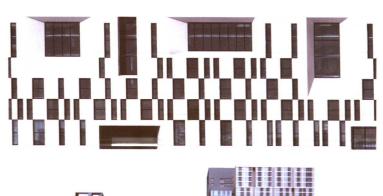

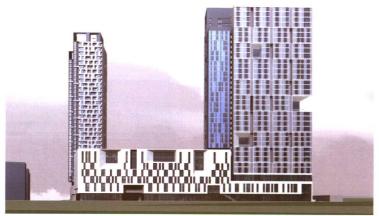

外部夜景 Exterior Night Scene

- 2、为一次置业者和以投资度假的多次置业者创造一个布局合理,功能齐备、视线开阔,阳光明媚,风景秀丽的简约时尚生活的憩栖地。
- 3、创建一种生活、工作、购物、休闲为一体的现代人居环境、与世界之窗、锦绣中华、欢乐谷相媲美的建筑形象和人文环境、使之成为继世界之窗、锦绣中华等的又一道靓丽的城市风景。

二、总体布局

- 1、充分考虑到世界之窗、锦绣中华等周边良好环境。建筑沿基地排开,在避免内廊式住宅前提下,住宅为四方形的塔楼,沿深南路一侧为板式公寓搂。基地中部为四层高办公楼。规划强烈采用相对规整的建筑布局手法,以确定整体的城市形象,方形的建筑布局及板式建筑突显了理性的设计思想。整个建筑群体轻盈流畅,建筑型体在力求简洁紧凑的同时刻意体现个体,通过体量的穿插组合,材质的虚实对比以及色彩的搭配运用,塑造鲜明生动且开放通透的形象,以展现时代风范,整体构想体现简约时尚的空间美学。
- 2、通过针对条件的改善和内部交通的合理组织,创造良好的内外交通环境。居住区主入口位于基地的西北侧,办公以基地南侧与道路交叉口入,商业分别从基地南侧的商业广场和西侧的商业广场入,避免人流交叉,居住区内环境相对安宁。其中在商业的东侧开设与地铁出入口相接的商业入口,可以吸引来自地铁方向大量人流进入商业广场。
- 3、环境设计:由于基地地形有高差起伏,结合现状设计了一个立体景观,其中地面住宅花园布置园林游泳池,小区主入口广场等、小品景观,商业广场则以线性铺地,规则的树阵来烘托现代商业气氛。商业裙房项结合架空设计经休闲娱乐为主题的景观,有游泳池、读书吧、露天咖啡场等内

容丰富的休闲广场。整个设计利用 商业屋顶架空层,办公屋顶架空 层,住宅屋顶2-4层的退台,形成 丰富多变的立体绿化系统。

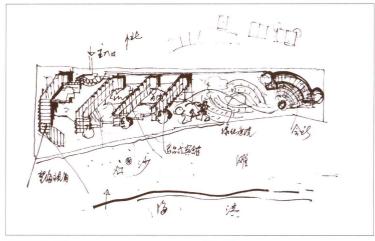

立面造型力求简洁, 卧室凸窗 与阳台统一处理, 美观大方, 风格 独特, 体现了现代居住空间的时尚 美学原理, 立面玻璃构架虚实相间, 清新流畅。

遮阳穿孔板既有防晒、阻隔噪音的功能,又能使居住建筑琐碎的外立面得到整合,体现现代办公建筑立面设计风格。

办公立面:用几何构成平面美学建构的竖向长窗,既体现现代建筑的生态节能设计原理,又具简约时尚的设计美学风范。

主要技术经济指标 用地面积。12 100m² 建筑面积。32 000m² 原有。14 000m² 扩建。18 000m² 客房数(标准间)。500 间

容积率: 2,64

Extension Program of Jinshawan Hotel, Shenzhen

深圳金沙湾大酒店扩建规划

Jin Sha Bay Hotel is located at the Xia Sha Village, Da Peng Bay, close to Xia Sha (2.5km long beach), the fine natural resources and healthy ecological environment, providing valueable resources for the development of Jin Sha Bay Hotel.

In the extension of Jin Sha Bay, we take SOM, EDAW's concepts into consideration, and combinining the topographical character, the hotel inclining to the sea, integrating the surroundings as a whole to envoke our's passion for the sea.

To shorten the complex column, protecting and harmonying the mountainour natural resources, and to eliminating the visual impact of the hotel, forming the natural spacial venation structure.

To extend the original 210 suites to 500 suites, based on the clients's need of fitting into seashore character, the individual unit should facing to the sea. Polygon abdication Style would be the solution to the wards and landscapeview. Modern architectural style with large glass window have introduced more lights into the rooms.

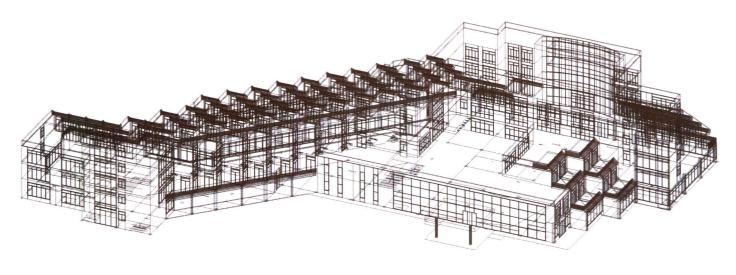

项目名称。金沙湾大酒店扩建规划

地 点:广东深圳 建筑面积: 32 000,00m² 性 质:酒店建筑

金沙湾大酒店坐落于风景秀丽、青山碧海的大鹏湾畔下沙村,紧邻下沙,拥有2.5km长的海湾沙滩,具备良好的自然条件和生态环境,明净的天空,蔚蓝的大海,细白的沙滩以及自然生态保存完好的青山,为金沙湾大酒店提供了其他酒店无可比拟的基础资源。因此,在对金沙湾重建的概念设计中,我们参考了美国SOM、泛亚易道EDAW等国际著名设计机构关于下沙旅游度假区概念规划方案,并结合本项目地块特点与建设要求,将酒店体型倾向大海,与环境融为一体,以唤醒游人对浩淼大海的激情、幻想和眷恋。

为了达到建筑与环境形成"共生"的状态,保护和协调利用山海的自然生态资源,我们在设计中将建筑体量缩小,以减少酒店对人们的视觉冲击,集合基地与周边环境,形成自然的空间脉络结构。

本项目为扩建工程,原金沙湾大酒店规模为 2 1 0 间标准客房。经过扩建,拟达到 5 0 0 间标准房,业主要求适应海滨特点,每间房均能观海景,并采用退台式。本设计结合原有建筑,采用多技形退台式布局,很好地解决了朝向和景观的要求。建筑风格为现代风格,多用大玻璃窗,使室内光线充沛且景观好。
