杨国斌简介

杨国斌，黑龙江省哈尔滨人，生于1952年11月。1968年上山下乡到黑龙江省虎林县，1973年参军到辽宁省本溪县，1978年复员回哈尔滨，现在是一企业基层管理人员。1988年开始学习摄影，1990年至1991年在中国函授摄影学院学习一年。现在是中国艺术摄影协会会员。主要拍摄东北虎及丹顶鹤。

Brief Introduction

Yang Guobin, from Harbin, Heilongjiang Province, was born in November, 1952. In 1968, he went to the countryside, the Hulin county of Heilongjiang province, and joined the army in Benxi county of Liaoning Province in 1973. In 1978, Yang Guobin came back to Harbin and now he is an administrator of basic level in the corporation. Beginning to learn the photograph in 1988 and having been studied it in correspondence university for a whole years, he is now a member of Chinese Art Photograph Association. He is interested in taking pictures of Northeast tiger and red-crowned crane.

吹尽黄沙始见金

杨国斌

我有许多摄影界的朋友，杨国斌同志是刚刚结识的。他拍摄了近百幅东北虎的照片。

虎兽之王，东北虎乃万中王。东北虎是世界上稀有珍贵的国家一类保护动物，主要生活在中国黑龙江兴安岭和吉林长白山一带的深山密林中。东北虎身兼雄伟、四肢粗壮、凶猛威严。

摄影家杨国斌在他的摄影生涯中，深深地爱上了野生动物摄影这个门类：一份耕耘，一份收获。多年来，他始终如一，初衷不改，凭借执著的信念，坚强的品格，顶风而冒严寒、忍受蚊虫的叮咬，烈日的暴晒，战胜了一般人难以忍受的恶劣环境，拍摄了大量野生动物的好作品。因此，也成了专题拍摄东北虎的摄影家。如今，杨国斌选出一百多幅编辑了这本《中国·东北虎》摄影画册，不仅让更多的人欣赏到东北虎千姿百态的雄姿，还激发了人们保护濒于绝迹的东北虎，保护东北虎生存环境的意识，目的是让这个世界变得更加美丽、和谐。

杨国斌的本职工作不是摄影，在过去的6年里，他牺牲了几乎全部的节假日，在嫩江湾东北虎林园中拍摄，用手中的相机摄取东北虎的英姿。在摄影的门类中，野生动物是一个很难的拍摄课题。拍摄东北虎更是困难，能拍好可以说难上加难了。也许是上山下多，也许是革命军队的大熔炉，造就了杨国斌不屈不挠不畏难的坚强品格。

迷恋野生动物摄影的杨国斌，多年来一直潜心研究动物摄影的技巧，拍摄中他力求把东北虎凶猛的野性融入于摄影作品中，在他的作品里把东北虎的凶猛与灵活拍得栩栩如生，有静有动，动静结合，充满动感和视觉冲击力，令观者震撼。

《雪野凶风》是杨国斌拍摄理念的代表之作，这幅作品把东北虎的野性表现得淋漓尽致，拍摄难点可想而知，完全称得上摄影中的上乘之作。《爱的旅程》拍摄了东北虎交配的全过程。东北虎之间的亲密在我们眼里也像是搏斗一样，这种镜头没有长时间的蹲守和高深的摄影技艺是难以完成的。杨国斌凭借自身的摄影技艺和对野生动物的敏锐直觉，以创新的摄影艺术手法，通过新颖的观点和构图结合，把东北虎拍摄得栩栩如生，活灵活现。这些作品是杨国斌智慧的结晶，可以说，杨国斌是一位优秀的野生动物摄影家。

世界是美丽的，东北虎是凶猛的美丽。让我们都来保护东北虎，保护野生动物，保护我们仅有的一个家园——地球吧！

是为序。

2006年5月30日

于美成 艺术评论家

THE GOLD BENEATH THE SAND

Yu Meicheng

I have many friends in the circle of photographers, of which Yang Guobin is a new acquaintance. He has taken thousands of photos of the northeast tiger.

The tiger is the king of beasts and the northeast tiger is the king of kings. The northeast tiger is the national first grade protected animal which is rare and precious in the world and they mainly live in the remote, thickly forested mountains of King'an Mountain in Heilongjiang Province and Changbai Mountain in Jilin Province. With grand body and brawny limbs, the northeast tigers are ferocious and awe-inspiring.

During his photographer career, Yang Guobin falls in love deeply with wild animals photography. No gains without pains. For many years, he consistently holds his original intention and has taken a great number of good photographs of wild animals relying on preserving belief and strong character. During the period of taking photos, he has braved wind, rain, and cold weather, has endured bites of mosquitoes and insects, has borne long exposure to the sun and has vanquished many other adverse circumstances that common people can not endure. Now, Yang Guobin has become a photographer specialized in northeast tigers. The album of photographs China, Northeast Tiger which contains more than 100 photographs taken by Yang Guobin will not only show the majestic appearance of the northeast tiger but also arouse people's consciousness of protecting the northeast tigers which are on the brink of extinction and the living environment of them so as to make the world more beautiful and harmonious.

Yang Guobin is not a professional photographer. In the past 6 years, he spent almost all his holidays and vacations in Hengdao Hezi Northeast Tiger Forestry Garden to take photos of the northeast tiger. In the classification

of photography, wild animal photography is a difficult topic and the northeast tiger is an even more difficult one. It is really difficult to take good photos of northeast tigers. Maybe the "On Countryside and Mountain Areas Campaign" and maybe the life in army have fostered Yang Guobin's strong character. For many years, Yang Guobin, who is infatuated with wild animal photography, has devoted himself to the study of skills of wild animal photography and has tried to express the wild nature of the northeast tiger in photographs. In his photographs, the ferocity and the mobility of the northeast tigers are vividly portrayed, and the static and dynamic postures are combined. All in all, the photographs are full of motion and visual power and would shock the viewers.

Wild Wind in Wild Snow is one of Yang Guobin's representative works which can express his photography conception, has fully expressed the wild nature of the northeast tigers and can be regarded one of the best works of photography. The difficulties of taking this photo are imaginable. Trip of love records the northeast tiger's full mating procedure. The closeness between tigers also seems to be fights in our eyes. Without long waiting and good photographic skills, it is difficult to take this photo. Depending on good photographic skills and acute intuition in wild animals, Yang Guobin has made vivid portrayal of the northeast tigers through creative photographic skills and innovative combination of views and compositions. We can say that those works are the embodiment of his wisdom and that Yang Guobin is a good wild animal photographer.

The world is beautiful, and the northeast tiger is ferocious and beautiful. Let us all protect the northeast tiger, protect the wild animals and protect our own home—the earth!

A preface for the album of photographs.

jumping to the of the other	深山虎跃	8	63	母子情深	deep love between mother and son
eye covetously	虎视眈眈	9	64	山野觅踪	looking for something in the mountain
