Kenneth Vickery, MD FFCM DPH,
Chairman of Council, Royal Institute of Public Health and Hygiene

FOREWORD

This is the second Royal Institute Year Book to be produced in this comprehensive form and I am delighted to say that the first edition last year was very well received by members and other interested parties.

We thank those concerned with the publication and especially Mr Bob Horsham, FCIS, Hon FRIPHH, who is retiring at the end of 1981 after nearly 33 years service. We wish him a long and happy retirement.

The Secretary-elect is Rear Admiral W. A. Waddell, CB, OBE, BSc, FIEE, who will be taking up his appointment on 1st January 1982.

Again we are grateful to the advertisers who are associated with this publication. Many of them are old friends of The Royal Institute and already assist our activities in other ways. We hope that our readers' response to the advertisers will encourage support to this Year Book in the years ahead.

Included in the contents is a nominal roll of our members of Council. Their services rendered to The Royal Institute are entirely voluntary. They continue to be desirous of placing at the disposal of the membership their individual or collective expertise on a wide variety of health-related subjects.

A handwritten signature in dark ink, reading 'Kenneth Vickery'. The signature is written in a cursive style with a large, sweeping 'V' for the first letter of the surname.

Kenneth Vickery

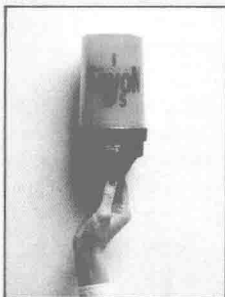

Hygiene Modern Style. Mölnlycke

The only paper towelwipe system with material grades for every application, plus liquid soap, hand cleanser and toilet tissue in a **totally integrated hygiene system.**

M-BOX

Europe's most effective paper towelwipe system. Standard size M-Box shown here gives up to 1,000 hand wipes from the centre-feed roll—eight times more than conventional methods.

S-BOX

Latest and most scientifically designed liquid soap dispenser available. Drip and clog proof. No corroding parts. New liquid soap and hand cleanser in 'cartridge' refills—**both awarded RIPHH certificate of approval.** 1000 washes in each refill.

T-BOX

Holds the equivalent of 20 normal toilet rolls. Cuts wastage and pilferage dramatically. Reduces labour refill costs by over 90%.

The stylish, robust, lockable dispensers are available in six attractive colours. All Mölnlycke products are available locally through a national network of distributors. From factory floor to powder room, Mölnlycke offers you the most hygienic and economic answer.
