Commercial and Economic Law in the United States of America

THIRD EDITION

ANDRE FIEBIG

Derived from the renowned multi-volume *International Encyclopaedia of Laws*, this practical analysis of the law covering merchants' status and obligations – including the laws governing state intervention in economic activities – in the United States of America provides quick and easy guidance on such commercial and economic matters as business assets, negotiable instruments, commercial securities, and regulation of the conditions of commercial transactions. Lawyers who handle transnational business will appreciate the explanation of local variations in terminology and the distinctive concepts that determine practice and procedure.

Starting with a general description of the specifically applicable concepts and sources of commercial law, the book goes on to discuss such factors as obligations of economic operators and institutions, goodwill, broker/client relations, commercial property rights, and bankruptcy. Discussion of economic law covers the laws governing establishment, supervision of economic activities, competition law, and government taxation incentives. These details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance.

Thorough yet practical, this convenient volume is a valuable tool for business executives and their legal counsel with international interests. Lawyers representing parties with interests in the United States of America will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative commercial and economic law.

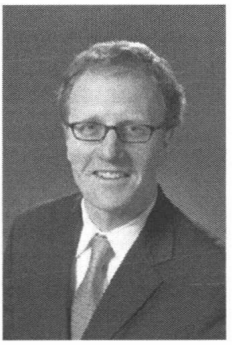
The Author



Dr. Andre Fiebig (born August 29, 1964) studied law at IIT Chicago-Kent College of Law in Chicago (1986–1989). He received his Dr. iur. degree (in 1996) and his LL.M degree (in 1993) both from the University of Tübingen.

Dr. Fiebig has been a member of the New York and Illinois bars since 1989. From 1989 to 1990, he served as a staff attorney for the U.S. Department of Energy in Washington, D.C. He is currently a partner in the law firm of Quarles & Brady in Chicago. His practice focuses on international mergers and acquisitions and competition law.

Dr. Fiebig serves as an Adjunct Professor of the Law Faculty of Northwestern Law School in Chicago and Bucerius Law School in Hamburg, Germany. He is also a member of the Advisory Board of the Institute for Consumer and Antitrust Studies at the Loyola University School of Law.

Dr. Fiebig has published numerous articles on various topics ranging from the recognition and enforcement of foreign judgments to the extraterritorial application of competition laws. One of his recent articles, A Role for the WTO in International Merger Control, published in the *Northwestern Journal of International Law and Business* has attracted much attention in the context of the discussions relating to the globalization of competition law.
