

Fourteenth Edition

# TEXTBOOK OF MEDICINE

## VOLUME II

*Edited by*

**PAUL B. BEESON, M.D.**

Distinguished Physician, United States Veterans Administration,  
University of Washington School of Medicine;  
Formerly Nuffield Professor of Clinical Medicine, University of Oxford

**WALSH McDERMOTT, M.D.**

Professor of Public Affairs in Medicine, Cornell University Medical College;  
Attending Physician, The New York Hospital; Special Advisor to the  
President, Robert Wood Johnson Foundation

## **Associate Editors**

### **GENETIC PRINCIPLES AND HEREDITARY DISEASES**

**ALEXANDER G. BEARN, M.D.**

Professor and Chairman, Department of Medicine, Cornell University Medical College

### **ENDOCRINE AND METABOLIC DISEASES**

**NICHOLAS P. CHRISTY, M.D.**

Professor of Medicine, Columbia University College of Physicians and Surgeons  
at the Roosevelt Hospital

### **HEMATOLOGIC AND HEMATOPOIETIC DISEASES**

**RALPH L. NACHMAN, M.D.**

Professor of Medicine and Chief of the Division of Hematology,  
Cornell University Medical College

### **DISORDERS OF THE NERVOUS SYSTEM AND BEHAVIOR**

**FRED PLUM, M.D.**

Ann Parrish Titzell Professor and Chairman, Department of Neurology,  
Cornell University Medical College

### **DISEASES OF THE DIGESTIVE SYSTEM**

**MARVIN H. SLEISINGER, M.D.**

Professor and Vice Chairman, Department of Medicine, University of California,  
San Francisco

# Contents

## VOLUME I

### PART I. THE NATURE OF MEDICINE

1. On Becoming a Clinician, *Paul B. Beeson* ..... 1
2. Science, Clinical Medicine, and the Spectrum of Disease,  
*Alvan R. Feinstein* ..... 3
3. The Care of the Patient with Terminal Illness, *W. P. L. Myers* ..... 6
4. Medicine in Modern Society, *Walsh McDermott* ..... 12

### PART II. GENETIC PRINCIPLES

5. Introduction, *Alexander G. Bearn* ..... 15
6. Pedigree Analysis in Inherited Disease, *Alexander G. Bearn* ..... 17
7. Inborn Errors of Metabolism and Molecular Disease,  
*Alexander G. Bearn* ..... 22
8. Polygenic and Multifactorial Inheritance, *Alexander G. Bearn* ..... 26
9. Pharmacogenetics, *Alexander G. Bearn* ..... 27
10. Population Genetics, *Alexander G. Bearn* ..... 28
11. Heredity and Environment, *Alexander G. Bearn* ..... 29
12. Congenital Malformations, *Alexander G. Bearn* ..... 30
- Chromosomes and Their Disorders, *Park Gerald* ..... 31
13. Introduction ..... 31
14. Meiotic and Mitotic Nondisjunction ..... 33
15. Changes in Chromosome Number ..... 34
16. Changes in Chromosomal Structure ..... 35
17. Prevention and Management of Genetic Disease,  
*Alexander G. Bearn* ..... 36
18. Genetic Counseling, *Arno G. Motulsky* ..... 37

### PART III. ENVIRONMENTAL FACTORS IN DISEASE

19. Man and His Environment, *Howard H. Hiatt* ..... 40
20. Chemical Contamination of Water and Air, *Walsh McDermott* ..... 43
- Food Poisoning, *Harold P. Lambert* ..... 47
21. Introduction ..... 47
22. Bacterial Food Poisoning ..... 47
23. Botulism ..... 49

|     |                                                                                                                       |    |
|-----|-----------------------------------------------------------------------------------------------------------------------|----|
| 24. | <i>Poisonous Plants and Animals</i> .....                                                                             | 50 |
| 25. | <i>Chemical Food Poisoning</i> .....                                                                                  | 52 |
| 26. | <i>Common Accidental Poisoning, Robert J. Haggerty</i> .....                                                          | 52 |
|     | <i>Heavy Metal Poisoning, Edmund B. Flink</i> .....                                                                   | 57 |
| 27. | <i>Introduction</i> .....                                                                                             | 57 |
| 28. | <i>Arsenic Poisoning</i> .....                                                                                        | 57 |
| 29. | <i>Lead Poisoning</i> .....                                                                                           | 58 |
| 30. | <i>Mercury Poisoning</i> .....                                                                                        | 60 |
| 31. | <i>Antimony Poisoning</i> .....                                                                                       | 62 |
| 32. | <i>Cadmium Poisoning</i> .....                                                                                        | 62 |
| 33. | <i>Thallium Poisoning</i> .....                                                                                       | 62 |
| 34. | <i>Carbon Monoxide Poisoning, Bertram D. Dinman</i> .....                                                             | 63 |
|     | <i>Disorders Due to Heat and Cold, Paul Webb</i> .....                                                                | 64 |
| 35. | <i>Introduction</i> .....                                                                                             | 64 |
| 36. | <i>Heat Stroke</i> .....                                                                                              | 64 |
| 37. | <i>Heat Syncope</i> .....                                                                                             | 65 |
| 38. | <i>Heat Exhaustion</i> .....                                                                                          | 65 |
| 39. | <i>Hypothermia</i> .....                                                                                              | 65 |
| 40. | <i>Radiation Injury, Niel Wald</i> .....                                                                              | 66 |
| 41. | <i>Electric Shock, Charles E. Billings</i> .....                                                                      | 72 |
|     | <i>Motion Sickness and Problems of Air Travel,</i><br><i>Harold V. Ellingson</i> .....                                | 73 |
| 42. | <i>Motion Sickness</i> .....                                                                                          | 73 |
| 43. | <i>Problems of Air Travel</i> .....                                                                                   | 74 |
|     | <i>Alterations in Atmospheric Pressure, Robert L. Johnson</i> .....                                                   | 75 |
| 44. | <i>Introduction</i> .....                                                                                             | 75 |
| 45. | <i>Direct Effects of Changes in Atmospheric Pressure</i> .....                                                        | 76 |
| 46. | <i>Indirect Effects of Changes in Atmospheric Pressure</i> .....                                                      | 76 |
| 47. | <i>Drowning, Charles J. Stahl</i> .....                                                                               | 80 |
| 48. | <i>Leeches as Agents of Disease (Hirudiniasis),</i><br><i>Philip D. Marsden</i> .....                                 | 82 |

| 60. | Introduction, <i>Henry G. Kunkel</i> .....                                              | 96  |
|     | The Primary Immunodeficiency Diseases, <i>Robert A. Good</i> .....                      | 104 |
| 61. | Introduction .....                                                                      | 104 |
| 62. | X-Linked Infantile Agammaglobulinemia .....                                             | 104 |
| 63. | DiGeorge's Syndrome .....                                                               | 106 |
| 64. | Severe Combined Immunodeficiencies (SCID, Swiss Type Immunodeficiency) .....            | 106 |
| 65. | Severe Combined Immunodeficiencies with Adenosine Deaminase Deficiency .....            | 107 |
| 66. | Thymoma with Immunodeficiency.....                                                      | 107 |
| 67. | Common Variable Immunodeficiency.....                                                   | 107 |
| 68. | Isolated Absence of Immunoglobulins—Selective Deficiency of IgA .....                   | 108 |
| 69. | Immunodeficiency Diseases with Ataxia Telangiectasia and Wiskott-Aldrich Syndrome ..... | 108 |
| 70. | Other Primary Immunodeficiencies.....                                                   | 109 |
| 71. | Serum Sickness, <i>Fred S. Kantor</i> .....                                             | 110 |
| 72. | Drug Allergy, <i>Fred S. Kantor</i> .....                                               | 111 |
| 73. | Allergic Rhinitis (Hay Fever), <i>Fred S. Kantor</i> .....                              | 114 |
| 74. | Vasomotor Rhinitis, <i>Fred S. Kantor</i> .....                                         | 117 |
| 75. | Urticaria, <i>Fred S. Kantor</i> .....                                                  | 117 |
| 76. | Angioneurotic Edema, <i>Fred S. Kantor</i> .....                                        | 119 |
| 77. | Insect Stings, <i>Fred S. Kantor</i> .....                                              | 120 |

## PART V. CONNECTIVE TISSUE DISEASES ("COLLAGEN DISEASES") OTHER THAN RHEUMATOID ARTHRITIS

|     |                                                                           |     |
|-----|---------------------------------------------------------------------------|-----|
| 78. | Introduction, <i>K. Frank Austen</i> .....                                | 121 |
| 79. | Systemic Sclerosis (Scleroderma), <i>Edward D. Harris, Jr.</i> .....      | 124 |
| 80. | Polymyositis and Dermatomyositis, <i>H. Richard Tyler</i> .....           | 128 |
| 81. | Systemic Lupus Erythematosus, <i>Peter H. Schur</i> .....                 | 131 |
| 82. | Periarteritis Nodosa (Polyarteritis Nodosa), <i>K. Frank Austen</i> ..... | 136 |

## PART VI. DISEASES OF THE JOINTS, *Charles L. Christian*

|     |                                                         |     |
|-----|---------------------------------------------------------|-----|
| 83. | Introduction .....                                      | 140 |
|     | Arthritis Associated with Known Infectious Agents ..... | 140 |
| 84. | Bacterial Arthritis.....                                | 140 |
| 85. | Viral Arthritis.....                                    | 141 |

|      |                                                                                                                     |     |
|------|---------------------------------------------------------------------------------------------------------------------|-----|
| 86.  | <i>Other Forms of Infectious Arthritis</i> .....                                                                    | 142 |
| 87.  | Rheumatoid Arthritis .....                                                                                          | 142 |
|      | Variants of Rheumatoid Disease .....                                                                                | 149 |

| 307. | <i>Gnathostomiasis</i> .....                                          | 527 |
| 308. | <i>Oesophagostomiasis</i> .....                                       | 527 |
| 309. | <i>Ascariasis</i> .....                                               | 527 |
| 310. | <i>Toxocariasis (Visceral Larva Migrans)</i> .....                    | 528 |
| 311. | <i>Anisakiasis</i> .....                                              | 529 |
| 312. | <i>Trichuriasis (Whipworm Infection, Trichocephaliasis)</i> .....     | 529 |
| 313. | <i>Enterobiasis (Oxyuriasis, Pinworm or Seatworm Infection)</i> ..... | 530 |
|      | <i>Tissue Nematodes</i> .....                                         | 530 |

|      |                                                         |     |
|------|---------------------------------------------------------|-----|
| 314. | <i>Trichinosis (Trichiniasis, Trichinellosis)</i> ..... | 530 |
| 315. | <i>Angiostrongyliasis</i> .....                         | 532 |
| 316. | <i>Filariasis</i> .....                                 | 533 |

*Tropical Pyomyositis, Philip D. Marsden, 538*

*Eosinophilia in Relation to Helminthic Infections, Philip D. Marsden, 538*

## **PART X. DISORDERS OF THE NERVOUS SYSTEM AND BEHAVIOR**

|      |                                      |     |
|------|--------------------------------------|-----|
| 317. | Introduction, <i>Fred Plum</i> ..... | 540 |
|------|--------------------------------------|-----|

### **SECTION ONE. CONSCIOUSNESS AND ITS DISTURBANCES, 540**

|      |                                                                                  |     |
|------|----------------------------------------------------------------------------------|-----|
| 318. | Introduction, <i>Fred Plum</i> .....                                             | 540 |
| 319. | The Pathogenesis of Stupor and Coma, <i>Fred Plum</i> .....                      | 541 |
| 320. | Delirium and Exogenous Metabolic Brain Disease,<br><i>Jerome B. Posner</i> ..... | 544 |
| 321. | Sleep and Its Disorders, <i>Fred Plum</i> .....                                  | 552 |

### **SECTION TWO. FOCAL DISTURBANCES OF HIGHER NERVOUS FUNCTION, *Norman Geschwind, 555***

|      |                                                |     |
|------|------------------------------------------------|-----|
| 322. | Language, Aphasia, and Related Disorders ..... | 555 |
| 323. | Aphasia .....                                  | 555 |
| 324. | Other Disorders of the Higher Functions .....  | 556 |
| 325. | Memory .....                                   | 557 |

### **SECTION THREE. DEMENTIA, *Paul R. McHugh, 558***

|      |                                         |     |
|------|-----------------------------------------|-----|
| 326. | Introduction .....                      | 558 |
| 327. | Alzheimer's Disease .....               | 560 |
| 328. | Pick's Disease .....                    | 560 |
| 329. | Creutzfeldt-Jakob Disease .....         | 561 |
| 330. | Huntington's Chorea .....               | 561 |
| 331. | Treatment of the Demented Patient ..... | 561 |

### **SECTION FOUR. PSYCHOLOGIC ILLNESS IN MEDICAL PRACTICE, *Paul R. McHugh, 562***

|      |                                                   |     |
|------|---------------------------------------------------|-----|
| 332. | The Concept of Disease in Psychiatry .....        | 562 |
|      | Functional Psychoses .....                        | 563 |
| 333. | Introduction .....                                | 563 |
| 334. | Schizophrenia .....                               | 564 |
| 335. | Manic-Depressive Psychosis .....                  | 567 |
| 336. | Personality Disorders and Neurotic Symptoms ..... | 569 |

### **SECTION FIVE. PSYCHOLOGIC TESTING IN CLINICAL MEDICINE, *Paul R. McHugh, 578***

|      |                    |     |
|------|--------------------|-----|
| 337. | Introduction ..... | 578 |
|------|--------------------|-----|

|                                                                                           |                                                                                              |     |
|-------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|-----|
| 338.                                                                                      | Intelligence .....                                                                           | 578 |
| 339.                                                                                      | Personality .....                                                                            | 579 |
| <b>SECTION SIX. MEDICAL ASPECTS OF SEXUALITY, <i>Harold I. Lief</i>, 581</b>              |                                                                                              |     |
| <b>SECTION SEVEN. DRUG ABUSE, ADDICTION, AND INTOXICATION, 585</b>                        |                                                                                              |     |
| 340.                                                                                      | Introduction, <i>Robert B. Millman</i> .....                                                 | 585 |
| 341.                                                                                      | The Opiates, <i>Robert B. Millman</i> .....                                                  | 586 |
| 342.                                                                                      | Central Nervous System Depressants, <i>Robert B. Millman</i> .....                           | 590 |
| 343.                                                                                      | Central Nervous System Stimulants, <i>Robert B. Millman</i> .....                            | 592 |
| 344.                                                                                      | Cannabis (Marijuana and Hashish), <i>Robert B. Millman</i> .....                             | 594 |
| 345.                                                                                      | Psychedelics, <i>Robert B. Millman</i> .....                                                 | 595 |
| 346.                                                                                      | Miscellaneous Inhalants, <i>Robert B. Millman</i> .....                                      | 596 |
| 347.                                                                                      | Alcohol Abuse and Alcohol-Related Illness,<br><i>Jack H. Mendelson</i> .....                 | 597 |
| 348.                                                                                      | Acute Drug Poisoning, <i>Fred Plum</i> .....                                                 | 602 |
| <b>SECTION EIGHT. PROMINENT NEUROLOGIC SYMPTOMS AND THEIR<br/>MANAGEMENT, 606</b>         |                                                                                              |     |
