序 言

江北鱼米之乡鱼台是美丽的，她犹如熠熠生辉的明珠镶嵌在鲁西南大地上。

展开她美丽多彩的画卷，兼容着博大精深的内涵。这里得天独厚，大自然赋予了她地势低洼、平坦开阔、河道纵横、地肥水美的生态景观，秉承中国北方最大淡水湖——微山湖的惠泽，淡水丰富而清澈；这里文化底蕴深厚，远古时的早期文化，传统民俗文化，抗战时湖西革命根据地的“红色”文化交相辉映，显现着鱼米之乡文化独特的韵味，尤如美酒醇厚而甘冽；这里富饶亮丽，物产丰富，“日出斗金”，蓝天碧水，四季分明，春天百花争艳、莺歌燕舞，盛夏水清鱼跃、绿浪滚滚，仲秋金黄染地、稻花飘香，深冬大棚满地、银装素裹。鱼台这丰韵俊俏的容貌，正招引着世人。

解读鱼台，复县四十载，变化翻天地覆，辉煌接踵而至，农业生机勃勃，大胆实践，治水改稻，厥成“鱼米之乡”；瞄准市场，调整结构，特色凸现。工业快速发展，规模膨胀，力创名牌，业绩非凡。进入新世纪，面对挑战，优化环境，扩大开放，招商不辍，科学发展。修编画册，旨在总结，聚集优势，展现形象，希冀开拓。美丽家园，投资热土，诚纳远朋，共创辉煌！

东风吹来满眼春，明朝鱼台花更锦！

是为序。

PREFACE

县长 尤卫平

Yutai County, a land flowing with milk and honey, is as beautiful as a shining pearl inlaid in the southwest land of Shandong province.

Unfolding the colorful picture scroll, you will also find its broad and deep culture in it. Its unique location endows Yutai with various ecological sights like the crossing rivers dotted in the vast low-lying flat fertile land; and its Weishan Lake, which is the largest freshwater lake in northern China, provides abundant fresh water. With its early culture in the ancient times, its traditional folk culture, and its red culture as a revolutionary base to the west of the lake during the anti-Japanese War period, the county features a lasting appeal of its own, just like a good wine: mellow and delicious. Each year, its blue sky and green water witness four distinctive seasons: various flowers in full bloom with singing orioles and darting swallows in spring, green summer and blue rivers with fish diving in and out, golden rice fields here and there in fall, and snow-capped green houses in winter, all of which stage a quiet grandeur

Spectacle of particular interest, appealing to visitors from both home and abroad.

Looking back to its forty years history since the reestablishment of Yutai county, you cannot ignore the world-shaking changes and brilliant achievements coming along here. In agriculture, the county has got its name of a land of fish and rice by bold practice of water-control and rice-upgrade; and in industry, an obvious development in speed and scale paves the way toward an brand name for the county. Meanwhile, the county committed itself to the reconstruction and characterization to better fit the market. Entering the new century, we are ready to meet all challenges, trying to improve the environment, to promote the opening-up, to introduce new investment, and to development in a more scientific way. And this picture album is a platform to present ourselves and attract others. We warmly welcome friends from afar to invest in this rich and beautiful land, making a contribution to our common prosperity!

With the east wind bringing the spring here and there, the Yutai county will surely have a brighter future! Hereinbefore, the preface.

YUTAI INTRODUCTION

西支河远眺

Yutai county, located at the west bank of the beautiful and rich Weishan Lake in the southwest of Shandong province, is neighbored by five counties of Jiangsu of Shandong province. The Beijing-to-Hangzhou Grand Canal winds its way along its eastern boundary. With a total area of 654 square kilometers, the county has jurisdiction over a population of 450,000 people in 392 administrative villages of 10 towns.

Yutai has a long-standing history and culture. As early as around six or seven thousand years ago, there was a tribe called Taihao of eastern Yi state living here in compact communities. During the Western Zhou Dynasty, it was the vassary of Ji state, and that of Lu state during the Spring and Autumn Period. During the Qin Dynasty, it was divided into two counties, namely Fangyu and Huling, and renamed as Yutai in 762. Thanks to these early cultures, you can find many historical sites of cultural relics like Qixiagu Stack and Wutang Pavilion. To this day, the remaining 10-odd historical sites of cultural relics are telling, in silence, the long years that Yutai county experienced.

The county boasts rich resources in its 8.7 million hectares of tillable field, 0.6 million hectares of shoaly land and 1.77 million hectares of water area. Its fertile land, abundant rainfall and temperate climate all contribute to a good farming condition. 17 rivers running within its boundaries connect to over 20 counties in Jiangsu, Shandong, Henan and Anhui provinces and produce a total water resource of about 270 million cubic meters. The county also boasts over 1000 living things, among which over 100 self-generating fishes. Coal is the richest mineral in the county with a total reserve of 3 150 million tons, and some others like oil, natural gas, kali salt and iron also have large reserves. Besides an ample supply of electric power and facilities, the county is also backed up with an affluent team of well-educated talents.

The county attaches great importance to the coordinated development of three civilizations, namely, material, cultural and political. In agriculture, it abounds in rice, wheat, cotton, vegetable, fish, shrimp, crab and lotus root. Yutai rice enjoys an established name across the country. Frequently referred to as a south of the Changjiang river land flowing with milk and honey in northern China, it is a national manufacturing base for quality market grain, quality cotton and aquatic products. In industry, it has developed an all complete system and achieved rapid progress. Thanks to the good quality, many of its products, like Kongfu liquor, Luwang flour, Longgong rice machine and Yutai quality coal, enjoy a popularity among customers from both home and abroad. During the rapid economic development oriented toward to outside world, Yutai county has successfully introduced a remarkable number of investments, and at the same time, its private business is also gaining momentum. The social understanding develops in an all-round way, with the public more civilized, democracy and legal system more strengthened, the community more stabilized, and people living and working in peace and contentment.

Thanks to its complete and modern transportation infrastructure, both the town and country have taken on a brand-new look. Here the multiple highways has formed a net, leading to every direction of the county, and so have the 11 freshwater channels connected with Beijing-to-Hangzhou canal. Its post and telecommunications has also become one of the most advanced at the municipal and provincial level.

Stepping into the new age, we are ready to build a new Yutai, a economically powerful county. We firmly believe that with the high spirit and strong fighting will of the people of the whole county, we will constantly stride into new phases, and create new brilliance!

CULTURE

鱼台地处孔孟之乡、礼仪之邦，文化发端较早。大约六七千年前，这里就有东夷太昊部族聚居。鱼台先民创造了人类早期的龙山文化、商周文化。早期文化积淀了栖霞冢堆、武棠亭等多处文物遗址，历史长河荟萃了闵子騫、樊子迟、宓子贱等一批贤人名士的足迹。饱经风雨洗礼的文物古迹默默诉说着鱼台先民悠久而灿烂的历史文化。

Yutai county, located in a province where the great Chinese thinkers Confucius and Mencius lived and where the ancient etiquettes were born, boasts an early culture origin. As early as around six or seven thousand years ago, there was a tribe called Taihao of eastern Yi state living here in compact communities. The ancestors of Yutai people created Longshan culture and Shangzhou culture successively, both belong to the early civilization of human beings. Thanks to these early cultures, you can find many historical sites of cultural relics like Qixiagu Stack and Wutang Pavilion, as well as the footprint of a number of virtuous persons and famous scholars like Min Zisai, Fan Zichi, Mi Zijian, to name just a few. Having experienced nature rains and storms, these historical sites of cultural relics are telling us in silence, the long-standing history and brilliant culture about the ancestors of Yutai county.
