Introduction

After serving as co-editors of the YEAR BOOK OF PATHOLOGY AND CLINICAL PATHOLOGY for the past 8 years, Rex Conn and I have decided to relinquish this responsibility so that we can devote more time to other academic activities. The YEAR BOOK is an important educational tool because it provides yearly in a single, condensed volume the most recent significant observations in laboratory medicine. For this reason, editing the YEAR BOOK has been a unique challenge and a fulfilling and gratifying experience.

I am most grateful for the generous and invaluable assistance of my associate editors, Rene Boudreau, Managing Editor, and the YEAR BOOK staff during my tenure as Editor.
