# 前言

白云苍狗，沧海桑田！

上溯到1902年，国家和民族被迫面临数千年来最危急的时刻，南京大学的前身三江师范学堂在虎踞龙蟠的金陵应运而生，其创办者们希望以振兴教育和科技而救亡图存、求强思变。此后百年，南京大学历经两江师范学堂、南京高等师范学校、国立东南大学、国立第四中山大学、江苏大学、国立中央大学、国立南京大学等沿革，走过了内忧外患的晚清和民国，迎来了生机勃勃的社会主义变革和建设，饱经时局动荡，阅尽世纪变迁。数十年中，校名虽屡经更迭，其追求真理、实事求是的科学精神和博采众长、融汇百家的办学方针却一脉相承、绵延不断，进而形成了诚、朴、雄、伟的泱泱大校之风，“人才济济、科教茏茏”，大学的前身由此被誉为“中国科学社的大本营”和“中国科学发展的主要基地”。可以说，南大的命运与国家和民族的命运紧紧相连，南大的发展也与时代和社会的变革息息相关，它的百年历程，记载了一个世纪以来中华有识之士对民族高等教育和科技事业的探索与追求，成为近代中国高等教育和民族科技发展史浓墨重彩的一个缩影。

岁月如梭、世纪交替，今天的南京大学在新的机遇中焕发出蓬勃的生机，呈现持续上升的强劲势头，全体南大人立志承袭百年传统和精神，弄潮立涛头、逐鹿于世界，将南京大学建设成具有重要影响的世界一流大学！在学校的百年华诞来临之际，在创建世界一流大学的事业蒸蒸日上之时，我们编辑这本画册为校庆献礼！江山代有才人出、各领风骚数百年！回首一路弦歌，展望明日未来，我们希望经由代代新人的奋斗，承前启后、继往开来，开创新的百年篇章，把前贤未竟的事业推向辉煌！

It has been a world of great changes.

Nanjing University dates back to 1902, when Sanjiang Normal School was founded in Jinling, a city of "a crouching tiger and a curling dragon." At the time, the Chinese nation was reduced to its most critical moment in thousands of years. The founders of the school had hoped to save the country and strive for prosperity by reviving education and promoting science and technology. In the hundred years since, the University evolved as Liangjiang Normal School, Nanjing Higher Normal School, National Southeast University, National Central University, and National Nanjing University. It went through upheavals and vicissitudes, through the late Qing Dynasty and the Republic, through the prosperous socialist revolution and construction of New China. In just a century, the university changed its names several times, but the scientific spirit of seeking truth from facts and the educational policy of learning from the strengths of others remained and extended later on to "integrity, simplicity, grandeur and greatness" of a magnificent university, "gathering talents and prospering with science and education." Nanjing University has earned itself the fame of "the general headquarters of the Chinese scientific community" and "the major base for scientific research in China." The fate of Nanjing University, so to speak, has been closely connected with the fate of the nation, and its growth has followed those of the times and social reforms. In its history is recorded the pursuit of people of insight for national higher education and science and technology in the past hundred years, a miniature of the history of modern Chinese higher education and national science and technology.

Time has passed into a new century. Nanjing University is sparkling today with vigor and new opportunities, full of sustained strength. All Nanjing University people are determined to inherit the traditions and spirit of a hundred years, "face the height of tides, and strive for supremacy," and turn the university into a first-rate higher educational institution of world significance. At the time of the university's centennial and to mark its steady progress towards higher ranks in the world, we dedicate this pictorial to the celebration.

Talents come out in every era of the nation, writing out a long history of excellence. In retrospect and looking ahead, we of this generation hope to push forward the cause of our predecessors with continued efforts, and write out a new chapter of glory and magnificence of another hundred years.
