#### 注 意

医学是一门不断发展的科学。由于新的研究及临床实践在不断丰富人们的知识，因此在药物使用及治疗方面也在谋求各种变化。本书编者及出版者核对了各种信息来源，并确信本书内容完全符合出版时的标准。然而，鉴于不可避免的人为错误和医学学科的发展，不管是编者、出版者还是其他参与本书出版的工作者均不能保证此书中的内容百分之百正确。因此，他们不能对由此类错误引起的后果负责。

我们提倡读者将本书内容与其他资料进行确证。例如，我们希望读者对他们将要使用的每一种药品的说明书仔细阅读，以确证本书的有关信息是正确的，且推荐的药品用量及禁忌证等没有变化。该建议对新药或非常用药尤为重要。

# Contributors

---

**N. Franklin Adkinson, Jr., M.D.**

Professor of Medicine, Johns Hopkins University School of Medicine; Co-Director, Division of Allergy and Clinical Immunology, Johns Hopkins Asthma and Allergy Center, Baltimore, Maryland  
*β-Lactam Allergy*

**David M. Allen, M.D., FAMS**

Adjunct Assistant Professor of Medicine, Weill Medical College of Cornell University, New York, New York; Partner and Attending Physician, ID Associates, Dallas, Texas  
*Acinetobacter Species*

**Harvey J. Alter, M.D.**

Clinical Professor of Medicine, Georgetown University School of Medicine, Washington, DC; Chief, Infectious Diseases Section, and Associate Director, Research Department of Transfusion Medicine, Warren G. Magnuson Clinical Center, National Institutes of Health, Bethesda, Maryland  
*Hepatitis G Virus and TT Virus*

**Guy W. Amsden, Pharm.D.**

Adjunct Assistant Professor, Department of Pharmacology, Columbia University College of Physicians and Surgeons, New York; Adjunct Assistant Professor, Department of Pharmacy Practice, Albany College of Pharmacy, Union University, Albany; Clinical Pharmacy Specialist and Research Scientist, Clinical Pharmacology Research Center, Bassett Healthcare, Cooperstown, New York

*Pharmacokinetics and Pharmacodynamics of Anti-infective Agents; Tables of Antimicrobial Agent Pharmacology*

**Elias Anaissie, M.D.**

Professor of Medicine and Director of Clinical Affairs, Myeloma and Transplantation Research Center, University of Arkansas Medical Sciences, Little Rock, Arkansas  
*Stenotrophomonas maltophilia and Burkholderia cepacia*

**Suresh J. Antony, M.D., FACP, FRCP**

Assistant Professor, Texas Tech University Health Sciences Center School of Medicine; Infectious Disease Consultant, Texas Oncology Physician Associates, El Paso, Texas  
*Streptococcus intermedius Group*

**Michael A. Apicella, M.D.**

Professor and Head, Department of Microbiology, University of Iowa College of Medicine, Iowa City, Iowa  
*Neisseria meningitidis*

**Gordon L. Archer, M.D.**

Professor of Medicine and Microbiology/Immunology; Chairman, Division of Infectious Diseases, Department of Medicine, Virginia Commonwealth University School of Medicine, Richmond, Virginia  
*Staphylococcus epidermidis and Other Coagulase-Negative Staphylococci*

**David A. Ashford, D.V.M., M.P.H., D.Sc.**

Medical Epidemiologist, Meningitis and Special Pathogens Branch, Division of Bacterial and Mycotic Diseases, Center for Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia  
*Leptospira Species (Leptospirosis)*

**Carol J. Baker, M.D.**

Professor and Head, Section of Infectious Diseases, Department of Pediatrics, and Professor, Department of Microbiology and Immunology, Baylor College of Medicine; Attending Physician, Texas Children's Hospital, Houston, Texas  
*Streptococcus agalactiae (Group B Streptococcus)*

**Ronald C. Ballard, Ph.D., M.I.Biol.**

Associate Professor, Department of Clinical Microbiology and Infectious Diseases, School of Pathology, University of the Witwatersrand and South African Institute for Medical Research, Johannesburg, South Africa  
*Calymmatobacterium granulomatis (Donovanosis, Granuloma Inguinale)*

**Charles H. Ballow, M.S., Pharm.D.**

Clinical Associate Professor, School of Pharmacy, State University of New York at Buffalo; Director, Anti-infectives Research, The Clinical Pharmacokinetics Laboratory, Kaleida Health/Millard Fillmore Hospital, Buffalo, New York  
*Pharmacokinetics and Pharmacodynamics of Anti-infective Agents*

**Kenneth J. Bart, M.D.**

Dean, San Diego State University School of Public Health, San Diego, California  
*Immunization*

**Byron E. Batteiger, M.D.**

Professor of Medicine and Microbiology and Immunology, Indiana University School of Medicine, Indianapolis, Indiana  
*Chlamydia trachomatis (Trachoma, Perinatal Infections, Lymphogranuloma Venereum, and Other Genital Infections); Introduction to Chlamydial Diseases*

**Stephen G. Baum, M.D.**

Professor of Medicine and Microbiology and Immunology, Albert Einstein College of Medicine of Yeshiva University, Bronx; Chairman, Department of Medicine, Beth Israel Medical Center, New York, New York  
*Adenovirus; Introduction to Mycoplasma Diseases; Mumps Virus; Mycoplasma pneumoniae and Atypical Pneumonia*

**Arnold S. Bayer, M.D.**

Professor of Medicine, University of California, Los Angeles, UCLA School of Medicine, Los Angeles; Associate Chief, Adult Infectious Diseases, Harbor-UCLA Medical Center, Torrance, California  
*Endocarditis and Intravascular Infections*

**John E. Bennett, M.D.**

Head, Clinical Mycology Section, Laboratory of Clinical Investigation, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, Maryland  
*Antifungal Agents; Introduction to Mycoses; Miscellaneous Fungi and Prototheca*

**Joseph S. Bertino, Jr., Pharm.D.**

Associate Professor of Clinical Pharmacology (in Medicine), Columbia University College of Physicians and Surgeons, New York; Co-Director, Clinical Pharmacology Research Center, Bassett Healthcare, Cooperstown, New York  
*Pharmacokinetics and Pharmacodynamics of Anti-infective Agents*

**Alan L. Bisno, M.D.**

Professor and Vice-Chairman, Department of Medicine, University of Miami School of Medicine; Chief, Medical Service, Veterans Affairs Medical Center, Miami, Florida

*Classification of Streptococci; Nonsuppurative Poststreptococcal Sequelae: Rheumatic Fever and Glomerulonephritis; Pharyngitis; Streptococcus pyogenes (Including Streptococcal Toxic Shock Syndrome and Necrotizing Fasciitis)*

**Martin J. Blaser, M.D.**

Addison B. Scoville Professor of Medicine and Professor of Microbiology and Immunology, and Director, Division of Infectious Diseases, Vanderbilt University School of Medicine; Staff Physician, Veterans Affairs Medical Center, Nashville, Tennessee

*Campylobacter jejuni and Related Species; Helicobacter pylori and Related Organisms*

**Thomas P. Bleck, M.D.**

Louise Nerancy Professor of Neurology and Professor of Neurological Surgery and Internal Medicine, University of Virginia School of Medicine; Director, Neuroscience Intensive Care Unit, University of Virginia Hospital, Charlottesville, Virginia

*Approach to the Patient with Central Nervous System Infection; Clostridium botulinum (Botulism); Clostridium tetani (Tetanus); Epidural Abscess; Rabies Virus; Subdural Empyema; Suppurative Intracranial Phlebitis*

**David A. Bobak, M.D.**

Associate Professor of Medicine and Microbiology, University of Virginia School of Medicine; Director, Traveler's Clinic, and Attending Physician, University of Virginia Health Sciences Center, Charlottesville, Virginia

*Nausea, Vomiting, and Noninflammatory Diarrhea*

**William Bonnez, M.D.**

Associate Professor of Medicine, University of Rochester School of Medicine and Dentistry; Attending Physician, Department of Medicine, Strong Memorial Hospital, Rochester, New York

*Papillomaviruses*

**R.C. Boucher, M.D.**

Professor of Medicine, University of North Carolina at Chapel Hill School of Medicine; Director, Division of Pulmonary/Critical Care Medicine, and Director, Cystic Fibrosis/Pulmonary Research and Treatment Center, UNC Hospitals, Chapel Hill, North Carolina

*Cystic Fibrosis*

**Barry D. Brause, M.D.**

Clinical Professor of Medicine, Weill Medical College of Cornell University; Attending Physician, New York Presbyterian Hospital-Cornell Campus, and Hospital for Special Surgery, New York, New York

*Infections with Prostheses in Bones and Joints*

**Arthur E. Brown, M.D.**

Professor of Clinical Medicine and Pediatrics, Weill Medical College of Cornell University; Attending Physician, Infectious Disease Service, Memorial Sloan-Kettering Cancer Center; Attending Physician, New York Presbyterian Hospital-Cornell Campus; and Visiting Associate Physician, The Rockefeller University Hospital, New York, New York

*Other Corynebacteria and Rhodococcus*

**Barbara A. Brown, M.S., MT, ASCP, SM**

Senior Research Scientist and Supervisor, Mycobacteria/Nocardia Laboratory; Study Coordinator, Mycobacterial Clinical Trials, University of Texas Health Center, Tyler, Texas

*Infections Due to Nontuberculous Mycobacteria*

**Eric J. Brown, M.D.**

Professor, Program in Microbial Pathogenesis and Host Defense, University of California, San Francisco, School of Medicine, San Francisco, California

*Cell-Mediated Immunity in Host Defense against Infectious Diseases*

**Kevin E. Brown, M.D.**

Visiting Scientist, Hematology Branch, National Heart, Lung and Blood Institute, National Institutes of Health, Bethesda, Maryland

*Parvovirus B19*

**Patricia D. Brown, M.D.**

Assistant Professor of Medicine, Department of Internal Medicine, Division of Infectious Diseases, Wayne State University School of Medicine, Detroit, Michigan

*Infections in Injection Drug Users*

**Ralph T. Bryan, M.D.**

Clinical Associate Professor of Medicine, University of New Mexico School of Medicine, Albuquerque, New Mexico; Medical Epidemiologist, National Center for Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia

*Microsporidia*

**Richard E. Bryant, M.D.**

Professor of Medicine (Emeritus), Department of Medicine, Infectious Diseases Division, Oregon Health Sciences University School of Medicine, Portland, Oregon

*Pleural Effusion and Empyema*

**James E. Burns, M.D., M.B.A.**

Attending Physician, University of Virginia Health System, Department of Pediatrics, Division of Infectious Diseases, Charlottesville, Virginia

*Epiglottitis*

**Larry M. Bush, M.D., FACP**

Chief of Staff and Chairman, Infectious Diseases, JFK Medical Center, West Palm Beach, Florida; formerly Assistant Clinical Professor of Medicine, Medical College of Pennsylvania (now MCP-Hahnemann School of Medicine), Philadelphia, Pennsylvania

*Peritonitis and Other Intra-abdominal Infections*

**Thomas Butler, M.D.**

Professor of Internal Medicine, Texas Tech University Health Sciences Center School of Medicine; Chief of Infectious Diseases, Department of Internal Medicine, University Medical Center, Lubbock, Texas

*Yersinia Species, Including Plague*

**Jason Calhoun, M.D., FACS**

Professor and Chair, Department of Orthopedics and Rehabilitation, University of Texas Medical Branch, University of Texas Medical School at Galveston, Galveston, Texas

*Osteomyelitis*

**Ellis S. Caplan, M.D.**

Associate Professor of Medicine, Program in Traumatology, University of Maryland School of Medicine; Chief, Section of Infectious Diseases, R. A. Cowley Shock Trauma Center, Baltimore, Maryland

*Hyperbaric Oxygen; Multiple Trauma*

**Charles C. J. Carpenter, M.D.**

Professor of Medicine, Brown University School of Medicine, Providence, Rhode Island

*Other Pathogenic Vibrios*

**Mary T. Caserta, M.D.**

Assistant Professor of Pediatrics, University of Rochester School of Medicine and Dentistry; Attending Physician, Department of Pediatrics, Strong Memorial Hospital, Rochester, New York  
*Acute Laryngitis*

**Richard E. Chaisson, M.D.**

Professor of Medicine, Epidemiology, and International Health, Johns Hopkins University School of Medicine, Baltimore, Maryland  
*Gastrointestinal and Hepatobiliary Manifestations of Human Immunodeficiency Virus Infection; General Clinical Manifestations of Human Immunodeficiency Virus Infection (Including Oral, Cutaneous, Renal, Ocular, and Cardiac Diseases)*

**Henry F. Chambers, M.D.**

Professor of Medicine, University of California, San Francisco, School of Medicine; Chief, Infectious Diseases, San Francisco General Hospital, San Francisco, California  
*Other  $\beta$ -Lactam Antibiotics; Penicillins*

**Stanley W. Chapman, M.D.**

Professor of Medicine and Associate Professor of Microbiology, University of Mississippi School of Medicine; Director, Division of Infectious Diseases, University of Mississippi Medical Center, Jackson, Mississippi  
*Blastomyces dermatitidis*

**Linda A. Chiarello, R.N., M.S.**

Hospital Infections Program, National Center for Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia

*Human Immunodeficiency Virus in Health Care Settings*

**Anthony W. Chow, M.D., FRCPC, FACP**

Professor of Medicine and Director, MD/PhD Program, Faculty of Medicine and Graduate Studies, University of British Columbia; Consultant, Division of Infectious Diseases, Department of Medicine, Vancouver Hospital and Health Sciences Centre, Vancouver, British Columbia, Canada

*Infections of the Oral Cavity, Neck, and Head*

**Jeffrey D. Chulay, M.D., DTM&H**

Principal Clinical Program Head, HIV and Opportunistic Infections Clinical Development, Glaxo Wellcome Inc., Research Triangle Park, North Carolina

*Treponema Species (Yaws, Pinta, Bejel)*

**Claudia Cicala, Ph.D.**

Staff Scientist, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, Maryland

*The Immunology of Human Immunodeficiency Virus Infection*

**H. Fred Clark, D.V.M., Ph.D.**

Research Professor of Pediatrics, University of Pennsylvania School of Medicine, Philadelphia, Pennsylvania

*Rotavirus*

**Rebecca A. Clark, M.D., Ph.D.**

Associate Professor of Medicine, Tulane University School of Medicine; HIV Division Director, HIV Outpatient Program, Tulane University Hospital, New Orleans, Louisiana

*Human Immunodeficiency Virus Infection in Women*

**Robert A. Clark, M.D.**

Professor and Chairman, Department of Medicine, and Dan F. Parman Distinguished Chair in Medicine, University of Texas Medical School at San Antonio; Attending Physician, South Texas Veterans Health System and University Hospital, San Antonio, Texas

*Granulocytic Phagocytes*

**Myron S. Cohen, M.D.**

Professor of Medicine and Microbiology and Epidemiology, University of North Carolina at Chapel Hill School of Medicine; Chief, Division of Infectious Diseases, and Director, UNC Center for Infectious Diseases, Chapel Hill, North Carolina

*The Acutely Ill Patient with Fever and Rash*

**Oren Cohen, M.D.**

Assistant Director for Medical Affairs, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, Maryland

*The Immunology of Human Immunodeficiency Virus Infection*

**Susan E. Cohn, M.D., M.P.H.**

Associate Professor of Medicine, University of Rochester School of Medicine and Dentistry, Rochester, New York

*Human Immunodeficiency Virus Infection in Women*

**Lawrence Corey, M.D.**

Professor of Laboratory Medicine and Medicine, University of Washington School of Medicine; Head, Virology Division, University of Washington Medical Center, and Head, Program in Infectious Diseases, Fred Hutchinson Cancer Research Center, Seattle, Washington

*Herpes Simplex Virus*

**J. Thomas Cross, Jr., M.D., M.P.H.**

Associate Professor, Department of Internal Medicine, Division of Infectious Diseases, and Department of Pediatrics, Louisiana State University School of Medicine in Shreveport, Shreveport, Louisiana

*Francisella tularensis (Tularemia)*

**Kent B. Crossley, M.D.**

Professor of Medicine, University of Minnesota Medical School—Minneapolis; Chief, Education Service, Minneapolis Veterans Affairs Medical Center, Minneapolis, Minnesota

*Infections in the Elderly*

**Clyde S. Crumpacker, M.D.**

Professor of Medicine, Harvard Medical School; Attending Physician, Infectious Diseases Division, Beth Israel Deaconess Medical Center, Boston, Massachusetts

*Cytomegalovirus*

**James W. Curran, M.D., M.P.H.**

Professor of Epidemiology and Dean, Rollins School of Public Health of Emory University, Atlanta, Georgia

*Epidemiology and Prevention of Acquired Immunodeficiency Syndrome and Human Immunodeficiency Virus Infection*

**Rabih O. Darouiche, M.D.**

Associate Professor, Departments of Physical Medicine and Rehabilitation and Medicine, and Director, Center for Prostheses Infection, Baylor College of Medicine; Staff Physician, Spinal Cord Injury and Medical Services, Infectious Disease Section, Veterans Affairs Medical Center, Houston, Texas

*Infections in Patients with Spinal Cord Injuries*

**George S. Deepe, Jr., M.D.**

Morgan Professor of Medicine, University of Cincinnati College of Medicine; Chief, Division of Infectious Diseases, University Hospital, Cincinnati, Ohio

*Histoplasma capsulatum*

**Carlos Del Rio, M.D.**

Associate Professor of Medicine (Infectious Diseases), Emory University School of Medicine, and Adjunct Associate Professor of International Health, Rollins School of Public Health of Emory University; Associate Director of Clinical Activities, Grady Memorial Hospital and the Ponce de Leon Center, Atlanta, Georgia

*Epidemiology and Prevention of Acquired Immunodeficiency Syndrome and Human Immunodeficiency Virus Infection; Other Gram-Negative Bacilli*

**Lisa M. Demeter, M.D.**

Assistant Professor of Medicine and Microbiology and Immunology, University of Rochester School of Medicine and Dentistry, Rochester, New York

*Detection of Human Immunodeficiency Virus Infection; JC, BK, and Other Polyomaviruses; Progressive Multifocal Leukoencephalopathy*

**David W. Denning, M.B.B.S., FRCP, FRCPath**

Senior Lecturer in Medicine (Infectious Diseases), University of Manchester; Consultant in Infectious Diseases, North Manchester General and Hope Hospitals, Manchester, England

*Aspergillus species*

**Peter Densen, M.D.**

Professor of Internal Medicine and Associate Dean, University of Iowa College of Medicine, Iowa City, Iowa

*Complement*

**Ben E. De Pauw, M.D., Ph.D.**

Professor of Medicine for Supportive Care, Catholic University; Head, Blood Transfusion Service and Clinical Department of Hematology, University Hospital St. Radboud, Nijmegen, The Netherlands

*Infections in the Immunocompromised Host: General Principles; Infections in Patients with Acute Leukemia and Lymphoma*

**Terence S. Dermody, M.D.**

Associate Professor of Pediatrics and Microbiology and Immunology and Director, Elizabeth B. Lamb Center for Pediatric Research, Vanderbilt University School of Medicine, Nashville, Tennessee

*Introduction to Viruses and Viral Diseases*

**Richard D. Diamond, M.D.**

Professor of Medicine and Research and Professor of Biochemistry, Boston University School of Medicine; Attending Physician, Section of Infectious Diseases, Boston Medical Center, Boston, Massachusetts

*Cryptococcus neoformans*

**William E. Dismukes, M.D.**

Professor and Vice-Chairman, Department of Medicine, and Director, Division of Infectious Diseases, University of Alabama School of Medicine; Director, Internal Medicine Residency Training Program, University of Alabama at Birmingham Medical Center, Birmingham, Alabama

*Chronic Pneumonia*

**Raphael Dolin, M.D.**

Professor of Medicine and Dean for Clinical Programs, Harvard Medical School, Boston, Massachusetts

*Astroviruses, Toroviruses, and Picobirnaviruses; Norwalk Virus and Other Caliciviruses; Vaccines for Human Immunodeficiency Virus Infection*

**J. Peter Donnelly, B.Sc., Ph.D.**

Microbiologist, Division of Hematology, University Hospital, Nijmegen, The Netherlands

*Infections in the Immunocompromised Host: General Principles*

**Gerald R. Donowitz, M.D.**

Professor of Medicine, University of Virginia School of Medicine; Attending Physician, Department of Internal Medicine, Division of Infectious Diseases, University of Virginia Health Sciences Center, Charlottesville, Virginia

*Acute Pneumonia; Oxazolidinones*

**J. Stephen Dumler, M.D.**

Associate Professor, Departments of Pathology and Molecular Microbiology and Immunology, and Cellular and Molecular Medicine, Johns Hopkins University School of Medicine and School of Hygiene and Public Health; Director, Division of Medical Microbiology, Department of Pathology, Johns Hopkins Hospital, Baltimore, Maryland

*Ehrlichia chaffeensis (Human Monocytotropic Ehrlichiosis), Ehrlichia phagocytophila (Human Granulocytotropic Ehrlichiosis), and Other Ehrlichiae; Rickettsia typhi (Murine Typhus)*

**J. Stephen Dummer, M.D.**

Professor of Medicine, Vanderbilt University School of Medicine; Director, Transplant Infectious Diseases, The Transplant Center, Vanderbilt University Hospital, Nashville, Tennessee

*Infections in Solid Organ Transplant Recipients; Risk Factors and Approaches to Infections in Transplant Recipients*

**Herbert L. DuPont, M.D.**

H. Irving Schweppe, Jr., M.D. Chair in Internal Medicine, Baylor College of Medicine, and Mary W. Kelsey Professor, University of Texas Medical School at Houston; Chief, Internal Medicine Service, St. Luke's Episcopal Hospital, Houston, Texas

*Shigella Species (Bacillary Dysentery)*

**David T. Durack, M.B., D.Phil., FRCP, FRACP, FACP**

Consulting Professor of Medicine, Duke University School of Medicine, Durham, North Carolina; Worldwide Medical Director, Becton Dickinson Microbiology Systems, Sparks, Maryland

*Fever of Unknown Origin; Prophylaxis of Infective Endocarditis*

**Michael B. Edmond, M.D., M.P.H.**

Associate Professor and Associate Chair for Education, Department of Internal Medicine, Virginia Commonwealth University School of Medicine; Hospital Epidemiologist, Medical College of Virginia Hospitals, Richmond, Virginia

*Isolation; Organization for Infection Control*

**John E. Edwards, Jr., M.D.**

Professor of Medicine, University of California, Los Angeles, UCLA School of Medicine, Los Angeles; Chief, Division of Infectious Diseases, Harbor/UCLA Medical Center, Torrance, California

*Candida Species*

**Morven S. Edwards, M.D.**

Professor of Pediatrics, Baylor College of Medicine; Attending Physician, Texas Children's Hospital, Houston, Texas

*Streptococcus agalactiae (Group B Streptococcus)*

**Barry I. Eisenstein, M.D.**

Professor of Medicine, Harvard Medical School; Vice President, Office of Science and Technology, Beth Israel Deaconess Medical Center, Boston, Massachusetts

*Enterobacteriaceae; Introduction to Bacterial Diseases*

**Jerrold J. Ellner, M.D.**

Professor of Medicine, Case Western Reserve University School of Medicine; Executive Vice Chair, Department of Medicine, University Hospitals of Cleveland, Cleveland, Ohio

*Chronic Meningitis; Mycobacterium avium Complex*

**Suzanne U. Emerson, Ph.D.**

Head, Molecular Hepatitis Section, Laboratory of Infectious Diseases, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, Maryland  
*Hepatitis E Virus*

**N. Cary Engleberg, M.D.**

Professor and Chief, Division of Infectious Diseases, Department of Internal Medicine, University of Michigan Medical School, Ann Arbor, Michigan  
*Chronic Fatigue Syndrome*

**Lawrence M. Fagan, M.D., Ph.D.**

Co-Director, Medical Informatics Training Program, and Associate Director for External Affairs, Stanford Medical Informatics, Stanford University School of Medicine, Stanford, California  
*The Infectious Diseases Physician and the Internet*

**Stanley Falkow, Ph.D.**

Professor of Microbiology and Immunology, Stanford University School of Medicine, Stanford, California  
*A Molecular Perspective of Microbial Pathogenicity*

**Judith Falloon, M.D.**

Senior Investigator, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, Maryland  
*Pulmonary Manifestations of Human Immunodeficiency Virus Infection*

**Barry M. Farr, M.D., M.Sc.**

Professor of Medicine, Division of Epidemiology, University of Virginia School of Medicine, Charlottesville, Virginia  
*Rifamycins*

**W. Edmund Farrar, M.D.**

Professor Emeritus of Medicine, Medical University of South Carolina College of Medicine, Charleston, South Carolina  
*Erysipelothrix rhusiopathiae*

**Anthony S. Fauci, M.D.**

Director, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, Maryland  
*The Immunology of Human Immunodeficiency Virus Infection*

**Daniel P. Fedorko, Ph.D.**

Senior Staff Microbiologist, Department of Clinical Pathology, Warren G. Magnuson Clinical Center, National Institutes of Health, Bethesda, Maryland  
*The Clinician and the Microbiology Laboratory*

**Stephen M. Feinstone, M.D.**

Chief, Laboratory of Hepatitis Viruses, Center for Biologic Evaluation and Research, Food and Drug Administration, Bethesda, Maryland  
*Acute Viral Hepatitis; Hepatitis A Virus*

**Robert Fekety, M.D.**

Professor Emeritus of Internal Medicine, University of Michigan Medical School; Attending Physician, Division of Infectious Diseases, Department of Internal Medicine, University of Michigan Health System, Ann Arbor, Michigan  
*Vancomycin, Teicoplanin, and the Streptogramins: Quinupristin and Dalfopristin*

**Jo-David Fine, M.D.**

Professor of Dermatology and Clinical Professor of Epidemiology, University of North Carolina at Chapel Hill School of Medicine; Attending Physician, UNC Hospitals; Principal Investigator and Head, National Epidermolysis Bullosa Registry, Chapel Hill, North Carolina

*The Acutely Ill Patient with Fever and Rash*

**Steven M. Fine, M.D., Ph.D.**

Senior Instructor in Medicine, Infectious Diseases Unit, University of Rochester School of Medicine and Dentistry; Attending Physician, Strong Memorial Hospital, Rochester, New York  
*Vesicular Stomatitis and Related Viruses*

**Sydney M. Finegold, M.D.**

Professor of Medicine and Microbiology and Immunology, University of California, Los Angeles, UCLA School of Medicine; Staff Physician, Infectious Diseases Section, Veterans Affairs Medical Center West Los Angeles, Los Angeles, California  
*Anaerobic Bacteria: General Concepts; Lung Abscess; Metronidazole*

**Anthony E. Fiore, M.D.**

Medical Epidemiologist, Division of Viral and Rickettsial Diseases, National Center for Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia  
*Multiple Trauma*

**Neil O. Fishman, M.D.**

Assistant Professor of Medicine, University of Pennsylvania School of Medicine; Director, Antimicrobial Management Program, University of Pennsylvania Health System, Philadelphia, Pennsylvania  
*Antimicrobial Management and Cost Containment*

**Michael O. Frank, M.D.**

Associate Professor of Medicine, Division of Infectious Diseases, Medical College of Wisconsin, Milwaukee, Wisconsin  
*Immunomodulators*

**John Galgiani, M.D.**

Professor of Medicine and Director, Valley Fever Center for Excellence, University of Arizona; Program Director, Infectious Diseases, Veterans Affairs Medical Center, Tucson, Arizona  
*Coccidioides immitis*

**Joel E. Gallant, M.D., M.P.H.**

Associate Professor of Medicine, Division of Infectious Diseases, Johns Hopkins University School of Medicine; Director, Moore HIV Clinic, Johns Hopkins Hospital, Baltimore, Maryland  
*Global Perspectives on Human Immunodeficiency Virus Infection and Acquired Immunodeficiency Syndrome*

**John I. Gallin, M.D.**

Director, Warren G. Magnuson Clinical Center, and Chief, Laboratory of Host Defenses, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, Maryland  
*Evaluation of the Patient with Suspected Immunodeficiency*

**Robert C. Gallo, M.D.**

Institute of Human Virology, University of Maryland School of Medicine, Baltimore, Maryland  
*Human Immunodeficiency Viruses*

**Robert H. Gelber, M.D.**

Clinical Professor of Medicine and Dermatology, University of California, San Francisco, School of Medicine; Attending Physician, San Francisco General Hospital, San Francisco, California  
*Mycobacterium leprae (Leprosy, Hansen's Disease)*

**Jeffrey A. Gelfand, M.D.**

Professor of Medicine and Dean for Research, Tufts University School of Medicine; Senior Vice President, Research and Technology, New England Medical Center, Boston, Massachusetts  
*Babesia*

*Cystic Fibrosis*

### **Howard S. Gold, M.D.**

Instructor, Harvard Medical School; Attending Physician, Division of Infectious Diseases, Department of Medicine, Beth Israel Deaconess Medical Center, Boston, Massachusetts

*Introduction to Bacterial Diseases*

### **Ellie J. C. Goldstein, M.D.**

Clinical Professor of Medicine, University of California, Los Angeles, UCLA School of Medicine, Los Angeles; Director, R. M. Alden Research Laboratory, Santa Monica-UCLA Medical Center; Private Practice, Santa Monica, California

*Bites*

### **Linnie M. Golightly, M.D.**

Assistant Professor of Medicine, Division of International Medicine and Infectious Diseases, Weill Medical College of Cornell University; Assistant Attending Physician, New York Presbyterian Hospital-Cornell Campus, New York, New York

*Borrelia Species (Relapsing Fever)*

### **Eduardo Gotuzzo, M.D.**

Professor, Universidad Peruana Cayetano Heredia; Head, Infectious Disease Department, Hospital Nacional Cayetano Heredia, Lima, Peru

*Vibrio cholerae*

### **Paul S. Gaman, M.D.**

Associate Professor of Medicine, University of Rochester School of Medicine and Dentistry; Attending Physician, and Clinical Director, Infectious Diseases Unit, Strong Memorial Hospital, Rochester, New York

*Esophagitis*

### **J. Thomas Grayston, M.D.**

Professor, Department of Epidemiology, School of Public Health and Community Medicine, University of Washington, Seattle, Washington

*Chlamydia pneumoniae*

### **John E. Greenlee, M.D.**

Professor and Vice-Chair, Department of Neurology, University of Utah School of Medicine; Chief, Neurology Service, Veterans Affairs Medical Center, Salt Lake City, Utah

*Approach to the Patient with Central Nervous System Infection; Epidural Abscess; Subdural Empyema; Suppurative Intracranial Phlebitis*

### **Diane E. Griffin, M.D., Ph.D.**

Professor and Chair, Department of Molecular Microbiology and Immunology, Johns Hopkins University School of Hygiene and Public Health, and Professor of Medicine and Neurology, Johns Hopkins University School of Medicine, Baltimore, Maryland

*Encephalitis, Myelitis, and Neuritis*

### **Barbara M. Gripshover, M.D.**

Assistant Professor of Medicine, Case Western Reserve University School of Medicine; Medical Director, John T. Carey Special Immunology Unit, University Hospitals of Cleveland, Cleveland, Ohio

*Chronic Meningitis*

### **David I. Grove, M.D.**

Clinical Professor, Departments of Medicine and Microbiology, University of Adelaide; Director, Departments of Clinical Microbiology and Infectious Diseases, The Queen Elizabeth Hospital, Adelaide, South Australia, Australia

*Tissue Nematodes (Trichinosis, Dracunculiasis, Filariasis)*

### **Richard L. Guerrant, M.D.**

Thomas H. Hunter Professor of International Medicine, Department of Medicine, University of Virginia School of Medicine; Chief, Division of Geographic and International Medicine, and Director, Office of International Health, University of Virginia Hospital, Charlottesville, Virginia

*Enteric Fever and Other Causes of Abdominal Symptoms with Fever; Inflammatory Enteritides; Nausea, Vomiting, and Noninflammatory Diarrhea; Principles and Syndromes of Enteric Infection; Tropical Sprue/Enteropathy*

### **Ian D. Gust, M.D.**

Professor, Monash University Faculty of Medicine, Chadstone; Professional Associate, University of Melbourne Faculty of Medicine, Dentistry and Health Sciences, Parkville; Director, Research and Development, CSL Limited, Parkville, Victoria, Australia

*Hepatitis A Virus*

### **Jack M. Gwaltney, Jr., M.D.**

Wade Hampton Frost Professor of Internal Medicine, Department of Medicine, University of Virginia School of Medicine; Head, Division of Epidemiology and Virology, and Director, Center for the Prevention of Disease and Injury, University of Virginia Health Sciences Center, Charlottesville, Virginia

*Acute Bronchitis; The Common Cold; Pharyngitis; Rhinovirus; Sinusitis*

### **David W. Haas, M.D.**

Associate Professor of Medicine, Vanderbilt University School of Medicine; Director, Clinical Infectious Diseases Services, Vanderbilt University Medical Center, Nashville, Tennessee

*Mycobacterium tuberculosis*

**Caroline Breese Hall, M.D.**

Professor of Pediatrics and Medicine in Infectious Diseases,  
University of Rochester School of Medicine and Dentistry,  
Rochester, New York

*Acute Laryngotracheobronchitis (Croup); Bronchiolitis; Respiratory  
Syncytial Virus*

**W. Lee Hand, M.D.**

Professor and Assistant Dean for Research, Department of Internal  
Medicine, Texas Tech University Health Sciences Center School of  
Medicine, El Paso, Texas

*Haemophilus Species (Including Chancroid)*

**H. Hunter Handsfield, M.D.**

Professor of Medicine, University of Washington School of  
Medicine; Director, STD Control Program, Public Health—Seattle  
and King County, Seattle, Washington

*Neisseria gonorrhoeae*

**George J. Hanna, M.D.**

Research Fellow in Medicine, Harvard Medical School; Clinical  
and Research Fellow in Medicine, Massachusetts General Hospital,  
Boston, Massachusetts

*Antiretroviral Therapy of Human Immunodeficiency Virus Infection*

**Barry J. Hartman, M.D.**

Clinical Professor of Medicine, Weill Medical College of Cornell  
University; Attending Physician, New York Presbyterian  
Hospital—Cornell Campus, New York, New York

*Acinetobacter Species*

**M. Shahbaz Hasan, M.B.B.S.**

Assistant Professor, Department of Internal Medicine, University of  
Texas Southwestern Medical Center at Dallas Southwestern  
Medical School; Staff Physician, Dallas Veterans Affairs Medical  
Center, Dallas, Texas

*Infectious Arthritis*

**Diane V. Havlir, M.D.**

Associate Professor, Division of Infectious Disease, Department of  
Medicine, University of California, San Diego, School of Medicine,  
La Jolla, California

*Mycobacterium avium Complex*

**Roderick J. Hay, D.M., FRCP, FRCPath**

Mary Dunhill Professor of Cutaneous Medicine, St. John's Institute  
of Dermatology, Guys, King's and St. Thomas School of Medicine  
(KCL), London, England

*Dermatophytosis and Other Superficial Mycoses*

**Frederick G. Hayden, M.D.**

Stuart S. Richardson Professor of Clinical Virology and Professor  
of Internal Medicine and Pathology, University of Virginia School  
of Medicine; Associate Director, Clinical Microbiology Laboratory,  
University of Virginia Health Sciences Center, Charlottesville,  
Virginia

*Antiviral Drugs (Other Than Antiretrovirals)*

**Craig W. Hedberg, Ph.D.**

Acute Disease Epidemiology Section, Minnesota Department of  
Health, Minneapolis, Minnesota

*Epidemiologic Principles*

**Frederick P. Heinzl, M.D.**

Associate Professor, Department of Medicine, Division of  
Geographic Medicine, Case Western Reserve University School of  
Medicine; Staff Physician, Veterans Affairs Medical Center,  
Cleveland, Ohio

*Antibodies*

**David K. Henderson, M.D.**

Deputy Director, Warren G. Magnuson Clinical Center, National  
Institutes of Health, Bethesda, Maryland

*Infections Due to Percutaneous Intravascular Devices; Nosocomial  
Herpesvirus Infections*

**J. Owen Hendley, M.D.**

Professor of Pediatrics, University of Virginia School of Medicine;  
Attending Physician, Department of Pediatrics, Division of  
Pediatric Infectious Diseases, University of Virginia Health System,  
Charlottesville, Virginia

*Epiglottitis*

**Erik L. Hewlett, M.D.**

Professor of Medicine and Pharmacology and Associate Dean for  
Research, University of Virginia School of Medicine,  
Charlottesville, Virginia

*Bordetella Species; Toxins*

**Adrian V. S. Hill, D.Phil., D.M.**

Professor of Human Genetics, University of Oxford; Noffield  
Department of Medicine, John Radcliffe Hospital, Oxford, England

*Human Genetics and Infection*

**David R. Hill, M.D.**

Associate Professor, Department of Medicine, Division of  
Infectious Diseases, University of Connecticut School of Medicine;  
Director, International Travelers' Medical Service, University of  
Connecticut Health Center, Farmington, Connecticut

*Giardia lamblia*

**Alan R. Hinman, M.D., M.P.H.**

Senior Consultant for Public Health Programs, Task Force for Child  
Survival and Development, Decatur, Georgia

*Immunization*

**Martin S. Hirsch, M.D.**

Professor of Medicine, Harvard Medical School; Director, AIDS  
Clinical Research, Massachusetts General Hospital, Boston,  
Massachusetts

*Antiretroviral Therapy of Human Immunodeficiency Virus Infection*

**Monto Ho, M.D.**

Professor of Medicine and Microbiology and Pathology, Emeritus,  
Graduate School of Public Health and School of Medicine,  
University of Pittsburgh, Pittsburgh, Pennsylvania

*Infections in Solid Organ Transplant Recipients; Risk Factors and  
Approaches to Infections in Transplant Recipients*

**Steven M. Holland, M.D.**

Investigator and Head, Immunopathogenesis Unit, Clinical  
Pathophysiology Section, Laboratory of Host Defenses, National  
Institute of Allergy and Infectious Diseases, National Institutes of  
Health, Bethesda, Maryland

*Evaluation of the Patient with Suspected Immunodeficiency*

**Robert G. Holloway, Jr., M.D., M.P.H.**

Assistant Professor of Neurology and Community and Preventive  
Medicine, University of Rochester School of Medicine and  
Dentistry, Rochester, New York

*Neurologic Manifestations of Human Immunodeficiency Virus  
Infection*

**David C. Hooper, M.D.**

Associate Professor of Medicine, Harvard Medical School;  
Fellowship Program Director, Infectious Disease Division, and  
Associate Chief, Infection Control Unit, Massachusetts General  
Hospital, Boston, Massachusetts

*Quinolones; Urinary Tract Agents: Nitrofurantoin and Methenamine*

**David L. Hoover, M.D.**

Associate Professor, Department of Medicine, Uniformed Services University of the Health Sciences, F. Edward Hébert School of Medicine, Bethesda, Maryland; Department of Bacterial Diseases, Walter Reed Army Institute of Research, Washington, D.C.  
*Innate (General or Nonspecific) Host Defense Mechanisms*

**Duane R. Hospenthal, M.D., Ph.D.**

Assistant Chief, Infectious Disease Service (MCHK-DMI), Tripler Army Medical Center, Honolulu, Hawaii  
*Miscellaneous Fungi and Prototheca*

**James M. Hughes, M.D.**

Clinical Associate Professor of Medicine, Division of Infectious Diseases, Department of Medicine, Emory University School of Medicine, and Adjunct Professor, Department of Epidemiology, Rollins School of Public Health of Emory University; Director, National Center for Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia  
*Foodborne Disease; New and Emerging Infectious Diseases*

**Jainulabdeen J. Iftikharuddin, M.D., MRCP(UK), MRCPATH**

Senior Instructor, University of Rochester School of Medicine and Dentistry; Attending Physician, Strong Memorial Hospital, Rochester, New York  
*Human T-Cell Lymphotropic Virus Types I and II*

**Jonathan R. Iredell, M.B.B.S., Ph.D., FRACP, FRCPA**

Senior Lecturer, Faculty of Medicine, University of Sydney; Staff Specialist, Centre for Infectious Diseases and Microbiology, Westmead Hospital, Westmead, New South Wales, Australia  
*Nocardia Species*

**Lisa A. Jackson, M.D., M.P.H.**

Assistant Professor, Department of Epidemiology, School of Public Health and Community Medicine, University of Washington; Assistant Investigator, Center for Health Studies, Group Health Cooperative, Seattle, Washington  
*Chlamydia pneumoniae*

**Selma M. B. Jeronimo, M.D., Ph.D.**

Professor of Biochemistry, Universidade Federal do Rio Grande do Norte, Natal, Rio Grande do Norte, Brazil  
*Leishmania Species: Visceral (Kala-Azar), Cutaneous, and Mucosal Leishmaniasis*

**Caroline C. Johnson, M.D.**

Associate Professor of Medicine, MCP-Hahnemann School of Medicine; Medical Director, Acute Communicable Disease Control Program, Philadelphia Department of Public Health, Philadelphia, Pennsylvania  
*Viridans Streptococci and Groups C and G Streptococci*

**Raymond M. Johnson, M.D., Ph.D.**

Howard Hughes Postdoctoral Fellow, Department of Infectious Diseases, Washington University School of Medicine, St. Louis, Missouri  
*Cell-Mediated Immunity in Host Defense against Infectious Diseases*

**Warren D. Johnson, Jr., M.D.**

B. H. Kean Professor of Tropical Medicine and Professor of Medicine, Weill Medical College of Cornell University; Attending Physician and Medical Director, International Health Care Service, and Chief, Division of International Medicine and Infectious Diseases, New York Presbyterian Hospital-Cornell Campus, New York, New York  
*Borrelia Species (Relapsing Fever)*

**Robert B. Jones, M.D., Ph.D.**

Professor of Medicine and Microbiology and Immunology, Indiana University School of Medicine, Indianapolis, Indiana  
*Chlamydia trachomatis (Trachoma, Perinatal Infections, Lymphogranuloma Venereum, and Other Genital Infections); Introduction to Chlamydial Diseases*

**Manjari Joshi, M.D.**

R. A. Cowley Shock Trauma Center, University of Maryland Medical System, Baltimore, Maryland  
*Multiple Trauma*

**Allen B. Kaiser, M.D.**

Professor and Vice-Chairman, Department of Medicine, Vanderbilt University School of Medicine, Nashville, Tennessee  
*Postoperative Infections and Antimicrobial Prophylaxis*

**Adolf W. Karchmer, M.D.**

Professor of Medicine, Harvard Medical School; Chief, Division of Infectious Diseases, Beth Israel Deaconess Medical Center, Boston, Massachusetts  
*Cephalosporins; Infections of Prosthetic Valves and Intravascular Devices*

**Hiroshi Kawai, M.D.**

Department of Internal Medicine, University of Kanazawa School of Medicine, Kanazawa, Japan  
*Acute Viral Hepatitis*

**Donald Kaye, M.D.**

Professor of Medicine, MCP-Hahnemann School of Medicine, Philadelphia, Pennsylvania  
*Urinary Tract Infections*

**Michael C. Keefer, M.D.**

Associate Professor of Medicine, University of Rochester School of Medicine and Dentistry, Rochester, New York  
*Vaccines for Human Immunodeficiency Virus-1 Infection*

**Douglas S. Kernodle, M.D.**

Associate Professor, Department of Medicine, Vanderbilt University School of Medicine; Chief, Infectious Diseases Section, Veterans Affairs Medical Center, Nashville, Tennessee  
*Postoperative Infections and Antimicrobial Prophylaxis*

**Jay S. Keystone, M.D., M.Sc.(CTM), FRCPC**

Professor of Medicine, University of Toronto Faculty of Medicine; Staff Physician, Centre for Travel and Tropical Medicine, Toronto General Hospital, Toronto, Ontario, Canada  
*Isospora belli, Sarcocystis Species, Blastocystis hominis, and Cyclospora*

**Karl D. Kiebertz, M.D., M.P.H.**

Associate Professor of Neurology and Community and Preventive Medicine, University of Rochester School of Medicine and Dentistry, Rochester, New York  
*Neurologic Manifestations of Human Immunodeficiency Virus Infection*

**Charles H. King, M.D.**

Associate Professor of Medicine and International Health, Case Western Reserve University School of Medicine; Attending Physician, University Hospitals, Cleveland, Ohio  
*Cestodes (Tapeworms)*

**Louis V. Kirchhoff, M.D., M.P.H.**

Professor, Department of Internal Medicine, University of Iowa College of Medicine; Staff Physician, Medical Service, Department of Veterans Affairs Medical Center, Iowa City, Iowa

*Agents of African Trypanosomiasis (Sleeping Sickness); Trypanosoma Species (American Trypanosomiasis, Chagas' Disease): Biology of Trypanosomes*

**Jerome O. Klein, M.D.**

Professor of Pediatrics, Boston University School of Medicine; Vice-Chairman for Academic Affairs, Boston Medical Center, Boston, Massachusetts

*Otitis Externa, Otitis Media, and Mastoiditis*

**M. R. Knowles, M.D.**

Professor of Medicine, University of North Carolina at Chapel Hill School of Medicine; Associate Director, Division of Pulmonary Critical Care Medicine, and Director, Adult Cystic Fibrosis Center, UNC Hospitals, Chapel Hill, North Carolina

*Cystic Fibrosis*

**Phyllis Kozarsky, M.D.**

Associate Professor of Medicine, Emory University School of Medicine; Chief of Infectious Diseases, Emory Crawford Long Hospital, Atlanta, Georgia

*Isospora belli, Sarcocystis Species, Blastocystis hominis, and Cyclospora*

**John N. Krieger, M.D.**

Professor of Urology, University of Washington School of Medicine; Chief of Urology, Veterans Affairs Puget Sound Health Care System, and Attending Surgeon, University of Washington Medical Center and Harborview Medical Center, Seattle, Washington

*Prostatitis, Epididymitis, and Orchitis*

**Donald J. Krogstad, M.D.**

Henderson Professor and Chair, Department of Tropical Medicine, Tulane University School of Public Health and Tropical Medicine, New Orleans, Louisiana

*Plasmodium Species (Malaria)*

**Joshua Lederberg, Ph.D., M.D.(Hic.)**

Professor, The Rockefeller University, New York, New York

*Biological Warfare and Bioterrorism*

**James W. Leduc, Ph.D.**

Associate Director for Global Health, National Center for Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia

*Global Epidemiology of Infectious Diseases*

**Stanley M. Lemon, M.D.**

Professor and Chairman, Department of Microbiology and Immunology, University of Texas Medical Branch University of Texas Medical School of Galveston, Galveston, Texas

*Hepatitis C*

**Donald P. Levine, M.D.**

Professor of Medicine, Department of Medicine, Division of Infectious Diseases, Wayne State University School of Medicine; Vice-Chief of Medicine and Section Head, Infectious Diseases, Detroit Receiving Hospital, Detroit, Michigan

*Infections in Injection Drug Users*

**Matthew E. Levison, M.D.**

Professor of Medicine and Public Health, MCP-Hahnemann School of Medicine; Chief, Division of Infectious Diseases, Hahnemann University Hospital, Philadelphia, Pennsylvania

*Peritonitis and Other Intra-abdominal Infections*

**Daniel P. Lew, M.D.**

Professor of Medicine, Geneva University Medical School; Chief, Infectious Diseases Division, Geneva University Hospital, Geneva, Switzerland

*Bacillus anthracis (Anthrax)*

**Aldo A. M. Lima, M.D., Ph.D.**

Professor of Medicine, Federal University of Ceará, Fortaleza, Brazil

*Inflammatory Enteritides*

**Nathan Litman, M.D.**

Professor of Pediatrics, Albert Einstein College of Medicine of Yeshiva University; Chief, Pediatric Service, Montefiore Medical Center, Bronx, New York

*Mumps Virus*

**Bennett Lorber, M.D., D.Sc. (Hon.)**

Thomas M. Durant Professor of Medicine and Professor of Microbiology and Immunology, Temple University School of Medicine; Chief, Section of Infectious Diseases, Temple University Hospital, Philadelphia, Pennsylvania

*Bacteroides, Prevotella, Porphyromonas, and Fusobacterium Species (and Other Medically Important Anaerobic Gram-Negative Bacilli); Gas Gangrene and Other Clostridium-Associated Diseases; Listeria monocytogenes*

**Larry I. Lutwick, M.D.**

Professor of Medicine, State University of New York Health Science Center at Brooklyn College of Medicine; Director, Infectious Diseases, Veterans Affairs New York Harbor Health Care System, Brooklyn Campus, Brooklyn, New York

*Infections in Asplenic Patients*

**Rob Roy MacGregor, M.D.**

Professor of Medicine, Department of Medicine, Division of Infectious Diseases, University of Pennsylvania School of Medicine; Attending Physician, Hospital of the University of Pennsylvania, and Acting Chief, Infectious Disease Division, Philadelphia Veterans Affairs Medical Center, Philadelphia, Pennsylvania

*Corynebacterium diphtheriae*

**Philip A. Mackowiak, M.D.**

Professor and Vice Chairman, Department of Medicine, University of Maryland School of Medicine; Chief, Medical Care Clinical Center, Veterans Affairs Maryland Health Care System, Baltimore, Maryland

*Fever of Unknown Origin; Temperature Regulation and Pathogenesis of Fever*

**Antone A. Madeiros, M.D.**

Professor of Medicine, Brown University School of Medicine; Director, Division of Infectious Diseases, Miriam Hospital, and Medical Director, Clinical Microbiology Laboratory, Lifespan Academic Medical Center, Providence, Rhode Island

*Mechanisms of Bacterial Antibiotic Resistance*

**Jon T. Mader, M.D.**

Professor, Department of Internal Medicine, Division of Infectious Diseases, University of Texas Medical Branch University of Texas Medical School at Galveston, Galveston, Texas

*Osteomyelitis*

**El Sheikh Mahgoub, M.D., Ph.D., FRCPath**

Professor of Medical Microbiology, Faculty of Medicine, University of Science and Technology, Jordan; Formerly Regional Adviser, Research Promotion and Strategy Coordination, World Health Organization, Eastern Mediterranean Region, Alexandria, Egypt

*Agents of Mycetoma*

**Adel A. F. Mahmoud, M.D., Ph.D.**

Formerly Professor and Chairman of Medicine, Case Western Reserve University School of Medicine, and Physician-in-Chief, University Hospitals, Cleveland, Ohio; President, Merck Vaccines, Merck & Co., Inc., Whitehouse Station, New Jersey  
*Intestinal Nematodes (Roundworms); Introduction to Helminth Infections; Trematodes (Schistosomiasis) and Other Flukes*

**Gerald L. Mandell, M.D.**

Professor of Medicine and Owen R. Cheatham Professor of the Sciences, University of Virginia School of Medicine; Chief, Division of Infectious Diseases, University of Virginia Health Sciences Center, Charlottesville, Virginia  
*Acute Pneumonia; Immunomodulators*

**Lionel A. Mandell, M.D.**

Professor of Medicine, McMaster Medical Unit, Henderson General Hospital, Hamilton, Ontario, Canada  
*Fusidic Acid*

**Barbara J. Mann, Ph.D.**

Assistant Professor of Research, Department of Internal Medicine, Division of Infectious Diseases, University of Virginia School of Medicine, Charlottesville, Virginia  
*Microbial Adherence*

**Lewis Markoff, M.D.**

Chief, Laboratory of Vector-Borne Virus Diseases, Division of Viral Products, Center for Biologic Evaluation and Research, Food and Drug Administration, Bethesda, Maryland  
*Alphaviruses*

**Thomas J. Marrie, M.D., FRCPC**

Professor and Chair, Department of Medicine, University of Alberta Faculty of Medicine; Site Chief, Medicine, University of Alberta Hospital, Edmonton, Alberta, Canada  
*Coxiella burnetii (Q Fever)*

**Thomas Marth, M.D.**

Professor of Internal Medicine II, Saarland University, Homburg, Germany  
*Whipple's Disease*

**Ellen M. Mascini, M.D., Ph.D.**

Senior Fellow in Medical Microbiology, Eijkman-Winkler Institute for Microbiology, Infectious Diseases, and Inflammation, University Medical Centre, Utrecht, The Netherlands  
*Anaerobic Cocci; Anaerobic Gram-Positive Nonsporulating Bacilli*

**Henry Masur, M.D.**

Chief, Critical Care Medicine Department, Clinical Center, National Institutes of Health, Bethesda, Maryland  
*Management of Opportunistic Infections Associated with Human Immunodeficiency Virus Infection*

**Michael Eric Mathieu, M.D.**

Clinical Instructor in Dermatology, Dermatology Department, University of Virginia School of Medicine; Associate, Dermatology PLC of Charlottesville, Charlottesville, Virginia  
*Introduction to Ectoparasitic Diseases; Lice (Pediculosis); Mites (Including Chiggers); Myiasis; Scabies; Ticks (Including Tick Paralysis)*

**Kenneth H. Mayer, M.D.**

Professor of Medicine and Community Health, Brown University School of Medicine, Providence, Rhode Island; Chief, Infectious Disease Service, Memorial Hospital of Rhode Island, Pawtucket, Rhode Island, and Medical Research Director, Fenway Community Health Center, Boston, Massachusetts  
*Mechanisms of Bacterial Antibiotic Resistance; Sulfonamides and Trimethoprim*

**John T. McBride, M.D.**

Professor of Pediatrics, Northeast Ohio Universities College of Medicine, Rootstown; Vice-Chair, Department of Pediatrics, Children's Hospital Medical Center of Akron, Akron, Ohio  
*Acute Laryngotracheitis (Croup); Bronchiolitis*

**Carol A. McCarthy, M.D.**

Associate Professor of Pediatrics, University of Vermont College of Medicine, Burlington, Vermont; Director, Pediatric Infectious Disease, Maine Medical Center, Portland, Maine  
*Respiratory Syncytial Virus*

**William M. McCormack, M.D.**

Professor of Medicine and Obstetrics and Gynecology, State University of New York Health Science Center at Brooklyn College of Medicine, Brooklyn, New York  
*Urethritis*

**Joseph E. McDade, Ph.D.**

Deputy Director, National Center for Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia  
*New and Emerging Infectious Diseases*

**Kenneth McIntosh, M.D.**

Professor of Pediatrics, Harvard Medical School; Chief, Division of Infectious Diseases, Children's Hospital, Boston, Massachusetts  
*Coronaviruses*

**Philip B. Mead, M.D.**

Professor and Chair, Department of Obstetrics and Gynecology, University of Vermont College of Medicine; Obstetrician and Gynecologist-in-Chief, Fletcher Allen Health Care, Burlington, Vermont  
*Infections of the Female Pelvis*

**Michael H. Merson, M.D.**

Professor and Dean of Public Health, and Chairman, Department of Epidemiology and Public Health, Yale University School of Medicine, New Haven, Connecticut  
*Global Perspectives on Human Immunodeficiency Virus Infection and Acquired Immunodeficiency Syndrome*

**Françoise Meunier, M.D., Ph.D.**

Director, Central Office—Data Center, and Chairman, Invasive Fungal Infections Cooperative Group, European Organization for Research and Treatment of Cancer, Brussels, Belgium  
*Infections in Patients with Acute Leukemia and Lymphoma*

**Samuel I. Miller, M.D.**

Professor of Medicine and Microbiology, Department of Medicine, Division of Allergy and Infectious Diseases, University of Washington School of Medicine, Seattle, Washington  
*Salmonella Species, Including Salmonella typhi*

**David H. Mitchell, M.B.B.S., M.Med.Sci.(Epi.)**

Clinical Lecturer, Department of Infectious Disease, University of Sydney, Sydney; Staff Specialist, Centre for Infectious Diseases and Microbiology, Institute of Clinical Pathology and Medical Research, Westmead Hospital, Westmead, New South Wales, Australia  
*Nocardia Species*

**John F. Modlin, M.D.**

Professor of Pediatrics and Medicine and Acting Chair, Department of Pediatrics, Dartmouth Medical School, Hanover; Attending Physician, Infectious Disease Section, Dartmouth-Hitchcock Medical Center, Lebanon, New Hampshire  
*Coxsackieviruses, Echoviruses, and Newer Enteroviruses; Introduction to Picornaviridae; Poliovirus*

**Robert C. Moellering, Jr., M.S., M.D., D.Sc.(hon)**

Herrman L. Blumgart Professor of Medicine, Harvard Medical School; Physician-in-Chief and Chairman, Department of Medicine, and Chief Executive Officer, Harvard Medical Faculty Physicians, and Beth Israel Deaconess Medical Center, Boston, Massachusetts  
*Enterococcus Species, Streptococcus bovis, and Leuconostoc Species; Principles of Anti-infective Therapy*

**Jose G. Montoya, M.D.**

Assistant Professor of Medicine, Division of Infectious Diseases and Geographic Medicine, Stanford University School of Medicine, Stanford, California  
*Toxoplasma gondii*

**Kristine A. Moore, M.D., M.P.H.**

Medical Director, Infection Control Advisory Network, Inc., Eden Prairie, Minnesota  
*Epidemiologic Principles*

**J. Glenn Morris, Jr., M.D., M.P.H.T.M.**

Professor of Medicine, Epidemiology and Preventive Medicine, and Microbiology and Immunology, University of Maryland School of Medicine, Baltimore, Maryland  
*Human Illness Associated with Harmful Algal Blooms*

**E. Richard Moxon M.A., M.B., B.Chir.**

Professor and Head, Department of Paediatrics, University of Oxford, and Head, Molecular Infectious Diseases Group, University of Oxford Institute of Molecular Medicine, John Radcliffe Hospital, Oxford, England  
*Haemophilus influenzae*

**Robert R. Muder, M.D.**

Associate Professor of Medicine, University of Pittsburgh School of Medicine; Hospital Epidemiologist, Veterans Affairs Pittsburgh Healthcare System, Pittsburgh, Pennsylvania  
*Other Legionella Species*

**Jean Marie Mulinde, M.D.**

Assistant Professor of Medicine, Program in Traumatology, University of Maryland School of Medicine; Attending Physician, Section of Infectious Diseases, R. A. Cowley Shock Trauma Center, Baltimore, Maryland  
*Hyperbaric Oxygen*

**Timothy F. Murphy, M.D.**

Professor of Medicine and Microbiology, State University of New York at Buffalo School of Medicine and Biomedical Sciences; Chief, Division of Infectious Diseases, Veterans Affairs Medical Center, Buffalo, New York  
*Haemophilus influenzae; Moraxella (Branhamella) catarrhalis and Other Gram-Negative Cocci*

**Daniel M. Musher, M.D.**

Professor of Medicine and Microbiology and Immunology, Baylor College of Medicine; Chief, Infectious Diseases Section, Veterans Affairs Medical Center, Houston, Texas  
*Streptococcus pneumoniae*

**Theodore E. Nash, M.D.**

Senior Scientist, Laboratory of Parasitic Diseases, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, Maryland  
*Visceral Larva Migrants and Other Unusual Helminth Infections*

**William M. Nauseef, M.D.**

Professor, Department of Internal Medicine, Inflammation Program, University of Iowa College of Medicine; Attending Physician, Veterans Affairs Medical Center, Iowa City, Iowa  
*Granulocytic Phagocytes*

**John M. Neff, M.D.**

Professor of Pediatrics, University of Washington School of Medicine; Director, Center for Children with Special Needs and Chronic Health Conditions, Children's Hospital and Regional Medical Center, Seattle, Washington  
*Introduction to Poxviridae; Parapoxviruses, Molluscum Contagiosum, and Tanapox Viruses; Vaccinia Virus (Cowpox); Variola (Smallpox) and Monkeypox Viruses*

**Marguerite A. Neill, M.D.**

Associate Professor, Department of Medicine, Division of Infectious Diseases, Brown University School of Medicine, Providence; Attending Physician, Division of Infectious Diseases, Memorial Hospital of Rhode Island, Pawtucket, Rhode Island  
*Other Pathogenic Vibrios*

**Terrence P. O'Brien, M.D.**

Assistant Professor, Wilmer Eye Institute, Johns Hopkins Hospital, Baltimore, Maryland  
*Conjunctivitis; Endophthalmitis; Keratitis; Periocular Infections*

**Paul A. Offit, M.D.**

Henle Professor of Immunologic and Infectious Diseases, University of Pennsylvania School of Medicine; Chief, Section of Infectious Diseases, Children's Hospital of Philadelphia, Philadelphia, Pennsylvania  
*Rotavirus*

**Pablo C. Okhuysen, M.D.**

Associate Professor of Medicine, Division of Infectious Diseases, University of Texas Medical School at Houston; Assistant Professor of Biological Sciences, University of Texas-Houston School of Public Health, Houston, Texas  
*Sporothrix schenckii*

**Steven M. Opal, M.D.**

Professor of Medicine, Brown University School of Medicine, Providence; Director, Infection Control Service, Memorial Hospital of Rhode Island, Pawtucket, Rhode Island  
*Mechanisms of Bacterial Antibiotic Resistance*

**Walter A. Orenstein, M.D.**

Director, National Immunization Program, Centers for Disease Control and Prevention, and Assistant Surgeon General, U.S. Public Health Service, Atlanta, Georgia  
*Immunization*

**Michael T. Osterholm, Ph.D., M.P.H.**

Chairman and Chief Executive Officer, Infection Control Advisory Network, Inc., Eden Prairie, Minnesota  
*Epidemiologic Principles*

**Stephen M. Ostroff, M.D.**

Associate Director for Epidemiologic Science, National Center for Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia  
*Global Epidemiology of Infectious Diseases*

**Michael N. Oxman, M.D.**

Professor of Medicine and Pathology, University of California, San Diego, School of Medicine, La Jolla; Staff Physician, Infectious Diseases Section, Veterans Affairs San Diego Healthcare System, San Diego, California  
*Myocarditis and Pericarditis*

**Richard D. Pearson, M.D.**

Professor, Department of Medicine, Division of Geographic and International Medicine, and Department of Pathology, University of Virginia School of Medicine, Charlottesville, Virginia  
*Agents Active Against Parasites and Pneumocystis carinii; Enteric Fever and Other Causes of Abdominal Symptoms with Fever; Leishmania Species: Visceral (Kala-Azar), Cutaneous, and Mucosal Leishmaniasis*

**David A. Pegues, M.D.**

Assistant Clinical Professor, Department of Medicine, University of California, Los Angeles, UCLA School of Medicine; Hospital Epidemiologist and Attending Physician, Division of Infectious Diseases, UCLA Center for Health Sciences, Los Angeles, California  
*Salmonella Species, Including Salmonelli typhi*

**Robert L. Penn, M.D.**

Professor, Department of Medicine, Louisiana State University School of Medicine in Shreveport; Chief, Infectious Diseases Section, Louisiana State University Hospital-Shreveport, Shreveport, Louisiana  
*Francisella tularensis (Tularemia)*

**Bradley A. Perkins, M.D.**

Centers for Disease Control and Prevention, Atlanta, Georgia  
*Leptospira Species (Leptospirosis)*

**C. J. Peters, M.D.**

Adjunct Professor, Department of Microbiology and Immunology, Emory University School of Medicine; Chief, Special Pathogens Branch, Centers for Disease Control and Prevention, Atlanta, Georgia  
*California Encephalitis, Hantavirus Pulmonary Syndrome, and Bunyaviridae Hemorrhagic Fevers; Lymphocytic Choriomeningitis Virus, Lassa Virus, and the South American Hemorrhagic Fevers; Marburg and Ebola Virus Hemorrhagic Fevers*

**Phillip K. Peterson, M.D.**

Professor of Medicine, University of Minnesota Medical School; Director, Infectious Diseases Division, Department of Medicine, Hennepin County Medical Center, Minneapolis, Minnesota  
*Infections in the Elderly*

**William A. Petri, Jr., M.D., Ph.D.**

Professor, Department of Internal Medicine, Division of Infectious Diseases, and Departments of Microbiology and Pathology, University of Virginia School of Medicine; Attending Physician and Associate Director of Clinical Microbiology, University of Virginia Hospital, Charlottesville, Virginia  
*Free-Living Amebas; Microbial Adherence*

**Peter Piot, M.D., Ph.D.**

Executive Director, Joint United Nations Programme on HIV/AIDS, Geneva, Switzerland  
*Global Perspectives on Human Immunodeficiency Virus Infection and Acquired Immunodeficiency Syndrome*

**Philip A. Pizzo, M.D.**

Thomas Morgan Rotch Professor and Chair, Department of Pediatrics, Harvard Medical School; Physician-in-Chief and Chair, Department of Medicine, Children's Hospital, Boston, Massachusetts  
*Empirical Therapy and Prevention of Infection in the Immunocompromised Host*
