序 | PREFACE

序

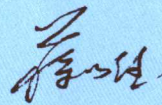

上海是中国最具成长性的城市。自开埠以来，上海和世界经济联系在一起，被中外人士视为最迷人的大都市之一。今天的上海，更充满着无限的活力和蓬勃的生机。凭借其深厚的工业基础、完善的工业配套、强大的科技实力和超前的创新能力，加上日益丰富和发展的现代服务业，上海产品在中国制造业中享有崇高的声誉。

当人类进入21世纪时，世界再一次选择了上海，把举办2010年世界博览会的殊荣赋予这座繁华的城市。上海将抓住这一历史机遇，加快建设世界级城市的步伐，使上海成为国际经济、金融、贸易、航运中心之一，而上海制造业的发展则是一个强劲的基础。

在十六届五中全会精神指引下，坚持科学发展观，按照上海市委、市政府提出的“长期坚持三、二、一产业发展方针，长期坚持二、三产业共同推动经济增长”和“优先发展先进制造业，优先发展现代服务业”的发展战略，上海制造业不断增强自主创新能力，逐步建立以高科技工业为主导、基础原材料工业为依托、现代装备工业为骨干、都市型工业为配套的工业新体系。为此，上海市工业经济联合会、上海市国际贸易促进委员会联手编纂本书，借鉴成功地区的运作模式，将它作为一个产品的推介平台，采用图文并茂、中英文对照的彩印书籍、电子光盘、网上宣传等三种形式同步推出，使其成为海内外机构、企业和人士了解上海产品的指南，进一步推动上海产品走向全国，走向世界，为加强上海企业与国内外企业的经贸合作提供服务。

本书是第一次出版发行，以后每年都将编撰出版新的内容，并将征集更多的企业及产品，还将逐步发展到长江三角洲地区。我们期望本书的出版、发行，能为海内外机构、企业和经贸界人士了解上海产品、投资上海带来便利，为上海的企业拓展国际、国内市场作一份贡献。

上海市政协主席
上海市工业经济联合会会长

2005年11月29日

Preface

Shanghai is China's No. 1 city of growth and development. Since opening a port for foreign trade in 1840, Shanghai has been well connected and integrated with global economy and rated as one of the most attractive metropolis. Today, Shanghai is a city full of vigor and vitality. Relying on its long-established industry fundamentals, complete industrial infrastructure, strong science and technology competence, preceding innovation capabilities together with its rapidly growing modern service industry, Shanghai stands out among China's manufacturing industries with decent reputation by its quality Made-in-Shanghai products.

When entering the 21st century, the world again bestowed Shanghai with the special honor of hosting World Expo 2010. Shanghai will grasp this historic opportunity, speed up its construction toward a world class metropolis, and build itself into one of the world economic, financial, trading and transportation center, for which Shanghai's manufacturing industries would contribute a solid base.

Inspired by the gist of the Fifth Plenary Session of the 16th Central Committee of the Chinese Communist Party, upholding Scientific Development Concept and following the Municipal Government's development strategy of "Adhering in long term to the principle of developing the third, second, and first industries, and adhering in long term to the principle of enhancing the economic growth with the second and third industries together." and "give priority to the developing advanced manufacturing and modern service industries", Shanghai, steadily strengthening its innovating ability, is gradually establishing a new system for its manufacturing industries, with hi-tech as its guideline, raw materials as its base, modern equipment industries as its spine, and metropolis industrial infrastructure as its back-up. With this view Shanghai Industrial Economic Committee and Shanghai International Trade Promotion Committee jointly compiled this book, hoping it can serve as a showcase and guideline for Shanghai products, following the successful operation mode from other region, employing its ample, timely, accurate and practical words and pictures, released in colored printing of bilingual Chinese-English version, CDROM and online webpage as well. We hope this effort can help business organizations, enterprises and individuals home and abroad to better understand Shanghai products, therefore to further promote them to the world, with a regard to better facilitate the economic and trading cooperation between Shanghai and foreign enterprises.

This is the first publication of the book. We will seek to improve and complete it with more and more new updates of products and enterprises from Yangtze Delta Area on yearly base. We hope this book will help the business organizations, enterprises, and individuals home and abroad to better understand Shanghai products and to facilitate their investment in Shanghai, therefore to further promote Shanghai enterprises to the world.
