## 序 言

1994年5月12日,是我们中国煤田地质总局第一勘探局20岁生日。20年来,我们转战于河北、河南、山东、山西、安徽、江苏、新疆、内蒙古、上海、西安、武汉等十多个省市自治区,提交各类地质报告95件,其中优质地质报告6件,探明煤炭储量600多亿吨,为煤炭工业的发展做出了重要贡献。

在20年的历史进程中,我们这支队伍不断发展壮大,技术装备和职工文化素质有了很大提高,全局拥有各类专业技术人员1231人,其中高级专业技术人员95人,中级专业技术人员508名;新技术、新工艺的推广应用和地质理论研究不断取得进展;计算机也广泛应用于科研和各项管理,如今我局已发展成为一个拥有6000多名职工,固定资产7277万元,下辖4支勘探队,2支专业队和一个科研教育中心的多功能综合性勘探劲旅。

1985年以来,我们坚持“发挥优势,多种经营,内联外合,打入社会”的方针,大力发展第三产业,开拓新的生存空间,开展了桩基、地热、水源、油井等社会地质工程。桩基先后打入了武汉、上海等省市的桩基市场。地热连续几年在西安市承揽工程。机加工、汽修、商业饮食业也有了新的发展,去年来又新开发了房地产、旅游、新技术服务等项目。现在,全局已建立54个各类经济实体,给全局经济注入了新的活力。

20年来,广大职工为了祖国的煤炭事业,以“特别能战斗”的革命精神,铸就了我局“献身勘探,团结奋斗,务实开拓,争创一流”的企业精神,涌现出许多模范人物和先进集体。有被煤炭工业部命名为“煤炭工业地质勘查功勋单位”的一四七勘探队,有被中国统配煤矿总公司命名为“全国煤炭系统思想政治工作优秀企业”和被煤炭部命名为“煤炭工业地质勘查先进单位”的一二九勘探队。他们的功勋将永载史册。

编印《第一勘探局二十年》这本画册旨在展示我局走过的战斗历程和宏扬勘探健儿四海为家、勇于开拓、无私奉献的精神风貌,增强同仁和各界朋友对我们的了解、支持和合作,促进我局的全面进步,并以此纪念第一勘探局成立二十周年。

在庆祝第一勘探局成立二十周年之际,衷心祝愿广大职工在改革开放、建立社会主义市场经济体制的道路上,发扬优良传统和作风,充分发挥行业优势,解放思想,抓住机遇,同心同德,奋力拼搏,共创美好未来!

第一勘探局局长

姚锦刚

一九九四年五月

## Preface

May 12, 1994 is the 20th birthday of the First Prospecting Bureau, the General Coal Geology Bureau of China. Over the past twenty years, we have fought successively in more than ten provinces, municipal and autonomous regions such as Hebei, Henan, Shandong, Shanxi, Anhui, Jiangsu, Xinjiang, Nelmenggu, Shanghai, Xi'an, Wuhan etc., submitted 95 various kinds of geological reports. Among them, six geological reports are elected to be excellent. The verified coal reserves reached over 60 billion ton. All these constitute the significant contributions to the development of Coal Industry.

During the twenty years' history course, the troop of our Bureau has been developed and strengthened increasingly. Both the technical equipment and the culture quality of the staff and workers are improved greatly. The whole Bureau possesses 1231 various kinds of professional technicians, among which technicians with high titles are 95, technicians with middle titles 508. New progresses have been made constantly in the spread and application of new technique, new technology and theoretical research of geology. The computer has also been widely employed in scientific research and in various kinds of management. Today, our Bureau has been developed into a comprehensive prospecting troop with multi-function, owes more than 6000 staff and workers and the fixed assets worth 72.77 million yuan, has four prospecting teams, two specialized teams and one science and education center.

Since 1985, we upheld the policy of "developing the superiority, promoting a diversified economy, managing coordinately and stepping into the society" and energetically developed the Third Industry, opened up new existing space and carried out social geological engineering services such as pile and foundation, terrestrial heat, water resources and oil well, etc. Our pile and foundation engineering has stepped into marketplaces of Wuhan, Shanghai and other provinces or municipalities successively. Our terrestrial heat engineering has undertook projects in Xi'an for years. New development has also been made in mechanical processing, automobile repairing, commercial food and drink trade. Some new items such as real estate, tour and new technology services were opened last year. Currently, the whole Bureau has built 54 various kinds of economical bodies which injected new vitality for the economical development of the Bureau.

For the last twenty years, most of the staff and workers have taken the revolutionary spirit of "being especially able to fight" and cast the enterprise spirit of "devoting themselves to prospecting, uniting and fighting, practicably developing and striving for the first rate" for our Coal Industry. There have emerged many model workers and advanced masses. For instance, No. 147 prospecting team was conferred the title "Exploit Unit in Geological Prospecting in Coal Department" by the Coal Industry Ministry, No. 119 prospecting team was awarded the title "Excellent Enterprise in both Ideological and Political Work" by National Coal Cooperation of China and the title "Advanced Unit in Geological Prospecting Department Nationwide" by the Coal Industry Ministry. Their exploits will last forever.

The purpose to publish the picture album "Twenty Years of the First Prospecting Bureau" is to reveal the fighting history that our Bureau has already experienced, to carry forward the spiritual outlook of the prospecting workers who make their homes where they are, have the courage to develop and devote themselves to the prospecting cause selflessly, to enhance the understanding, support and cooperation between colleagues and friends in all circles and us, and to accelerate the overall progress of our Bureau. All these mentioned will be utilized to commemorate the 20th anniversary of the founding of the First Prospecting Bureau.

While celebrating the 20th anniversary of the founding of the First Prospecting Bureau, it is my sincerely wish that during the process of reform and opening up and building socialist market economical system road, the staff and workers of our Bureau could carry forward the fine traditions and good style, fully develop the professional superiority, emancipate the mind, catch the opportunity, be of one heart and one mind and strive in all efforts for the bright prospect.

Director, The First Prospecting Bureau Li Jin Gang

May 1994

# 第一勘探局简介

A brief introduction to the First Prospecting Bureau

## 第一勘探局施工分布示意图

The sketch map of construction distribution of the First Prospecting Bureau

(1974 ~ 1994)

第一勘探局机关现有职工 344 名(含离退休人员 74 名)。有各类专业技术人员 163 名,其中 118 名专业技术人员获得了高中级专业技术职称。占有固定资产 1229 万元。

第一勘探局机关诞生于 1973 年,原设 22 个处室,以及为机关服务的子弟学校和幼儿园,主要承担着全局生产经营工作的监督、管理、协调、服务职能。

在调整结构,转变职能过程中,对机关机构和人员进行了精简。按职能将机关分为三大块,即局机关机构、社会机构和多种经营机构。目前,局机关、党群口精简为一部(政治部)、二委(纪委、团委)、一会(工会);行政管理部门精简为四处(规划处、财务处、劳人处、生产技术处)、一室(办公室);人员减到 49 人。社会机构有武保处、双退职工管理处、居委会、子弟校;多种经营机构有基础工程、房地产开发、物资经销、机电设备经销、旅游服务、劳动服务、生活服务和新技术八个公司,分流了机关人员,开展社会服务,形成了小机关大服务的格局,取得了较好的效益。

The Organization of the First Prospecting Bureau has 344 staff and workers currently (including 74 retired workers), contains 163 professional technicians, among which 118 professional technicians have qualified with the middle or high titles. Its fixed assets are worth 12.29 million yuan.

The Organization of the First Prospecting Bureau was founded in 1973. At first, it set up 22 sections and offices, as well as children school and kindergarten serving for the Organization. They mainly borne the functions of supervision, management, coordination and service for the production and management of the whole Bureau.

During the process of adjusting the structure and transforming the function, both the administrative structure and personnel have been cut down. The Organization could be divided into three parts in terms of its function, namely the structure of Bureau Organization, social structure and structure of diversified economy. Presently, the Organization of the Bureau and the departments regarding Party and the masses have been simplified into one department (political department), two committees (committee for inspecting the discipline, committee for young League members), one union (labor union). The administrative department has also been simplified into 4 sections (planning office, finance office, labor office, and production and technical office), one office. And the personnel has decreased to 49. The social structure has set up security office, administrative office for retired workers, neighborhood committee and children school. The structure of diversified economy has eight companies such as foundation engineering, development of real estate, sales of goods and materials, sales of mechanical and electric equipment, tour service, labor service, life service and new technology. The new structures have assigned new jobs for Organization personnel, launched the social services, formed the pattern of using the small Organization to supply a big service. Therefore, good benefits have been achieved.

一一九勘探队(原名华北煤炭管理局第五大队)始建于 1953 年。现有职工 1220 名(含退休离休人员 231 名),其中,专业技术人员 183 名,有 68 名获得中级以上技术职称。

该队拥有设备 263 台件,固定资产 1002 万元。1953~1993 年全队钻进尺 144.26 万米,提交各类地质报告 84 件,获得各级储量 121.84 亿吨。1959 年获得全国工建交群英会先进集体称号,1979 年被河北省人民政府授予“大庆式事业单位”称号。1981~1983 年,连续三年被评为邯郸市“双文明建设先进集体”。

1983 年以来,全队调整结构,开拓市场,多种经营,先后开展了水源成井、桩基工程、机械加工、家电维修、汽车修理,运输以及商业饮食服务业等项目,形成了以机械加工为龙头,以资源勘探为主体的多种经营能力,获得了较好的经济效益与社会效益。

No. 119 Prospecting Team (former name, 5th Team of Coal Administration Bureau in North China) was founded in 1953. Presently, there are 1220 staff and workers (including 231 retired workers), among which 183 personnel are professional technicians and 68 personnel have obtained the middle or high technical titles.

The Team owns 263 sets of machinery and equipment with the fixed assets of 10,02 million yuan. From 1953 to 1993, the total exploration boring footage of the Team is 1,442.6 million meter, the submitted various kinds of geological reports are 84 and the obtained reserves 12,184 billion ton. In 1959, the Team won the title of "The Advanced Masses" in the national conference of outstanding workers; in 1979, it won the title of "Institution of Daring Model" awarded by people's government of Hebei province. From 1981 to 1983, it won "The Advanced Masses during Construction in Both Material and Ideological Civilizations" for three consecutive years.

Since 1983, the Team has adjusted the structure, developed the market and carried out diversified economy. The Team has launched service items such as digging wells in area with water resources, pile and foundation engineering, mechanical processing, maintenance of home electric appliance, automobile repairing, transportation and commercial food and drink. A diversified economy that mechanical processing is considered as the dragon head and the resource prospecting as the main body has been formed. Good economical and social benefits have been achieved.

一二九勘探队(原名中南煤矿管理局资兴勘探队)组建于1954年,现有职工1240名(含退离休人员274名)其中专业技术人员208名,有88人获中级以上技术职称,拥有固定资产902万元。

建队以来,先在湖南勘探10年,后参加西南三线建设。隶属第一勘探局之后,先后参加了邯邢会战、永夏会战、豫西煤田勘探,累计钻探进尺122万米,提交各类地质报告73件,获得各级储量103亿吨,其中有3件地质报告被评为全国优质报告。有2项科研成果获全国煤炭系统科技一等奖。

进入八十年代以来,该队以钻探工程为龙头,积极发展多种经营,先后进行了油井、盐井、地热井、水源井、堵排水、桩基工程勘探和施工。机加工也打入了社会市场,并与冶金部铸机备件中心联姻,进行备件生产。近年来还兴建起电器设备厂、汽车修理厂、珠宝工艺厂,多种经营总收入,1993年达到1600万元,获得了较好的经济效益和社会效益。

该队建队以来,多次受到上级的表彰与奖励。1959年光荣地出席了全国群英会;1978年被煤炭工业部和河北省人民政府授予“大庆式企业”称号;1991年被评为能源部煤炭系统“思想政治工作优秀企业”,同年队长李恭治同志被授予“中国煤炭工业优秀企业家(金钟奖)”称号;1993年被煤炭工业部评为“全国地勘先进单位”。

No. 129 Prospecting Team (former name: Zixing Prospecting Team of Coal Administration Bureau in Middle-south China) was founded in 1954. Its present enrolled staff and workers are 1240 (including 274 retired workers), among which the professional technicians are 208 and 88 personnel have obtained the middle or high technical titles. The Team holds the fixed assets worth 9.02 million yuan.

The Team had explored the Hunan regions for 10 years and then joined the construction of Three-line in southwest China since its founding. After being subordinated to the First Prospecting Bureau, the Team have early or late participated in Handan battle,

▲93年被煤炭工业部评为“全国地勘先进单位”  
Being honored "Well-performed Unit" by CMCI in 1993.

Yongxia battle and coal field prospecting in western Henan. The accumulative footage of exploration boring is 1.22 million meter, the submitted various kinds of geological reports are 73 and the obtained reserves 10.3 billion ton. Among which 3 geological reports are elected to be the national excellent reports and 2 scientific research achievements win the first prize in Coal Industry nationwide.

Since 1980s, the Team has considered the engineering of exploration boring as the dragon head and actively developed the diversified economy and successively carried out the prospecting and construction regarding oil well, salt well, geothermal well, water resource well, blocking up water and drainage, pile and foundation engineering, etc. Mechanical processing also enters the social market. Having joined the equipment center of cast machinery of Metallurgical Ministry, the Team also has produced the spare parts. Recently, it has built electric equipment plant, automobile repairing factory, jewelry technical factory. The total income of the diversified economy in 1993 reached 16 million yuan. Good economical and social benefits are obtained.

The Team is commended and awarded by the higher lever for many times since its founding. In 1959, the Team was honored to present the national conference of outstanding workers. In 1978, it was awarded the title of "Enterprise of Daqing Model" by both Coal Industry Ministry and the people's government of Hebei province. In 1991, it was elected to be the "Excellent Enterprise in Both Ideological and Political Work" among the Coal Department in Energy Ministry. In the same year, the team leader Mr. Li Gongyi was conferred the title "Excellent Entrepreneur in Coal Industry of China" (Golden clock prize). In 1993, it was elected to be the "Advance Unit in Geological Prospecting Department Nationwide".

一四七勘探队创建于1956年,现已发展成为集资源勘查、水源地质勘查、环境地质勘查、地质及工程测绘、桩基工程、工程勘察、机械加工修理、汽车修理及配件生产、商业饮食业于一体的多功能综合勘探队伍。全队共有职工855名(含离退休人员174名),其中,专业技术人员158名,具有中高级职称的64名。拥有固定资产797万元。

建队以来,先后在19个较大的煤田施工,提交各类地质报告62件,探明煤炭储量112.4亿吨,其中,新增储量142.8亿吨。《淮南煤田顿凤推覆构造及找煤研究》,在推覆体下新探明煤炭储量21亿吨,在推覆体找煤理论和实践方面获得了新的突破,1993年被煤炭工业部授予“地质勘查功勋单位”称号。

随着改革开放的形势发展,全队努力发展多种经营,桩基队伍已打入上海、武汉及徐州市场,机厂规模日益扩大,并取得了较高的信誉和效益。

No. 147 Prospecting Team was founded in 1956. Now it has been developed into a comprehensive prospecting team combining multi-functions as one body such as resource prospecting, prospecting of water resources geology, environmental geological prospecting, geological engineering surveying and mapping, pile and foundation engineering, engineering prospecting, mechanical processing and repairing, automobile repairing and production of spare parts, commercial food and drink. The Team has 855 staff and workers (including 174 retired workers), among which the professional technicians are 158 and those qualified with the middle or high titles are 64. Its fixed assets are 7.97 million yuan.

Since its founding, the Team has successively carried out constructions in 19 larger coal fields, submitted 62 various kinds of geological reports and explored the coal reserves of 112.4 billion ton. Among which, the newly increased reserve is 142.8 billion ton. The newly explored coal reserve under the nappe reaches 2.1 billion ton under the guidance of "Research on the nappe structure and searching for coal in Yingfeng region, Huainan coal field". A new breakthrough has been made in aspects of both theory of searching for coal under nappe and its practice. In 1993, the Team was conferred the title "Exploit Unit in Geological Prospecting Department" by the Coal Industry Ministry.

With the development of reform and opening up, the whole Team has put more efforts to develop the diversified economy. The pile and foundation team has infiltrated the Shanghai, Wuhan and Xuzhou markets. The scale of the mechanical factory has been expanded day by day. And high credits and benefits have been obtained.

▲老厂东寿园厂包装车间

The package workshop of the old Guangting factory

▲绿树成荫的 173 队职工生活区和机修厂。

No. 173 team's life district of staff and workers and mechanical repairing factory shaded by green trees.

一七三勘探队组建于 1956 年, 全队共有职工 855 名(含退离休人员 157 名), 其中专业技术人员 187 名, 有 86 名获得了高中级技术职称。全队共有固定资产 1014 万元。

建队以来, 注重科技投入与开发, 先后推广和应用了绳索取芯, 金刚石钻进, 二氧化碳洗井等新技术新工艺, 配备使用了液压钻机、数字测井仪等先进装备, 共完成钻进尺 16 万米, 提交各类地质报告 21 件, 获得各等级储量 268.41 万吨。

近几年来, 依靠自身优势, 发展多种经营, 面向社会进行了资源勘查、工程地质勘查、环境地质勘查、边坡地质勘查、地质测绘、测井、地质工程设计、桩基工程施工以及机加工。同时还建立了制钉厂、食品厂, 初步形成了以桩基工程为主导, 以制造加工、饮食服务为两翼的多功能服务的格局。

No. 173 Prospecting Team was founded in 1956. It has 855 staff and workers (including 157 retired workers), among which the professional technicians are 187 and those qualified with the middle or high titles are 86. The fixed assets occupied by the Team reach 10.14 million yuan.

Since its founding, the Team has laid stresses on science and technology and their development, spread and applied the new technology early or late such as coring by means of rope, diamond boring, carbon-dioxide flush of sinking, etc. Also it has utilized the advanced equipment like hydraulic drilling machine and digital logging meter in a complete set. The finished exploration boring footage is 11.16 million meter, the submitted various kinds of geological reports are 21 and the obtained reserves 2.6841 million ton.

Recently, the Team has relied on its self superiority, developed the diversified economy and carried out prospecting in resource, engineering geology, environment geology, and slope engineering, logging, geological engineering design, construction of pile and foundation engineering, and mechanical processing. Meanwhile, it also has set up the nail-making factory, food factory. The pattern dominated by pile and foundation engineering together with the manufacture processing and food and drink service as two wings has been preliminarily formed.

物探测量队是1985年由物探队和地质地形测量队合并组建的。现有职工903名(含退离休人员112名),其中专业技术人员175名。具有高中级职称的90人,该队拥有各类设备245台(件),固定资产总值1573万元,全国煤田地质系统唯一的一台美国进口SN358HR数字地震仪配备在该队。

物探队伍自1973年组建以来,先后在北京、上海、河北、河南、山东、山西、江苏、安徽、内蒙、新疆等省、市、自治区的39个测区、44个地震项目施工,完成地震物理点215904个,剖面长度达5462.24公里,提交物探报告18件,其中《山西宁武煤田期南勘探区地震详查报告》被评为全国优秀地质报告。

地质地形测量队伍自1976年组建以来,共完成航测野外调绘3843平方公里,平板测图1743平方公里;测量国家等级三角点109个,国家等级水准测量3038公里。

为了促进技术进步,该队注重科学研究,先后完成科研项目10项,其中有2项获奖,特别是《地震资料微机处理系统》荣获煤炭科技进步三等奖,第一勘探局科技进步一等奖,为地震资料处理提供了高效及时的解释工具。

1985年以来,该队先后开办了清泉冷食饮料公司、汽车修理、商业服务等经营项目,组建了物探、测绘、桩基、土方、工程勘查等10多个经济实体,广泛开展对外服务,增强了生产经营活力。

#### ▼地震勘探放炮场景。

View of blasting by seismic prospecting

The Geophysical Prospecting and Surveying Team was founded by combining the Geophysical Prospecting Team and Geological and Topographic Surveying Team together in 1985. The present staff and workers are 903 (including 112 retired workers), among which professional technicians are 175 and those qualified with the middle or high titles are 90. The Team possesses 245 sets of machinery and equipment with the fixed assets worth 15.73 million yuan. The only one digital seismography in Coal Geology Department nationwide with model No. SN358HR imported from U.S.A. is allocated in the Team.

Since the founding of the Geophysical Prospecting Team in 1973, it has carried out constructions early or late regarding 39 survey zones and 44 seismic projects in provinces, municipal and autonomous regions like Beijing, Shanghai, Hebei, Henan, Shandong, Shanxi, Jiangsu, Anhui, Neimonggu, and Xinjiang, etc. The Team has finished seismic physical points of 215904 and section length of 5462.24 Km and submitted 18 geophysical prospecting reports. Among which, "The Detailed Report by means of seismic prospecting in Su'nan Prospecting Region of Ningwu Coal Field, Shanxi" was elected to be one of the excellent geological reports nationwide.

Since the founding of the Geological and Topographic Surveying Team in 1976, it has conducted the field annotation of aero-survey covering 3843 square meters and plane table mapping of 1743 square meters, surveyed 109 state triangle points and state leveling of 3038 Km.

In order to accelerate the progress of technology, the Team has laid stresses on scientific research and finished 10 projects successively. Among which 2 projects won the prizes. Especially, the project entitled "The Micro-computer Processing System on Seismic Information" was honored to win the 3rd prize of the advancement of science and technology in Coal Industry and the 1st prize in the First Prospecting Bureau, which provide an effective and timely interpretation tool for processing seismic information.

Since 1985, the Team has established the management items like Qingquan cold drink company, automobile repairing and business service, built more than 10 economical bodies in aspects of geophysical prospecting, surveying and mapping, pile and foundation, cubic meter of earth and engineering prospecting, widely developed external service and strengthened the production and management vitality.

普查队组建于1973年,共有职工424名(含退离休人员72名),专业技术人员120名,其中有65名获得了高中级专业技术职称。拥有固定资产530万元,配备有较为先进的进口数字电法仪、微伽重力仪和磁力仪。先后在内蒙古、河南、江苏、山西、安徽等地进行地质普查工作,提交电法、重磁报告(总结)25件,施工面积达108.8万平方公里,测线总长达17.5万公里,完成物理点56184个。

1989年该队开始进行结构调整,到1993年底基本形成了以跃华酒家、新安汽修厂、制图厂、华光制冷设备销售公司、接待处、物探测量处六个经济实体为支柱的对外经营体系。1993年新安汽修厂引进国家科委重点推广的高科技专利技术“W”工程—汽车发动机过盈装置,制图厂拥有先进的激光照排系统,为企业发展增加了后劲。

The Reconnaissance Surveying Team was founded in 1973. The present staff and workers are 424 (including 72 retired workers), among which professional technicians are 120 and those qualified with the middle or high titles are 65. The Team possesses the fixed assets worth 5.30 million yuan, fitted with advanced imported digital electrometer, microgal gravimeter and magnetometer. The Team has conducted the geological reconnaissance survey work early or late in regions like Neimenggu, Henan, Jiangsu, Shanxi and Anhui and submitted 25 reports on electric prospecting and gravity—magnet prospecting. The constructed area reaches as large as 1.088 million square meters, the total surveyed line 0.175 million Km and the completed physical points 56184.

Since 1989, the Team began to adjust the internal structure. By the end of 1993, the external management system has been formed where the six economical bodies represented by Yaohua restaurant, Xin'an automobile repairing factory, drawing factory, Huaguang refrigeration equipment sales company, reception office, geophysical prospecting and surveying office are regarded as the pillars. In 1993, Xin'an automobile repairing factory introduced the high-tech patent "W" engineering—interference installation of automobile engine which is highly recommended by the National Education Commission. The drawing factory owns the advanced laser printing system which provides the stamina for the development of the enterprise.

▲ 服务优良的华光制冷设备销售公司。

第一勘探局科教中心成立于1985年,同时又是中共第一勘探局党校。现有职工56名(含离退休人员2名),其中、高中级专业技术人员25名,拥有固定资产133万元。

该中心成立以来,承担和参与了23项科研课题的研究和3个生产项目的施工,提交了19件科研报告和3个生产项目的地质报告。这些报告经组织有关专家鉴定,部分已达到国内先进水平。其中有2件获省、总局科技进步奖,6件获局级优秀科技成果报告奖。同时,举办了不同类型培训班45期,培训结业学员1147人。在补习初、高中文化,参加全国统考的升学考试中,大专录取率83%,中专录取率100%。

1990年该中心被邢台市人民政府授予“成人教育先进集体”称号;1991年被第一勘探局授予“七五”期间教育工作先进集体称号。

The Science and Education Center subordinated to the First Prospecting Bureau was founded in 1985. It is also the Chinese Communist Party school of the First Prospecting Bureau. The present staff and workers are 56 (including 2 retired workers), and those qualified with the middle or high titles are 25. The Team possesses the fixed assets worth 1.33 million yuan.

Since its founding, the Center has undertook and participated in researches concerning 23 scientific topics and constructions of 3 production projects, submitted 19 scientific research reports and 3 geological reports regarding production. Part of these reports reaches the state advanced level after being appraised by experts. Among which 2 projects win the prize of the advancement of science and technology conferred by Hebei Province and the General Bureau, 6 projects win the report prize of the excellent scientific and technological fruits at Bureau level. Meanwhile, the Center also has run 45 times of training class for various purposes and cultivated 1147 students who completed their courses. During the process of providing middle and high school lessons in order to attend the national unified examination for entering a higher school, the Center has obtained 83 percent admission proportion for entering institution of higher education and 100 percent for polytechnic school.

In 1990, the Center was conferred the title of "The Advanced Masses for Adult Education" by the municipal government of Xingtai city. In 1991, it was awarded the title of "The Advanced Masses in Education Work during the 7th - five - year period" by the First Prospecting Bureau.
