Foreword

Dr. Tang Xi is a promising young scholar in School of Foreign Languages, Changshu Institute of Technology. He started to teach business English at the then Changshu College in 2003. For the pursuit of academic advancement, he went to Durham University in the UK, where he obtained Doctorate of Education in 2012. Now his doctoral thesis is to be published in Soochow University Press and I feel greatly honored to write a foreword for it.

Content-based instruction (CBI) currently is a buzz word in the field of English teaching and learning, for it claims to associate language learning with content learning. It is acclaimed as an approach to facilitate acquisition of new knowledge and skills to offset inadequacy arising in teacher-oriented and language-based models. Based on the elaboration of varied aspects of CBI and on the overview of situation of business English teaching in China, the study proposes the hypothesis whether task-based instruction is a more effective CBI method to develop multiple academic literacies for EFL students of business English, in comparison with language-based instruction and discipline-based instruction. Pretests, pilot studies and posttests are done to guarantee validity. Four dimensions—language literacy, business knowledge, problem-solving skills and overall academic performances—are designed as yardsticks to test effectiveness of task-

based instruction CBI. The research concludes itself by stating that task-based instruction CBI has more advantages over language-based CBI and over discipline-based CBI in developing multiple academic literacies for the EFL students of business English.

Business English has established itself as a major along with English and translation studies. Related academic meetings are convened and researches on business English teaching and learning are conducted at various levels. With its empirical and explorative nature, the book will definitely make its due contribution to the ever-thriving major.

Ma Weilin

Changshu Institute of Technology

Acknowledgements

I wish to thank my supervisors Dr Richard Remedios and Dr Beth Howell, for their continued support of my work on this thesis. They spared no effort to help me construct ideas, investigate problems and write up research. Their suggestions and encouragement are greatly appreciated.

I send my sincerest thanks to the students of the School of Foreign Languages at the Changshu Institute of Technology for their enthusiastic participation in this project. They spent spare time taking part in extra teaching sessions and tests, which made an essential contribution to the data collection in this study. Thanks also to the management and staff at this school for supporting my studies. You offered me a precious platform on which I was able to translate my research ideas into practice.

Thanks to my loving families for constantly supporting me throughout my many years of further study in the UK and encouraging me to pursue my career goals in educational research and teaching.

Contents

Chapter I Introduction	001
1.1 The Cross-disciplinary Development in Higher Education	004
1.1.1 The rising demand for business studies among international students	005
1.1.2 The privileged status of English language in higher education	006
1.1.3 The impact of interdisciplinary development on academic literacies	007
1.1.4 Transferable skills and situated cognition	009
1.2 The Historic View of Business English	012
1.2.1 The proliferation of Business English terms	012
1.2.2 Specialised vocabulary	013
1.2.3 The skills of business communication	014
1.2.4 “Gambits” as formulaic language	015
1.2.5 Case study method	016

1.3 Teaching of Business English in China	018
1.3.1 Business English programmes at universities in China	019
1.3.2 Mismatch of English tests and Business English	021
1.4 CBI and Other Language Learning Theories	023
1.4.1 Structures or meanings?	024
1.4.1.1 Structure-based approach	024
1.4.1.2 Meaning-based approach	026
1.4.1.3 An option between structures and meanings	027
1.4.2 Relationships between CBI and other current instructional approaches	028
1.4.2.1 Whole language teaching	029
1.4.2.2 Workplace literacy	029
1.4.2.3 English for academic purposes and English for specific purposes	030
1.4.2.4 Culture and literature as content	033
Chapter II Literature Review	036
2.1 CBI from North America to Europe	036
2.2 CBI Rationales	039
2.2.1 Necessary conditions for L2 learning	040
2.2.2 Cognitive Academic Language Proficiency (CALP) and Basic Interpersonal Communication Skills (BICS)	040

2.2.3 General academic discourses versus specific disciplinary discourses	041
2.2.4 Task-based Language Teaching (TBLT)	043
2.3 Three Basic CBI Models	045
2.3.1 Theme-based model	045
2.3.2 Sheltered model	047
2.3.3 Adjunct model	048
2.4 The Sustained-Content Language Teaching (SCLT)	050
2.5 The Cognitive Academic Language Learning Approach (CALLA)	052
2.5.1 Academic needs	053
2.5.2 Theoretical backgrounds	055
2.5.3 Three components of CALLA Model	056
2.5.4 A learner-centred approach	057
2.6 The Language-Content-Task (LCT) Framework	059
2.6.1 Three academic areas and their overlaps	060
2.6.2 Discourse analysis of oral interactions	062
2.7 The Project Framework	064
2.7.1 The project-based instruction	064
2.7.2 Three categories of planning graphic	065
2.7.3 The investigation of students' experience	066
2.8 A Tripartite Curriculum for Teaching Business English	067
2.8.1 An ESP perspective	067

2.8.2 A language-as-discourse view	068
2.8.3 Teaching a tripartite curriculum	070
2.9 CBI in Higher Education	072
2.9.1 EFL programmes for students of mathematics and computer science	074
2.9.2 A hybrid EAP programme to promote disciplinary knowledge and expertise	076
2.9.3 An adjunct bridge programme to develop language and content learning	079
2.9.4 The “Body Shop Case Study”: the case study method in Business English classrooms	083
2.10 Evaluation of CBI Programmes	088
2.10.1 Evaluation of communicative competence	089
2.10.2 Dual purposes of the assessment in CBI programmes	090
2.10.3 Language considerations in the assessment	092
2.10.4 Other assessment alternatives for CBI programmes	094
2.10.5 Practical challenges in evaluation	095
2.11 Academic Literacy , Pedagogy and Evaluation of CBI Curricular Models	097
2.11.1 Three domains of academic literacy	098
2.11.2 Evolution of instructional methods	099
2.11.3 Evaluation of academic achievement and instructional methods	100

2.12 Decisions on Instructional Methods	101
2.12.1 Language-based programme for academic purposes	102
2.12.2 Discipline-based programme for business purposes	105
2.12.3 Task-based programme for multiple purposes	106
2.13 Assessment of Students' Learning Outcomes of Multiple Academic Literacies	109
2.14 Students' Learning Experiences	111
Chapter III The Study	112
3.1 Aims and Objectives	112
3.2 Research Questions and Hypotheses	113
3.3 Mixed-method Designs	115
3.3.1 Reasons for one-way MANOVA of mean scores of post-tests and correlation tests	119
3.3.2 Thematic Content Analysis(TCA)	121
3.4 Methodology	125
3.4.1 Participants	126
3.4.2 Induction and pre-test	127
3.4.3 Teaching materials design	128
3.4.4 Pilot study	129
3.4.5 Three CBI teaching methods	129
3.4.5.1 Language-based Group (LB)	129

3.4.5.2 Discipline-based Group (DB)	131
3.4.5.3 Task-based group (TB)	133
3.4.6 Omnibus tests	135
3.4.6.1 Language literacy (Lang.) items	135
3.4.6.2 Business knowledge (Bus.) items	136
3.4.6.3 Problem-solving skills (PS.) items	136
3.4.7 Marking	137
3.4.8 Semi-structured interviews	138
3.4.9 Reliability and validity of the data collection	139
3.4.10 Ethical considerations	143
Chapter IV Findings and Interpretations	145
4.1 One-way MANOVA and Correlation Analysis of Students' Academic Performance on Post-test	145
4.1.1 Results of one-way MANOVA	147
4.1.2 Results of post-hoc multiple comparisons	148
4.1.2.1 Language literacy	149
4.1.2.2 Business knowledge	150
4.1.2.3 Problem-solving skills	150
4.1.2.4 Overall academic performances	151
4.1.3 Results of correlation tests	151
4.1.3.1 Assumption of language-based programme	152
4.1.3.2 Assumption of discipline-based programme	152
4.1.3.3 Assumption of task-based programme	152

4.1.4	Final interpretations of quantitative data	153
4.2	Thematic Content Analysis of Interview Transcripts ...	154
4.2.1	Students' previous learning experiences	156
4.2.2	Students' preferable CBI model	157
4.2.3	Positive motivation, enjoyment and engagement	158
4.2.4	Classroom learning support	159
4.2.5	Learning barriers	161
4.2.6	Language gains	162
4.2.7	Business knowledge mastery	163
4.2.8	Problem-solving skills acquisition	164
4.2.9	Attitudes toward multiple tests	165
4.2.10	Improvements	165
Chapter V	Discussion	167
5.1	The Consistency of Diverse Academic Literacies Development across Different CBI Groups	169
5.1.1	The emphasis on a language-based “academic core”	172
5.1.2	The importance of acquiring disciplinary content	177
5.1.3	The necessary development of academic problem-solving skills	181
5.2	The Comparisons of Academic Achievement between the CBI Groups	184
5.2.1	The comparison of students' performance on academic language literacy tests	185

5.2.2 The comparison of students' performance on business knowledge tests	188
5.2.3 The comparison of students' performance on problem-solving skills tests	191
5.2.4 The comparison of students' overall academic performance	194
5.3 The Pedagogical Gearing of CBI Curricula	197
5.3.1 Different curricular representations of academic knowledge	198
5.3.2 From technical and practical literacy-based instructions to emancipatory task-based instructions	201
5.3.2.1 The development of CBI curricular objectives	202
5.3.2.2 The power relationship within different CBI programmes	204
5.3.2.3 CBI curricular plans and their implementations	205
5.3.2.4 CBI curricular knowledge	207
5.3.2.5 The assessment of the CBI curriculum; from “product” to “process”	208
5.3.3 Avoid a negative pedagogical gearing	210
Chapter VI Conclusion	212
Chapter VII Evaluation of the Study	217

Appendices	221	
Appendix I	Consent Form	221
Appendix II	Pre-test Paper	224
Appendix III	Excerpts of “Prisoners’ Dilemma”	237
