中共廣東省委常委、紀委書記王宗春題辭

爲了進一步推進全省對外擴大開放，適應海內外人士了解廣東省投資環境的需要，我們編輯出版了《九十年代廣東投資環境》一書。

自改革開放以來，廣東廣大幹部群眾堅決執行中央賦予的“特殊政策、靈活措施”，着力推進“綜合改革試驗區”建設，卓有成效地進行改革開放先走一步的探索、實踐，使廣東毗鄰港澳，華僑眾多，商品經濟比較發達的優勢得到了比較充分的發揮；使全省社會、經濟、政治、文化等各方面的面貌發生了舉世矚目的變化。如今的南粵大地到處春風蕩漾，社會主義事業有如山花爛漫。

九十年代宏偉的建設藍圖已經展開，未來的莊嚴使命在召喚。過去十多年經濟建設的迅速發展，爲繼續前進打下了良好的基礎；外向型經濟成爲國民經濟的支柱，對外資產生了強大的吸引力；經過治理整頓，各大產業結構不斷優化和走向均衡發展；能源、交通、通訊等基礎設施建設掀開了新的一頁，改變了長期滯後的被動狀態；經濟管理體制和運行機制，逐步適應社會主義有計劃商品經濟發展的要求；有關涉外經濟法規、政策的制定，對外辦事機構和服務體系的設置，正在參照國際慣例不斷健全和完善；教育、科技事業蓬勃發展，新一代經營管理和專業技術隊伍迅速成長壯大。特別是目前爲止已在廣東投產的八千多家外資企業，收到了良好的經濟效果。所有這些，說明廣東省的投資環境日臻完善，爲今後進一步擴大開放，開闢了廣闊美好的前景。本書中刊載的一篇篇文章，一張張圖片，便是這些可喜成就的生動寫照。面向世界，面向未來，各地正以“只爭朝夕”的精神，繼續努力改進和完善“硬”、“軟”投資環境。廣東人熱情、好客，銳意進取，擅長經濟事務，竭誠歡迎海內外各界人士前來參觀、訪問、考察，繼續踴躍投資合作，共謀繁榮。

本書所反映的只是廣東投資環境的一個概貌。由於對這個問題的研究可有不同角度、不同側重點，加上來稿和篇幅所限，考慮到過去介紹得少的地方需要加強宣傳，因此，本書在系統性和深入性方面尚難盡善盡美。本書編輯時間比較匆促，且限于水平，難免出現錯漏之處，敬請批評指正。

本書在編輯出版工作中，全省政策研究系統通力協作，並得到領導和有關各方的鼎力支持和熱情幫助，我們謹致謝意。

一九九一年十一月

This book, the Investment Environment in Guangdong Province in 1990's, is edited and published to meet the needs for the people both at home and abroad to understand the investment environment in Guangdong Province and further more to promote the opening to the outside world in the whole province.

Since the reform and opening to the outside world, Guangdong Province has carried out strictly the special policy permitted by Central People's Government—special policies and flexible measures, and has taken great pains to push on the construction of “comprehensive test zone of reform”. In the exploration and practice Guangdong strode one step ahead under reform. Guangdong has many advantages of neighbouring by Hongkong and Macao, numerous overseas Chinese and comparatively flourishing commodity economy. These advantages have been fully played, and made it great changes to the society, economy, politics and culture etc. in the whole province. Now, you can see, everywhere is like green leaves floating in spring, socialist cause as flowers are fully opening in south China.

The blue print of great construction in 1990's has now been spread out and the solemn in the future will be called. In the past over ten years, the economic construction had speedily development, it lag good foundation for the further reform. The export-oriented economy has become the mainstay of the national economy and it has great lure to foreigners in exterior introduction. Since the economy has been brought under control and rectified, large-scale industrial structures have been advantaged in a good order and developed balanced. The infrastructure constructions such as energy, traffic and communications etc. have new development, the page of backwardness for a long time has been turned over, and the passive situation has been changed. As the reform is deepening further, the economic management systems and operation systems have gradually become to suit the need for the development of socialist planned commodity economy. We are trying to gradually perfect economic rules and policies involving foreign interests, offices dealing with foreign affairs and its service systems in accordance with the international practices. Education, science and technology have fast development, new generation of managers, supervisors and technical personnel in a specialistic fields has grown up and strengthened rapidly. Especially more than sixteen thousand foreign capital enterprises which invest in Guangdong, have gotten good economic effects. Well, these of all, it has been shown that the investment environment in Guangdong Province day after day will be perfect, and the undertakings of the opening to the outside world will be further more enlarged. Surely, the wide golden future will be opened up. In the book, the Investment Environment in Guangdong Province in 1990's, every word and every picture are just the vivid discription for this great achievements. Facing the world and facing the future, everywhere, it is encouraged by the spirit of “seize the day, seize the hour” to make gerat efforts to improve and perfect the HARD and SOFT investment environment. Guangdong's people are warm, goodwill to guests and are willing to make every endeavour, and are also good at running economy, Guangdong warmly welcome personalities of various circles both at home and abroad to visit and investigate, continue to invest to coordinate and try to make flourishing economy together.

It must be shown, this book, the Investment Environment in Guangdong Province in 1990's, is only a general picture of introduction about the investment environment in Guangdong Province, the researching method about the investment environment can adopt different angles and stressing points, and the articles and spaces are limited, what's more, we have taken more spaces to propagate those which was less introduced before, so, the systems and depth of this book are hardly to be perfect. This book may contain omissions as a result of limited knowledge and our limited edition time. Any criticisms and suggestions from readers for making corrections in this book will be highly appreciated.

In the process of edition and publication, we get the full cooperation from the policy researching system in the whole province and receive the full support and warmly help from leadership and other concerning departments. We would like to express our heartfelt thanks.
