THE COUNCIL OF BRITISH MANUFACTURERS OF PETROLEUM EQUIPMENT

(A Company limited by Guarantee and not having a share Capital)

WHAT IT IS

The C.B.M.P.E. exists to promote and develop the United Kingdom petroleum equipment industry, whose products are in use throughout the world. Through its Members — some 500 today — and its permanent staff, the Council has helped to establish numerous standards for petroleum equipment, compile statistics and mailing lists, organise works and site visits, sponsor Exhibitions. All these activities are aimed at the improvement of the products and services offered to the petroleum and petro-chemical industry.

HOW IT CAN HELP YOU

As a *User* in search of equipment, you will find that the Catalogue "BRITISH PETROLEUM EQUIPMENT 1963/64" or "Classified List of British Equipment and Services" are invaluable as works of reference.

As a *Manufacturer*, membership of C.B.M.P.E. entitles you to receive up-to-the-minute technical and commercial bulletins; to advertise in "British Petroleum Equipment News" (quarterly) and in the composite catalogue "British Petroleum Equipment" (alternate years); also to take advantage of many opportunities of meeting government officials, users of equipment in the oil industry and competitors.

As a *Contractor*, the catalogue "British Petroleum Equipment" offers a complete cross-section of the British Engineering Industry.

As an *Engineer*, a note from you to the Council will produce information on the latest advertised products or techniques.

As a *Financial Comptroller*, requiring finance for a project, you should make contact with British Oil Equipment Credits Ltd., a wholly-owned subsidiary company, which is in existence to promote schemes to finance the sale on deferred terms to overseas purchasers of capital plant and equipment.

The Council Secretariat will be glad to give more detailed information and application forms on request
