<b>The Metabolism of Vitamin B<sub>12</sub> in Pernicious and Other Megaloblastic Anemias.</b> <i>By SOLOMON ESTREN, EUGENE A. BRODY, and LOUIS R. WASSERMAN, Department of Hematology, The Mount Sinai Hospital, New York</i> . . . . .	11
Technics of Study . . . . .	12
Measurement of Vitamin B <sub>12</sub> in Body . . . . .	12
Radioactive Technics . . . . .	14
Absorption . . . . .	18
Intestinal Absorption . . . . .	18
Absorption by Other Routes . . . . .	20
Transport . . . . .	20
Summary . . . . .	25
Distribution, Storage, and Excretion . . . . .	25
Role in Cellular Metabolism . . . . .	28
Role in Megaloblastic Anemias . . . . .	30
Nutritional Macrocytic Anemia . . . . .	31
Pernicious Anemia . . . . .	32
Total Gastrectomy . . . . .	33
Congenital Absence of Intrinsic Factor . . . . .	33
Posterolateral Sclerosis Without Anemia . . . . .	33
Primary Malabsorption Syndrome . . . . .	34
Intestinal Blind Loop Syndrome . . . . .	35
Diphyllobothrium Latum Anemia . . . . .	36
Pernicious Anemia of Pregnancy . . . . .	37
Megaloblastic Anemia of Infancy . . . . .	37
Megaloblastic Anemia of Hepatic Disease . . . . .	38
Megaloblastic Anemia Due to Drugs . . . . .	38
References . . . . .	38

**Corticosteroids and Infections.** *By EDWARD H. KASS and MAXWELL FINLAND, Thorndike Memorial Laboratory, Second and Fourth (Harvard) Medical Services, Boston City Hos-*

<i>pital, and Department of Medicine, Harvard Medical School, Boston . . . . .</i>	45
Role of Adrenocortical Hormones in Management of Infectious Diseases . . . . .	48
Evidence for Depression of Host Resistance by Corticosteroids . . . . .	49
Use of Corticosteroids with Antimicrobial Agents in Infection . . . . .	53
Evidence of Beneficial Effects from Corticosteroids . . . . .	57
Corticosteroids and Inflammation and Repair . . . . .	67
Corticosteroids and Antibody Response . . . . .	69
Corticosteroids and Reticuloendothelial Function . . . . .	71
Conclusions . . . . .	73
References . . . . .	73
 <b>Primary and Secondary Hyperparathyroidism. By B. E. C. NORDIN, <i>The University Department of Medicine, Gardiner Institute, Western Infirmary, Glasgow, Scotland</i> . . . . .</b>	81
Actions of Parathyroid Hormone . . . . .	81
Phosphaturic Action . . . . .	82
Calcemic Action . . . . .	87
Hormone or Hormones? . . . . .	89
Stimulus to Parathyroids . . . . .	90
Diagnosis of Primary Hyperparathyroidism . . . . .	91
Syndromes of Secondary Hyperparathyroidism . . . . .	94
In Vitamin D Deficiency . . . . .	94
In Glomerular Failure . . . . .	96
Primary and Secondary Hyperparathyroidism in Renal Failure . . . . .	100
References . . . . .	101
 <b>Hereditary Defects in Clotting Mechanisms. By OSCAR D. RATNOFF, <i>Department of Medicine, Western Reserve University School of Medicine, and University Hospitals, Cleveland, Ohio</i> . . . . .</b>	107
Physiology of Blood Coagulation . . . . .	109
Some Comments on Laboratory Procedures . . . . .	114
Classic Hemophilia . . . . .	120
Hereditary Nature of Hemophilia . . . . .	120
Nature of Defect . . . . .	125
Clinical Picture . . . . .	128
Diagnosis . . . . .	133

Treatment . . . . .	134
Circulating Anticoagulants . . . . .	140
Hemophilia in the Female . . . . .	142
Vascular Hemophilia . . . . .	143
Christmas Disease . . . . .	145
Plasma Thromboplastin Antecedent Deficiency . . . . .	149
Tetartohemophilia: A Fourth Plasma Thrombo-Plastin Com- ponent Deficiency . . . . .	152
Hageman Trait . . . . .	152
Prothrombin Deficiency . . . . .	154
Parahemophilia . . . . .	154
Deficiencies of "Serum" Factors: Pro-SPCA and Stuart Factor	158
Congenital Afibrinogenemia . . . . .	161
Congenital Hyperheparinemia . . . . .	163
Congenital Thrombocytopenia . . . . .	163
Combined Defects . . . . .	164
L'envoi . . . . .	166
References . . . . .	166

### **Etiology and Pathogenesis of Glomerulonephritis. By WILLARD**

**C. SCHMIDT and CHARLES H. RAMMELKAMP, JR.,** *Departments of Pediatrics and Medicine, Cleveland City Hospital, and Department of Preventive Medicine, Western Reserve University, Cleveland, Ohio* . . . . .

	181
Natural History . . . . .	182
Problems Presented by Variations in Disease . . . . .	183
Clinical Features . . . . .	183
Etiology: Bacteriologic and Serologic Studies . . . . .	186
Pathology . . . . .	191
Experimental Nephritis . . . . .	193
Heterologous Protein Nephritis . . . . .	193
Nephrotoxic Renal Disease . . . . .	195
Experimental Nephritis After Infection of Streptococci or Streptococci-Kidney Tissue Mixtures . . . . .	200
References . . . . .	201

### **Pathophysiology of Carcinoid Tumors. By DAVID M. SPAIN,** *Beth-El Hospital, Brooklyn, New York, and Columbia Uni- versity College of Physicians and Surgeons, New York* . . . . .

Enterochromaffin (Argentaffin) Cells . . . . .	207
--	-----

Carcinoid Tumor . . . . .	209
Malignancy . . . . .	212
Secretion . . . . .	213
Local Effect of Carcinoid of Ileum . . . . .	214
Malignant Carcinoid Syndrome . . . . .	215
Cardiovascular Changes . . . . .	218
Pharmacology and Distribution of Serotonin . . . . .	221
Serotonin and Cerebral Function . . . . .	223
Serotonin and Certain Blood Dyscrasias . . . . .	226
Serotonin and Renal Function . . . . .	226
References . . . . .	227
 <b>Some Aspects of Disordered Renal Tubular Function. By S. W. STANBURY, <i>Department of Medicine, University of Manchester, England</i></b>	
Renal Amino-Aciduria . . . . .	231
Cystinuria (Cystinylsinuria; Cystine Lithiasis) . . . . .	233
Cystine Storage Disease with Amino-Aciduria (Lignac-Fanconi Syndrome) . . . . .	234
Childhood Disorders Simulating Lignac-Fanconi Syndrome . . . . .	236
Fanconi Syndrome in Older Children and in Adults . . . . .	241
Osseous Disorders Complicating Multifactorial Tubular Defects . . . . .	243
Functional Renal Tubular Disorders Apparently Caused by Heavy Metals Poisoning . . . . .	245
Renal Phosphaturia . . . . .	248
Potassium Deficiency and Renal Tubular Disorders . . . . .	250
References . . . . .	261

 <b>Subject Index . . . . .</b>	 261

# ADVANCES IN INTERNAL MEDICINE

VOLUME IX

## ADVANCES IN INTERNAL MEDICINE

VOLUMES I, II, and VII (out of print)

### VOLUME III

- USE OF ANTI-LEWISITE (BAL) IN TREATMENT OF POISONING BY ARSENIC, MERCURY AND OTHER METALS, *by W. T. Longcope and J. A. Luetscher, Jr.*
- CURRENT CONCEPTS OF HEMOLYTIC ANEMIAS, *by S. Estren*
- HOST, DRUG AND PARASITE FACTORS THAT MODIFY THE THERAPEUTIC ACTIVITY OF PENICILLIN, *by H. Eagle*
- STREPTOMYCIN: DEVELOPMENT AND STATUS OF ITS USE IN THE TREATMENT OF TUBERCULOSIS, *by H. C. Hinshaw and W. H. Feldman*
- HISTOPLASMOSIS, *by H. Pinkerton*
- TREATMENT OF HYPERTHYROIDISM WITH ANTITHYROID COMPOUNDS, *by E. B. Astwood*
- DIAGNOSIS OF DISEASE BY ENZYMIC METHODS, *by C. Huggins and P. Talalay*
- PLASMA FRACTIONATION, *by C. A. Janeway*
- THE MECHANISM OF ACCLIMATIZATION TO HEAT, *by J. W. Conn*
- MODERN THERAPEUTIC AGENTS IN NEUROLOGIC CONDITIONS, *by H. H. Merritt*

### VOLUME IV

- NITROGEN MUSTARDS IN THE TREATMENT OF NEOPLASTIC DISEASE, *by D. A. Karnofsky*
- USE OF RADIOACTIVE ISOTOPES IN MEDICINE, *by L. R. Wasserman and R. Loevinger*
- BRUCELLOSIS, *by A. I. Braude and W. W. Spink*
- ADVANCES IN NEUROMUSCULAR DISORDERS, *by D. McEachern and R. Rabinovitch*
- USE OF SODIUM DEPLETION IN THERAPY, *by W. Dock*
- CLINICAL USE OF ANTICOAGULANTS, *by J. E. Estes and E. V. Allen*
- HEPATITIS AND CIRRHOSIS OF THE LIVER, *by A. J. Patek, Jr.*
- HEPATIC TESTS, *by H. Popper and F. Schaffner*
- THE VASCULAR PHYSIOLOGY OF HYPERTENSION, *by G. W. Pickering*

### VOLUME V

- DISEASES OF THE PREGNANT WOMAN AFFECTING THE OFFSPRING, *by M. H. Bass*
- CATHETERIZATION OF THE HEART, *by R. J. Bing*
- PORTAL HYPERTENSION AND ITS TREATMENT, *by A. H. Blakemore*
- THE ANEMIA OF INFECTION: XVII. A REVIEW, *by G. E. Cartwright and M. M. Wintrobe*
- GOUT, A DERANGEMENT OF PURINE METABOLISM, *by A. B. Gutman and T. F. Yu*

CLINICAL ASPECTS OF GANGLIONIC AND ADRENERGIC BLOCKING AGENTS, *by*  
*R. H. Lyons and V. L. Love*  
ASPECTS OF THE INFLUENZA PROBLEM, *by* *J. Mulder*  
EXPERIENCES WITH ADRENOCORTICOTROPIC HORMONE (ACTH) AND CORTI-  
SONE, *by* *C. Ragan*  
ABNORMAL PROTEINS IN MYELOMA, *by* *J. Waldenström*

## VOLUME VI

UROPEPSIN, *by* *D. C. Balfour, Jr.*  
GLUCAGON, THE HYPERGLYCEMIC-GLYCOGENOLYTIC HORMONE OF THE PAN-  
CREAS, *by* *P. P. Foa*  
DIAGNOSIS OF CANCER OF INTERNAL ORGANS BY PAPANICOLAOU TECHNIC, *by*  
*R. M. Graham*  
SPATIAL VECTORCARDIOGRAPHY, *by* *A. Grishman*  
THE L.E. CELL PHENOMENON, *by* *M. M. Hargraves*  
BIOPSY STUDIES OF THE LIVER AND KIDNEY, *by* *P. Iversen, M. Bjørneboe, and*  
*N. B. Krarup*  
THROMBOTIC THROMBOCYTOPENIC PURPURA, *by* *K. Singer*  
PORPHYRIA, *by* *C. J. Watson*  
DIAPHRAGMATIC HERNIA, *by* *S. Weintraub*  
THE DETERMINATION OF INSULIN IN BLOOD, *by* *A. F. Willebrands and J. Groen*

## VOLUME VIII

DISORDERS OF ESOPHAGEAL MOTOR FUNCTIONS, *by* *Franz J. Ingelfinger*  
PEPTIC ULCER: REVIEW OF RECENT LITERATURE PERTAINING TO ETIOLOGY,  
PATHOGENESIS, AND CERTAIN CLINICAL ASPECTS, *by* *Joseph B. Kirsner,*  
*Robert S. Kassiel, and Walter L. Palmer*  
DIGITALIS AND POTASSIUM, *by* *Bernard Lown*  
ALDOSTERONE, *by* *John A. Luetscher, Jr.*  
ADRENALECTOMY AND HYPOPHYSECTOMY IN THE TREATMENT OF ADVANCED  
CANCER, *by* *Olof H. Pearson*  
CHEMOTHERAPY OF TUBERCULOSIS, *by* *William F. Russell, Jr., Sidney H.*  
*Dressler, and Gardner Middlebrook*  
TRACE METALS AND CHRONIC DISEASES, *by* *Henry A. Schroeder*  
HEMOGLOBINS AND DISEASE, *by* *R. Janet Watson*
