The Green Waves on the Land of Central Plains are Surging

中原大地緑浪涌

河南省位于我國中部偏東地區,因全省面積的80%以上在黄河以南,故稱河南。河南古屬豫州,故簡稱豫。因地處九州之中,又有"中州"或"中原"之稱。總面積16.7萬平方公里,山區、丘陵和平原面積約各占一半,有太行山、伏牛山、桐柏山、大别山四大山脈,黄河、衛河、淮河、漢水四大水系。氣候温和,雨量充沛,速生樹種多,發展造林緑化的條件很好。

全國人大《關于開展全民義務植樹運動的决議》頒布十年來,河南各地廣泛開展了全民義務植樹運動,各級領導帶頭承辦造林緑化點,有力地推動了全民義務植樹運動的廣泛開展,同時也促進了整個造林緑化事業的發展,無論是荒山造林,平原緑化,還是城市緑化和部門緑化,都是建國以來的最好時期。

平原緑化發展迅速。1991年被全國緑化委員會和林業部 授于"平原緑化先進省"稱號。94個平原和半平原縣(區) 全 部達到部頒"達標"標准。其中,商水縣已晉升爲平原緑化高 級"達標"縣。

城市普遍建立了義務植樹基地,逐步向大環境緑化方面發展,制訂了城市緑化"達標"標准,推行了義務植樹登記卡制度。全省干綫公路和鐵路兩旁,基本實現緑化。煤炭、水利、河務、農墾和軍營緑化以及共青團、婦聯倡導組織的青年黄河防護林工程和"三八"緑色工程,也都取得了顯著成績。

通過開展全民義務植樹運動,不少 地方環境面貌發生 了很大變化,抗禦自然灾害的能力有所增强,不僅促進了工 農業生産的發展,也推動了社會主義精神文明建設,收到了良 好的社會效益和生態效益。

十年來,各地在開展全民義務植樹和造林緑化活動中,相繼涌現了一大批先進單位和模範人物。這本畫册所反映的,只是這緑色海洋中的幾個浪花,但從中足以折射出中原大地新的英姿,新的風貌。僅以此作爲開展全民義務植樹運動十周年紀念活動的一部分,并獻給中原大地的緑色耕耘者,獻給關心和支持緑化事業的朋友們。

Henan Province is located on the central section by east of our country, and is called Henan (the south of the river) for over 80% of the land on the south of Yellow River. She was governed under Yuzhou at ancient times, so is called Yu for short, and is named "Zhongzhou (Central Prefecture)" or "Zhongyuan (Central Plain)" for lying on the central section of China. She has a total area of 167,000 square kilometers with the mountain areas and hills covering a half of the land, and plains covering another half of the land. In the land, there are four mountains such as the Taihang Mountain, the Funiu mountains, the Tongbai Mountains, and the Dabie Mountains, and four rivers such as Yellow River, Wei River, Huai River, and Han River. She has a warm climate, an abundant rainfall, a various

rapid-growth tree breeds, and a fine condition for afforestation.

In the ten years since promulgating of «the resolution on launching a national movement of afforesting voluntarily» made by People's Congress of China, the national movement of afforesting voluntarily has been developed in every corner of Henan Province. The leaders at all levels have been taking the lead in undertaking afforesting points, strongly pushing forward broadly developing of the national movement of afforesting voluntarily, at the same time, promoting the development whole afforesting cause. The afforestation whether on the barren hills and plains, or on the cities and every department, is in the best condition since foundation of our country.

The afforestation on the plains has been developed at rapid speed. In 1991, the province was named as "Advanced Province in Afforestation on Plains" by the State Afforestation Committee. 94 counties on plains and semiplains has come up to the afforesting standard for the plains made by the Ministry of Forest, among them, Shangshui County has been promoted as a plain county coming up to the standard at high level.

As to the afforestation on the city, the basis of afforesting voluntarily have been set up broadly, the afforestation has been developed gradually for afforesting on the big environment, the standard of the afforestation in

the cities has been made and the institutipon of the voluntary afforestation register card has been carried out. In the province, over 90% of the land on both sides of the main highway and railway have been afforested, the afforestation on the departments of coal-mine, water conservancy, river affair, reclamation, and on the barracks, and Youth Shelter Forest Project and "the 8th March" Green Project initiated by the Communist Youth League and the Women's Federation have achieved a great success.

The national movement of afforesting voluntarily has made the environment and looks of many place change greatly, and reinforced the resistance to national disasters, promoted the development of the industry and agriculture production and pushed forward the constrution of socialist spirit civilization, and won great social benefits and ecological benefits.

In the national movement of voluntarily afforestation for ten years, a great groups of advanced units and model figures have been emerging one after another in all the province. The things reflecting in the pictural album are several sprays on this green sea, but they enough reflect the new posture and scene on the land of the Central Plains. We want to dedicate the album as a part of the commemorative activities to the tenth anniversary of launching the national movement of afforesting voluntarily to the green cultivators on the land of the Central Plains, and the friends concerning and backing the afforesting cause.

商城綠韻—鄭州

鄭州,是河南省省會,全省政治、經濟、文化的中心,早在3500年前,商代曾在此建都邑。她地處中原,是我國重要的交通樞紐,北臨九曲黄河,西依巍巍嵩山,東面和南面是遼闊富饒的黄淮平原,轄6區1市5縣,總面積7446平方公里,總人口540萬,其中市區面積1010平方公里,人口170萬。

解放前,鄭州是有名的風沙城。解放後,經過大規模的城市綠化和郊縣農村的大環境綠化,其生態環境有了很大改善。特别在十年改革開放期間,鄭州市僅城區就有300多萬人次參加義務植樹,年平均人數達35萬多人次,年平均完成義務植樹量40多萬株,綠化成活率達90%以上,人均公共綠地面積2.11平方米,綠化覆蓋率達35.25%,成爲聞名全國的"綠城"。

目前,鄭州市區有喬木及花灌木400萬株,行道樹 16萬多株,月季市花120萬株,月季品種達889個,建有 公園6座,街頭游園18處,先後建成了中原路、建設 路、金海路、福壽街、大同路5條月季路,長達10公里, 建有月季花壇花帶1500多處,使這些道路三季有花, 四季常青,被人們譽爲月季滿緑城,芬芳揚中州。

鄭州市舉辦的月季花展和國際少林武術節,以 及40多處國家級和省級重點文物保護單位及風景名 勝區,吸引着衆多的中外游客觀光游覽。

Zhengzhou is the capital of Henan Province, she is a political, economical, cultural center of all province. As early as 3500 years ago, she was a capital of Shang Dynasty. She is located on the Cental Plain, facing zigzag Yellow River in the north, and backing high Songshan Mountains in the west, and surrounded by vast and resourceful Huang-Huai Plain in the east and south, and is an important traffical hub. She has the jurisdiction over six prefectures, one municipality and five counties, and has a total area of 7.446 square kilometers, and a total population of 54 million. Among them, the area of 1.010 square kilometers and the population of 1.7million are belonged to her urban district.

Before Liberation, Zhengzhou was a famous city filled with sands. After liberation, her ecological environment has been greatly improved by afforesting or the urban distince and the large environment of the countryside in her suburbs on a large scale. During the reforming and opening for ten years, 3 million men-times have been put into the voluntary afforestation only in her urban district, and average men-times come to are more than 350.000 every year, about 400.000 trees were planted voluntarily averagely, the survival rate of them amounts to over 90%. Every one in the city avragely has a public greenbelt covering an area of 2.11 square meters. Her afforestation coverage rate is 35.25%. These make her become a "green city" well-known throughout our country.

Today, 4 million arbors and shrubs with flowers, 160.000 shade trees, and 1.21 million rosa chinensis—the municipal flower, including 889 breeds were planted on the urban district of Zhengzhou Municipality. She has 6 parks and 18 gardens applied to wander on the streets. Five streets with rosa chinensis such as Zhongyuan Road, Jianshe Road, Jinhai Road, Fushou Road, Datong Road were built one after another. They cover a distance of 10 kilometers. Over 1.500 flower beds and flower belts with rosa chinensis are filling the "green" city and the sweets are spreading over all province.

The rosa chinensis display and the international Wushu festival held in Zhengzhou, and more than 40 major preserved relics units at national and provincial level and scenic spots are drawing a great of tourists at home and abroad to come here for sightseeing and touring.

Liao Hanshen, a vice-chairman of the Standing Committee of the National People's Congress was visiting rosa chinensis display in Zhengzhou.

The leaders were taking the lead in voluntarily afforesting.
