前言

《世界创意建筑》为您展现全世界建筑师的最新重量级作品。

当今的建筑风格多变,样式繁多,但都迎合了我们居住的环境。从功能到形态,从高科技的使用到维护的能效性和经济性,所有这些标准都需要建筑师的创意。本书通过收纳最近几年来不同类别的现代建筑给我们展示了创意建筑的趋势,汇集了来自德国、奥地利、荷兰、瑞士、比利时、日本、英国和澳大利亚的建筑师。

未来的建筑市场需要更多富有新鲜创意的建筑,《世界创意建筑》一书满足了建筑师对建筑创意的渴求,书中这些独特的建筑造型和精湛的建筑工程技术,对世界建筑师都有启发。

我们希望本书让读者欣赏到高质量的创意建筑,这些建筑在功能、外观以及材料等方面都拥有深化的概念视角。我们相信本书会让读者从作品中得到泉涌般的灵感。

GLOBAL CREATIVE ARCHITECTURE

PREFACE

Global Creative Architecture shows newest and important work of architect's world wide.

The architecture today is characterized by a manifold of styles and forms but with the aim to find new sustainable solution for our living environment. Function and shape, low and high technology, sustainability and economic all these criteria designed in the building demand creativity from the architect. The collection of Global Creative Architecture aims to give the public access to the current state of modern, creative architecture form the last past years shown in different categories. Invited architects from Germany, Austria, Netherlands, Switzerland, Belgium, Japan, England and Australia are collected in this book.

More and more creative architectures are needed in the architecture market in the future. Global Creative Architecture meet the creativity demand of the architects, and the special architecture sculpt and exquisite technology offer great inspiration to the architects all over the world.

We hope we gain the aim to show high quality and creative architecture to the public which based on deep conceptual aspects as analogies to the respective place, function, shapes and material. We are sure our audiences will find manifold of inspirations form the collected works.

SCHWENNINGER BKK / 公司总部

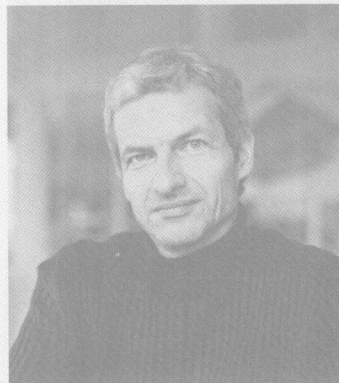

WULF & PARTNER

Client / 客户: Schwenninger BKK K.d.ö.R.
Construction costs / 建筑耗资: approx. € 16.5 mill / 1650万欧元
Work started / 开工日期: 11 / 2002
Completion / 竣工日期: 8 / 2005

A new 4-storey office building with a central hall for various purposes (cafeteria, conferences etc.) and an open atrium, three upper floors for office use and an underground car park. Facade fronted with floor-to-ceiling vertical adjustable sunshading elements. Innovative energy concept: geothermal source using thermally activated bored piles.

With the design of the new central administration of the "Schwenninger BKK", of a dynamic prospering health insurance, the goal was pursued to create a conceptual and innovative administration building which portrays the business through its architecture correspondingly. Functional and basic contents-related elements were also consistently transferred just as elements of art and design or climate and building technology.

The building represents itself as a markedly urban element and in same time as a differentiated architectural prelude of the city. The architecture is also shaped in the ground plan by its clear structure of the building. A central 4-storey entrance hall which passes over into an open Atrium is enclosed by of building parts. Solely the Atrium is limited by 3-sides, opens itself at its east side it to the lake.

Tobias Wulf

Kai Bierich

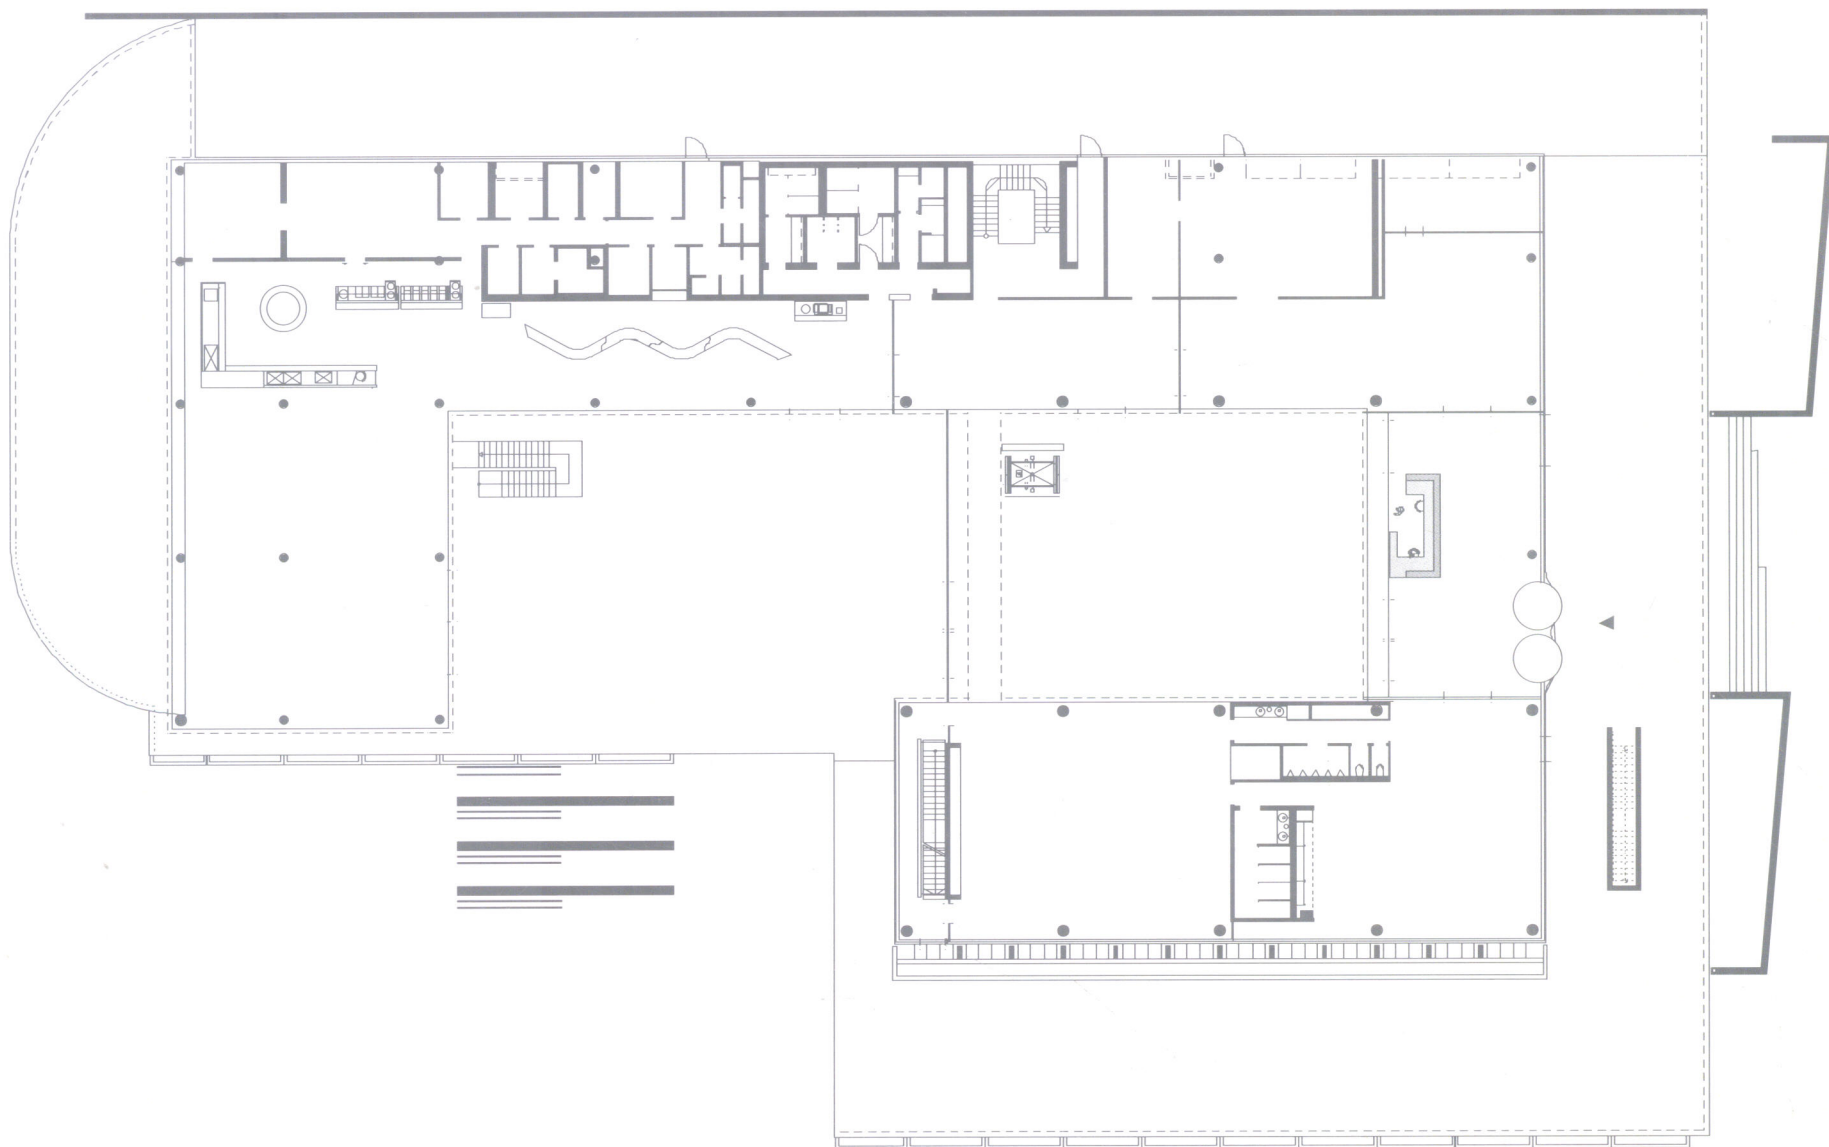

Alexander Vohl

这是一座4层的办公大楼，包含一个多功能中心大厅（用作餐厅、会议厅等）、一个开放式中厅、三层顶层办公间和一个地下停车场。建筑正面设计了垂直可调的落地遮阳元素，并采用创新式的节能理念：用热活性钻孔桩取用地热能。

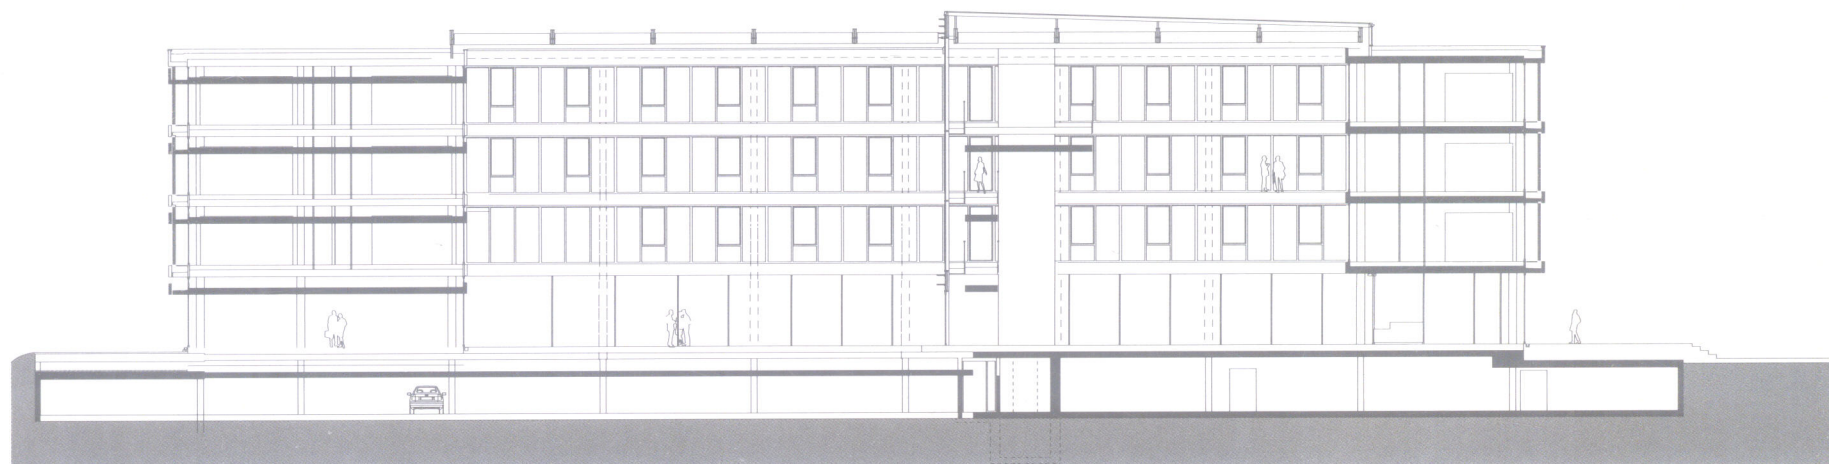

Schwenninger BKK是日益兴盛的医疗保险公司，新行政中心的设计要追求概念式创新的理念，要通过建筑描绘出繁荣的商情。与内容相关的功能性基本元素都采用了连贯的过渡，比如艺术设计元素或气候建筑技术。

很明显，大楼本身就是城市的元素，同时也是这座城市与众不同的建筑序幕。它结构清晰，在地面规划中就定出了建筑的轮廓。四层的入口厅被楼体部分环绕，跨越式穿入了中厅。中厅的东侧面向小湖，同时约束了南、西、北三个方向。

Mehl, Beatriz Neske, Markus Pfeifer,
Oliver Rednitz, Nina Schrick, David
Steiner, Marc Winkler

Completion / 竣工日期:

2002

Fifteen years after completion of their first headquarters in Stuttgart, the Züblin AG built another innovative headquarter building in the borough of Möhringen. Eike Becker_Architects won the competition in September 2000 and immediately started work on the final plans of this administration building for 350 staff members. The main design themes were: E-house, new working environments and low-energy service technology.

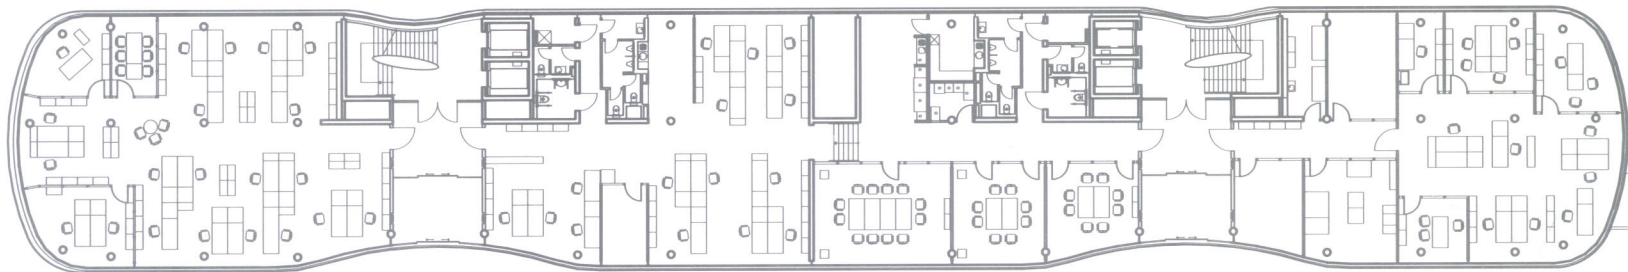

位于斯图加特的总部竣工15年之后，旭普林公司又在墨黑根建造了另外一座创新式总部大楼。2000年9月建筑师Eike Becker竞标成功，随后他就开始为这一容纳350名员工的行政大楼确立最终方案。设计的主题是：网络式的房屋、新颖的工作环境和低能耗的维护技术。
