序

古语云：上善若水，厚德载物。

看了洱海之水浩浩荡荡苍苍茫茫，你一定知道是什么力量成就了这颗高原明珠的壮丽景象。你固然早已懂得积少成多，不拒细流才能汇聚湖海的道理。但是，你一定更想亲眼见证这样的过程：滴水成之为小涓，小涓成之为溪水，溪水成之为河流，河流成之为湖海。那么在洱海北面三十多公里，有那样一个地方，蒹葭苍苍，白露为霜，水木相生，自然和谐。那个地方，没有商业社会的喧嚣与嘈杂，没有现代人的疲惫与困惑，她用她那赋有灵性的山山水水，哺育着一辈一辈她的儿女，并且在日益开放的今天，迎候着越来越多的来自祖国各地世界各国的远方客人。

那个地方，叫洱源。

洱源，多么动听而响亮的名字，多么贴切而富有诗意的名字，谓之为“洱海的发源地”。洱海 70% 以上的水发源于这里。她位于大理州北部，国土面积 2533 平方公里。在这里，世代生活着汉、白、彝、回、傈僳、纳西、藏等 27 个民族，如今人口达 27.5 万。她不仅有优美的山水风光，有丰富的自然与人文资源，而且有悠久的历史。

这里你可以听到洱海之源“神话王国”故事的传说，你可以看见“白族民间舞蹈的活化石”，而“白族喷

呐艺术之乡”的美誉，也在这里吹响世界。这里可谓是人间的天堂。徜徉在“仙女撒歌的地方”，喝着“乳牛之乡”的可口牛奶，嚼上“梅子之乡”的甘美梅子，“兰花之乡”的芬芳时而充盈于你的鼻息与眼睛之中。如果不是在这里，你很难体会到，你竟然能够如此轻松地当上自然之子。如果你饿了，可以吃几个“温泉之乡”的气磺蛋，或者烧吃一张乳扇。如果你还想纵情于山水之间，你可以到“泽国仙境”里泛舟，你可以进“世外梨园”小憩，你还可以到茈碧湖畔垂钓。相信你钓起来的，不只是几条大鱼，更是一种亲近自然的情趣。

除此而外，洱源尤以资源丰富而闻名。主要矿产为岩盐、煤、桃红大理石、硅藻土、海绵钛。种植农作物以水稻、包谷、烤烟、蚕豆、小麦、大蒜、油菜为主。盛产梅子、木瓜、核桃、板栗等自然经济作物。花卉中以兰花、杜鹃最为著名。洱源四季如春，你在逆水而上探寻洱海之源的时候，不时地会醺然于花香鸟语之中。

每一个到过洱源的人，最不能忘记的是洱源的温泉。洱源境内60平方公里的范围内，分布着4个地热田区，其中九气台温泉最为著名。目前以大理地热国为龙头的地热资源开发取得了卓越成效，构成了“三步温泉四步汤，气蒸雾迷似仙乡”的人间仙境。

洱源为每一个寻梦的现代人，保存了一份世外桃园的美景。

洱源向每一个走近这里的现代人，展开她纯美多情的笑容。

洱源让每一个走进这里的现代人，永远记住他去过一个地方，那个地方的名字叫——洱源。

PREFACE

An old saying goes like this: The highest good is like that of water, hold world with great virtue.

Seeing the vast water of lake Erhai surging ahead, you are sure to wonder what makes the splendid sights of the plateau pearl. You have certainly known that many a little makes a mickle, and many brooklets make lakes and seas. However, you are more willing to witness personally such a process: how trickles make tiny streams, how tiny streams make brooks, how brooks make rivers and how rivers make seas. More than thirty kilometers north of lake Erhai, there is such a place where the reeds and rushes are deeply green, and the white dew is turned into hoarfrost; where water generates wood and all is at ease and in harmony; where neither the noises and clamors of the commercial society nor the fatigue and bewilderment of the modern people can be found. With her intelligent mountains and water, she nurtures her sons and daughters one generation after another. In the ever opening days, she is welcoming more and more guests from afar all over the country and the world. That place is called Eryuan.

Eryuan, namely, "source of lake Erhai", what a pleasant and sonorous, appropriate and poetic name it is. More than 70% of the lake Erhai water originates from here. Located north of Dali state, it covers an area of 2533km², with a population of 275,000. There live 27 nationalities including Han, Bai, Yi, Hui, Lisu, Naxi, Zang, etc. She is home to not only beautiful landscape sceneries and rich natural and human resources but also long history and culture.

In here, you can hear the legend of "the fairy kingdom" of the source of lake Erhai, you can see "the living fossil of Bai nationality folk dance" as well as the world famous "Bai nationality Suona art". This is really an earthly paradise. Wandering where "the fairies sing", drinking the tasty milk of "the land of dairy cattle", chewing delectable plums of "the land of plums", occasionally the flavor of "the land of orchid" fills your nose and eyes. If it were not here, you would hardly appreciate that you could become a son of the nature so easily. If you are hungry, you may eat several spa-boiled eggs of "the land of thermal springs" or cook a dairy fan. If you want to abandon yourself to the mountains and water, you may row a boat in "the inundated wonderland", or have a break in the "land of pears" or angle for fish by Cibi lake. You are believed to get the delight of approaching nature instead of just several big fishes.

In addition, Eryuan is especially noted for its abundant resources. The major minerals are rock salt, coal, pink marble, diatomite, spongy titanium. Agricultural crops focus on rice, corn, flue-cured tobacco, horsebean, wheat, garlic and rape. It produces prolifically plums, pawpaw, walnuts, chestnuts and other natural economic plants. Flowers are most known for orchid and rhododendron. Eryuan is like spring all the year round. When you are going upstream in search of the source of lake Erhai, you will at times indulge in a joyous scene in spring.

Whoever comes to Eryuan will feel its thermal spring the most unforgettable. Within its range of 60km², there scatter four thermal areas, among which Jiuqitai spring is the most famous. Currently, led by Dali geothermal state, extraordinary achievements have been made in developing geothermal resources. A paradise of "omnipresent springs and misty fairyland" on earth takes shape.

Eryuan preserves a kind of superlunary scenery for every modern person who seeks a dream.

Eryuan shows her pretty and amorous smiles to every modern person who comes near here.

Eryuan lets every modern person who enters here remember a place he has visited forever. That place is called Eryuan.
