---

The first edition of this index of *Abbreviations in Environmental Protection* is an adjunct and supplement to the longer, more comprehensive edition of *Anglo-American and German Abbreviations in Science and Technology*. Approximately 40,000 abbreviations from the same linguistic areas have been compiled together with their meanings. They pertain to environmental protection and areas with related problems: biology, chemistry, agriculture, medicine, and physics, among others. The abbreviations stand for terms, raw materials, public and private organizations as well as periodicals.

Diese erste Ausgabe eines Verzeichnisses der *Abkürzungen aus dem Bereich Umweltschutz* ist eine Ergänzung und Nachtrag zu der umfassenderen, großen Ausgabe *Anglo-amerikanische und deutsche Abkürzungen in Wissenschaft und Technik*. Aus den gleichen Sprachräumen wurden ungefähr 40.000 Abkürzungen mit ihren Auflösungen gesammelt zum Bereich Umweltschutz, einschließlich der angrenzenden, mit den Problemen des Umweltschutzes zusammenhängenden Gebiete der Biologie, Chemie, Landwirtschaft, Medizin, Physik u. a. Es sind Abkürzungen von Begriffen, Grundstoffen, staatlicher und privater Organisationen und von Zeitschriften.

## Explanation of symbols

[ ] square brackets: the fully written out form of abbreviation varies. Both wording with and without brackets is to be found.

For example:

AL Amber [glow] Lamp  
= Amber Lamp  
or  
Amber glow Lamp

( ) round brackets: the content of the bracket explains the usage of the abbreviation within a particular geographical, technical or other field.

For example:

AL Albanien (Kfz)  
= country identification symbol  
for motor vehicles

Dokl. Phys. Chem. Doklady Physical  
Chemistry (journ.) (US)  
= Code of a US journal

EIA Equine Infectious Anemia (US)  
= common form of abbreviation  
in USA

## Zeichenerklärung

[ ] eckige Klammer: die voll ausgeschriebene Form der Abkürzung variiert. Gebräuchlich ist sowohl der Wortlaut ohne Klammerinhalt als auch einschließlich Klammerinhalt.

Beispiel:

AL Amber [glow] Lamp  
= Amber Lamp  
oder  
Amber glow Lamp

( ) runde Klammer: der Inhalt der Klammer erklärt die Verbreitung der Abkürzung innerhalb eines bestimmten geographischen, technischen oder sonstigen Bereichs.

Beispiel:

AL Albanien (Kfz)  
= Länderkennzeichen bei Kraft-  
fahrzeugen

Dokl. Phys. Chem. Doklady Physical  
Chemistry (journ.) (US)  
= Code einer US-Zeitschrift

EIA Equine Infectious Anemia (US)  
= in USA gebräuchliche Abkürzung

A	Abfluß[menge]	AA	Amino Acid
