Syahrullail Samion

## **Preface**

In the Name of Allah, Most Gracious and Most Merciful.

On behalf of the Faculty of Mechanical Engineering, Universiti Teknologi Malaysia and Akademia Baru Press, the editor would like to thank all the authors that contributed to this proceeding.

The topics covered in this proceeding include application of advanced materials in various engineering fields especially in applied mechanics & design, thermo-fluids, manufacturing process, aeronautics, oceanic, automotive and industrial process.

Because the contributions for this book come from various authors of various backgrounds, who themselves are experienced in their own right, they are responsible towards the contents of their work. Any questions, however, may be directed to the editor to be forwarded to the respective authors.

Finally, all of these chapters are presented as to share the knowledge and research findings with the readers. The editor hopes that this proceeding serves its purpose in disseminating knowledge and creating enthusiasm among the readers in the area of Mechanics and Applied research.

### **Chapter 3: Applied Mechanics, Mathematical Modelling, Algorithms, Numerical Methods and Simulation**

|                                                                                                                  |     |
|------------------------------------------------------------------------------------------------------------------|-----|
| <b>Strong Shielding Interaction Analysis Using J-Integral</b>                                                    |     |
| R. Daud, M.S.A. Majid, M. Afendi, N.A.M. Amin, A.K. Ariffin and S. Abdullah.....                                 | 511 |
| <b>Stochastic Homogenized Properties for Honeycomb Microstructure Based on First Order Perturbation</b>          |     |
| K.S. Basaruddin .....                                                                                            | 516 |
| <b>Mathematical Models for Productivity Rate of Automated Lines with Reliability Attributes of Mechanisms</b>    |     |
| R. Usubamatov and T.C. Sin.....                                                                                  | 521 |
| <b>Analysis of Soil Nailing under Earthquake Loading in Malaysia Using Finite Element Method</b>                 |     |
| M.F. Mohammad Zaki, W.A.A. Wan Ahmad, A. Ayob and T.K. Ying.....                                                 | 526 |
| <b>Modelling of Flow Structure and Pollutant Dispersion in Symmetric Street Canyon</b>                           |     |
| N.H.M. Yusoff and N.A. Che Sidik.....                                                                            | 530 |
| <b>Finite Element Analysis on Brake Disc of an Educational All-Terrain-Vehicle</b>                               |     |
| M.Z. Hassan, A.M. Fudhail and M.A. Salim .....                                                                   | 535 |
| <b>Computational Analysis of Nanofluids in Vehicle Radiator</b>                                                  |     |
| N.A. Che Sidik, N.G. Yen Cheong and A. Fazeli.....                                                               | 539 |
| <b>The Deformation of Human Eyeball when Undergoing Scleral Buckling</b>                                         |     |
| Z. Ismail, A. Fitt and C. Please .....                                                                           | 544 |
| <b>New Phrase Chunking Algorithm for Myanmar Natural Language Processing</b>                                     |     |
| M.P. Aung and A.L. Moe.....                                                                                      | 548 |
| <b>Mathematical Modeling on Thermal Energy Storage Systems</b>                                                   |     |
| N.A.M. Amin, M.A. Said, A. Mohamad, M.S. Abdul Majid, M. Afendi, R. Daud, F. Bruno and M. Belusko .....          | 553 |
| <b>Implementation of Ant Colony Optimization Algorithm to Minimize Cost of Turning Process</b>                   |     |
| M.F.F. Ab Rashid, N.M.Z. Nik Mohamed, A.N. Mohd Rose, S.A. Che Ghani and W.S. Wan Harun .....                    | 558 |
| <b>Model Sensitivity Test of Large Eddy Simulation for Wind Flow and Pollutant Dispersion in a Street Canyon</b> |     |
| A.W.M. Yazid, N.A. Che Sidik, S.M. Salim and S. Mansor .....                                                     | 562 |
| <b>A Narrative Review of Morphology of Cancellous Bone at Different Human Anatomy - Methods and Parameters</b>   |     |
| A.A.R. Rabiatal, S.J. Fatihhi, M.N. Harun, M.R.A. Kadir and S. Ardiyansyah.....                                  | 567 |
| <b>Effect of Surface Roughness Parameters and Surface Texture for Reduced Friction</b>                           |     |
| S. Syahrullail and N. Nuraliza.....                                                                              | 572 |
| <b>Calculation of Axial Loads on Columns by Tributary Area Method and Finite Element Method</b>                  |     |
| M.F. Mohammad Zaki, M.Z.A. Mohd Zahid, A. Ayob and T.C. Fang .....                                               | 576 |

|                                                                                                                                                                |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Variation of Stress Intensity Factor and Crack Distance Length for Double Edge Crack in Human Femur Bone</b>                                                |     |
| N.A. Md Zain, R. Daud, W.Z.A.W. Muhamad, K.S. Basaruddin, Y. Bajuri,<br>S.A. Abdul Halim and N.N. Mansor .....                                                 | 580 |
| <b>Numerical Simulation of Stress Shielding Induced by Crack Interaction in Human Phalanx Bone</b>                                                             |     |
| S.A. Abdul Halim, N.A. Md Zain, N.N. Mansor, R. Daud and Y. Bajuri .....                                                                                       | 584 |
| <b>The Effect of Trabecular Bone on the Mechanical Response of Human Mandible with Implant</b>                                                                 |     |
| K.S. Basaruddin and R. Daud .....                                                                                                                              | 588 |
| <b>rHDPE/Wood Fiber Composites: Effect of Maleic Anhydride on Tensile Properties and Morphology Analysis</b>                                                   |     |
| M.P.M. Hanif, A.G. Supri and Z. Firuz .....                                                                                                                    | 592 |
| <b>Enhancing Rollover Prevention and Vehicle Stability of Heavy Vehicle under Disturbance Effect</b>                                                           |     |
| F. Yakub and Y. Mori .....                                                                                                                                     | 596 |
| <b>Design Studies and Analysis of Single Phase 8S-12P Field Excitation Flux Switching Motor</b>                                                                |     |
| Z.A. Husin, E. Sulaiman, F. Khan, M.M.A. Mazlan and M.F. Omar .....                                                                                            | 601 |
| <b>Dynamic System Modeling of Flexible Beam System Using Multi-Objective Optimization Differential Evolution Algorithm</b>                                     |     |
| M.Z. Zakaria, M.S. Saad, H. Jamaluddin and R. Ahmad .....                                                                                                      | 605 |
| <b>Experimental Investigation and FE Stress Analysis of Adhesive T-Joint with and without Crack in Fluidization Bed</b>                                        |     |
| A. Nor, M. Afendi, M.S. Abdul Majid, B. Izzawati, S. Nurhashima and A.R. Abdullah .....                                                                        | 609 |
| <b>Analysis of Raft Foundation with EPS Geofoam for Earthquake Resistant</b>                                                                                   |     |
| M.F. Mohammad Zaki, M.F. Ramli, A. Ayob and M.T. Ahmad .....                                                                                                   | 613 |
| <b>Strength Classification of Aras as Fast-Growing Indigenous Species Timber in Sarawak</b>                                                                    |     |
| G. Ismaili, K.K. Abdul Rahim, A. Duju, I. Openg and Z. Ismaili .....                                                                                           | 617 |
| <b>Air Flow Analysis in Square Duct Bend</b>                                                                                                                   |     |
| M.N. Musa and M.N.H. Mukhtar .....                                                                                                                             | 622 |
| <b>An Initial Study of the Effect of Minimum Quantity Lubricant of SiO<sub>2</sub> Nanoparticle with PEG on Surface Roughness during Milling of Mild Steel</b> |     |
| A.N. Mohd Khalil, A.N.M. Khalil, A.I. Azmi and M.A.M. Ali .....                                                                                                | 627 |
| <b>Application of Flexural Timber Reinforcement in Light Concrete Beam Structure</b>                                                                           |     |
| M.A. bin Zubir and N.J. Mohamad .....                                                                                                                          | 631 |
| <b>FE Modeling and Analysis of Structural Adhesive T-Joint at Elevated Temperature</b>                                                                         |     |
| B. Izzawati, M. Afendi, S. Nurhashima, A. Nor, A.R. Abdullah and R. Daud .....                                                                                 | 635 |
| <b>The Effects of Winding Angles and Elevated Temperatures on the Crushing Behaviour of Glass Fibre/Epoxy Composite Pipes</b>                                  |     |
| S.N. Fitriah, M.S. Abdul Majid, R. Daud and M. Afendi .....                                                                                                    | 639 |
| <b>Physical and Mechanical Properties of Industrial Waste Modified Mortar</b>                                                                                  |     |
| M.S. Norsuzailina, I. Yakub and H. Jau .....                                                                                                                   | 643 |
| <b>Influence of Mortar Incorporating Silica Based Waste Material on the Formation of C-S-H and Mechanical Strength Properties</b>                              |     |
| N. Tamanna, M.S. Norsuzailina, I. Yakub, D.T.C. Lee and E.F. Ahmad .....                                                                                       | 647 |
| <b>Determine Aerodynamic Characteristics for FX63-137 Aerofoil by Using Subsonic Wind Tunnel</b>                                                               |     |
