Included in each book are the best works and art experiences of the members of Chinese Artists Association. At the particular moment of China succeeding in being elected the presidency of International Association of Art (IAA) under the UNESCO and Liu Dawei, standing vice-chairman of CAA elected chairman of IAA, along with the rapid development of art exchange activities among the international art institutions or the artists, in the circumstances of the world art circles being studied and merged with each other, to publish these books in succession will undoubtedly produce more and more excellent contemporary Chinese artists (all of them are CAA members) to the world so as to make the situation of Chinese art known. The information of each chosen artist will be popularized at home and abroad by their own carefully compiled painting collections.

Thank those artists supporting and taking active part in this publishing activity for their making the serial books possible. They have contributed a lot to building up international art exchange and opening up larger space for the development of Chinese art. Simultaneously, the artists included in these books are to be congratulated for their adding new sections to China and the world artistic treasury.
