PREFACE

THE purpose of this book is to give the general practitioner an outline of the modern practice of ophthalmology. It is intended to be a guide to which he may refer when he shares with the eye specialist the responsibility of treating a case of ocular disease, and when it falls to his lot to deal with a case in some remote part where there is inevitable delay in obtaining the advice of a consultant.

A team of authors has been carefully chosen for the special knowledge and wide experience which they possess, particularly in those subjects on which they have written.

This work is essentially practical and matters of merely academic interest have not been discussed. A few selected references have been made to larger works, should the reader require more information on such matters.

A brief account of eye operations is given with the idea of acquainting the general practitioner with what is to be done to his patient, so enabling him to deal with questions that the patient or the patient's relatives may put to him. Because of the serious hazards and dangers in eye surgery it is obvious that this highly specialized field must be left to those who have had long training in eye hospitals.

I thank Mr. R. R. James for his invaluable advice on literary matters and for his characteristic care in proof-reading.

I am grateful for the constant courtesy, good advice and patience of Butterworth & Co. (Publishers) Ltd.

H. B. STALLARD.

CONTRIBUTORS TO THIS BOOK

DOROTHY ADAMS CAMPBELL, M.B., B.S., D.O.M.S.

Director, Research Department, Birmingham and Midland Eye Hospital.
Ophthalmic Surgeon, Coventry and Warwickshire Hospital.

JAMES HAMILTON DOGGART, M.A., M.D., F.R.C.S.

Surgeon, Moorfields, Westminster and Central Eye Hospital, London.
Ophthalmic Surgeon, Hospital for Sick Children, Great Ormond Street, London.
Ophthalmic Surgeon, St. George's Hospital, London.

JOHN FOSTER, M.B., F.R.C.S.

Ophthalmic Surgeon, Leeds General Infirmary and Leeds Jewish (Herzl Moser) Hospital.
Lecturer in Ophthalmology, University of Leeds.

J. BRUCE HAMILTON, M.B., D.O.M.S., D.O., F.R.A.C.S.

Hobart, Tasmania.

E. F. KING, M.B., F.R.C.S., D.O.M.S.

Ophthalmic Surgeon, Westminster Hospital, London.
Surgeon, Moorfields, Westminster and Central Eye Hospital, London.

LT.-COL. E. W. O'G. KIRWAN, C.I.E., M.D., F.R.C.S.I., I.M.S.(Retd.)

Lecturer in Tropical Ophthalmology, London School of Hygiene and Tropical Medicine.

Honorary Ophthalmologist, Hospital for Tropical Diseases, London.
Late Professor of Ophthalmology, Medical College, Calcutta.

FRANK W. LAW, M.A., M.D., F.R.C.S.

Ophthalmic Surgeon, Guy's Hospital, London.
Surgeon and Medical Officer, Physico-therapy Department, Moorfields, Westminster and Central Eye Hospital, London.

T. KEITH LYLE, M.D., M.Ch., M.R.C.P., F.R.C.S.

Surgeon, Moorfields, Westminster and Central Eye Hospital, London.
Ophthalmic Surgeon, King's College Hospital, London.

F. MAXWELL LYONS, M.B., B.Ch., B.A.O., D.O.M.S.

Director, Memorial Ophthalmic Laboratory, Giza, Cairo.
Ophthalmologist, Anglo-American Hospital, Cairo.

S. P. MEADOWS, M.D., F.R.C.P.

Physician, Out-Patients Department, Westminster Hospital, London.
Assistant Physician, National Hospital, Queen Square, London.
Physician, Moorfields, Westminster and Central Eye Hospital, London.

CONTRIBUTORS TO THIS BOOK

JOHN V. V. NICHOLLS, B.A., M.Sc., M.D., C.M.

Lecturer in Ophthalmology, McGill University, Montreal.
Associate Ophthalmologist, Royal Victoria Hospital, Montreal.
Consultant in Ophthalmology, Royal Canadian Air Force.
Consultant to the Catherine Booth Hospital, Montreal.

L. B. SOMERVILLE-LARGE, M.B., B.Ch., B.A.O., D.O.M.S., D.O.

Assistant Surgeon, Royal Victoria Eye and Ear Hospital, Dublin.
Ophthalmic Surgeon, Royal City of Dublin Hospital.

H. B. STALLARD, M.B.E., M.A., M.D., F.R.C.S.

Surgeon, Moorfields, Westminster and Central Eye Hospital, London.
Eye Surgeon, St. Bartholomew's Hospital, London.

F. A. WILLIAMSON-NOBLE, F.R.C.S.

Ophthalmic Surgeon, St. Mary's Hospital, London.
Ophthalmic Surgeon, National Hospital, Queen Square, London.
Ophthalmic Surgeon, Royal National Throat, Nose and Ear Hospital, London.
Consulting Surgeon, Central London Ophthalmic Hospital.

ACKNOWLEDGEMENTS

WE WISH to express our thanks for permission to reproduce the following illustrations: to the Editors of the *British Journal of Ophthalmology* (Plate VIII Fig. 3, Plate XI and Plate XII Fig. 1), the *Lancet* (Fig. 175) and the *Transactions of the Ophthalmological Society of the United Kingdom* (Figs. 81 and 163-167).

We also wish to thank the Department of Medical Photography, Westminster Hospital (Figs. 24, 25, 35 and 40-42), and to Messrs. Baillière, Tindall & Cox (Fig. 88); J. & A. Churchill Ltd. (Figs. 82, 84, 87, 89-92, 94, 95, Plate II-VII, Plate VIII Fig. 1, Plate X Fig. 2, Plate XV Fig. 1, Plate XVI Fig. 1, Plate XXVII and Plate XXVIII); Clement Clarke Ltd. (Fig. 57); Clifford Brown Ltd. (Fig. 146); Down Bros. and Mayer & Phelps Ltd. (Figs. 64 and 73-75); Theodore Hamblin Ltd. (Figs. 49, 53, 54, 56, 58-61, 85, 86, 96-98, 125-129, 131-138 and 170); Henry Kimpton (Fig. 83, Plate VIII Fig. 2, Plate IX Fig. 1, Plate X Figs. 1 and 3, Plate XII Fig. 2 and Plate XVI Fig. 3); H. K. Lewis & Co., Ltd. (Figs. 1, 8, 12, 13 and 67); Oxford University Press (Plate IX Fig. 2, Plate XIII, Plate XIV Fig. 1, Plate XVI Fig. 2, Plates XVII-XXVI, Plate XXIX Fig. 2, and Plate XXX); W. B. Saunders Company (Fig. 80, Plate XIV Fig. 2, Plate XV Fig. 2, and Plate XXIX Fig. 1); John Weiss & Sons Ltd. (Figs. 65, 66, 183, 184, 189 and 203); John Wright & Sons Ltd. (Figs. 93, 177-182, 185-188, 190-202 and 204-231).

LIST OF ILLUSTRATIONS

FIG.		PAGE
1	Front view of orbit — — — — —	2
2	Diagram of structures in relation to superior orbital fissure — —	3
3	Diagram of lacrimal apparatus — — — — —	5
4	Lateral view of extra-ocular muscles — — — — —	6
5	Posterior aspect of eyeball showing insertion of oblique muscles —	6
6	Diagram showing action of extra-ocular muscles — — — —	7
7	Horizontal section of eye — — — — —	9
8	Vertical section of retina — — — — —	14
9	Chart showing regional variation of visual acuity — — — —	16
10	The visual pathways — — — — —	18
11	The overlap of visual fields in man — — — — —	22
12	Dissection to show blood supply of visual pathway and relations of vessels to oculomotor nerves — — — — —	24
13	Dissection of orbit from above — — — — —	26
14	"Glioma retinae" showing "rosettes" — — — — —	53
15	"Glioma retinae" — — — — —	54
16	Malignant melanoma of choroid — — — — —	55
17	Malignant spindle-cell melanoma of choroid — — — — —	56
18	Diagram comparing progress of loss of function in three different affections — — — — —	62
19	Papilloedema — — — — —	67
20	Skiagram showing invasion of walls of orbit by meningioma — —	70
21	Diagram showing visual fields in a case of chiasmal pressure by supra- sellar meningioma — — — — —	74
22	Skiagram showing effect of pituitary adenoma — — — —	75
23	Skiagram showing craniopharyngioma — — — — —	75
24	Carotid-cavernous aneurysm on left side producing bilateral exoph- thalmos — — — — —	78
25	Same patient as in Fig. 24 following carotid ligation — — —	78

LIST OF ILLUSTRATIONS

FIG.		PAGE
26	Skiagram showing calcified aneurysm involving internal carotid artery	79
27	Arteriogram showing small aneurysm behind carotid syphon — —	79
28	Primary optic atrophy — — — — — — — —	80
29	Secondary or post-neuritic optic atrophy — — — — —	81
30	Diagram showing visual fields in tabetic optic atrophy — — —	82
31	Diagram showing visual field in case of pressure on optic nerve by meningioma — — — — — — — —	83
32	Diagram showing central scotoma in case of retrobulbar neuritis —	85
33	Visual fields in bilateral retrobulbar neuritis — — — — —	86
34	Diagram showing pathway of pupil reflex — — — — —	88
35	Left ocular sympathetic palsy — — — — — — —	90
36	Diagram showing right supranuclear pathway — — — — —	92
37	Case of right third cranial nerve palsy — — — — — —	94
38	Diagrams of visual pathway and visual field defects — — —	97
39	Diagram of optic radiations — — — — — — —	97
40	Bilateral lid retraction in Graves's disease — — — — —	102
41	Unilateral lid retraction in Graves's disease — — — — —	102
42	Showing appearance of eye with tumour of left orbit — — —	104
43	Fundal appearance in case of arteriosclerotic retinopathy — — —	107
44	Fundal appearance in case of renal retinopathy — — — — —	108
45	Fundal appearance in case of malignant hypertension — — —	109
46	Fundal appearance in case of diabetic retinopathy — — — — —	111
47	Bilateral ptosis in patient with myasthenia gravis — — — — —	115
48	Same patient as in Fig. 47 after subcutaneous injection of Prostigmin	115
49	Cabinet test-type — — — — — — — — — —	119
50	Focal illumination with lens and loupe — — — — — — —	121
51	Desmarres's retractors in action — — — — — — —	122
52	Double lid eversion with Terson's speculum — — — — —	123
53	Slit-lamp — — — — — — — — — —	125
54	Slit-lamp view of eye — — — — — — — — — —	125
55	Ophthalmoscope and auriscope — — — — — — — —	127
56	Diplopia goggles — — — — — — — — — —	131
