## Section I. THE KIDNEY

|                                                             |    |
|-------------------------------------------------------------|----|
| 1. Anatomy and Physiology of the Kidney . . . . .           | 22 |
| 2. Surgical Approach to the Kidney . . . . .                | 32 |
| Lumbar Incision . . . . .                                   | 34 |
| Lumbar Incision with Resection of the Twelfth Rib . . . . . | 38 |
| Anterior Abdominal Transperitoneal Approach . . . . .       | 42 |
| Anterior Abdominal Retroperitoneal Approach . . . . .       | 44 |
| Transpleural Transthoracic Approach . . . . .               | 46 |
| Extrapleural Transthoracic Approach . . . . .               | 48 |
| 3. Renal and Pararenal Surgery . . . . .                    | 52 |
| Nephrectomy . . . . .                                       | 52 |
| Pyelotomy and Pyelolithotomy . . . . .                      | 60 |
| Nephrotomy; Nephrostomy; Nephrolithotomy . . . . .          | 62 |
| Heminephrectomy . . . . .                                   | 66 |
| Nephropexy . . . . .                                        | 68 |
| Renal Decapsulation . . . . .                               | 74 |
| Pyeloplasty . . . . .                                       | 76 |
| Adrenalectomy . . . . .                                     | 82 |
| 4. Surgical Treatment of Conditions of the Kidney . . . . . | 86 |
| Anomalies . . . . .                                         | 86 |
| Infections . . . . .                                        | 90 |
| Nephrolithiasis . . . . .                                   | 92 |
| Cystic Disease of the Kidney . . . . .                      | 94 |
| Injuries . . . . .                                          | 96 |
| Tumors . . . . .                                            | 96 |

*Section II. THE URETER*

|                                                             |     |
|-------------------------------------------------------------|-----|
| 5. Anatomy and Physiology of the Ureter . . . . .           | 98  |
| 6. Surgical Access to the Ureter . . . . .                  | 102 |
| Approach to the Upper Portion . . . . .                     | 104 |
| Approach to the Midportion . . . . .                        | 106 |
| Approach to the Lower Portion . . . . .                     | 108 |
| 7. Surgical Procedures on the Ureter . . . . .              | 114 |
| Ureterolithotomy . . . . .                                  | 114 |
| Cutaneous Ureterostomy . . . . .                            | 118 |
| Ureteroneocystostomy . . . . .                              | 120 |
| Ureterointestinal Anastomosis . . . . .                     | 124 |
| Ureterectomy . . . . .                                      | 134 |
| 8. Surgical Treatment of Conditions of the Ureter . . . . . | 136 |
| Anomalies . . . . .                                         | 136 |
| Hydroureter and Pyoureter . . . . .                         | 136 |
| Ureteral Calculi . . . . .                                  | 137 |
| Injuries . . . . .                                          | 137 |
| Tumors . . . . .                                            | 138 |
| Ureteral Reflux . . . . .                                   | 138 |

*Section III. THE BLADDER*

|                                                       |     |
|-------------------------------------------------------|-----|
| 9. Anatomy and Physiology of the Bladder . . . . .    | 144 |
| 10. Surgical Access to the Bladder . . . . .          | 154 |
| Suprapubic Approach . . . . .                         | 154 |
| 11. Open Surgical Procedures on the Bladder . . . . . | 166 |
| Suprapubic Cystostomy . . . . .                       | 166 |
| Suprapubic Cystolithotomy . . . . .                   | 168 |
| Coagulation of Tumor . . . . .                        | 170 |
| Partial Cystectomy . . . . .                          | 172 |
| Diverticulectomy . . . . .                            | 178 |
| Total Cystectomy . . . . .                            | 180 |

| <i>Chapter</i>                                                | <i>Page</i> |
|---------------------------------------------------------------|-------------|
| Repair of Bladder Injury . . . . .                            | 188         |
| 12. Surgical Treatment of Conditions of the Bladder . . . . . | 190         |
| Prolapse . . . . .                                            | 190         |
| Exstrophy . . . . .                                           | 190         |
| Vesical Stones . . . . .                                      | 192         |
| Elusive Ulcer . . . . .                                       | 192         |
| Diverticulum . . . . .                                        | 192         |
| Tumors . . . . .                                              | 193         |
| Neurogenic Bladder . . . . .                                  | 193         |
| Bladder Neck Obstruction in Infants . . . . .                 | 194         |

#### *Section IV. THE PROSTATE*

|                                                                |     |
|----------------------------------------------------------------|-----|
| 13. Anatomy and Physiology of the Prostate . . . . .           | 196 |
| 14. Surgical Access to the Prostate . . . . .                  | 206 |
| General Measures in Preparation of the Patient . . . . .       | 206 |
| Suprapubic Abdominal Transvesical Approach . . . . .           | 208 |
| Abdominal Suprapubic Retropubic Approach . . . . .             | 212 |
| Perineal Approach . . . . .                                    | 214 |
| 15. Prostatectomy . . . . .                                    | 222 |
| Partial Prostatectomy . . . . .                                | 222 |
| Total Prostatectomy . . . . .                                  | 236 |
| Vesicourethral Anastomosis . . . . .                           | 244 |
| 16. Surgical Treatment of Conditions of the Prostate . . . . . | 248 |
| Abscess . . . . .                                              | 248 |
| Calculi . . . . .                                              | 248 |
| Hypertrophy . . . . .                                          | 248 |
| Carcinoma . . . . .                                            | 250 |

#### *Section V. THE URETHRA*

|                                                   |     |
|---------------------------------------------------|-----|
| 17. Anatomy of the Urethra . . . . .              | 254 |
| 18. Surgical Approach to the Urethra . . . . .    | 258 |
| Preparation and Position of the Patient . . . . . | 258 |
| Approaches to the Urethra . . . . .               | 260 |

## [16] **Table of Contents**

| <i>Chapter</i>                       | <i>Page</i> |
|--------------------------------------|-------------|
| 19. Surgery of the Urethra . . . . . | 262         |
| Bladder Neck Contractures . . . . .  | 262         |
| Posterior Urethral Valves . . . . .  | 262         |
| Rupture . . . . .                    | 264         |
| Hypospadias . . . . .                | 268         |
| Epispadias . . . . .                 | 276         |
| Periurethral Abscess . . . . .       | 278         |
| Urethral Stricture . . . . .         | 280         |
| Urethral Stone . . . . .             | 290         |
| Urethral Perineal Fistula . . . . .  | 292         |
| Meatotomy . . . . .                  | 294         |
| Incontinence . . . . .               | 296         |

### *Section VI. THE PENIS*

|                                                       |     |
|-------------------------------------------------------|-----|
| 20. Anatomy of the Penis . . . . .                    | 300 |
| 21. Surgery of the Penis . . . . .                    | 304 |
| Circumcision . . . . .                                | 304 |
| Operation for Peyronie's Disease . . . . .            | 305 |
| Partial Amputation of the Penis . . . . .             | 306 |
| Complete Amputation of the Penis . . . . .            | 308 |
| Radical Lymph Node Dissection for Carcinoma . . . . . | 310 |
| Repair of Injuries to the Penis . . . . .             | 314 |

### *Section VII. THE SCROTUM*

|                                                                      |     |
|----------------------------------------------------------------------|-----|
| 22. Anatomy of the Scrotum . . . . .                                 | 316 |
| 23. Surgery of the Scrotum . . . . .                                 | 318 |
| Wounds . . . . .                                                     | 318 |
| Carcinoma . . . . .                                                  | 318 |
| Gangrene . . . . .                                                   | 319 |
| Plastic Operations on the Scrotum . . . . .                          | 320 |
| 24. Surgery of the Scrotal Contents (excluding the testis) . . . . . | 322 |
| Hydrocelectomy . . . . .                                             | 322 |

| <i>Chapter</i>                            | <i>Page</i> |
|-------------------------------------------|-------------|
| Hematocelectomy . . . . .                 | 324         |
| Spermatocelectomy . . . . .               | 326         |
| Hydrocele of the Spermatic Cord . . . . . | 328         |
| Torsion of the Spermatic Cord . . . . .   | 330         |
| Varicocelectomy . . . . .                 | 332         |

### *Section VIII. THE TESTIS*

|                                                         |     |
|---------------------------------------------------------|-----|
| 25. Anatomy and Physiology of the Testis . . . . .      | 334 |
| 26. Surgery of the Testis . . . . .                     | 336 |
| Orchitis . . . . .                                      | 336 |
| Anomalies of Position . . . . .                         | 336 |
| Orchiopexy . . . . .                                    | 338 |
| Orchiectomy . . . . .                                   | 344 |
| Radical Orchiectomy and Lymph Node Dissection . . . . . | 346 |

### *Section IX. THE EPIDIDYMIS and VAS DEFERENS*

|                                                    |     |
|----------------------------------------------------|-----|
| 27. The Epididymis . . . . .                       | 348 |
| Anatomy and Physiology of the Epididymis . . . . . | 348 |
| Surgical Treatment of Epididymitis . . . . .       | 348 |
| Epididymectomy . . . . .                           | 350 |
| Epididymovasostomy . . . . .                       | 352 |
| 28. The Vas Deferens . . . . .                     | 354 |
| Anatomy of the Vas Deferens . . . . .              | 354 |
| Vasotomy . . . . .                                 | 356 |
| Vasectomy . . . . .                                | 356 |

### *Section X. TRANSURETHRAL SURGERY*

|                                                       |     |
|-------------------------------------------------------|-----|
| 29. Transurethral Prostatic Resection . . . . .       | 358 |
| 30. Other Transurethral Procedures . . . . .          | 376 |
| Coagulation and Resection of Bladder Tumors . . . . . | 376 |
| Treatment of Vesical Calculus . . . . .               | 380 |
| Diverticulotomy . . . . .                             | 382 |

# List of Illustrations

|                                                               | <i>Plate</i> |
|---------------------------------------------------------------|--------------|
| General Topography of the Kidney . . . . .                    | 1            |
| Blood Supply of the Kidney . . . . .                          | 2            |
| Nerves and Lymphatics of the Kidney; Renal Fixation . . . . . | 3            |

## SURGICAL UROLOGY

# *The* HANDBOOKS of OPERATIVE SURGERY ---

## THE STOMACH AND DUODENUM

CLAUDE E. WELCH, M.D.

*Associate Visiting Surgeon, Massachusetts General Hospital  
Clinical Associate in Surgery, Harvard Medical School*

## SURGICAL GYNECOLOGY

J. P. GREENHILL, M.D.

*Attending Gynecologist, Cook County and Michael Reese Hospitals*

## THE CHEST

JULIAN JOHNSON, M.D.

*Professor of Surgery, School of Medicine and Graduate School of Medicine  
and*

CHARLES K. KIRBY, M.D.

*Assistant Professor of Surgery, School of Medicine  
University of Pennsylvania*

## THE BILIARY TRACT, PANCREAS AND SPLEEN

CHARLES B. PUESTOW, M.D.

*Clinical Professor of Surgery, College of Medicine and Graduate College  
University of Illinois*

## SURGICAL UROLOGY

R. H. FLOCKS, M.D.

*Professor and Head, Department of Urology  
and*

DAVID CULP, M.D.

*Assistant Professor of Urology  
State University of Iowa College of Medicine*

## THE INTESTINAL TRACT

CHARLES W. MAYO, M.D.

*Professor of Surgery, Mayo Foundation Graduate School  
University of Minnesota*

A HANDBOOK OF OPERATIVE SURGERY

# SURGICAL UROLOGY
