PREFACE

前言

開個小會——爲了自我表現

會議主持人：日瀚公司

會議嘉賓：極具表現力的建築表現公司

生活是一個循環電影

畫圖

熬夜

睡覺

吃飯

畫圖

熬夜

睡覺

吃飯

開工資

這是很多圈裏人的夜生活方式，是在發展中的中國的一小撮人的發展中的生活。其實在吃飯和睡覺之間也可以慘和一些休閒的事兒來調濟一下——那就讓我們大家來開個小會吧，建築師和表現大師們越來越“懶惰”了，連買書都是別人送上門去的，我說相互走動交流一下也挺好，大家相互擁抱，握手，寒暄一下。

這是個無政府無組織的聯誼會，大家隨便地展示自己的作品，也沒有必要分個高低上下，互相切磋一下，相互批判一下，沒准哪句話刺激了你的靈感，又激情澎湃大作出世了。交個朋友唄。其實大家早已是只聞其名，不見其人的老朋友，隨意些，隨便些。

開個小會

其實我們也是通過這個小會才更加認識到一些事實：

中國是世界上最大的建築市場，

中國有世界上最優秀的建築表現從業人員，

中國有那麼多的優秀建築設計人員

——真正的中國國情

日瀚公司的工作是提供場所，OK

聯誼會開始

《中國建築畫》——中國制造

MADE IN CHINA

Set up on the basis of mutual trust and cooperation with Beijing Donghai Futing International Architecture Designing Co., Ltd., Beijing 4F Studio is a company exclusively engaged in architectural illustration.

With the motto of "Art-seeking having no limits" in mind, the company has gained reputation and respect from various clients since its foundation.

If you were a piece of cloud drifting down from the sky, wishing to experience the prosperity of the human world, what would be the first thing you see? Seeing BUILDINGS, spreading over every corner of the earth, you can never not feel their existence and be influenced by them. Buildings can reflect the deepest wisdom and thoughts of mankind.

Architectural Presentation is not only the way to display the design outcome, but also the measure architects refine their design inspirations. We expect we could contribute to Chinese Construction Industry through our efforts of helping the architects present their works.

Recalling our business startup, every moment was still vivid in our mind. After all what we have experienced was not too long ago. Our every bit of progress is closely related to the trust and encouragement from the architects ever worked with us. Diligence and perseverance are our unchangeable mottos. We will be more proactive to meet every new challenge facing us.

Beijing Black & White Architectural Scene established at the beginning of 2000, was mainly engaged in the internal and external design of building, three-dimensional animation, multimedia demonstrating, post-display picture. The company has received the approval of the personnel of the same trade and favorable comments since being established, and the company is developing with the good steady trend. We have stronger strength in the fields of science and technology of higher content. For many years, our company has reached the good cooperative mode with the domestic, Hong Kong, Taiwan customers. We hope we can get to know more cooperative customer in developing stage in the future. We wish that we can successfully step into brilliant future hand by hand, with better works and better services.

President: Yang Hai-Bo, graduated from Central Craft and Painting Institute, have engaged in building design at JianYe Engineering Design Company (HongKong). Now, he has been establishing Beijing Black & White Architectural Scene.

There are 20 staff in the company.

Current scale: The production of film and TV, three-dimensional animation, multimedia demonstrating, display picture making.

Set up on the basis of mutual trust and cooperation with Beijing DonghaiFuting International Architecture Designing Co., Ltd. Beijing 4F Studio is a company exclusively engaged in architectural illustration.

With the motto of "Art-seeking having no limits" in mind, the company has gained reputation and respect from various clients since its foundation.

朱彦峰

Architecture representation have been admitted by architects for its particular operation pattern and strong effect as it contains CAP (Computer Architecture Picture) and CAD (Computer Aided Design). We devote into this career in full swing with longing for art and for future. As careermen of Architecture and IT, we have a profound insight and an abundant experience for digital application in city construction.

OUR CONFIDENCE-- A good idea is more significant than any artifice forever. Careermen of Architecture and IT are seeking harmony and conformity between technology and art by their cooperation from ABC (Architecture By Computer)

OUR LONGING -- "drawing freely, comprehending the concept of volume by lines, constructing configuration of surface, looking into with eyes carefully, and then finding something..... finally, the afflatus is coming." (Le Corbusier)

OUR IDEAL--Culture +Love + Idea = Perfect

OUR PROMISES--we can materialize your dream perfectly with excellent work in cooperation between you and CLIP now and future.

Beijing Archscape Image Design Co., Ltd. is mainly work on computer performance of architecture, interior and landscape design. The company's founder and his partner have already explored in this field for more than six years.

The creation of the architecture performance image, same as the creation of architecture, shall follow the market rules, and also need the enthusiasm of creation. We not only express the reality and lifelike, but also express the spirit and the demeanour of the design. Computer architecture performance is a kind of art to provide wide, comprehensive and free performance for architecture, and increasingly becomes the powerful assistant to improve the thought of architect and their design.

In the course of development, we always make great effort to create good working and cultural circumstance, keep the advantage of professional persons. The company also pays attention to keeping the close atmosphere of studio, team cooperation spirit among the employees, made them have strength to undertake the works with all difficulties and pressures.

Architects and interior designers are our intimate teacher and friend, and we are the faithful cooperators.

Kinsha Architecture & Engineering Co., affiliated to Beijing Institute of Architectural Design & Research, is a specialized company providing technical services in architectural expression, design and engineering consultations, preparing all kinds of architectural schemes, plans, landscaping, rendered illustrations of interiors and exteriors, animations and multi-media shows, scheme packing and engineering drafting. *Kinsha Make* has become a professional and reliable mark.

Beijing Space Recreation Digital Science & Technology Development Co., Ltd.

Art Science & Technology Human

Our company is that one specializes in the display picture of internal & external building, design consultation, three-dimensional animation, interactive to design program multimedia, and VR virtual reality, non-linear video-information, etc. We insist the plan of perfectly design, computer display picture and animation overview (the design of building, urban planning, real estate sales) multimedia package working programs with omni-directional, three-dimensional. All thought theory of designer could be expressed heartily, flawlessly.

Relying on technology precipitating and artistic inside for many years, we have been offering the omni-directional media demonstrating and making services for many units, such as conceptual design, project constructing, real estate with multimedia procedure. Resolving the design theory that can't fully express the designer in the bid course and the shortcoming explained that the designer can't submit a tender when participating in a contest, with plane figure, display picture, three-dimensional animation in the form of two-dimensional animation, mixed with the specialized dialogue, annotate out the theory that you submit a tender completely.

We once succeeded in making the perfect multimedia demonstrate for many national-level project designs, bid of construction, such as the Beijing information port, the security center of the national network, Beijing CaiShiKou mobile communication, Legend research and development base, etc. We establish the foundation that the designer succeeds in winning the championship after making excellent multimedia demonstrate, and well received by designer.

The challenger's dash, passion of creation, the dream of the founders, we are all-embracing. By choosing us, you can receive the works that one is out of the common, rich in scientific and technological intelligence, include the times favor.

We are expecting to cooperate with you!

We continues welcoming the same trade personnel that to be devoted to studying in architecture, join us and realizes their dreams.

Zero Design Co., Ltd., your sincerely friend provides you whole heartedly with the following designing and making services:

architectural drawings and plans simulators of exterior and interior decoration, animation, virtual reality, multimedia, Web site and so on.

Once co-operation would lead to our eternal partnership. Such confidence comes from—

Our refusal to superficiality, rejection of mediocrity and courage of surpassing ourselves.

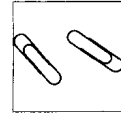

We have up-to-date management concepts, tremendous technique strength, and elites gathering team.

We strive to go all out in work and become stronger.

Among the great commercial upsurge, we remain our zero degree state: following our own principles strictly, studying technique quietly, and improving artistic attainments continuously.

We are enthusiastic, self-confident, deliberated. Innovative and perfect products are our perpetual pursuit.

I am 0 while you are 1, you plus me equal to infinity value.

MADE IN CHINA

Beijing Marvel Studio of Architecture Design Co., Ltd. was established in July 2000. The company is expert at computer-aided architectural rendering, architecture design and interior design.

During the two years, keeping its improvement and with the support of the people of all circles, as well as the mutual effort of the staff of the company has become a professional group consisting of several dozens of various professional personnel who are engaged in building design, Landscape design and three-dimensional animation.

Two years later, keeping studying and summarizing the experience and lesson, Marvel Studio has basically formed the management style, enterprise culture and enterprise development line of its own.

We hope that under constantly increasing pressure of high expectations, Marvel Studio can, with its even stronger technological power and unchanging desire to learn and improve, contribute its own share to the development of Chinese architectural design in future. The demand for perfection in architecture is a shared goal of architects and Marvel Studio.

Beijing Tri-Color Bird CG Co., Ltd. is a rapidly developing company, which specialized in 3D Architecture Rendering, Interior Rendering, 3D Animation and Virtual Reality.

We are united, creative and professional, all our technicians are majored in Architecture or Art. They all have good specialty knowledge and high art perception. After many years practice in the field, they have accumulated much experiences. So we can not only understand but also express the designer's purpose very well. It also makes our products with high quality and much meaning.

We believe that: 3D art is a very special subject. It deeply depends on the technician's technology, especially computer technology. For a 3D artist, the most difficult thing is how to balance two different aspects: "Technology" and "Art Presentation". When we produce our art products, we always:

Focus on the art presentation;

Insist on Quality instead of Quantity;

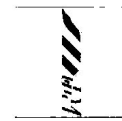

Insist on the necessary technical method instead of the parade;

We also believe that: the best art works are those, which can touch with the audiences. It's a way to communicate between artists and audiences. And this is also the object of all 3D artists and any others art pursuers. A valued art works must be a connotative product.

Let's enjoy the fantastic 3D world together to make more and more good 3D art products.

Since established in 1998, Beijing Deepblue Computer Image Design Company has made great efforts to become a excellent professional company in computer architecture presentation. In the course of extensive cooperation with many real estate companies and design companies, we have obtained abundant design and drawing experience in environment, outside and inside of building, plan and outward presentation of real estate sale.

We hope the next cooperation with you under our even stronger technology and more sincere service.

Beijing Stone Design Co., Ltd. was established in 1997. It is composed of more than thirty professional staffs specializing in architecture, interior decorating, environmental designing and art. The company is mainly engaged in architecture designing, interior decorating, draft of building, animation of building, virtual reality, planning of project in prior period and so on. We have gained favorable achievements on impression of static and dynamic buildings, and on the prior scheme, project planning. And we have participated in the large design item bid, such as the Layout Plan for the Olympic Games in 2008, the design plan of ZhongGuanCun Culture Square, the bid of the Hub of Communication for LuLu Bridge and the second phase project of XingHai Conference & Exhibition Center of Dalian etc. We have obtained the high reputation for the convenient, high quality, high efficiency, quick service. We are basing on the continuous improving of the comprehensive quality of the staffs and the uninterrupted adaptation to the renovation of the newest technology productions. And so we are working hard on the fields which include the service of the architecture and designing of landscaping perpetually. The working environment here is comfortable. And also possess of modern equipments including the large output center of images. Basing on the person, we invite persons of various fields to join in us.

Creative and strict--the works we produced.
United and active--the team we owned.
Exploring the world--the target we have.
Thoughtful--the services we provide.
Time & Space Studio, established in the beginning of the millennium, is specialized in interior architectural renderings and animation production. We are trying to keep consistent in both the technology development and the artistic representation. We are waiting enthusiastically for your faithful cooperation.

Beijing West Jungle Architectural Design & Consulting Co., Ltd. is dedicated to architectural art performing and designing. The business scope covers architectural art demonstration, architectural design, interior design and related consulting. It has won a good reputation among architects and real estate agencies by providing excellent professional skills, customer-oriented service and strong team work.
Founded in April, 2001, the company has expanded its scale from a 3-person-workshop to a formal operation with nearly 20 full-time employees, and is keep growing healthily.

West Jungle firmly believes that the demonstration of architectural art comes from professional service. Therefore, every single product and every detail has been taken good care of with strict professional service attitude.
West Jungle emphasizes that a well-running management system is the foundation for the company's development. The company has gradually formed its culture and management style that can ensure a better service to its customer.
West Jungle commits that its mission is to provide its customer excellent quality, professional service and continuous innovation. We understand that it is the customer who has supported the growth of the company, and we could only do better through persistent hardworking.

Beijing Shape & Shadow Computer Graphic Co., Ltd. (S & S), founded in 1998, is a company dedicated in the business of making computer architectural prospective as well as offering architectural consulting service. Up to the present, S & S cherishing the belief of working dutifully, progressing ceaselessly, striving for the best, has expanded steadily. With the support of clients from all circles, S & S has worked up to develop into a professional group with strong technical force in the areas of architectural design, environmental design and 3D computer prospective.
In the past few years, S & S, with great cohesion, progressed steadfastly towards its target. Every member here is working with great enthusiasm, by the inspiration of which countless first-class products were created and the acknowledgement of clients and partners also keep the ebullition of our inventive potential.

Beijing FRAMKING 3D Institute is founded in 1997, which is one of the companies that begin to go in for the working at the professional computer architectural rendering in the early time. The extent of the business includes many aspects, such as the design and decoration of interior and exterior buildings, the making of the 3-dimensional animation, architecture rendering, and so on. The firm has a strong clerk team made of about twenty more designers and engineers who almost graduated from the architecture universities and art institutions. We have the advanced devices and outstanding designers, and we have gained many excellent prices in the country. What's more, we have a good market credit, and we have a brave bright future. We are seeking so many things, the thinking of life, the love of career, and the fashion of hard working---We want to own the perfect abilities of drawing, the novel design works, the proper management, and the free colorful life! We love life, we design life, and we will enjoy it!

Beijing ZhuYuXuan Building Technology Consultation Ltd. Corp. is engaged in architectural scheme design, elevation design, landscape design, interior design and perspective drawing and training. The company was founded on Sept. 20, 2001. Now we have ten employees. Our guiding theory is "TIAN REN HE YI" coming from the Chinese traditional culture. We learn advanced design concepts from abroad actively, and provide remarkable design and good service. From the founding day, the company has been praised by customers because of the good scheme design ability and service. We have also developed some international customers and set up steady business with some foreign countries such as Germany, Japan, etc. There are not only architects with enough professional knowledge, but also those skilled in computer perspective drawings in our company. We are a group which can accept any challenge, and gradually evolves the style of their own. With the guiding theory "TIAN REN HE YI", we make persistent efforts and do our best to create works which can stand the test of time.

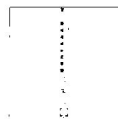

The natural picture is that one specializes in the display picture manufacturing company of indoors and outdoors architectural design. From 1999 to 2002, we have been developing many building display pictures for each Architectural Design Affairs and Architecture Design Institute, such as, Liu Xiang-Hong Architects Affairs (Taiwan), Zhu Jiang Real Estate Company (GuangDong), Triumphant Engineering Company (Hong Kong). The principle of the Natural Picture Company, which is based on the function operation and geographical environment, economizing energy and advanced technology, be well engaged in overcoming the potential difficulty, offering the comparatively perfect and prudent behavior, and leaving a strong impression from creative soul on us.

Current scale : 8 people
Established time: 1999

Founded in early 1999, Chongqing Flying Eagle Studio is a small company, which addresses to professional representation of architecture and landscape design. Our working style lies in innovation, realistic approach and paying attention to full communication with the clients.

Architecture comprehension and landscape perception make our productions different from those almost identical and rigid "mechanical ones". It is advocated in our company that individualized comprehension shall be presented in the production with its commerciality being taken into consideration. Pain and enjoyment are interwoven in our work. Flow of light and shade, blending of color and shape——appear vividly in front of us within short time, which is the drive for us to enjoy such "suffering work".

Our company——small but gracious; small but ingenious!

In the hot summer of 5 years ago, with 10% perplexity, 90% expectation and 120% brevity, I stepped into Chongqing -- a new-founded municipality directly under the Central Government and found a small studio—Tiantu Photo Studio. In the room no more than 50-60 square metres, we talk, discuss, and express new ideas. Living in this changeable young city and enjoying the energetic atmosphere, I get a kind of pride for I am working in the front line of construction. Zou Rong Square, Chongqing International Hotel, Hua Yu Square, Jiang Bei Airport.....ration Construction, the symbolic buildings, which were still in my mind, now, are standing forward. Hua Ting Home Garden, Harbor Garden, Golden Island Garden..... colorful and specific districts are not still pictures but the harmonious home living districts. Furthermore, the crossing bridges, and the widen roads are being built with a high speed. So, involved in the construction of new Chongqing, we have got great satisfied and got powerful motivation.

Since our company was founded, we have tasted the joys and sorrows of life. There is pain, the joy of success and the inspiration of working in full cooperation. Architectural rendering is not only a kind of art, but also a kind of form which shows architectural charm, shows the taste of people and our company's level.

Architectural rendering can stimulate peoples' imagination.

In these virtual scenes, whether a building was completed or a landscape was finished was soaked our intelligence and talent. It is our pleasure to give you some enjoyment or an imagine space. We completely show the architects' design ideas with our talent and skills, meanwhile transfer it to each person who sees the rendering. We can call it a kind of strength. Let the kind of strength to take us to the place where is our dream.

After experiencing the trials and hardships, we have known that cooperation is very important. Only by working in full cooperation, we can improve our company to a higher level.
