CURRENT

Pediatric Diagnosis & Treatment

15th Edition

Edited by

William W. Hay, Jr., MD

Professor, Department of Pediatrics

Director, Training Program in Neonatal-Perinatal Medicine

Director, Neonatal Clinical Research Center

Section of Neonatology and the Division of Perinatal Medicine and Research

University of Colorado School of Medicine and The Children's Hospital, Denver

Anthony R. Hayward, MD, PhD

Professor, Departments of Pediatrics and Immunology

University of Colorado School of Medicine and The Children's Hospital, Denver

Myron J. Levin, MD

Professor, Departments of Pediatrics and Medicine

Head, Section of Pediatric Infectious Diseases

University of Colorado School of Medicine and The Children's Hospital, Denver

Judith M. Sondheimer, MD

Professor, Department of Pediatrics

Head, Section of Pediatric Gastroenterology, Hepatology, and Nutrition

University of Colorado School of Medicine and The Children's Hospital, Denver

and Associate Authors

The Department of Pediatrics at the University of Colorado School of Medicine
is affiliated with The Children's Hospital of Denver, Colorado.

Notice

Medicine is an ever-changing science. As new research and clinical experience broaden our knowledge, changes in treatment and drug therapy are required. The authors and the publisher of this work have checked with sources believed to be reliable in their efforts to provide information that is complete and generally in accord with the standards accepted at the time of publication. However, in view of the possibility of human error or changes in medical sciences, neither the authors nor the publisher nor any other party who has been involved in the preparation or publication of this work warrants that the information contained herein is in every respect accurate or complete, and they disclaim all responsibility for any errors or omissions or for the results obtained from use of the information contained in this work. Readers are encouraged to confirm the information contained herein with other sources. For example and in particular, readers are advised to check product information sheet included in the package of each drug they plan to administer to be certain that the information contained in this work is accurate and that changes have not been made in the recommended dose or in the contraindications for administration. This recommendation is of particular importance in connection with new or infrequently used drugs.

Endocrine Disorders

Preface

The 15th edition of *Current Pediatric Diagnosis & Treatment* features practical, up-to-date, well-referenced information on the care of children from birth through infancy and adolescence. *CPDT* emphasizes the clinical aspects of pediatric care while also covering the important underlying principles. Its goal is to provide a guide to diagnosis, understanding, and treatment of the medical problems of all pediatric patients in an easy-to-use and readable format.

INTENDED AUDIENCE

Like all Lange medical books, *CPDT* provides a concise yet comprehensive source of current information. Students will find *CPDT* an authoritative introduction to pediatrics and an excellent source for reference and review. Residents in pediatrics (and other specialties) will appreciate the detailed descriptions of diseases and diagnostic and therapeutic procedures. Pediatricians, family practitioners, nurses, and other health-care providers who work with infants and children also will find *CPDT* a useful reference on management aspects of pediatric medicine.

COVERAGE

Forty-two chapters cover a wide range of topics, including neonatal medicine, child development and behavior, emergency and critical care medicine, and diagnosis and treatment of specific disorders according to major problems and organ systems. A wealth of tables and figures summarize such important information as acute and critical care procedures in the delivery room, the office, the emergency room, and the critical care unit; anti-infective agents; drug dosages; immunization schedules; differential diagnosis; and the development screening tests. The final chapter is a handy guide to normal laboratory values.

NEW TO THE EDITION

The 15th edition of *CPDT* remains an up-to-date, comprehensive pediatric treatise, but this edition is *the most comprehensive revision to date* and a significant improvement of this classic book. The editors and contributing authors have continued to substantially revise the book, providing recent medical advances and increasing the book's emphasis on ambulatory care, acute critical care, and the practical approach to pediatric disorders. As editors and practicing pediatricians, we have tried to ensure that each chapter reflects the needs and realities of day-to-day practice.

New Chapters: Three new chapters deal with some of the most important and timely subjects in pediatric medicine today:

- 2. Child Development & Behavior
- 5. Eating Disorders
- 24. Rehabilitation & Sports Medicine

Chapter Revisions: Eight chapters have been extensively revised, with new authors added in several cases, reflecting substantial new information in each of their areas of pediatric medicine. These chapters are as follows:

1. The Newborn Infant
8. Office Pediatrics
9. Immunization
16. Ear, Nose, & Throat
18. Cardiovascular Diseases
28. Immunodeficiency
36. Human Immunodeficiency Virus (HIV) Infection

All other chapters are substantially revised and references have been updated. Fifteen new authors have been added to help with the revisions.

ACKNOWLEDGMENTS

Karen Goselin and Rebecca Walter have provided invaluable assistance in our central office, helping to assure that all chapters were in order and processed in a timely fashion. Their excellent work was above and beyond the call of their normal duties, and we appreciate how much they have made our work on *CPDT* go so smoothly.

Evaluation of the Febrile Infant & Toddler 212	
Growth Deficiency 213	
9. Immunization215
Roberta L. DeBiasi, MD, & Eric A. F. Simoes, MD, DCH	
Standards for Pediatric Immunization Practices 215	
Safety of Immunization 215	
The Composition of Immunizing Agents 219	
Poliomyelitis 227	
Vaccinations for Special Situations 237	
Passive Prophylaxis 246	
Legal Issues in Immunization 248	
10. Normal Childhood Nutrition & Its Disorders249
Nancy F. Krebs, MD, MS, & K. Michael Hambidge, MD, BChir, ScD	
Nutritional Requirements 249	
Infant Feeding 262	
Intravenous Nutrition 267	
11. Emergencies, Injuries, & Poisoning275
F. Keith Battan, MD, & Richard C. Dart, MD, PhD	
Emergencies & Injuries 275	
Advanced Life Support for Infants & Children 275	
Emergency Pediatric Drugs 281	
Approach to the Seriously Ill Child 281	
Approach to the Pediatric Trauma Patient 283	
Head Injury 287	
Burns 289	
Hypothermia 291	
Submersion Injuries 292	
Bites: Animal & Human 292	
Poisoning 293	
Management of Specific Common Poisonings 298	
12. Critical Care319
Todd C. Carpenter, MD, Emily L. Dobyns, MD, Anthony G. Durmowicz, MD, Margaret A. Ferguson, MD & Kurt R. Stenmark, MD	
Acute Respiratory Failure 319	
Mechanical Ventilation 323	
Adult Respiratory Distress Syndrome 325	
Asthma (Life-Threatening) 328	
Postoperative Cardiac Management 330	
Shock 331	
Indications for Central Venous & Arterial Cannulation 334	
Cerebral Edema 337	
Ethical Considerations in Intensive Care 339	
Nutritional Support after Injury 340	
Pain & Anxiety Control 340	
13. Skin344
Joseph G. Morelli, MD, & William L. Weston, MD	
General Principles of Diagnosis of Skin Disorders 344	
General Principles of Treatment of Skin Disorders 344	
Disorders of the Skin in Newborns 346	
Common Skin Diseases in Infants, Children, & Adolescents 350	
14. Eye363
Allan M. Eisenbaum, MD, & Donna B. Ornitz, MD	
Common Nonspecific Signs & Symptoms 363	
Refractive Errors 363	
Examination 365	
Ocular Trauma 367	
Injuries to the Eyelids 368	
Disorders of the Ocular Structures 371	
Disorders of the Nasolacrimal System 372	
Diseases of the Conjunctiva 373	
Disorders of the Iris 376	
Glaucoma 377	
Uveitis 377	
AIDS & the Eye 378	
Disorders of the Cornea 379	
Disorders of the Lens 379	
Disorders of the Retina 380	
Diseases of the Optic Nerve 382	
Diseases of the Orbit 383	
Nystagmus 384	
Amblyopia & Strabismus 385	
Unexplained Decreased Vision in Infants & Children 387	
The Blind Child 387	
Learning Disabilities & Dyslexia 388	
Vision Screening 388	

15. Oral Medicine & Dentistry390
William A. Mueller, DMD	
Oral Examination of the Newborn & Infant	390
Dental Caries & Periodontal Disease	394
16. Ear, Nose, & Throat400
Stephen Berman, MD, Candice Johnson, MD, PhD, Kenny Chan, MD, & Peggy Kelley, MD	
The Ear	400
The Nose & Paranasal Sinuses	414
The Throat & Oral Cavity	419
17. Respiratory Tract & Mediastinum428
Gary L. Larsen, MD, Frank J. Accurso, MD, Robin R. Deterding, MD, Ann C. Halbower, MD, Gwendolyn S. Kerby, MD, & Carl W. White, MD	
Respiratory Tract	428
Growth & Development	428
Diagnostic Aids	429
General Therapy of Pediatric Lung Diseases	432
Disorders of the Conducting Airways	433
Congenital Disorders of the Extrathoracic Airway	434
Acquired Disorders of the Extrathoracic Airway	435
Congenital Disorders of the Intrathoracic Airways	438
Acquired Disorders of the Intrathoracic Airways	439
Congenital Malformations of the Lung	449
Acquired Disorders Involving Alveoli	451
Diseases of the Pulmonary Circulation	463
Disorders of the Chest Wall	466
Disorders of the Pleura & Pleural Cavity	468
Disorders of the Control of Breathing	470
Mediastinum	473
Mediastinitis	473
Mediastinal Masses	474
18. Cardiovascular Diseases476
Henry M. Sondheimer, MD, Mark M. Boucek, MD, D. Dunbar Ivy, MD, Angela Lorts, MD, Michael S. Schaffer, MD & Robert R. Wolfe, MD	
Diagnostic Evaluation	476
Major Clues to Heart Disease in Infants & Children	486
Congenital Heart Disease	488
Acquired Heart Disease	515
Cardiac Transplantation	524
Disorders of Rate & Rhythm & of Electrolyte Imbalance	525
19. Gastrointestinal Tract538
Judith M. Sondheimer, MD	
Evaluation of the Child With Vomiting	538
Gastroesophageal Reflux	538
Achalasia of the Esophagus	539
Caustic Burns of the Esophagus	540
Hiatal Hernia	540
Pyloric Stenosis	540
Peptic Disease	541
Congenital Diaphragmatic Hernia	542
Congenital Duodenal Obstruction	542
Congenital Intestinal Atresias & Stenoses	543
Annular Pancreas	543
Intestinal Malrotation With or Without Volvulus	544
Meckel Diverticulum & Omphalomesenteric Duct Remnants	544
Duplications of the Gastrointestinal Tract	545
Congenital Aganglionic Megacolon (Hirschsprung Disease)	545
Chylous Ascites	546
Congenital Anorectal Anomalies	547
Acute Abdomen	547
Peritonitis	548
Acute Appendicitis	548
Intussusception	549
Foreign Bodies in the Alimentary Tract	550
Anal Fissure	550
Inguinal Hernia	550
Umbilical Hernia	551
Tumors of the Gastrointestinal Tract	551
Acute Infectious Diarrhea (Gastroenteritis)	553
Chronic Diarrhea	554
The Malabsorption Syndromes	556
Constipation	561
Gastrointestinal Bleeding	562
Recurrent Abdominal Pain	564
Inflammatory Bowel Disease	565
20. Liver & Pancreas569
Ronald J. Sokol, MD, & Michael R. Narkewicz, MD	
Liver	569
Prolonged Neonatal Cholestatic Jaundice	569
Intrahepatic Cholestasis	569
Extrahepatic Neonatal Cholestasis	575
Other Neonatal Hyperbilirubinemic Conditions (Noncholestatic Nonhemolytic)	578
Hepatitis A	580
Hepatitis B	582
Hepatitis C	583
Hepatitis D (Delta Agent)	584
Hepatitis E	584
Other Hepatitis Viruses	585
Fulminant Hepatitis (Acute Massive Hepatic Necrosis, Acute Yellow Atrophy)	585
Autoimmune Hepatitis (Lupoid Hepatitis)	586
Steatohepatitis	588
Cirrhosis	588
Alpha ₁ -Antitrypsin Deficiency Liver Disease	589
Biliary Tract Disease	590
Pyogenic & Amebic Liver Abscess	594
Portal Hypertension	595

Hepatoma 598	Chronic Pancreatitis 603
Wilson Disease (Hepatolenticular Degeneration) 599	Gastrointestinal & Hepatobiliary Manifestations of Cystic Fibrosis 604
Reye Syndrome (Encephalopathy with Fatty Degeneration of the Viscera) 600	Syndromes With Pancreatic Exocrine Insufficiency 604
Liver Transplantation 602	Isolated Exocrine Pancreatic Enzyme Defect 607
Pancreas 602	Pancreatic Tumors 607
Acute Pancreatitis 602	
21. Kidney & Urinary Tract609
	Gary M. Lum, MD
Evaluation of the Kidney & Urinary Tract 609	Renal Failure 619
Congenital Anomalies of the Urinary Tract 613	Renal Hypertension 623
Hematuria & Glomerular Disease 614	Inherited or Developmental Defects of the Urinary Tract 625
Proteinuria & Renal Disease 616	Urinary Tract Infections 630
Diseases of the Renal Vessels 618	
Hemolytic-Uremic Syndrome 618	
22. Neurologic & Muscular Disorders632
	Paul G. Moe, MD, & Alan R. Seay, MD
Neurologic Assessment & Neurodiagnostic Procedures 632	Infections & Inflammatory Disorders of the Central Nervous System 679
Disorders Affecting the Nervous System in Infants & Children 637	Disorders of Childhood Affecting Muscles 689
	Miscellaneous Neuromuscular Disorders 695
23. Orthopedics699
	Robert E. Eilert, MD
Disturbances of Prenatal Origin 699	Infections of the Bones & Joints 711
Growth Disturbances of the Musculoskeletal System 704	Vascular Lesions & Avascular Necrosis (Osteochondroses) 713
Degenerative Problems (Arthritis, Bursitis, & Tenosynovitis) 707	Neurologic Disorders Involving the Musculoskeletal System 715
Trauma 707	Miscellaneous Diseases of Bone 717
24. Rehabilitation & Sports Medicine719
	Dennis J. Matthews, MD, & Pamela E. Wilson, MD
Basic Principles 719	Elbow & Forearm Injuries 727
Common Sports Medicine Issues & Injuries 726	Hand & Wrist Injuries 728
Infectious Diseases 726	Hip Injuries 729
Head & Neck Injuries 726	Knee Injuries 730
Back Injuries 727	Foot & Ankle Injuries 731
Shoulder Injuries 727	Prevention 732
25. Rheumatic Diseases733
	J. Roger Hollister, MD
Juvenile Rheumatoid Arthritis (Juvenile Chronic Arthritis) 733	Polyarteritis Nodosa 738
Spondyloarthropathy 735	Scleroderma 738
Enteropathic Arthritis 735	Raynaud Phenomenon 739
Systemic Lupus Erythematosus 736	Nonrheumatic Pain Syndromes 739
Dermatomyositis (Polymyositis) 737	Hypermobility Syndrome 740
26. Hematologic Disorders741
	Peter A. Lane, MD, Rachelle Nuss, MD, & Daniel R. Ambruso, MD
Bone Marrow Failure 741	Bleeding Disorders 770
Anemias 744	Thrombotic Disorders 782
Polycythemia & Methemoglobinemia 764	The Spleen 783
Disorders of Leukocytes 766	Transfusion Medicine 784
27. Neoplastic Disease793
	Edythe A. Albano, MD, Linda C. Stork, MD, Brian S. Greffe, MD, CM, Lorrie F. Odom, MD, & Nicholas K. Foreman, MD
Lymphomas and lymphoproliferative Disorders 801	
Michael B. Jordan, MD	
Hematopoietic Stem Cell Transplantation 815	
Douglas K. Graham, MD, PhD, Roger H. Giller, MD, & Ralph R. Quinones, MD	
Late Effects of Pediatric Cancer Therapy 816	

28. Immunodeficiency820
Anthony R. Hayward, MD, PhD	
Nonspecific Factors in Resistance to Infection 820	Other Disorders Associated with Immunodeficiency 829
Deficiencies of Specific Immunity 822	Secondary Immunodeficiency 831
Combined Immunodeficiency Disorders 827	Investigation of Immunodeficiency 832
29. Endocrine Disorders835
Michael S. Kappy, MD, PhD, Joel S. Steelman MD, Sharon H. Travers, MD, Philip S. Zeitler, MD, PhD	
General Concepts 835	The Thyroid Gland 843
Hormone Types 835	Disorders of Calcium Homeostasis 849
Disturbances of Growth 836	The Gonads (Ovaries & Testes) 856
The Posterior Pituitary Gland 841	Adrenal Cortex 863
30. Diabetes Mellitus874
H. Peter Chase, MD, & George S. Eisenbarth, MD, PhD	
Essentials of Diagnosis & Typical Features 874	Treatment 875
General Considerations 874	Laboratory Evaluations 877
Etiology 874	Acute Complications 878
Diagnosis 875	Chronic Complications 880
31. Inborn Errors of Metabolism881
Carol L. Greene, MD, Janet A. Thomas, MD, & Stephen I. Goodman, MD	
Diagnosis 881	Disorders of Fatty Acid Oxidation & Carnitine 897
Management of Metabolic Emergencies 885	Disorders of Purine Metabolism 899
Newborn Screening 886	Lysosomal Diseases 899
Disorders of Carbohydrate Metabolism 886	Peroxisomal Diseases 901
Primary Lactic Acidemias & Other Disorders of Energy Metabolism 888	Carbohydrate-Deficient Glycoprotein Syndromes 902
Disorders of Amino Acid Metabolism 889	Smith-Lemli-Opitz Syndrome 902
Organic Acidemias 894	
32. Genetics & Dysmorphology904
Eva Sujansky, MD, Janet M. Stewart, MD, & David K. Manchester, MD	
Chromosomes & Cell Divisions 904	Mendelian Genetics 915
Chromosome Preparation & Analysis 904	Single-Gene Defects 915
Chromosome Nomenclature 906	Mitochondrial Inheritance 920
Chromosome Abnormalities 906	Polygenic Disease (Multifactoral Inheritance) 922
Abnormalities of Autosomes 909	Dysmorphology 926
Abnormalities of Sex Chromosomes 911	Mechanisms 926
Recurrence Risks 912	Clinical Dysmorphology 929
Other Chromosome Abnormalities 912	Genetic Counseling 936
Principles of Recombinant DNA 913	Prenatal Diagnosis 937
Application of Recombinant DNA Technologies in Clinical Genetics 914	
33. Allergic Disorders939
Mark Boguniewicz, MD, & Donald Y. M. Leung, MD, PhD	
The Allergic Cascade 939	Urticaria & Angioedema 954
Major Allergic Disorders Seen in Pediatric Practice 939	Anaphylaxis 956
Asthma 939	Adverse Reactions to Drugs & Biologicals 958
Allergic Rhinitis 948	Food Allergy 962
Atopic Dermatitis 950	Insect Allergy 963
34. Antimicrobial Therapy965
John W. Ogle, MD	
Principles of Antimicrobial Therapy 965	Prophylactic Antimicrobial Agents 973
Antimicrobial Susceptibility Testing 966	Initial Empiric Antimicrobial Choices for Selected Conditions 975
Alteration of Dose & Measurement of Blood Levels 968	Specific Antimicrobial Agents 976
The Use of New Antimicrobial Agents 970
