Contents

Foreword

O. Poupá	11
I. Metabolism of Water and Electrolytes	
(Chairman: J. Křeček, Institute of Physiology, Czechoslovak Academy of Sciences, Prague)	
The Anatomy of Body Water during Development	
J. Jelínek, J. Martínek, V. Stanincová	14
Cellular Metabolism of Electrolytes and Water	
A. Kleinzeller	18
The Effect of Acidosis on Muscle and Renal Tissue Electrolytes	
J. H. Cort	24
Developmental Changes of Cation Transport in Kidney Tissue	
K. Čapek, A. Kleinzeller	28
A Study of Tubular Functions in Chronic Pyelonephritis	
V. Fencl	33
The Osmotic Activity of the Kidney	
O. Schück, J. Andryšková, O. Andryšek	38
Evidence for a Circulatory Shunt in the Kidney during Posthaemorrhagic Hypotension in dogs	
J. Jirka, V. Ganz, V. Fencl, J. H. Cort, R. Trávníček	40
Concerning the Activity of the Neurohypophysis	
J. Heller	42
Antidiuretic Activity in the Human Infants Plasma After NaCl Load	
J. Martínek	45
A Pressor Reflex Affecting Sodium Reabsorption by the Kidney Involving the Posterior Hypothalamus	
B. Lichardus, J. H. Cort, V. Fencl, J. Jirka	46
The Effect of Vasopressin in the Weaning Period	
J. Křeček, H. Dlouhá, J. Křečková	49
The Possibility of Regulating Water Metabolism by Psychic Stimuli	
V. Zikmund, B. Lichardus	52
II. Regulation of Lipid Metabolism	
(Chairman: M. Wenke, Institute of Pharmacology, Charles University, Prague)	
Some Present Day Problems of Fat Metabolism	
M. Wenke, B. Mosinger	56
Postnatal Changes in Fat Metabolism	
P. Hahn, O. Koldovský	59
Adipose Tissue Composition during Development and in Different Nutritional States	

Z. Placer, Z. Slabochová	63
The Development of Adipose Tissue in Man and its Relationship to Some Functional Indicators	
J. Pařízková, M. Vamberová, J. Oppl, M. Vaněčková	66
The Development of Lipid Metabolism	
M. Novák, V. Melichar	70
The Development of Lipid Metabolism	
V. Melichar, M. Novák	70
The Relation of Nourishment to some Indicators of Lipid Metabolism	
E. Eiselt	71
Fatty Acid Exchange between Adipose Tissue and its Environment	
D. Reichl	73
Mast Cells and Fat Metabolism	
J. Fodor, T. Zemplényi, Z. Lojda, P. Fábry	76
The Role of Endocrine Glands in Fat Metabolism	
L. Krulich, J. Turinský, P. Ilner, R. Höschl	78
The Influence of Sympatotropic Substances on Depot Lipid Mobilization	
M. Wenke, E. Mühlbachová, S. Hynie	82
The Mechanism of Lipid Mobilization	
B. Mosinger, J. Wenkeová, T. Braun	86
Concerning the Existence of a Specific Lipid Mobilizing Hormone	
T. Braun, B. Mosinger	94

III. The Physiology of Adaptive Phenomena

(Chairman: O. Poupa, Institute of Physiology, Czechoslovak Academy of Sciences, Prague)

Some Perspectives in the Research on Adaptation

O. Poupa	100
----------------	-----

Basic Mechanisms of Adaptation to Anoxia and Hypoxia

P. Blažka, M. Kopecký	103
-----------------------------	-----

The Adaptation of Fetal Carbohydrate Metabolism to Hypoxia

Z. Štembera, J. Hodr	106
----------------------------	-----

Adaptation to Stagnant Anoxia and Haemorrhage

L. Jílek	108
----------------	-----

Adaptation of the Respiratory Center to CO₂

F. Paleček	109
------------------	-----

Adaptation to Injury

Z. Hrůza	110
----------------	-----

The Effect of Adaptation of Mice to Trauma in the Noble-Collip Drum on the Dynamics of Infection with Influenza Virus

F. Link	115
---------------	-----

Concerning Adaptation to Drugs

M. Háva	116
---------------	-----

Adaptation to Changed Feeding Pattern

P. Fábry, R. Petrásek, V. Kujalová, E. Holečková	118
--	-----

Some Metabolic Consequences of Adaptation to a High Energy Output

J. Pařízková, O. Poupa	125
------------------------------	-----

Adaptation of Intestinal Absorption

E. Faltová, P. Hahn, O. Koldovský	128
---	-----

Late Effects of Early Adaptation: the Effect of Premature Weaning

O. Koldovský, J. Anděl, H. Dlouhá, J. Faltin, V. Flandera, P.	
---	--

Hahn, M. Kraus, J. Křeček, J. Křečková, K. Kubát, M. Novák, V. Nováková	133
Remarks on Adaptation in Ontogeny S. Trojan	140
Salt Fever in Artificially Fed Infants J. Martínek	141
Adaptation of Regulatory Systems J. Lát, M. Kopecký, Z. Hruza, P. Fábry	143
Adaptation in Animal Cells and Tissues E. Holečková	148
Biochemical Mechanism of Adaptation F. Chytil, V. Kubišta	153
IV. Regulation of the Circulation (Chairman: V. Kruta, Institute of Physiology, Medical Faculty, Brno) Comparative and Tissue Aspects of Circulation Regulations V. Kruta	158
✓ Dynamics of the Mechanisms Controlling the Blood Pressure and Heart Rate J. Peňáz	168
Relation of Cardiac Frequency Changes Induced by Flack Test and Pressure Breathing M. Vlasák	178
✓ Blood Pressure Regulation I. Krejčí	180
Mechanisms of Intravascular Receptor Stimulation and the Regulation of the Cardiovascular System J. Gero, M. Gerová	181
On the Adequate Circulatory Reaction to Environmental Stimuli V. Ehrlich, K. Froňková	200
Dynamics of the Reactivity of Peripheral Vessels in Man I. Ruttkay-Nedecký	206
The Role of Veins in the Regulation of Blood Flow in the Limbs I. Přerovský, J. Linhart	212
Haemodynamic Changes in the Body during Severe Muscular Exercise and Preparation for Exercise under Physiological and Pathological Conditions J. Brod	217
Relationship between Cardiac Dynamics and Intensity of Work E. Eiselt	231
V. Reaction and Adaptation to Muscular Load (Chairman: E. Gutmann, Institute of Physiology, Czechoslovak Academy of Sciences, Prague) ✓ Physiology of Neurotrophic Relations E. Gutmann, R. Beránek, P. Hník, J. Zelená	234
The Trophic Influence of the Nervous System on Bone Metabolism A. Rosenfeldová, R. Rosenfeld	240
Metabolism of the Denervated Muscle A. Bass, O. Hudlická	242
Some Observations on Dissected Cerebral Cortex S. Reiniš	250

Adaptation of Energy Metabolism	
V. Kubišta	251
The Specificity of Metabolism in Different Striated Muscles	
Z. Drahota, R. Žák	257
Remarks on the Trophic Activity of the Nervous System and on Adaptive Changes in Muscles	
N. N. Yakovlev	261
Cardiopulmonary, Metabolic and Humoral Reactions during Muscular Activity and the Recovery Phase	
V. Seliger, R. Vinařický, V. Zbuzek	263
Preparatory Reactions to Motor Activity and Nociceptive Stimulation	
B. Jakoubek, E. Gutmann, J. Antal	269
Reactions of the Organism to Physical Activity. Application in the Physiology of Work and Physical Training	
A. Zelený, J. Peregrin, E. Bena, M. Hubač	275
Circulation and Respiratory Reactions during Work in Adolescents. Remarks on "Supersystolic Tone"	
M. Hubač	284
The Oxygen Equivalent in Relation to Age and the Working Capacity in Adolescents	
M. Vaněčková, F. Janda	285
Changes in Physical Fitness in Old Age. Retardation of Decreased Efficiency by Physical Training	
E. Eiselt	286
VI. Physiology of Excitable Tissues	
(Chairman: J. Bureš, Institute of Physiology, Czechoslovak Academy of Sciences, Prague)	
Electrophysiology of Peripheral Excitable Structures	
J. Zachar	290
Electrophysiology of the Central Nervous System	
J. Holubář	298
Applied Physiology of Higher Nervous Activity and Hygiene	
M. Horváth	305
Spreading Depression in Pharmacology	
J. Nečina	306
Functional Metabolism of Nervous Tissue	
Z. Lodin	308
Peculiarities of Nervous Tissue Metabolism in New-Born and Young Mammals	
L. Jílek	312
VII. Physiology and Pathophysiology of the Central Nervous System	
(Chairman: Z. Servít, Institute of Physiology, Czechoslovak Academy of Sciences, Prague)	
Evolutionary Physiology and Pathology of the Central Nervous System	
J. Mysliveček	316
Some Currents in ČSSR in Experimental Research into Higher Nervous Activity	
J. Antal	319
The Disintegration of Senso-Motor Coordination as an Indicator of Overwork	
J. Sedlák	327
Discussion: Miętkiewski	328

Pathophysiology of Nervous Seizures	
Z. Servít	329
Seizure Susceptibility as an Unsolved Problem	
L. Cigánek	333
Some Clinical Applications of the Reflex Theory in Epilepsy	
D. Dudáš	334
Conclusion Z. Servít	335
Author Index	337
Subject Index	348
