Preface 前言

As the sequel of *Beautiful China I*, *Beautiful China II* selected the representative landscape for housing and public business in China and continued to professionally analyze these “beautiful” cases in detail from multiple perspectives. Content layout starts from the aspects of the keywords, features, and design concept, providing a large number of professional technical drawings, with rich and detailed information. Our effort is to give landscape designers and practitioners new vision and inspiration, create more beautiful landscape, and achieve the Chinese dream of constructing beautiful China and realizing the Chinese nation's sustainable development in landscape design.

《美丽中国 II》是《美丽中国 I》的延续之作，精选了国内具有代表性的住宅景观以及公共商业景观，继续从多角度详细且专业地分析了这些“美丽”的景观案例。内容编排上，分别从景观案例的关键点、亮点、设计理念等方面入手，配合大量的专业技术图纸，资料丰富而详实。我们的努力是为了给予设计师及景观从业者新的视觉、新的灵感，以创作出更多更美的景观，在景观设计上共同实现建设美丽中国、实现中华民族永续发展的中国梦。

Location: Xiacheng District, Hangzhou, Zhejiang

Landscape Design: Palm Design Co., Ltd.

Land Area: 190,000 m²

Green Coverage Ratio: 30%

项目地点：浙江省杭州市下城区

景观设计：棕榈设计有限公司

占地面积：190 000 m²

绿化率：30%

Binjiang Myriad Star, Hangzhou 杭州滨江万家星城

FEATURES 项目亮点

Open lawns combine with the functional landscape areas to create unique and dynamic spaces for relaxation. Large landscape pool will make people feel refreshed and cheerful.

园区整体设计以开放式草坪与功能景区相结合，创造出别致而富于变化的休憩空间。大面积景观水池让人神思清爽，怡然自得。

Overview

Located in Xintiandi Area of Xiacheng District, Hangzhou, at the crossing where Dongxin Road and Shixiang Road meets, Myriad Star enjoys convenient transportation and complete facilities, and it will be a new center for urban life that integrates residences, business, recreation, culture and entertainment. The project occupies a total land area of 190,000 m².

项目概况

项目位于杭州下城区新天地板块东新路 with 石祥路交汇处，交通便利，商贸发达，未来将成为集居住、商务休闲、文化娱乐于一体的都市生活新中心。项目总占地面积约 19 万 m²。

Design Concept

The landscape design is inspired by Hangzhou's local culture, trying to explore and respect the spiritual characteristics of the project, and then to present three-dimensional and dynamic landscape spaces with modern and international landscape skills.

设计理念

景观设计萃取杭州本土文化为内蕴，挖掘并充分尊重项目本身的精神特质，以国际化、现代化的造景手法，构筑出立体动感的景观空间。

Landscape Planning

Open lawns combine with the functional landscape areas to create unique and dynamic spaces for relaxation. Large landscape pool will make people feel refreshed and cheerful. In addition, there are also other landscape items such as the cascades, fountains, linear water, shrubs, tall trees, water features, slopes and flowers which are well organized to create a three-dimensional and multi-level landscape system. When strolling in the garden, one will be easily touched by the warmth and artistic beauty it presents.

景观规划

园区整体设计以开放式草坪与功能景区相结合，创造出别致而富于变化的休憩空间。大面积景观水池让人神思清爽，怡然自得。整体园林融入叠水、喷泉、条形水系、灌木、高大乔木等元素，通过水景、坡地、花木、小品的精心布置，形成层次丰富、立体可感的景观体系。徜徉其中，不经意间就会邂逅艺术带来的感动与温情。

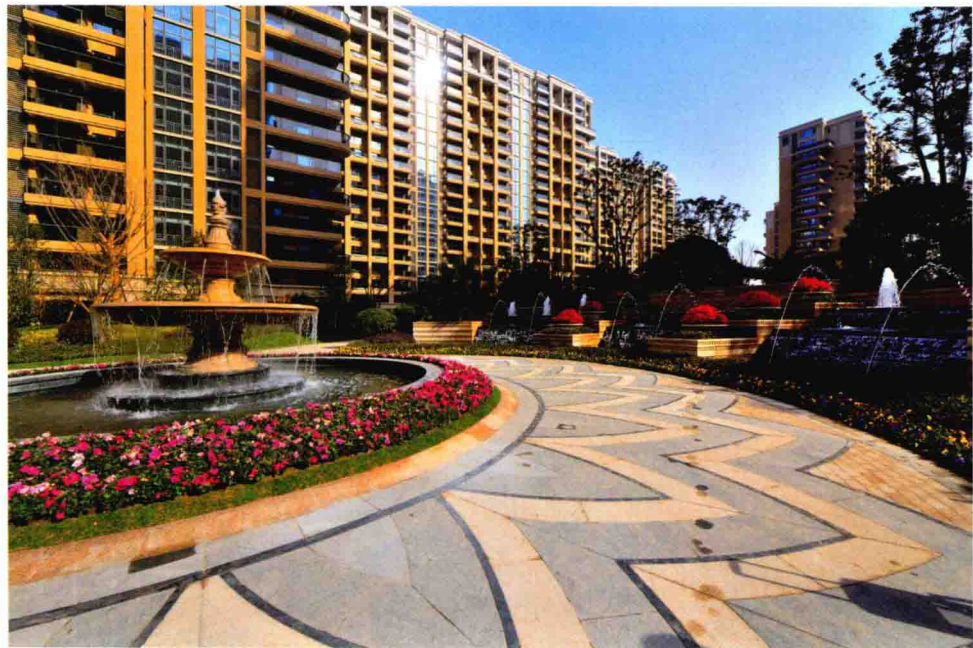

Landscape Nodes

Landscape design for phase I has carried forward the tradition to "follow the rules of nature and keep the harmony between man and nature", trying to create a well-proportioned, comfortable and luxurious living environment. Meanwhile, it has referred to the exquisiteness of European style and the experience of elegant lifestyle, showing the ingenuities and skills of the designers through the whole and the details. The entrance area is designed to be triumphal and gorgeous with symmetrical layout and abstracted landscapes. Landscape pool with free-flowing lines is set as the center of the community. Around are landscape elements such as the European-style pavilion, the landscape wall and cascades, the artistic ball and the flowerpots, to present modern garden-style landscapes of Hangzhou style, which allow people to visit, to look, to think and to stay.

Landscape spaces of phase II are organized in the structure of "core landscape—group landscape—entrance landscape". At the intersection where the landscape axis of the main entrance and the main road meets is a big water feature in front of a swimming pool. And the landscapes within different building groups have their own characteristics. Lawn, water feature, pergola, children's play ground and landscape pavilion will provide varied spaces for relaxation, play, entertainment and taking exercises. They will also help to increase the levels of the space and present different views as one moves forward. Dynamic landscape elements will complement the modern architectural style and also form contrast to express a kind of positive attitude towards life and advocate the concept of LOHAS.

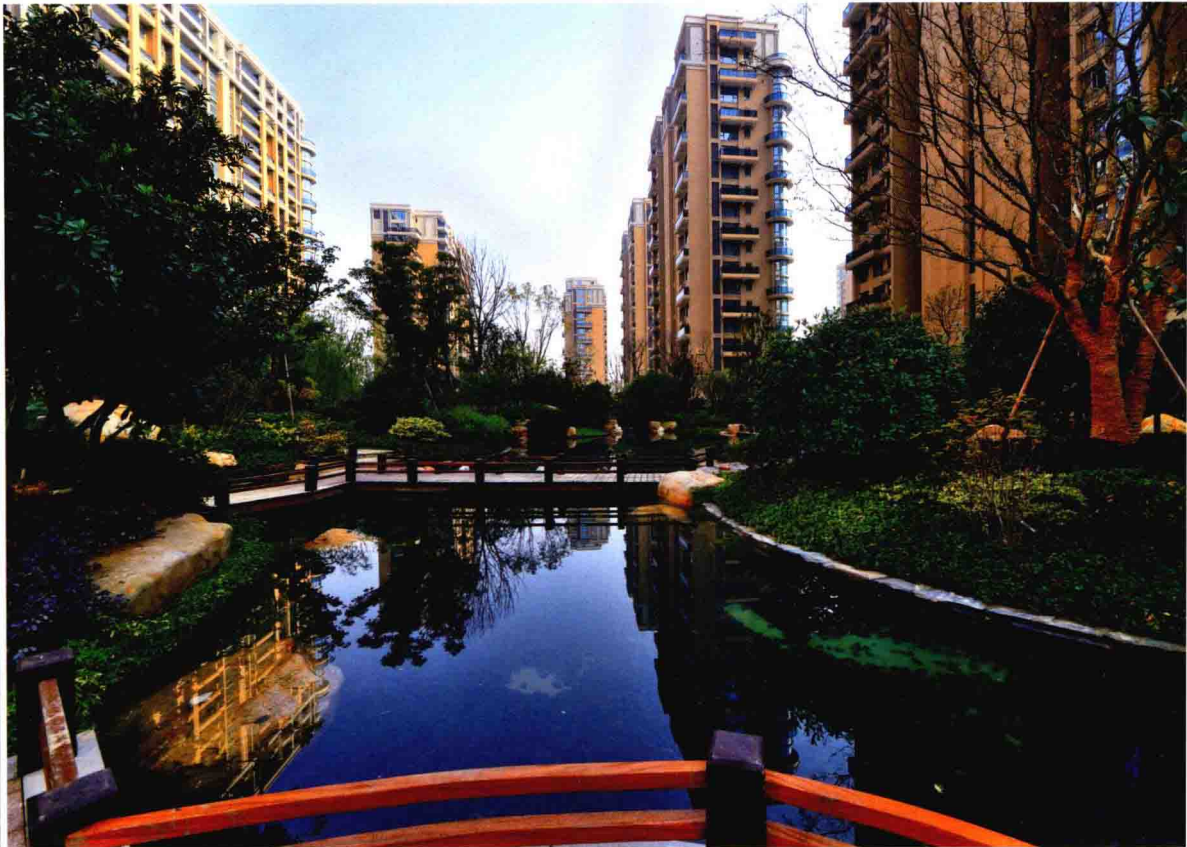

For phase III, multi-level landscape spaces caused by uneven terrain along with the seasonal changes of the plants have created a four-dimensional landscape system which is able to provide pleasant views from any corner for all seasons. Plant landscaping plays an important role in phase III. With blossoms in spring, dense shades in summer, colorful leaves in autumn and powerful branches in winter, it presents different seasonal images. Tall trees, colorful shrubs and varied ground covers have formed multi-level landscape spaces. The undulating and smooth road system enables residents to get to any space easily and enjoy the relaxing and pleasant atmosphere.

景观节点

一期景观设计沿袭了传统园林的“师法自然，天人合一”的理念，极力创造一个高低错落，疏密有致，空间丰富，自然舒适的豪华住所；同时集合欧陆风格的精雕细琢和优雅生活感受的理念，无论是在总体上还是细节处都体现出园林设计师的匠心独到和细致工艺的考究。入口采用对称式处理方式，将形象主义对山水的形态抽象化，让入口充满凯旋感和华丽大气之美。以线条自由流畅的景观游泳池作为小区的核心组团，欧式景观亭、景墙跌水、艺术球、特色花钵等丰富的景观元素构成了一幅精巧、宜游、宜观、宜想、宜留的面面钟情、处处生景的独具现代化气息和杭州园林风格的花园式景观。

二期在空间分布上遵循“核心景观—组团景观—入口景观”的结构。主入口景观轴线与小区主园路汇聚于核心泳池前大水景，组团各具特色。草坪、趣味水景、廊架、儿童活动场、景观亭等活动空间在为居民的进出及活动提供多元化的游憩、娱乐，健身场所的同时，起到了移步异景丰富小区空间层次的作用。活跃的景观元素与建筑的现代风格既协调又有对比，传达着一种积极的生活态度和乐活的生活方式。

三期景观功能空间错落有致，地形变化丰富，再加上满园的植物随季节变换造成的景观变迁，使整个设计真正成为一个四维空间作品，无论春夏秋冬、无论平视鸟瞰，都能令人获得愉悦的立体视觉效果。植物景观的营造在三期成为景观的重点和亮点，春季的繁花、夏季的浓荫、秋天的色叶与冬天的道枝营造了四时变化之景；高大的乔木、多姿的中层和丰富的地被形成了竖向多层次立体景观。高低起伏而又不失顺畅的道路系统使居住者可以更加便捷地驻足于各个空间，享受情境交融的放松与愉悦。
