Use of the Index

Full instructions on use of the index may be found in the Editor's Introduction, section 11.

Alphabeting is word by word. A hyphenated word is filed as one word.

Abbreviations are filed as if spelled out; their meanings are identified in the table immediately following this page.

Grouping of digits: Digits are printed in groups of three purely for ease in reading and copying. The spaces are not part of the numbers, and the groups are not related to those shown in DDC numbers on Library of Congress cataloging records.

Tables: A number preceded by "*s.s.*-" may be found in Table 1, by "*area.*-" in Table 2, by "*lit. sub.*-" in Table 3, by "*lang. sub.*-" in Table 4, by "*r.e.n.*-" in Table 5, by "*lang.*-" in Table 6, by "*pers.*-" in Table 7, by "*law s.s.*-" in the list of specially extended standard subdivisions enumerated under centered heading 342-347. Such numbers are never used alone.
