山東中醫藥大學創建於1958年，是山東省首批重點大學、全國著名的高等中醫藥院校之一。學校座落在美麗的“泉城”濟南，占地14.5公頃，建築面積10.8萬平方米。

學校設有5個系11個專業；有66個學科教研室、22個教學實驗室、4個研究所、13個研究室；有4個博士點、16個碩士點，碩士點覆蓋了所有中醫藥一、二級學科；有5個省級重點學科和2個省級重點實驗室。

山東中醫藥大學現有教職工1000余人，博士、碩士、本專科生近3000人，函、夜大生近1500人，外國留學生和港澳臺學生100余人。學校師資力量雄厚，專家薈萃，擁有一支以博士生導師為中堅，著名學者為學科帶頭人的素質較高、結構合理的師資隊伍，有教授、副教授200余人，其中有博士生導師17人，碩士導師生100余人，有4名兩院院士為我校名譽教授。

學校科技成果豐盛，其中達到國際先進水平有60余項，獲國家級和省、部級科技獎70余項，被國家科委確定為“國家科技成果重點推廣計劃項目技術依托單位”；出版了享譽國內外的科技學術專著500余部。編輯發行的《山東中醫藥大學學報》、《山東中醫雜誌》及國家級中心刊物《中國肛腸雜誌》等在國內外頗具影響。

學校擁有90年代先進的制備型高效液相、酶標儀等一批實驗儀器設備和豐富的圖書資料，設有中心實驗室、電教室和計算機網絡中心。圖書館藏書40余萬冊，孤、珍、善本古代醫籍達200種，中外文期刊2000余種。學校開通了校園網絡，並與Internet網聯網。

學校附屬醫院是國家示範中醫醫院和三級甲等中醫醫院，是國家中藥臨床藥理實驗基地。現有職工近千人，其中衛生技術人員700余人（副高以上100余人），設有17個臨床科室、16個病區、600余張病床，具有先進的醫療設備，是全省中醫藥醫療、臨床教學和臨床科研中心，學校還有教學附屬醫院、實習醫院、研究所、藥檢所、藥廠等教學基地31個，從而為教學科研和學生實習提供了良好條件。

學校積極開展對外學術交流與合作，已和日本、韓國、巴西、以色列等國的著名大學建立了校際交流關係。每年選派知名專家、學者赴國外講學行醫。現在校長期留學生80余人，每年接待短期培訓學生百余人，1987年以來已培養留學生、研修生582人。新建的國際培訓中心大樓外型古樸典雅，內部設施齊全，集餐飲、住宿、教學、娛樂等多功能為一體，進一步方便了留學生的學習和生活。

學校所在城市濟南，北倚中華民族的母親河黃河，南望五岳之首的泰山，名勝眾多，風光旖旎，大明湖、趵突泉、千佛山、四門塔、靈岩寺等是中外游人的必經之處。山東古為齊魯之國，禮儀之邦，歷史文化源遠流長。享譽世界的中國古代著名思想家孔子、孟子，軍事家孫子均誕生在這片神奇的土地上。

山東中醫藥大學歡迎世界各國的朋友、學者來我校參觀、訪問，進行學術交流和洽談合作項目。良好的學習、生活環境，濃厚的歷史文化底蘊，美麗的風光名勝，定會讓您滿載而歸。

Shandong University of Traditional Chinese Medicine, founded in 1958, one of the first batch of the key universities of Shandong Province, ranks among the most famous higher-learning institutions of traditional Chinese medicine in China. The campus is located in Jinan, "the City of Springs", covering a total area of 14.5 hectares including 108,000 square meters of building space.

It has 5 departments with 11 specialties; it owns 66 teaching sections, 22 teaching laboratories, 4 research institutions and 13 research sections; it offers 4 doctoral programs and 16 master's programs which cover all the TCM specialties of the first and second grades of courses; it has 5 provincial key specialties and 2 provincial key laboratories.

The present enrollment of undergraduates and postgraduates is nearly 3000; the students taking correspondence and evening course are nearly 1500; the students from Hongkong, Macao, Taiwan and foreign countries are over 100. The teaching and administrative staff is over 1,000. There is over 200 professors and associate professors including 100 tutors of master's degree students, 17 tutors of doctoral students and 4 honorary professors who are academicians of the Chinese Academy of science and the Chinese Academy of Engineering.

A large number of brilliant achievements in scientific research have been made, of which over 70 items have won the scientific awards from the Department, Province and state, and over 60 items have reached the international advanced level. The university has been recognized as "a technological entrusted unit to popularize the key planning items of the nation's scientific research achievements" by the state's Science committee. Over 500 scientific and academic books have been published, famous home and abroad. Journal of Shandong University of Traditional Chinese Medicine, Shandong Magazine of Traditional Chinese Medicine, and China Magazine of Rectal Diseases, which is the state's central journal, have become world-wide influential magazines.

The university boasts of up-to-date advanced laboratory equipments of nineties and abundant books. It has a Central Laboratory, a Visual-audio Laboratory and a Computer Center. The library owns a collection of over 40,000 volumes including 200 kinds of rare books and only existing copies, and over 2000 kinds of periodicals in Chinese or foreign languages. It has set up a computer net on campus, which has connected with the Internet.

The Affiliated Hospital of the university is a state's exemplary TCM hospital, a first-class TCM hospital. It is the state's laboratorial experimental base of clinical herbal pharmacology and the provincial center of medical treatment, clinical teaching and clinical scientific research in the field of traditional Chinese medicine. It has a staff of nearly 1,000. The medical technical personnel is over 700 including over 100 professors and associate professors. It has 17 clinical departments and 16 in-patient departments with over 600 beds, equipped with advanced medical apparatus. In addition, the university has 31 teaching bases such as teaching affiliated hospitals, practicing hospitals, research institutions, herb-testing institutions and pharmaceutical factories. Thus, it provides favorable conditions for teaching, scientific research and students' practicing.

The university is actively participating in academic exchanges and cooperation with foreign countries. Up to now, it has established exchange programs with the well-known universities in Japan, South Korea, Brazil, Israel, and so on. It sends celebrated experts and scholars abroad to give lectures or practise medicine every year. Now it has an enrollment of over 80 foreign undergraduates and postgraduates, and receives about 100 short-term foreign students annually. To further facilitate their study and life here in Jinan, a beautiful and tall building of the International Training Centre is newly built, engaging in the following services: teaching, dining, lodging as well as entertainment.

Jinan, on the south bank of the Yellow River and on the north foot of Mount Tai, is a city of historic interest and scenic beauty. The Daming Lake, the Baotu Spring, the Qianfo Mount, the Simen Tower and the Lingyan Temple are popular resorts for Chinese and foreign tourists. Shandong Province, known as Qi Lu States of etiquette in ancient time, has a long history and brilliant civilization. Many outstanding people famous in the world were born here, for example, Confucius, Mencius (the two great thinkers) and Sun Tzu (the great strategist).

The university welcomes friends and scholars from all over the world to come for study, visit, academic exchanges and cooperation. The interesting study, comfortable life, profound history, brilliant civilization and spectacular tourist spots will make you fully loaded back home both academically and spiritually.

7 中青年學術骨幹們

Young and middle-aged academic key members.

1. 中醫學：開設中醫基礎理論、中藥學、針灸學、中醫內科學、針灸學等必修課程30余門。培養系統掌握中醫學基礎理論、基本知識和技能，具備一定現代醫學知識和技能，能任中醫臨床、教學和科研工作的高級中醫人才。本專業具有博士、碩士、學士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

2. 中藥學：開設中藥藥理學、中藥藥理學、中藥鑑定學、中藥炮炙學等必修課程30余門。培養系統掌握中藥學、中藥炮炙和藥劑學基本理論，能任中藥鑑定分析、質量控制和中藥研究的實驗、藥劑人才。本專業具有博士、碩士、學士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

3. 針灸學：開設經絡學、針灸學、針灸治療學、針灸實驗學、實驗針灸學等必修課程30余門。培養系統掌握針灸學基礎理論及臨床治療技術，必要的現代醫學知識和基本技能，能任針灸臨床、教學和科研工作的高級針灸醫師。本專業具有博士、碩士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

4. 推拿學：開設推拿學、推拿手法學、推拿輔助學、內兒推拿學、針灸學等必修課程30余門。培養系統掌握推拿學基礎理論及臨床治療技術，必要的現代醫學知識和基本技能，能任推拿臨床、教學、科研工作的高級推拿醫師。本專業具有博士、碩士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

5. 中醫養生康復學：開設中醫康復學、中醫養生學、康復學等必修課程30余門。培養系統掌握中醫養生康復學基礎理論及臨床治療技術，必要的現代醫學知識和基本技能，能任中醫養生康復臨床、教學和科研工作的高級中醫康復師。本專業具有博士、碩士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

6. 中醫藥毒理學：開設中醫藥毒理學、中醫藥毒理學、中醫藥毒理學等必修課程30余門。培養系統掌握中醫藥毒理學基礎理論及臨床治療技術，必要的現代醫學知識和技能，能任中醫藥毒理學、教學、科研工作的高級毒理師。本專業具有博士、碩士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

7. 中醫外科學：開設中醫外科學、中醫外科學、中醫外科學等必修課程30余門。培養系統掌握中醫外科學基礎理論及臨床治療技術，必要的現代醫學知識和技能，能任中醫外科臨床、教學、科研工作的高級外科醫師。本專業具有博士、碩士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

8. 中藥化學：開設中藥學、中藥化學、中藥化學、中藥化學等必修課程30余門。培養系統掌握中藥學基礎理論、基本知識和技能，能任中藥化學臨床、生產和工藝設計的高級工程技術人才。本專業具有博士、碩士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

9. 中醫藥學：開設中藥學、中藥化學、中藥化學等必修課程30余門。培養系統掌握中藥學基礎理論和基本技能，具有較強專業知識和實驗操作能力，能任中醫藥學研究和整理、中醫藥臨床教學工作的高級中醫藥人才。本專業具有博士、碩士、學士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

10. 中藥炮炙學：開設中藥學、中藥炮炙學、中藥炮炙學等必修課程30余門。培養系統掌握中藥學基礎理論和知識，能任中藥炮炙學和整理、中藥炮炙臨床教學工作的高級中藥炮炙師。本專業具有博士、碩士、學士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

11. 中藥炮炙學：開設中藥學、中藥炮炙學、中藥炮炙學等必修課程30余門。培養系統掌握中藥學基礎理論和知識，能任中藥炮炙學和整理、中藥炮炙臨床教學工作的高級中藥炮炙師。本專業具有博士、碩士、學士學位授予權，設博士研究生、碩士研究生、本科生、專科生、短期進修生等教學層次。

1. Traditional Chinese Medicine (TCM): It offers over 30 required courses such as the basic theory of TCM, traditional Chinese materia medica, TCM formulae, TCM internal medicine, acupuncture and moxibustion, etc. It aims to train high-level TCM doctors who systematically master the basic theory, knowledge and techniques of TCM, acquire essential knowledge and techniques of modern western medicine, and are competent in teaching, clinical practice and scientific research. It is authorized to grant bachelor, master and doctor degrees. It provides courses of different levels for undergraduates, postgraduates special-course students and students of short-term advanced study.

2. Traditional Chinese Materia Medica (TCMM): It offers over 30 required courses such as pharmacology of TCMM, identification of TCMM and preparation of TCMM. It aims to train high-level TCMM doctors who systematically master the basic theory of TCMM and are competent in identification, analysis, quality-controlling and research of TCMM. It is authorized to grant bachelor, master and doctor degrees. It provides courses of different levels for undergraduates, postgraduates special-course students and students of short-term advanced study.

3. Acupuncture and Moxibustion: It offers over 30 required courses such as the theory of channels and collaterals, acupoints, manipulation techniques, acupuncture treatment and laboratory acupuncture. It aims to train high-level acupuncture doctors who systematically master the basic theory and clinical treatments of

acupuncture, acquire essential knowledge and basic techniques of modern western medicine, and are competent in teaching, medical treatment and scientific research of acupuncture. It is authorized to grant bachelor and master degrees. It provides courses of different levels for undergraduates, postgraduates special-course students and students of short-term advanced study.

4. Chinese Tuina: It offers over 30 required courses such as Tuina treatment, Tuina manipulation techniques, Tuina practicing, children's Tuina and acupuncture, etc. It aims to train high-level Tuina doctors who systematically master the basic theory and clinical treatments of Tuina, acquire essential knowledge and basic techniques of modern western medicine, and are competent in teaching, medical treatment and doing researches of Tuina. It is authorized to grant bachelor and master degrees. It provides courses of different levels for undergraduates, postgraduates special-course students and students of short-term advanced study.

5. Rehabilitation and Health of TCM: It offers over 30 required courses such as rehabilitation of TCM, body-building of TCM, treatment and rehabilitation, the basic theory of TCM and internal medicine of TCM. It aims to train high-level TCM health doctors who systematically master the basic theory and clinical treatments of rehabilitation and health of TCM, acquire essential knowledge and basic techniques of modern western medicine, and are competent in teaching, medical treatment and scientific research of rehabilitation and health of TCM. It is authorized to grant bachelor and master degrees. It provides courses of different levels for undergraduates, postgraduates special-course students and students of short-term advanced study.

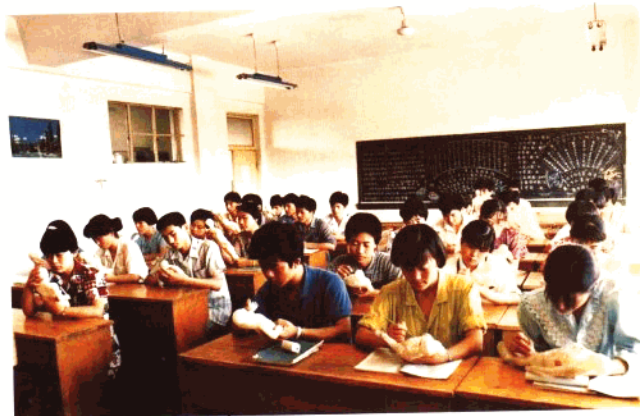

6. Osteotraumatology of TCM: It offers over 30 required courses such as osteotraumatology of TCM, osteopathology of TCM, the basic theory of osteotraumatology of TCM, osteotraumatology surgery and the basic theory of TCM. It aims to train high-level osteotraumatology doctors who systematically master the basic theory and clinical treatments of osteotraumatology of TCM, acquire essential knowledge and techniques of modern western medicine, and are competent in teaching, clinical practice and scientific research. It is authorized to grant bachelor and master degrees. It provides courses of different levels for undergraduates, postgraduates special-course students and students of short-term advanced study.

7. Surgery of TCM: It offers over 30 required courses such as surgery of TCM, dermatology of TCM, anorectalology of TCM and the basic theory of TCM. It aims to train high-level TCM surgeons who systematically master the basic theory and clinical treatments of TCM surgery, acquire essential knowledge and techniques of modern western medicine, and are competent in teaching, clinical practicing and scientific research. It is authorized to grant bachelor and master degrees. It provides courses of different levels for undergraduates, postgraduates special-course students and students of short-term advanced study.

8. Processing and Preparation of Traditional Chinese Materia Medica (TCMM): It offers over 30 required courses such as TCMM, chemistry of TCMM, preparation of TCMM, pharmaceuticals of TCMM, equipment and processing principles of TCMM. It aims to train high-level engineering personnel who systematically master the basic theory, knowledge and techniques of processing and preparation of TCMM and are competent to develop, produce and technologically design patent medicines of TCMM. It is authorized to grant bachelor and master degrees. It provides courses of different levels for undergraduates, postgraduates special-course students and students of short-term advanced study.

9. Traditional Chinese Medical Literature: It offers over 30 required courses such as TCM and traditional Chinese medical literature. It aims to train high-level scientific TCM personnel who systematically master the basic theory and techniques of TCM, have a profound knowledge of Chinese language and a strong ability of reading and writing, and are competent in study of traditional Chinese medical literature, and teaching and clinical practice of TCM. It is authorized to grant bachelor, master and doctor degrees. It provides courses of different levels for undergraduates, postgraduates and students of short-term advanced study.

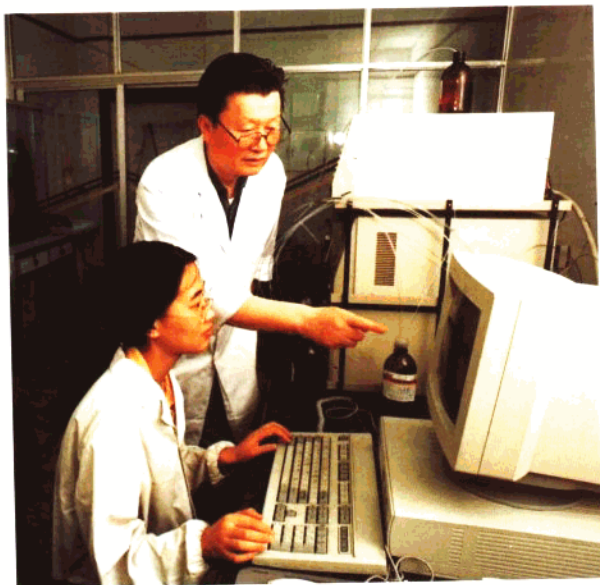

10. Management of TCMM: It offers over 30 required courses such as business of TCMM, marketing of TCMM, enterprise management of TCMM and conservation of TCMM. It aims to train high-level managerial and administrative personnel who systematically master the basic theory and knowledge of TCMM, and are competent in identification, preparation, processing, modification, conservation and business information of TCMM. It is authorized to grant bachelor and master degrees. It provides courses of different levels for undergraduates, postgraduates, special-course students and short-term advanced study.
