Preface

In the last two years, a wealth of new information has accumulated regarding both clinical and research aspects of health care for the elderly. Although many controversial issues have been resolved, many still remain.

Volume 2 of *Contemporary Geriatric Medicine* is once again dedicated to the clinician who cares for the elderly on a continuing basis. Although, for the most part, general topics first introduced in Volume 1 have been retained, all information in this volume is new and represents the current state of the art. In addition, several new topics—including falls, interpretation of laboratory data, and oral health care—have been introduced to enhance this volume's usefulness to the busy clinician.

Through these easy-to-read essays, we attempt once again to keep the non-geriatrician abreast of the current state of the art regarding the special needs and problems of the elderly. Each chapter is not meant to be an exhaustive review of all topics in the field, but rather to focus on issues receiving a great deal of attention. Our goal is to create an exciting approach to contemporary issues in geriatric medicine.

The editors are once again appreciative of the opportunity given to develop the *Contemporary Geriatric Medicine* series. Appreciation is also given to our secretaries, our professional colleagues, and our families, who have supported our efforts and helped bear the burden of this time-consuming venture. Most of all, we thank our elderly patients for providing the inspiration and impetus to improve our understanding and knowledge of the health care needs of the elderly.

Steven R. Gambert

Contents

Chapter 1 **Geriatric Cardiology and Blood Pressure**

Edmund H. Duthie, Jr., and Michael H. Keelan, Jr.

1.1.	Cardiovascular Morbidity-Mortality	1
1.2.	Cardiovascular Anatomy and Physiology	2
1.2.1.	Anatomic Changes	2
1.2.2.	Intrinsic Cardiac Function	2
1.2.3.	Autonomic Reflexes	3
1.2.4.	Pulse Wave Characteristics	3
1.3.	Clinical Evaluation	3
1.4.	Laboratory Investigations	5
1.4.1.	Electrocardiogram	5
1.4.2.	Exercise Electrocardiography	6
1.4.3.	Nuclear Cardiology	6
1.4.4.	Echocardiography	7
1.4.5.	Ambulatory Electrocardiography	8
1.4.6.	Computerized Tomography	8
1.4.7.	Invasive Procedures	8
1.4.7.1.	Catheterization and Angiography	8
1.4.7.2.	Electrophysiology	9
1.5.	Coronary Artery Disease	9
1.5.1.	Presentation and Diagnosis	9
1.5.2.	Therapy	10
1.5.2.1.	Nitrates	10

1.5.2.2.	Beta-Blockers	10
1.5.2.3.	Calcium Channel Blockers	11
1.5.2.4.	Antiplatelet Agents	12
1.5.3.	Unstable Angina	12
1.5.4.	Myocardial Infarction	13
1.5.5.	Angioplasty	13
1.5.6.	Coronary Artery Surgery	14
1.6.	Congestive Heart Failure	14
1.6.1.	Amyloidosis	14
1.6.2.	Hypertrophic Cardiomyopathy	15
1.6.3.	Thyroid Disease	15
1.7.	Dissection of the Aorta	15
1.7.1.	Diagnosis	15
1.7.2.	Therapy	16
1.8.	Valvular Heart Disease	17
1.8.1.	Aortic Valve Disease	17
1.8.2.	Mitral Valve Disease	19
1.8.3.	Endocarditis	20
1.8.4.	Valve Surgery	20
1.9.	Atrial Septal Defect	21
1.10.	Syncope	21
1.10.1.	Heart Block	21
1.10.2.	Sick Sinus Syndrome	22
1.10.3.	Ventricular Arrhythmias	22
1.10.4.	Diagnosis and Treatment of Problem Cases	22
1.11.	Cardiovascular Pharmacology	23
1.11.1.	Digoxin	23
1.11.2.	Antiarrhythmics	24
1.11.3.	Vasodilator's	24
1.12.	Preoperative Evaluation	25
1.13.	Blood Pressure and Aging	27
1.13.1.	Blood Pressure: Determinants and Effects of Age	27
1.13.1.1.	Cardiac Influences	27
1.13.1.2.	Neurohumoral Influences	28
1.13.2.	Population Studies	29
1.13.3.	Hypertension: Definition	29
	Approach to the Patient	30
1.13.4.1.	History	30
1.13.4.2.	Physical Examination	30

Chapter 3 The Gastrointestinal System and the Elderly

Thomas W. Sheehy

3.1.	Introduction	97
3.2.	Esophagus	98
3.2.1.	Dysphagia	99
3.2.2.	Presophageal Dysphagia	99
3.2.2.1.	Dysfunction of the Cricopharyngeus Muscle	99
3.2.2.2.	Diagnosis and Complications	99
3.2.2.3.	Treatment	100
3.2.3.	Esophageal Dysphagia	100
3.2.3.1.	Achalasia of the Lower Esophagus	100
3.2.3.2.	Clinical Findings	100
3.2.3.3.	Diagnosis	101
3.2.3.4.	Treatment	102
3.2.4.	Diffuse Esophageal Spasm	102
3.2.4.1.	Diagnosis	102

3.2.4.2.	Treatment for Diffuse Esophageal Spasm	103
3.2.4.3.	Structural Lesions	103
3.2.5.	Esophagitis	104
3.2.5.1.	Reflux Esophagitis—Pathogenesis	104
3.2.5.2.	Clinical Findings	105
3.2.5.3.	Diagnosis	105
3.2.5.4.	Treatment	106
3.	Stomach	106
3.3.1.	Upper Gastrointestinal Bleeding	106
3.3.1.1.	Early Endoscopy—Con	108
3.3.1.2.	Early Endoscopy—Pro	108
3.3.1.3.	Therapeutic Endoscopy	110
3.3.2.	Peptic Ulcer Disease	110
3.3.2.1.	Incidence	110
3.3.2.2.	Etiology	111
3.3.2.3.	Diagnosis	112
3.3.2.4.	Clinical Course	112
3.3.2.5.	Treatment of Ulcer Disease	112
3.3.2.6.	Long-Term Therapy with Cimetidine and Ranitidine	114
3.3.2.7.	Side Effects	114
3.3.2.8.	Complications	115
3.3.2.9.	Surgery	118
3.3.3.	Gastritis	119
3.3.3.1.	Etiology	119
3.3.3.2.	Clinical Findings	119
3.3.3.3.	Diagnosis	119
3.3.3.4.	Treatment	119
3.4.	Hepatobiliary Tract	120
3.4.1.	Viral Hepatitis	120
3.4.2.	Chronic Active Hepatitis	120
3.4.2.1.	Etiology	120
3.4.2.2.	Clinical Findings	121
3.4.2.3.	Treatment	121
3.4.3.	Cholelithiasis	121
3.4.3.1.	Incidence	121
3.4.3.2.	Etiology	122

4.7.3.	Hydroxyapatite Deposition Disease	205
4.8.	Polymyalgia Rheumatica and Giant-Cell Arteritis	206
4.8.1.	Clinical Manifestations	207
4.8.2.	Diagnosis	208
4.8.3.	Management	208
4.9.	Spondylarthropathies	209
4.10.	Malignancies and Rheumatic Diseases	213
4.10.1.	Hypertrophic Osteoarthritis	213
4.10.2.	Malignancy-Related Polyarthritis	213
4.10.3.	Polymyositis and Dermatomyositis	214
4.10.4.	Metastatic Disease	215
4.10.5.	Leukemia	215
4.10.6.	Carcinoma of the Pancreas	215
4.10.7.	Palmar Fasciitis and Reflex Sympathetic Dystrophy	216
4.11.	Osteoarthritis	216
4.11.1.	Epidemiology	216
4.11.2.	Biology of Normal Cartilage	216
4.11.3.	Normal Age-Related Changes in Articular Cartilage	217
4.11.4.	Biochemical and Histopathologic Changes in Osteoarthritis	217
4.11.5.	Pathogenesis	218
4.11.6.	Clinical Manifestations	218
4.11.7.	Management	220
4.12.	Medications for the Treatment of Rheumatic Diseases	220
4.12.1.	General Principles of Drug Therapy	221

4.12.2.	Nonsteroidal Antiinflammatory Drugs	221
4.12.2.1.	Mechanisms of Action	221
4.12.2.2.	Metabolism	222
4.12.2.3.	Side Effects and Hypersensitivity Reactions	222
4.12.2.4.	Drug Interactions	224
4.12.2.5.	Drug Administration	224
4.12.3.	Corticosteroids	224
4.12.4.	Antimalarials	225
4.12.5.	Gold Therapy	225
4.12.6.	Other Remittive Agents and Immunosuppressives	226
4.12.7.	Allopurinol	226
4.12.8.	Colchicine	226
4.13.	Raynaud's Phenomenon	227
	References	228

Chapter 5 **Genitourinary Problems in the Elderly**

Stephen C. Jacobs and James E. Cauley

5.1.	Renal Lithiasis	251
5.1.1.	Incidence of Calcium Stone Formation	251
5.1.2.	Etiology of Calcium Stone Formation	251
5.1.3.	Diagnosis	254
5.1.4.	Medical Treatment	254
5.1.5.	Destruction of Renal Stones	255
5.1.6.	Management of Ureteral Stones	257
5.2.	Infection Stone Disease	257
5.2.1.	Etiology of Struvite Formation	257
5.2.2.	The Natural History of Struvite Stones	258
5.2.3.	Medical Treatment	258
5.2.4.	Dissolution Techniques	259
5.3.	Uric Acid Stone Disease	260
5.3.1.	Etiology	260
5.3.2.	Diagnosis	261
5.3.3.	Treatment	261
5.4.	Bladder Stones	262
5.4.1.	Etiology	262
5.4.2.	Treatment	262
5.5.	Urinary Infections	263
5.5.1.	Incidence	263
5.5.2.	Etiology	264
