 - 1.3.2 Strengthen legislation, strict enforcement of law, and severely punish those who violate the law and discipline
 - 1.3.3 Reconstruct social moral system

Chapter two Laws and regulations concerning pesticides contained in foodstuff and management of veterinary medicament

- 2.1 Legal system of pesticide management
 - 2.1.1 Overview of the legal system of pesticide management

- 2.1.2 Legislative objectives and tasks of laws and regulations on pesticide management
- 2.1.3 Relevant legal systems of pesticide management
- 2.1.4 Legal responsibilities for violation of pesticide management
- 2.2 Legal system of veterinary medicament management
 - 2.2.1 Overview of the legal system of veterinary medicament management
 - 2.2.2 Legal objectives and tasks of laws and regulations of veterinary medicament management
 - 2.2.3 Basic legal system of veterinary medicament management
 - 2.2.4 Legal responsibilities for violation of veterinary medicament management

Chapter three Laws and regulations of safety management of feedstuffs and additives

- 3.1 Objectives and tasks of laws and regulations on feedstuffs and feed additives administration
 - 3.1.1 Objectives of laws and regulations on feedstuffs and feed additives administration
 - 3.1.2 Tasks of laws and regulations on feedstuffs and feed additives administration
- 3.2 Basic legal systems of feedstuffs and feed additives administration
 - 3.2.1 Definitions of feedstuffs and feed additives
 - 3.2.2 Chief legal systems of feedstuffs and feed additives administration

Chapter four Food safety and quality control regulations

- 4.1 Potential hazard of food
 - 4.1.1 Definition of hazard of food
 - 4.1.2 Food contamination and channels of contamination

- 4.2 Hazard of pathogenic microorganism
 - 4.2.1 Virus contamination of the food
 - 4.2.2 Sources of food virus contamination
 - 4.2.3 Six new pathogenic germs leading to food poisoning
- 4.3 Food safety management
 - 4.3.1 Requirements of food safety management quality system
 - 4.3.2 Verification standard of food safety management system

Chapter five Laws and regulations of farm produce quality and safety

- 5.1 Overview of laws and regulations of farm produce quality and safety
- 5.2 Adjustment scope of Farm Produce Quality Safety Law
 - 5.2.1 Definition of farm produce
 - 5.2.2 Connotation of farm produce quality and safety
 - 5.2.3 Acting body and steps of management
- 5.3 Basic system of farm produce quality and safety
 - 5.3.1 System of farm produce quality and safety management
 - 5.3.2 Risk analysis and evaluation system of farm produce quality and safety
 - 5.3.3 Information distribution system of farm produce quality and safety
 - 5.3.4 Enforcement implementation system of farm produce quality and safety standard
 - 5.3.5 Record system of farm produce production
 - 5.3.6 Parcel and label management system of farm produce
 - 5.3.7 Production place management of farm produce
 - 5.3.8 Market access system of farm produce quality and safety
 - 5.3.9 Supervision and inspection system of farm produce quality and safety

- 5.4 Legal responsibility of farm produce quality safety
 - 5.4.1 Legal responsibilities of those who fail to carry out their duties of supervising farm produce quality safety
 - 5.4.2 Legal responsibilities of examination institution which fakes test result or provides unfaithful test result
 - 5.4.3 Legal responsibilities of illegally emitting or dumping toxic or poisonous materials to the farm produce production place
 - 5.4.4 Legal responsibilities of using materials invested in agriculture
 - 5.4.5 Legal responsibilities of counterfeiting farm produce production record
 - 5.4.6 Legal responsibilities of failing to meet relevant standards of parceling or labelling selling farm produce
 - 5.4.7 Legal responsibilities of failing to meet relevant national mandatory technical norm on the use of freshkeeping agent, preservative and additive
 - 5.4.8 Legal responsibilities of selling prohibited farm produce
 - 5.4.9 Legal responsibilities of misusing farm produce quality label
- 5.5 Subject of law enforcement and other legal responsibilities
 - 5.5.1 Legal responsibilities of administrative subject of law enforcement
 - 5.5.2 Criminal responsibilities for those who violate this law and constitute a crime
 - 5.5.3 Civil compensation liability for producing, selling prohibited farm produce
- 5.6 Notion of environmentally benign food and relevant regulations
 - 5.6.1 Definition of environmentally benign food
 - 5.6.2 Environmentally benign food and its standard
 - 5.6.3 Management of environmentally benign farm produce
 - 5.6.4 Label management of environmentally benign farm produce

- 5.7 Relevant regulations of organic food
 - 5.7.1 Overview of organic food
 - 5.7.2 Technical norm of organic food and Green Barrier farm produce in international trade
 - 5.7.3 Main content of certification management of organic product
 - 5.7.4 Introduction to IFOAM international certification and recognition of organic food

- 5.8 Related regulations of green food
 - 5.8.1 Notion and standard of green food
 - 5.8.2 Legal basis and main content of determining “green” food
 - 5.8.3 Management of “green” food label

- 5.9 Management of transgenic food health

Laws and regulations about fauna and flora health prevention and quarantine

Chapter one Legal animal epidemic diseases

- 1.1 Brief introduction to International Animal Health Law
 - 1.1.1 Brief introduction to International Animal Health Code
 - 1.1.2 Brief introduction to “OIE”
 - 1.1.3 Define terms contained in International Animal Health Code

- 1.2 Category A and Category B epidemic diseases
 - 1.2.1 List of category A animal epidemic diseases
 - 1.2.2 Regulations about Category A animal diseases
 - 1.2.3 Category B animal diseases

Chapter two Laws and regulations about fauna and flora prevention and quarantine

- 2.1 Overview of legal system of fauna and flora prevention and quarantine
- 2.2 Related legal system of fauna and flora prevention and quarantine
 - 2.2.1 Prevention system of animal epidemic diseases
 - 2.2.2 Legal system of agricultural plant quarantine
 - 2.2.3 Legal system of forest insect pest prevention and quarantine of the vegetation in the forest
 - 2.2.4 Legal system of imported and exported animal and plant quarantine
 - 2.2.5 Content related with the draft of Animal Husbandry Law
- 2.3 Emergency Regulations for Significant Animal Epidemic Diseases
 - 2.3.1 Overview of Emergency Regulations for Significant Animal Epidemic Diseases
 - 2.3.2 Operational rules for significant animal epidemic diseases
 - 2.3.3 Liability and punishment standard for illegal activities
 - 2.3.4 Laws and regulations on bird flu prevention and control

Chapter three Legal issues related with food hygiene and safety in WTO

- 3.1 Brief introduction to laws on sanitary and phytosanitary in WTO
 - 3.1.1 Background and significance of SPS Agreement
 - 3.1.2 Main Content and related regulations of SPS Agreement
 - 3.1.3 Observing principles of enacting and implementing SPS Agreement
 - 3.1.4 Function of Committee of SPS Agreement
- 3.2 Relevant international laws and regulations in WTO
 - 3.2.1 WTO and CAC Codex Alimentarius
 - 3.2.2 The international criteria, principles, and suggestions based on in WTO's sanitary and phytosanitary measures

Regulations on food standardization management

Chapter one Standardization and food standard

1.1 Standard and standardization

1.1.1 Define standard and standardization

1.1.2 Grading and classification of standard and standard system

1.2 General basic standard of food and agricultural sideline production processing industry

1.2.1 Standard for terms

1.2.2 Standard of symbol, alias, and mark

1.2.3 Standard of sampling inspection methods

1.2.4 Standard of parcel, transportation and storage

1.2.5 Standard of food sanitation

Chapter two Food standard of China

2.1 Brief introduction to China's food standard

2.1.1 Status quo of China's food standard

2.1.2 Development objectives of food and farm and sideline products standard in the 11th Five-Year Plan period

2.1.3 Brief introduction to revision of edition Food Hygiene Standard

2.1.4 Comparative analysis between food standards of China and those of abroad

2.2 Basic standard of food

2.2.1 Hygienic specifications of food enterprise (GMP)

2.2.2 Health standard of use of food additive

2.2.3 Maximal residue allowance standard for poisonous and toxic materials contained in food

2.3 Standard of food testing method

2.3.1 Standard of microbiology testing method

2.3.2 Standard of food physical and chemical testing method

2.4 Standard of food circulation

2.4.1 Standard of food packaging and container

2.4.2 General rules of prepackaging food label (GB7718 – 2004)

2.4.3 Standard of transportation and storage

2.5 International food standard

2.5.1 ISO

2.5.2 Laws and regulations, and standards of ISO

2.5.3 Food standard of ISO system

Chapter three Standard of quality management system

3.1 Introduction to serial standards of ISO quality management system

3.1.1 Basic content and terms explanation of serial standard of ISO9000

3.1.2 Brief introduction to standard of ISO9000 quality management system

3.1.3 Benefits of ISO9000 certification

3.1.4 General procedures of advancing ISO9000

3.2 Food safety management system of HACCP

3.2.1 Overview of HACCP system

3.2.2 Control software of HACCP

3.2.3 HACCP and food safety

3.2.4 Application of HACCP

3.3 Standard of ISO22000 food safety management system

3.3.1 Standard of ISO22000 food safety management system

- 3.3.2 Characteristics of ISO22000, which are different from HACCP
- 3.3.3 Influence of ISO22000 on global food trade and the corresponding measure

Appendices:

- 1 Protection of intellectual properties in the field of agriculture production technology in China
- 2 Management of food advertisement
