British Library Cataloguing in Publication Data
A catalogue record for this book is available from the British Library.

Library of Congress Control Number: 2013951036

ISBN 978-0-85709-767-5 (print)

ISBN 978-0-85709-772-9 (online)

ISSN 2052-4714 Woodhead Publishing Series in Civil and Structural Engineering (print)

ISSN 2052-4722 Woodhead Publishing Series in Civil and Structural Engineering (online)

The publisher's policy is to use permanent paper from mills that operate a sustainable forestry policy, and which has been manufactured from pulp which is processed using acid-free and elemental chlorine-free practices. Furthermore, the publisher ensures that the text paper and cover board used have met acceptable environmental accreditation standards.

Woodhead Publishing Series in Civil and Structural Engineering

- 1 **Finite element techniques in structural mechanics**
C. T. F. Ross
- 2 **Finite element programs in structural engineering and continuum mechanics**
C. T. F. Ross
- 3 **Macro-engineering**
F. P. Davidson, E. G. Frankl and C. L. Meador
- 4 **Macro-engineering and the earth**
U. W. Kitzinger and E. G. Frankel
- 5 **Strengthening of reinforced concrete structures**
Edited by L. C. Hollaway and M. Leeming
- 6 **Analysis of engineering structures**
B. Bedenik and C. B. Besant
- 7 **Mechanics of solids**
C. T. F. Ross
- 8 **Plasticity for engineers**
C. R. Calladine
- 9 **Elastic beams and frames**
J. D. Renton
- 10 **Introduction to structures**
W. R. Spillers
- 11 **Applied elasticity**
J. D. Renton
- 12 **Durability of engineering structures**
J. Bijen
- 13 **Advanced polymer composites for structural applications in construction**
Edited by L. C. Hollaway
- 14 **Corrosion in reinforced concrete structures**
Edited by H. Böhni
- 15 **The deformation and processing of structural materials**
Edited by Z. X. Guo
- 16 **Inspection and monitoring techniques for bridges and civil structures**
Edited by G. Fu
- 17 **Advanced civil infrastructure materials**
Edited by H. Wu

- 18 **Analysis and design of plated structures Volume 1: Stability**
Edited by E. Shanmugam and C. M. Wang
- 19 **Analysis and design of plated structures Volume 2: Dynamics**
Edited by E. Shanmugam and C. M. Wang
- 20 **Multiscale materials modelling**
Edited by Z. X. Guo
- 21 **Durability of concrete and cement composites**
Edited by C. L. Page and M. M. Page
- 22 **Durability of composites for civil structural applications**
Edited by V. M. Karbhari
- 23 **Design and optimization of metal structures**
J. Farkas and K. Jarmai
- 24 **Developments in the formulation and reinforcement of concrete**
Edited by S. Mindess
- 25 **Strengthening and rehabilitation of civil infrastructures using fibre-reinforced polymer (FRP) composites**
Edited by L. C. Hollaway and J. C. Teng
- 26 **Condition assessment of aged structures**
Edited by J. K. Paik and R. M. Melchers
- 27 **Sustainability of construction materials**
J. Khatib
- 28 **Structural dynamics of earthquake engineering**
S. Rajasekaran
- 29 **Geopolymers: Structures, processing, properties and industrial applications**
Edited by J. L. Provis and J. S. J. van Deventer
- 30 **Structural health monitoring of civil infrastructure systems**
Edited by V. M. Karbhari and F. Ansari
- 31 **Architectural glass to resist seismic and extreme climatic events**
Edited by R. A. Behr
- 32 **Failure, distress and repair of concrete structures**
Edited by N. Delatte
- 33 **Blast protection of civil infrastructures and vehicles using composites**
Edited by N. Uddin
- 34 **Non-destructive evaluation of reinforced concrete structures Volume 1: Deterioration processes**
Edited by C. Maierhofer, H.-W. Reinhardt and G. Dobmann
- 35 **Non-destructive evaluation of reinforced concrete structures Volume 2: Non-destructive testing methods**
Edited by C. Maierhofer, H.-W. Reinhardt and G. Dobmann
- 36 **Service life estimation and extension of civil engineering structures**
Edited by V. M. Karbhari and L. S. Lee
- 37 **Building decorative materials**
Edited by Y. Li and S. Ren
- 38 **Building materials in civil engineering**
Edited by H. Zhang

- 39 **Polymer modified bitumen**
Edited by T. McNally
- 40 **Understanding the rheology of concrete**
Edited by N. Roussel
- 41 **Toxicity of building materials**
Edited by F. Pacheco-Torgal, S. Jalali and A. Fucic
- 42 **Eco-efficient concrete**
Edited by F. Pacheco-Torgal, S. Jalali, J. Labrincha and V. M. John
- 43 **Nanotechnology in eco-efficient construction**
Edited by F. Pacheco-Torgal, M. V. Diamanti, A. Nazari and C. Goran-Granqvist
- 44 **Handbook of seismic risk analysis and management of civil infrastructure systems**
Edited by F. Tesfamariam and K. Goda
- 45 **Developments in fiber-reinforced polymer (FRP) composites for civil engineering**
Edited by N. Uddin
- 46 **Advanced fibre-reinforced polymer (FRP) composites for structural applications**
Edited by J. Bai
- 47 **Handbook of recycled concrete and demolition waste**
Edited by F. Pacheco-Torgal, V. W. Y. Tam, J. A. Labrincha, Y. Ding and J. de Brito
- 48 **Understanding the tensile properties of concrete**
Edited by J. Weerheijm
- 49 **Eco-efficient construction and building materials: Life cycle assessment (LCA), eco-labelling and case studies**
Edited by F. Pacheco-Torgal, L. F. Cabeza, J. Labrincha and A. de Magalhães

<i>Contributor contact details</i>	<i>xiii</i>
<i>Woodhead Publishing Series in Civil and Structural Engineering</i>	<i>xix</i>
1 Introduction to the environmental impact of construction and building materials	1
F. PACHECO-TORGAL, University of Minho, Portugal	
1.1 Introduction	1
1.2 Environmental impact assessment	2
1.3 The European Construction Products Regulation (CPR)	4
1.4 Outline of the book	5
1.5 References	8
Part I Life cycle assessment (LCA), eco-labelling and procurement	11
2 Mineral resource depletion assessment	13
A. VALERO DELGADO, CIRCE – Research Centre for Energy Resources and Consumption, Spain	
2.1 Introduction	13
2.2 Definition and classification of mineral resources	14
2.3 Trends in mineral use and depletion	16
2.4 Dynamic analysis of mineral resource use and depletion: the Hubbert peak model	23
2.5 From grave to cradle: a new approach to assess and account for mineral depletion	29
2.6 Conclusions	34
2.7 References	35
3 Life cycle assessment (LCA) of sustainable building materials: an overview	38
G. K. C. DING, University of Technology Sydney, Australia	
3.1 Introduction	38
3.2 The environmental impact of building materials	39

vi	Contents	
3.3	Life cycle assessment (LCA) and sustainable building materials	48
3.4	Conclusions	57
3.5	References	58
4	Life cycle assessment (LCA) of the building sector: strengths and weaknesses A. RØNNING and A. BREKKE, Ostfold Research, Norway	63
4.1	Introduction	63
4.2	The overall strengths and limitations of life cycle assessment (LCA)	64
4.3	Strengths and weaknesses within LCA methodology	68
4.4	Conclusions	79
4.5	References	81
5	Using life cycle assessment (LCA) methodology to develop eco-labels for construction and building materials C. GAZULLA SANTOS, ESCI, Pompeu Fabra University, Spain	84
5.1	Introduction: life cycle thinking and eco-labels	84
5.2	Life cycle assessment (LCA)	85
5.3	Types of eco-labels and their relation to LCA	87
5.4	Environmental certification programmes for buildings	93
5.5	Future trends	93
5.6	Sources of further information and advice	95
5.7	References	95
6	The EU Ecolabel scheme and its application to construction and building materials G. L. BALDO, Life Cycle Engineering, Italy, G. CESAREI and S. MINISTRINI, Italian National Institute for Environmental Protection and Research (ISPRA), Italy and L. SORDI, Life Cycle Engineering, Italy	98
6.1	Introduction	98
6.2	The EU Ecolabel and the European Commission policy for sustainability	99
6.3	History and goals of the EU Ecolabel scheme	101
6.4	EU Ecolabel establishment procedures and criteria	103
6.5	EU Ecolabel and green public procurement (GPP)	106
6.6	EU Ecolabel and national ecolabelling schemes	107

6.7	EU Ecolabel for eco-efficient construction and building materials	107
6.8	Future trends	119
6.9	Sources of further information and advice	121
6.10	References and further reading	123
6.11	Appendix: abbreviations	124
7	Environmental product declaration (EPD) labelling of construction and building materials M. D. BOVEA, V. IBÁÑEZ-FORÉS and I. AGUSTÍ-JUAN, Universitat Jaume I, Spain	125
7.1	Introduction	125
7.2	Regulatory framework	126
7.3	Objectives and general principles	128
7.4	Environmental product declaration (EPD) methodology	128
7.5	EPD programmes around the world	135
7.6	Product category rules (PCR) for construction and building materials	137
7.7	Case studies: EPD for construction and building materials	142
7.8	Conclusions	148
7.9	References	149
8	Shortcomings of eco-labelling of construction and building materials S. BASU and B. BIDANDA, University of Pittsburgh, USA	151
