INTRODUCTION

The Supplement to The Yearbook of China Tourism Statistics 1999 is a yearly statistical publication with information on the production capability as well as other aspects of China's tourism industry in 1998. The main contents are two parts: Statistical information on tourism development; Statistics of economic targets of tourism enterprises.

As an addition to the contents in The Yearbook of China Tourism Statistics, this Supplement is an important reference material on the scale, layout and structure of the tourism industry in the country. It can be used by people working in the tourism and other related departments of the national economy and by economic personnel in the education and research institutions and teachers and students in colleges and universities.

The data sources of this Supplement are the tourism administrations and bureaux of each province, autonomous region, city under direct state administration and major tourism cities. In handling the statistic figures, we verified and adjusted to make them consistent with the criteria used in all CNTA (China National Tourism Administration) statistic tables.

The data of Taiwan Province, Hong Kong (SAR) and Macau are not included in this Supplement.

The parts marked with " # " in the Supplement represent the main parts of the section; and those marked with " - " mean that there is no figure available or not comparable.

Owing to limited time in compiling this Supplement, there are unavoidable shortcomings. Corrections and suggestions for improvement are welcome from all readers.
