序

中共邯郸市委副书记 孙士彬

在举国上下庆祝建国50周年的时候,《古都邯郸新貌》大型画册与大家见面了。它较全面地反映了邯郸解放50多年来经济建设的成就和社会发
展状况,并对我市重点企业和名优产品作了生动的介绍和展示。它的出版将有益于大家了解邯郸、认识邯郸,也将进一步激发全市人民建设邯郸发展邯郸的豪情壮志。

邯郸是闻名中外的历史名城,水土丰饶、物产丰富,古来就是“关天下之形胜、绝天下之转输”的战略要地,为历代英雄垂慕。但是,解放前在三座大山的压迫下,曾是“都城万雉、百里周回”的邯郸城已沦为“东西一里、南北二里”的小镇,其它县城也是一片破落、衰败的景象。

新中国成立后,伴随着共和国的脚步,邯郸从落后走向繁荣,面貌发生了根本变化,如今已成为辖19个县(市)区、总面积1.2万平方公里、人口810万的晋冀鲁豫接壤地区中心城市。1992年被国务院批准为“较大的市”,1994年又被批准为“中国历史文化名城”。

邯郸的工业从1949年空白起步,今天已形成了钢铁、煤炭、电力、纺织、建材等门类齐全的现代工业体系。始建于1958年的邯钢,已发展为一个跨地区、跨权属、跨行业的特大型钢铁企业集团,创造并推行了“模拟市场核算,实行成本否决”的经营机制,成为国有企业改革的一面旗帜。同时,还有新兴铸管、太行水泥、华玉陶瓷、雪驰羽绒等一大批名牌产品享誉国内外。投资环境的日益完善,使一大批国家、省重点项目落户邯郸。目前,全市正在建设的重点项目达45项,总投资298亿元。其中国家级重点项目3项,即中外合资项目邯峰电厂、邯济铁路、邯钢薄板坯连铸连轧热卷板工程。这些项目不仅有力地拉动了邯郸经济快速增长,而且为邯郸下个世纪的发展注入了后劲和活力,使得邯郸在区域经济、乃至全国经济棋盘上的重要性越来越大。

邯郸是个农业大市,素有“冀南粮仓”、“冀南棉海”的美誉。近年来,市委、市政府围绕农业增产、农民增收、农村稳定,组织实施了科教兴农等多项农业重点工程,全市建立了完善的农村科技推广体系,围绕支柱产业
发展龙头企业,实行贸工农一体化经营,形成了15条“龙”型经济链。邯郸的农业已由典型的小农经济实现向现代化、市场化和产业化的转变。

团结战斗的中共邯郸市委领导班子

CPC with the working style of cooperation and painstaking

邯郸的城市化进程不断加快。以邯郸市区为中心的一大批小城镇欣欣向荣，城镇人口达到150万。城市基础设施建设日新月异，随着新世纪商业广场、滏东新区主干道、14个住宅小区、滏阳河市区样板段综合治理工程等相继竣工，邯郸这座古城将以全新的姿容展现在世人面前。

邯郸的交通事业取得长足进步。新建的邯济铁路同邯（郸）长（治）线连接，与京广铁路在此交汇，公路建设形成了以石安高速公路和309国道为骨架，以106、107国道、邯大、邯临、宁魏、邢都、魏峰和邯武等干线公路为主支架的“五纵五横”公路网络，公路通车里程达5856公里，公路密度达到48公里/百平方公里。

邯郸的市场建设取得了显著成效。目前全市共有各类市场513个，商品年成交额105亿元，初步形成了布局合理、门类齐全、城乡互联的现代化市场体系。

邯郸的精神文明建设和文化教育事业蓬勃发展。精神文明建设在抓好全面工作的基础上，突出抓了精神文明建设阵地、载体的创新和探索，先后创造了“乡村宣教中心”和“十星级文明家庭”等多种有效的工作方式。各级各类教育事业蓬勃发展。目前全市各级各类学校已由1949年的200多所发展到12400多所，在校生由1949年的2万人发展到现在的250多万人。

50年来的建设发展，使邯郸的地位和影响达到了历史上从未达到的程度。在建国50周年之际，邯郸人民决心继续发扬“求真务实抓落实”的精神，进一步高扬发展主旋律，团结拼搏，奋发向上，以百倍的努力创造更加美好的明天。

Preface

By **Sun Shibin** Vice-Secretary of Handan Municipal Committee of CPC

Just as the whole country is celebrating the 50th Anniversary of the People's Republic of China, this big picture album titled "A New Look of Handan, an Ancient City" is published. This album quite completely reflects the achievements of the economic construction and the status of social development during the 50 years since the liberation of Handan, and vividly introduces and displays the key enterprises and famous brand products of the city. The publishing of this book will make it easier for people to understand Handan so as to further arouse the whole people's lofty sentiments and aspirations for developing Handan.

Handan is a historical city famous both at home and abroad, with rich water resources and fertilized soil and abundant products. The city has been the place of strategic importance described as "a most important strategic pass, and a most essential transportation hub" since the ancient times. It was the place all warlords were trying to seize in history. Unfortunately, under the oppression of the imperialism, feudalism and bureaucrat-capitalism, Handan City had been degraded from "a city with the ten thousand meters long city wall and about fifty square kilometers of coverage" into a small town with "a half kilometer from east to west and on kilometer from south to north". Other county towns gave a sight of poverty and degradation.

Since the founding of the People's Republic of China, following the advancing steps of the country, Handan is turning prosperous from backwardness and a radical change has taken place in all aspects. Now, the city has become a central city in the bordering area of Shanxi, Hebei, Shandong and Henan, administering 19 counties (cities) and districts, with a total area of 12000 square kilometers and a population of 8.1 million. In 1992, the city was approved by the State Council of "a quite big city". In 1994, the city was approved by the same as "a famous historical and cultural city in China".

Handan has now formed a modern industrial system with complete sectors represented by iron and steel, coal, electrical power, textile and building materials, etc. starting from nothing in 1949. Handan Iron and Steel Corporation, originally established in 1958, has now become an extraordinary big iron and steel enterprise group of trans-region, trans-ownership and multisectors. The corporation has created and is exercising the operation mechanism of "simulating the market calculation and exercising the veto", and has become a flag in the reform of state owned enterprises. A large group of famous brand products made in Handan represented by Xinsing cast iron pipes, Huayu Ceramics, Xuechi down and feather products enjoy a good reputation both at home and abroad. The city has been improving the investment environment so that a many number of key projects at national and provincial levels have settled down in the city. At moment, the city is constructing 45 key projects, with total investment of RMB 29.8 billion, including 3 national key projects, namely Sino-foreign joint venture Hanfeng Power Plant, Handan-Jinan Railway and the Steel Sheet Blank Continuous Casting, Continuous Rolling and Hot Coiling Project at Handan Iron & Steel Corporation. These projects can

By surrounding the pillar farming projects to develop leading enterprises, the city implement the integration operation of trading, industry and agriculture and has formed 15 complete economic chains. The agriculture in Handan is going to realize the modernization, marketing and industrialization gradually from a typical small-scale peasant economy.

Handan is continuously quickening the steps of urbanization. With the city proper of Handan as the center, a large number of small cities and towns are developing prosperously and the population in urban area has reached 1.5 million. The urban infrastructures are developing rapidly. As the New Century Commercial Plaza, trunk road of Fudong new zone, 14 resident estates and comprehensive control works of the sample section of the city proper of Fuyang River have been completed, Handan, this ancient city, is displaying a new look in front of the people.

Handan is making rapid progress in construction of traffic facilities. The newly constructed Handan-Jinan Railway links Handan-Changzhi Railway, crisscrosses Beijing-Guangzhou Railway. In respect of highway construction, a highway network featuring "five east-west and five south-north" highways has formed with Shijiazhuang-Anyang Motorway and No. 309 Highway as the main framework, with No. 106 and No. 107 national highways, Handa, Hanlin, Ningwet, Yingdou, Weifeng and Hanwu highways as the main supports, with a total length of 5856 km. The highway density has hit 48 km/100 km².

Handan has also achieved great success in market construction. So far, there are 513 various markets in the city, with the trade volume of RMB 10.5 billion per year. The city has preliminarily formed a modern market system featuring rational layout, complete categories and mutual link of urban and rural areas.

Under the loving care and powerful support of the central government, Handan has experienced a rapid economic development. It has been turned into a comprehensive modern industrial city with the energy sources and raw materials as the main body integrated with light-industry and heavy-duty industry from a small consumption town at the beginning of the liberation. Handan is famous for iron and steel, coal, textile and ceramics all over the country. It is worthy of its reputation of a city bordering four provinces (Shanxi, Hebei, Shandong and Henan), biggest regional scale and complete varieties of industries. Specially since the 3rd plenary session of the 11th central committee of the CPC, Handan has entered the period of rapid development, the output of its main products has been growing at the rate of double and enterprises are improving rapidly their overall actual strength. In 1998, the gross industrial output value hit RMB 70,525 million, which is 4441 times of that in 1949 (which was RMB 15.88 million) or 7 times of that in 1978 (which was 9.6 billion). There are 16 enterprises which rank among the top 100 powers of the province. The five enterprises, including Handan Iron and Steel Corporation, Taihang Group, Xinxing Cast Iron Pipe Factory, Fada and Fengfeng Mineral Bureaus have been listed in the 500 key enterprises of the country. There are 14 products, including nodular cast iron pipes, TAIHANG Brand cement, Xuechi down wears, Chongtai wine, Yukang Farming Trucks, etc. which have been listed in the 100 famous brand, quality and key products of the province, enjoying a good reputation both at home and abroad. Under the socialist market economy system, there have been 82 enterprises which have completed the reform for the joint stock system. A group of large enterprise groups have been successively established. As a result, the structure of enterprises has been much optimized and the structure of products has been adjusted. Handan is developing more and more quickly in its industry.

十一届三中全会以来，邯钢以邓小平同志建设有中国特色社会主义理论和党的基本路线为指导，坚持全心全意依靠职工办企业的方针，以转变观念、转换机制为前提，以国内外市场为导向，以降成本、增效益为目的，以推行“模拟市场核算、实行成本否决”为核心，创立了企业适应市场经济高效运行和加快实现“两个转变”的经营机制，实现了生产要素不断的合理配置，为搞好搞活国有企业闯出了一条成功之路。

Since the Third Plenary Session of Eleventh Central Committee of CPC, HanSteel has been following Comrade Deng Xiaoping's theory of building socialism with Chinese characteristics and the party's basic lines through upholding the principle of running enterprises by relying on workers and staff whole-heartedly and changing the managerial ideologies and mechanisms. The company has been continuously adjusted its orientation towards the domestic and international markets, and placed more emphases on decreasing costs and increasing proceeds. By carrying out the management system of 'market simulation accounting and cost control outranking', HanSteel invented a new managerial mechanism which makes the enterprise more efficiently operated in the marketing economy and resulted in more rational allocation of its production elements. HanSteel's successful practice opens a road to vitalize state owned enterprises.
