

黄河科技学院 20 年光辉历程  
TWENTY YEARS OF GLORIOUS HISTORY OF THE HUANGHE COLLEGE OF SCIENCE AND TECHNOLOGY

敢为天下先

二十  
年

贰拾年 .....  
WENTY YEARS

滔滔黄河  
巍巍高山

蕴积了开拓拼搏的精神  
自强不息的追求

涵养了敢为人先的信念  
厚德博学的气量  
肩负着民族进步的重任

高举着科教兴国的旗帜

你走来  
留下一路清晰而坚定的脚印

撒下一路充实而饱满的种子

二十年春华秋实

二十年风雨兼程  
二十年铸就辉煌

二十年桃李芬芳

The Huanghe River    Science and Technology

The Huanghe River, coming from high mountains and surging all the way to the sea, brings the hopes of the Devine Land and rolls toward the rising morning sun in the east in all its splendor.

The Huanghe River, coming from remote antiquity, has nurtured generation after generation of the Chinese nation with its motherly tender love. It is the offspring of the Huanghe River that, with their diligence and wisdom, has written the long history of the Chinese nation with a unique civilization.

Civilization and science and technology are as bright and aureate as a rainbow. One myth after another has been created in the brilliant light of scientific and technological civilization.

The Huanghe River and science and technology have melted into the blood vessel of the Chinese nation. The turbulent surging waters of the Huanghe River have witnessed every footprint of progress and the brilliant course of development of the Huanghe College of Science and Technology (HCST).

The Huanghe College of Science and Technology, like the rising morning sun, forges ahead with time and keeps itself energetic forever.

## 黄河科技

黄河从高山走来 托起神州的希望 奔腾到海

去追赶东方升起的一轮朝阳，在水天一色中激起万般辉煌

黄河从远古走来 以千般的慈爱 抚育中华儿女 代代相继

正是黄河的儿女 用勤劳和智慧

展绘出中华民族惊世文明的历史长卷

文明与科技似一道重彩璨然夺目

一个个神话 在科技文明的光环下创造

黄河与科技已经溶入中华民族的血脉之中

奔腾不息的黄河水见证了黄河科技学院成长的每一个脚印

见证了黄河科技学院发展的光辉历程

黄河科技学院正如一轮蓬勃的朝阳 与时俱进 生生不息

## 黄科大说法——优势

黄科大深入挖掘社会潜能，充分整合社会资源，以科学的发展观及正确的战略眼光，发挥灵活能动的优势，引领中国民办高等教育发展的方向。汇集一大批优秀的“黄科大学人”，构筑了一流的教育平台，并从市场调研和实际的教学管理中汲取经验，预见、捕捉社会对人才的需求点，注重对学生的创造力和学习力的培养。及时调整专业课程设置，视教学质量为生命线，一切为学生成才服务，以“敢为天下先”的信念，凝练和涵养名校风范，处处体现人文关怀，在潜移默化中达到培养复合型人才的目的，被誉为“一所对学生最负责任的新型大学”。

### Strengths of the Huanghe College of Science and Technology

The Huanghe College of Science and Technology, through greatly tapping the potential of the society, fully integrating social resources and making good use of its flexible and active strengths with a scientific and strategic point of view, leads the way of the development of Chinese private-run education. Gathering a group of talents, constructing a first-class educational platform, drawing experience from market investigation and practical teaching management and envisaging and focusing on social needs for qualified people, the college pays great attention to the cultivation of creativity and learning ability of its students. It timely adjusts its curriculum and takes teaching quality as its lifeline. All efforts are focused on the cultivation of the students. Cherishing the ambition of being the first in the world, trying to foster and bring forth the demeanor of a famous college, the college shows humanistic concern for the students and trains talents with comprehensive abilities in a slow but sure way. Thus, it has been praised as a new-type college that is most responsible for its students.

## “以”人为本，学为创造”的教育理念

学校严格奉行“学为主体，教为主导”的教学模式，独具特色的人才培养模式：“坚定的政治立场和高尚的道德品质+扎实的专业功底和丰富的实践能力+熟练的外语和计算机水平+较强的创新精神和创造能力”和“科学化决策、市场化运作、规范化管理、自动化办公”的管理模式，培养学生的实践能力，塑造“五会”、“四有”的黄科大学生形象，全面提升学生核心竞争力，为名校育英才奠定坚实的理论基础。

Our educational concept is: Put the people in the foremost position and today's study is for tomorrow's creation

The college strictly follows the teaching model: taking learning as the principle part and teaching, the leading role, and the unique talent-training model: a firm political stand and a high moral integrity + a solid professional knowledge and rich practical ability + a good command of a foreign language and computer skills + a fairly strong innovative spirit and creative ability and the management model: scientific decision-making, market-like operation, standard management and automation of office work in order to cultivate the students' practical ability and create a fine image for them so as to make them more competitive, thus laying a solid theoretical foundation in talents training for the famous college.

中共中央总书记、国家主席胡锦涛亲切接见胡大白校长时称赞：你们对学生很负责任。

Hu Jintao, General Secretary of the CPC and Chairman of the country, cordially meets President Hu Dabai, saying in praise, "The Huanghe College of Science and Technology is very responsible for the students."

# 总书记的关怀

GENERAL SECRETARY'S CARE

2000年11月24日，人民大会堂歌声阵阵、鼓乐声声，由全国妇联和首都12家新闻单位联合评选的“第三届中国十大女杰”表彰大会在这里隆重举行。胡大白校长作为本届十大女杰中惟一的一位教育界人士在大会上作典型事迹报告，她以自己艰苦的创业经历，辉煌的事业成就，以及自强不息的人生追求深深感染和激励着在场的听众，会场上时时响起雷鸣般的掌声。更令人振奋的是，现任中共中央总书记、国家主席胡锦涛亲切接见了这位享誉中原，创造了中国教育奇迹的女校长，并亲切地说：“你们对学生很负责任，为国家培养了几万名大学生”。

On Nov.24, 2000, the Great Hall of the People, full of singing, music and beating of the drums, witnessed a grand view of the 3rd Commendation Meeting of the Ten Outstanding Women of China, chosen jointly by the All-China Women's Federation and 12 news agencies from Beijing. As the only representative from educational circles, Hu Dabai gave a talk on her typical deeds at the meeting. The audience were so greatly affected and impelled by her painstaking pioneering experiences, brilliant achievements, and life pursuing of improvement with unceasing efforts that the Hall constantly resounded with thunderous applause. It was much more exciting that Hu Jintao, present General Secretary of the Central Committee of the CPC, granted a special interview to the female president who had created a miracle in Chinese education and enjoyed great prestige in Henan Province. He cordially said, "I have heard that the Huanghe College of Science and Technology has a high sense of responsibility for the students and has trained tens of thousands of students for the country."

# 东方之子——胡大白

H U D A B A I - - - T H E O R I E N T A L S T A R

胡大白教授是享受国务院特殊津贴专家、全国人大代表、全国十大女杰，亲切曾受到中共中央总书记、国家主席胡锦涛的亲切接见。新华社、《人民日报》、《光明日报》、中央电视台“东方之子”栏目、“半边天”栏目、《中国教育报》、《中国妇女报》、《中国青年报》、新浪网等各大强势媒体都曾专题报道了胡大白校长先进的教育理念和管理经验。

胡大白校长，没有想象的那么高大挺拔，却比想象的更加沉稳宽厚。她温文尔雅，气质沉静，谦逊和蔼。令人敬重的是胡大白校长山峰一般峭拔的胆识。黄科大的办学实践，在埋头苦干之中默默地造就了石破天惊；她的思想锋芒，在亲和平易之中静静地形成了威慑力量。虽然平日不事张扬，但是人所共知，黄科大沿着无人禁区一路走来，如果没有每个关键时刻的放胆而为，就不可能有今天的黄科大，这种靠过人胆识闯关夺隘的勇气和毅力，令须眉也折腰。

胡大白与黄河科技学院，这两个名字已紧紧缔结在一起，生存相依，血肉相连，形影相随，不可分开。黄河科技学院作为“中国民办大学第一校”，已经无可置疑。为了向整个社会证明民办教育无禁区，胡大白校长以“敢为天下先”的精神，不断引领改革潮流，成为中国民办教育界的许多“第一”的缔造者。

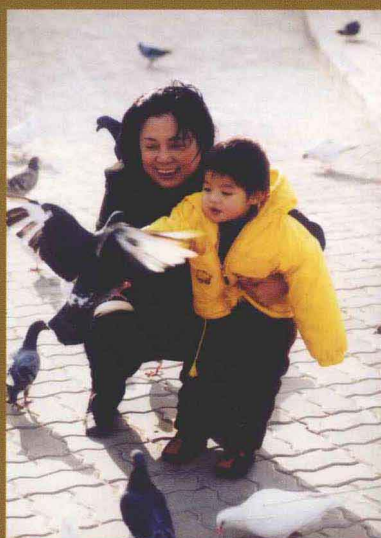

胡大白是一位教育家，更是一位慈祥的母亲，她拥有博大的胸怀、渊博的知识和朴实善良的高尚品质。她将教育家的睿智与慈母情怀融入到对子女和学生的培养与关爱之中。她的两个儿子，在她的精心培育下，从小学到大学，一路品学兼优，北大毕业后，双双获得全奖，赴美国著名大学攻读博士学位。小儿子杨保中在三十三届中学生国际奥林匹克数学竞赛中以满分的成绩夺得金牌，在麻省理工学院获得博士学位后到斯坦福大学任教。作为一个母亲，她的成功让多少家长为之称羨，为之感叹，每每以她为楷模。

20年，胡大白校长对学生倾注了全部的心血、全部的关爱。如今，六万多名本、专科毕业生遍布神州，堪称栋梁。

Professor Hu Dabai is an expert enjoying special allowance of the State Council, a deputy to the NPC, and one of "Ten Outstanding Women of China". She was met by Hu Jintao, General Secretary of the CPC and Chairman of China. Various mass media, such as the Xinhua News Agency, the People's Daily, the Guangming Daily, China Education Daily, China Women Daily, China Youth Daily and such CCTV Programs as "Oriental Stars" and "Half of the Sky" and Sina Network have all reported her advanced educational concept and management experience.

Hu Dabai and the Huanghe College of Science and Technology have integrated into one and can never be separated. There is no doubt that the Huanghe College of Science and Technology is the first private-run college in China. In order to show to the whole society that there is no forbidden zone for private-run education, President Hu Dabai, displaying the daring spirit of being the first in the world, always stands at the head of the reform movement, becoming the creator of many "first" and "uniqueness" in China's private-run education field.

President Hu Dabai is gentle, quiet, modest and kind. Although she does not publicize herself much, she is well-known. The college has come all the way through a forbidden area. Without daring actions at each critical moment, she could not have become what she is today. President Hu's great courage and strong will in overcoming difficulties can well match those of the men.

Success in her career makes others regard her as a super woman, but she doesn't think so. Actually those who know her well know that she is a simple, cordial person with a strong sense of responsibility. Hidden behind her splendid accomplishments is a strong love and responsibility for her family, her students, her motherland and the people. She has broken a path imbued with love and responsibility. Talking with her, one can easily feel that she is modest and is always ready to listen to the opinions of others. People will feel that she is more like a sagacious teacher that ushers you to her world and career than a marshal commanding hordes of troops.

Hu Dabai is an educationalist and a kindly mother as well. With her painstaking efforts, her two sons were both excellent students and did extremely well from primary school to university. After graduation from Peking University, they both went to famous universities of the US with full scholarship to study for their doctor's degrees. Yang Baozhong, her younger son, won with full mark the gold medal in the 33rd International High-school Students Olympic Mathematics Competition. As a mother, her success is admired by many parents, who take her as their model.

President Hu Dabai has a broad mind. Her noble spirit of doing her bit for the country and reducing the people's worries creates opportunities not only for the students who yearn for knowledge but also for the disabled young people, youths of ethnic groups of the western China and the laid-off women. Her great love moves the people of the Huanghe College and the whole society that she cares for.

For 20 years, President Hu Dabai has been giving all her efforts, concern and love to her students. Now, over 60,000 graduates from this college, pillars of the nation, are working in many parts of the country.

# 开辟了一条发展之路

BREAKING A WAY FOR THE DEVELOPMENT

中共中央政治局常委李长春同志一直关心

黄河科技学院发展，

先后多次会见胡大白校长，并两次写信勉

励黄科大，评价黄科大开辟了一条适应国

情独具特色的民办高校发展之路。

Li Changchun, member of the Standing Committee of the Political Bureau of the Central Committee of the CPC, always pays attention to the development of the Huanghe College of Science and Technology. He has met President Hu Dabai for many times and twice written letters to encourage the college. He observed that the Huanghe College of Science and Technology had broken a unique way for the development of private-run colleges, which suited well with the Chinese situation.

## 贺 信

黄河科技学院：

欣闻你院被国家教委批准为首批实施学历教育的民办高校，并举行正式建院大会。我谨向全院师生员工表示热烈的祝贺！

你院自1984年10月创办以来，主动适应我省经济建设和社会发展的需要，自筹资金，艰苦创业，不断深化教育教学改革，加快专业调整，引进激烈竞争机制，实行教职工全员聘任制，使学院逐步发展成为目前拥有二十三个专业，在校学员八千余名，教职工六百余名的民办高等学校，走出了一条我省民办高等教育发展的新路子。希望学院广大教职工在新的形式下认真贯彻落实《中国教育改革和发展纲要》，继续发扬艰苦创业，勤俭办学的精神，再接再厉，加快改革和发展的步伐，努力办出水平，办出特色，为我省的高等教育改革提供经验，为我省的经济建设和社会的发展培养更多的高质量人才，为振兴河南做出新的更大贡献。

李长春

一九九四年三月二日

现任中共中央政治局常委，原河南省省委书记李长春亲切接见胡大白校长  
Li Changchun, member of the Standing Committee of the Political Bureau of the Central Committee of the CPC and former Secretary of the Party Committee of Henan Province, grants a cordial interview to President Hu Dabai.

河南省省委书记李克强视察黄河科技学院时高度赞扬我校毕业生安置工作  
Li Keqiang, Secretary of the Party Committee of Henan Province, speaking highly of the HCST for the placement of the graduates on an inspection of the college

July 21, 2003 was a special day. Accompanied by Ma Zhengyue, Standing Vice-Director of the Publicity Department of the Henan Provincial Committee of the CPC, and Jiang Duyun, Head of the Henan Provincial Education Bureau, and some other leaders. Li Keqiang, Secretary of the Henan Provincial Committee of the CPC, came to inspect the college despite the high temperature of 40°C. The group first entered the newly-built Library and Information Building, where they saw many students studying and sensed a strong atmosphere of learning. Secretary Li interestedly visited the exhibition of the students' graduation design works held by the School of the Art Design. The exhibition, sponsored jointly by the college and some enterprises, was a practical teaching activity. Secretary Li affirmed this practice and thought that this exhibition not only offered a chance for the students to demonstrate their ability in practice, but also prepared talents for the enterprises.

When he got to the playground, Secretary Li Keqiang was so attracted by a group of students who were reading books that he got off the car and asked them, "How are you getting along with your study and life here?" The students answered, "The teachers here show great concern for us and the learning conditions are good. We take part in many activities and learn a lot of knowledge." Then, he entered the classrooms and dormitories to talk and discuss with the teachers and students. He not only talked with the college leaders about college management and the offering of specialties, but also asked about the students' daily life and study. He spent three hours in inspecting and talking with the teachers and students. When Secretary Li learned that the college had established a personnel exchange center and over 510 placement bases in Henan and other provinces and every year over 95% of its graduates were employed, he was very happy and praised the practice of helping the students find jobs before graduation and intensifying exchange of employment information. Secretary Li Keqiang said to the accompanying comrades, "If all the colleges and universities in Henan do as the Huanghe College of Science and Technology does, we will feel at ease."

At the end of his inspection, Secretary Li Keqiang said to President Hu with a profound sense, "What you have accomplished in such a short period of time may not have been achieved by many other institutions of higher learning. If there had been more colleges and universities of this type, the development of higher learning in Henan province would have been much faster and better."
