金秋，值此收获时节，天津市建筑设计院（TADI）迎来了建院五十五周年华诞，为了表示庆贺和纪念，特编辑这本集中反映我院近五年来建筑创作的作品集，以此作为献给院庆五十五周年的贺礼。

这本作品集的内涵寓意丰富，它从思想观念、设计创新、科技进步、建筑技术等不同层面，折射出了我们为振兴建筑事业，力求卓越、争创一流的价值理念；展现出了我们为促进天津市经济、文化、科教、卫生各项事业的发展以及对提高城市生活品质和城市建设水平等诸方面所做出的不懈努力和取得的显著业绩；见证了我们坚持竭诚服务、勇于奉献的敬业精神和“为当代塑精品，为后人留财富”的执著追求。

从这本作品集中，我们可以深刻地感受到建筑设计的永恒主题，那就是我们所一贯崇尚和坚持奉行的创新精神，它是思想上的—股原动力，工作中的一支主旋律，业绩中的一道靓丽光环。只有坚持创新，才有益于昭示理念；只有坚持创新，才有益于优化品质；只有坚持创新，才有益于实现率先。可以说，“以不息为体，以日新为道”已然成为我们牢记在心的座右铭。

In such golden autumn, the harvest season, Tianjin Architecture Design Institute (TADI for short hereafter) greets its 55th birthday. In order to congratulate and commemorate the date, this collection recording the architectural work in recent 5 years is edited as a gift to dedicate to the 55th anniversary of our institute.

This work collection contains rich meanings. From different aspects, like thought concept, design innovation, science and technology promotion and building technique, it expresses our value concepts of vitalizing architecture career, pursuing superexcellence and trying to create top-ranking work. Meanwhile, the book reveals our unremitting efforts and notable achievements in promoting our urban development of economy, culture, science, education, public health and improving man's life and urban construction. It also witnesses our hardworking that we persist in service and dedication with all our hearts, and the resolute pursuit of “figuring exclusive work in the present age to remain treasury for late generations”.

From this collection, readers can deeply feel the eternal theme of architecture design, which is the innovation idea that we advocate all long and persist in. The idea is the original energy in thought, the main tune in work and a bright light ring in achievement. Unremitting innovation is beneficial for declaring concept

# 序

publicly; unswerving innovation is good for optimizing quality; and resolute innovation is favorable for realizing keeping ahead. A Chinese saying, "it's the most important thing to constantly strive to become stronger and it's the just orientation to make efforts to improve everyday", has become our motto fixed in our mind.

TADI虽走过了五十年的历程,但愈加焕发出青春般的朝气和风采,这其中的一个重要原因,就是有着一批中青年建筑师、工程师迅速崛起,成为TADI的中流砥柱。他们有着多元的建筑创作观,也有着强烈的社会责任感,有着理性前卫的思维意识,也有着匡正务实的批判精神。正是因为这样一支精英团队通过其自主创新、集成创新的不懈追求,TADI才得以创作出一大批的设计佳作和工程精品。

理念先于技巧,“以人为本”、“坚持科学发展观”已成为我们的共识。五年来,一批作品从不同的立意和构思上,体现了设计创作的新理念、新观点。如:连续获得国家金奖、银奖的天津市第二南开中学、哈尔滨市第十四中学;以医患行为及心理研究为出发点的人民医院和医人总医院;以环境创意为切入点的天津博物馆。这些作品都从不同的侧面为展示多元的、先进的创新理念,提供了可借鉴的范例。

突出设计中的科技含量和先进水平是我们一流综合实力的集中体现。作为2008年北京奥运会的分会场,天津奥林匹克体育中心涵盖了多项自主创新的先进技术;中华剧院在国内率先实现了京剧演出的原声剧场;以综合技术实现减低能耗的TADI办公楼和市政公司科研基地等工程设计,无不得益于多专业精英的同心求索和通力协作。

建筑文化的传承是我们应对现实挑战的历史性责任,我们不仅注重对中国传统文化的研究和探索,而且也从未放弃在建筑设计中传承地域文化的追求,如:几个地处历史风情区的建设项目,通过精心调研与求证,实现了传统特色街区在现代环境条件下的重现与再生;又如天津近代工业博物馆,也是通过对建筑内涵的解读和塑造,隐喻着津沽大地一段特殊的历史情结,为延续本土建筑文化做了有益的尝试。

Although TADI is 55 years old, it is still in the bloom of youth. One of the most important reasons is a large number of middle-aged and young designers have grown up rapidly and then become strong. They have built up the mainstay of TADI. These designers are full of different viewpoints of architecture and strong social responsibilities, meanwhile, abound with rational and modern thoughts and matter-of-fact criticism spirits. Under the circumstance, such excellent team creates a great number of design achievements and good projects through the innovation and unremitting pursuit of themselves.

# Preface

Concept is prior to technique. We have formed such consensus that human oriented and the view of persisting in development scientifically. In recent 5 years, lots of work show new points of view from different ideas and conceptions. For instance, both Tianjin 2nd Nankai Middle School and Harbin 14th Middle School won the National Gold and National Silver prize successively; Both People's Hospital and General Hospital of Tianjin Medical University are started off from the behavior and psychological research of doctors and patients; Tianjin Museum is put environment design as originality. All these examples show distinct and advanced conceptions from various aspects.

Stressing technique content and advanced level in design is the centralized embodiment of our top-ranking comprehensive power. As the sub-venue of Beijing Olympic Games in 2008, Many brand-new advanced techniques are used in Tianjin Olympic Center; China Opera Theatre is the first theatre in China which realizes original soundtrack during Beijing Opera performance; TADI official building and Scientific Research Base of Municipal Company reduce energy consumption through comprehensive techniques. All these successful projects get benefits from the teamwork of engineers in different disciplines.

The spread and inheritance of architectural culture is considered as a historic responsibility that we face the realistic challenge. We not only pay attention to the research and exploration of Chinese traditional culture, but also never give up the pursuit of spread and inheritance of regionally culture in architecture design. For example, through the careful research, several construction projects in historical scenic areas are realized the original shape and rebirth under the condition that traditional characteristic blocks live in modern environment; another example: Tianjin Modern Industry Museum implicates a special history feeling of old Tianjin through the unscrambling and figuring the meanings, which make a favorable efforts for continue the local building culture.

在此，我们深信大家在阅览这本作品集的时候，回眸和重温过去完成时态下创作的设计精品，对照和审视现在进行时态下开展的各项工作，以及展望和预期将来进行时态下做出的努力和业绩，一定能从中有所发现、有所感悟、有所激励、有所收益，使这本作品集的作者、编者和读者之间，产生和达到思想上的认同与共鸣，从而形成一股强大的精神力量，这一点正是编撰本作品集的主旨所在，这也是对院庆的最好和最有意义的纪念。
