Member

Ms. LU Yuqing, School of Political Science and Public Administration, University of Electronic Science and Technology of China, P.R. China

Foreword

New Challenges and Advances in Public Administration

A decade ago the first International Conference on Public Administration (2005) was launched in Chengdu, P.R.C., an initiative that sought to foster the intellectual and practical engagement of public administration professionals worldwide. The founders' vision was an international event to bring together academics, practitioners, and students to share ideas and knowledge beneficial to the international public administration community. Indeed, it was also a moment in which the influence of globalization became recognized as more than an “economic” phenomenon; it was also a significant “governance” happening among nations worldwide. Thus the first ICPA embraced the theme of E-government on “public administration in a borderless world of electronic communication, information exchange, and knowledge sharing.”

The 2005 ICPA set in motion annual conferences across the globe—England (2006), China (2007), the United States (2008), China (2009), Australia (2010), China (2011), India (2012), and South Africa (2013). Given this proud history of accomplishments, the 10th ICPA will emphasize the new advancements and challenges in public administration, past and present, with an eye on the decade ahead.

The *Proceedings 2014 International Conference on Public Administration (10th)* encompass a wide-ranging analysis and examination of excellence and innovation in public administration research and practice. The Proceedings contain a rich and broad collection of ideas and research findings directed at the future of public administration. Authored by academics and practitioners worldwide, the collection promises to advance public administration research and practice through Big Data, Good Governance, Networking and Partnerships, Performance and Smarter Government, Social Management, Human Resources Management and Emergency Management etc.

The submissions of **2014 International Conference on Public Administration (10th)** have amounted to Six Hundred and Seventy-nine pieces from both China and abroad, including near One Hundred and Fifty pieces submitted by foreign experts, scholars and practitioners to both School of Political Science and Public Administration of University of Electronic Science and Technology of China and American Society for Public Administration. After peer reviews by 2014 ICPA

Academic Committee, the papers collected in *Proceedings of 2014 International Conference on Public Administration(10th) (Volume I)* are One Hundred and Fifty-four, which offer a wide array of new knowledge and information on subjects that public administrators and scholars should find of some valuable and practical uses.

The **2014 International Conference on Public Administration(10th)** brings together an array of authors and topics drawn from many countries and regions and attracted international interest in and inquiries from scholars and public administration practitioners in Australia, Canada, China, Czech Republic, Greece, Hong Kong SAR of P.R.China, India, Indonesia, Japan, Kazakhstan, Kenya, Macau SAR, Malaysia, Nigeria, The Netherlands, Philippines, South Africa, South Korea, P.R.China Taiwan, Thailand, Uganda, United Kingdom, United States, Vietnam and Zambia. The Tenth International Conference on Public Administration was truly international.

ACKNOWLEDGEMENT

Sincere Thanks to

All Those Who have Always Supported and Will Go on Supporting ICPA.

Sincere Thanks to

All Co-sponsoring Institutions That have Always Made Great Contributions for the Successful Holding of ICPA.
