# 第四版前言

全国统一的大学英语四、六级考试因其科学性和权威性而得到社会普遍的认同。去年9月正式颁布的新的《大学英语教学大纲》规定:本科学生在毕业前必须通过四级考试,否则不能授予学士学位。很多单位在招聘大学毕业生时都有一条:有英语六级证书者优先。甚至要求应聘者必须有六级证,否则不予考虑。目前,全国每年参加四、六级考试的考生近三百万。众多出版商都将目光瞄准了这一巨大的市场,市面上有关四、六级考试的辅导书籍令人眼花缭乱,无所适从。

值得一提的是,英语四、六级考试试题形式上非常简单,无非是一道题目搞几个选择项,出个题目要求考生以此作文。有些人以为一天就可以轻而易举地命几十道题,致使以牟利为目的的各种所谓大学英语模拟题集充斥市场。事实上,一套科学的试题,其命制是一项专业性极强的工作,难度大,周期长。为保证大学英语四、六级考试的命题科学、评分一致、成绩可比,力求对学生能力进行客观、科学的评价,教育部专设了"大学英语四、六级标准化考试设计组"(现"全国大学英语四、六级考试委员会"),对考试内容进行了明确规定,严格要求命题工作,建立了专门的命题员队伍,并对其进行了严格培训。一套四、六级统考试卷的命制周期往往长达一年之久。试卷中的题目要经过命题、审题、试测、计算机试题项目分析、复审、构卷等一系列复杂的程序,在确保试卷在难易度、区分度等方面都达到了规定的要求后才能实际施考。那种由没有经过专门训练、不熟悉命题规则的人员编写的、没有经过检验的所谓大学英语模拟试题集,用于自测或训练,其效度、信度实在值得怀疑。

"知已知彼,百战不殆"。为了使广大同学能够认真学好、掌握好《大学英语教学大纲》的全部内容,并为顺利通过大学英语四、六级考试提供一个高信度、高效度的复习、自测的参考系,我们编写了这套《大学英语四、六级考试全真试题集详解》。全书收录了十二套历年考过的四、六级全真试题。每套题后除参考答案外,还编有简明扼要、全面准确的注解,分析了命题规律及考生常犯的错误,指出考生应加以注意的问题,并结合试题讲解了解题方法、思路及技巧,力图使考生能举一反三,触类旁通。

本书于去年出版后,受到广大读者的肯定与欢迎。经我们在考前辅导中使用,表明效果良好。但在教学中我们发现,本书有不少地方需要进一步改进、完善。许多师生也来信、来电,对我们提出了一些中肯的建议。鉴于此,我们对原书进行了大幅度的修改。

与本书前几版及市场上的同类书相比,第四次修订版具有以下特色:

- 1. 本书编者均为多年从事大学英语教学与科研的教师,对四、六级考试很有研究。他们所写的注解都经字斟句酌,力求简明、扼要、全面、精炼,既不繁琐、拖沓,又对应该加以讲解的内容无一遗漏。
  - 2. 力求减少读者的经济负担,为此,我们除了讲求注解部分文字的精炼外,还采取了以下措施;
- ①因每套试卷各部分的考试指令(即 Direction)都千篇一律,和考试委员会公布的样题一模一样,大家都已熟知,故本书将其省去,以节省版面。
  - ②采用小5号字及超大、超密版心,每页字数几乎相当于其他书的2倍。
- ③本书所配录音磁带均为 90 分钟长,故原来需 3 盒 60 分钟长的磁带才能录完的听力部分我们只用了 2 盒磁带。

本书在编写和修订过程中,曾得到北京大学英语系部分同志的大力协助,我们在此表示感谢。

尽管本书经过多次修订,但我们仍不敢说它已尽善尽美。书中难免仍存在一些不足之处,尚请读者批评 指正。

# 1995年1月大学英语六级考试试题

## Part I Listening Comprehension

(20 minutes)

#### Section A

- 1. A) She was given a new job.
  - B) She was given a raise.
- 2. A) Whether to employ the woman.
  - B) Whether to take up the new job.
- 3. A) A teacher.
- B) A psychologist.
- 4. A) To visit more places in the city.
  - B) To take a lot of pictures of the beautiful city.
- 5. A) In town.
  - B) Out of town.
- 6. A) Because she feels very hot in the room.
  - B) Because she wants to avoid meeting people.
  - C) Because she wants to smoke a cigarette outside.
  - D) Because she doesn't like the smell of smoke inside.
- 7. A) Painters hired by the man and woman.
  - B) Painters hired by Mr. Jones.
  - B) I difficite filled by 1411. Joines.
- 8. A) The woman enjoyed the movie very much.
  - B) The woman saw a horror movie.
  - C) The man asked the woman to be careful at night.
  - D) The man went to the show with the woman.
- 9. A) He doesn't write well enough.
  - B) He is not a professional writer.
- 10. A) He doesn't think it necessary to refuel the car.
  - B) He can manage to get the gasoline they need.

- C) She was criticized for being late.
- D) She was praised for her hard work.
- C) Whether to ask for a raise.
- D) Whether to buy a new house.
- C) A librarian.
- D) A publisher.
- C) To take some pictures of his friends.
- D) To spare some time to meet his friends.
- C) In the man's house.
- D) Outside Ann's house.
- C) Mr. Jones.
- D) The man and the woman.
- C) He hasn't got any professional experience.
- D) He didn't perform well in the interview.
- C) He hopes the woman will help him select a fuel.
- D) He thinks it is difficult to get fuel for the car.

#### Section B

#### Passage One

#### Questions 11 to 13 are based on the passage you have just heard.

- 11. A) Because they can't afford to.
  - B) Because they think small houses are more comfortable to live in.
  - C) Because big houses are usually built in the countryside.
  - D) Because they prefer apartments.
- 12. A) Because many young people have moved into comfortable apartments.
  - B) Because many old houses in the bad part of the town are not inhabited.
  - C) Because many older people sell their houses after their children leave.
  - D) Because many people have quit their old houses to build new ones.
- 13. A) They have to do their own maintenance.
  - B) They have to furnish their own houses.
  - C) They will find it difficult to make the rest of the payment.
  - D) They will find it difficult to dispose of their old-style furniture.

#### Passage Two

#### Questions 14 to 16 are based on the passage you have just heard.

- 14. A) They are not active hunters.
  - B) They don't sleep much.
- 15. A) To catch the birds.
  - B) To look for shade in the heat of the day.
- 16. A) They are larger in size.
  - B) They run faster.

- C) They are often seen alone.
- D) They don't eat much.
- C) To catch other animals.
- D) To look for a kill made by another animal.
- C) They have to hunt more to feed the young.
- D) They are not as lazy as the males.

#### Passage Three

#### Questions 17 to 20 are based on the passage you have just heard

- 17. A) Less than 30 minutes.
  - B) From 30 to 45 minutes.
- 18. A) He should show respect for the interviewer.
  - B) He should show confidence in himself.
- 19. A) Speaking confidently but not aggressively.
  - B) Talking loudly to give a lasting impression.
- C) At least 45 minutes.
- D) More than 45 minutes.
- C) He should talk enthusiastically.
- D) He should be dressed properly.
- C) Talking a lot about the job.
- D) Speaking politely and emotionally.
- 20. A) Professional knowledge is a decisive factor in job interview.
  - B) Finding a job is more difficult than one can imagine.
  - C) A job seeker should create a good image during an interview.
  - D) Self-confidence is most important for a job seeker.

#### Part I Reading Comprehension

(35 minutes)

#### Questions 21 to 25 are based on the following passage:

The process of perceiving other people is rarely translated (to ourselves or others) into cold, objective terms. "She was 5 feet 8 inches tall, had fair hair, and wore a colored skirt." More often, we try to get inside the other person to pinpoint his or her attitudes, emotions, motivations, abilities, ideas and characters. Furthermore, we sometimes behave as if we can accomplish this difficult job very quickly—perhaps with a two-second glance.

We try to obtain information about others in many ways. Berger suggests several methods for reducing uncertainties about others; watching, without being noticed, a person interacting with others, particularly with others who are known to you so you can compare the observed person's behavior with the known others' behavior; observing a person in a situation where social behavior is relatively unrestrained or where a wide variety of behavioral responses are called for; deliberately structuring the physical or social environment so as to observe the person's responses to specific stimuli; asking people who have had or have frequent contact with the person about him or her; and using various strategies in face-to-face interaction to uncover information about another person—questions, self-disclosures(自我表露), and so on. Getting to know someone is a never-ending task, largely because people are constantly changing and the methods we use to obtain information are often imprecise. You may have known someone for ten years and still know very little about him. If we accept the idea that we won't ever fully know another person, it enables us to deal more easily with those things that get in the way of accurate knowledge such as secrets and deceptions. It will also keep us from being too surprised or shocked by seemingly inconsistent behavior. Ironically(讽刺性地), those things that keep us from knowing another person too well (e.g., secrets and deceptions) may be just as important to the development of a satisfying relationship as those things that enable us to obtain accurate knowledge about a person (e.g., disclosures and truthful statements).

Z1.	21. The word "pinpoint" (Para. 1, Line 3) basically mean	The word "pinpoint" (Para. 1, Line 3) basically means

22.	22. What do we learn from the first paragraph?		V			
	A) People are better described in cold, objective terms	J.				
	B) The difficulty of getting to know a person is usually	y underestimated.				
	C) One should not judge people by their appearances.					
	D) One is usually subjective when assessing other peop	ple's personality.				
23.	23. It can be inferred from Berger's suggestions that	•				
	A) people do not reveal their true self on every occasion		•			
	B) in most cases we should avoid contacting the observ	ved person directly				
	C) the best way to know a person is by making compa	risons				
	D) face-to-face interaction is the best strategy to unco-	ver information abou	ut a person			
24.	In developing personal relationships, secrets and deceptions, in the author's opinion, are					
	A) personal matters that should be seriously dealt with	h				
	B) barriers that should be done away with					
	( ) as significant as disclosures and truthful statements	•				
	D) things people should guard against					
25.	25. The author's purpose in writing the passage is	·				
	A) to give advice on appropriate conduct for social occ	asions				
	B) to provide ways of how to obtain information about	people				
	C) to call the reader's attention to the negative side of	people's characters				
	D) to discuss the various aspects of getting to know pe	eopl <b>e</b>				

#### Questions 26 to 30 are based on the following passage:

The competition among producers of personal computers is essentially a race to get the best, most innovative products to the marketplace. Marketers in this environment frequently have to make a judgement as to their competitors' role when making marketing strategy decisions. If major competitors are changing their products, then a marketer may want to follow suit to remain competitive. Apple Computer, Inc. has introduced two new, faster personal computers, the Mackintosh I and Mackintosh SE, in anticipation of the introduction of a new PC by IBM, one of Apple's major competitors.

Apple's new computers are much faster and more powerful than its earlier models. The improved Mackintosh is able to run programs that previously were impossible to run on an Apple PC, including IBM-compatible (兼容的) programs. This compatibility feature illustrates computer manufacturers' new attitude of giving customers the features they want. Making Apple computers capable of running IBM software is Apple's effort at making the Mackintosh compatible with IBM computers and thus more popular in the office, where Apple hopes to increase sales. Users of the new Apple can also add accessories(附件) to make their machines specialize in specific uses, such as engineering and writing.

The new computers represent a big improvement over past models, but they also cost much more. Company officials do not think the higher price will slow down buyers who want to step up to a more powerful computer. Apple wants to stay in the high-price end of the personal computer market to finance research for even faster, more sophisticated computers.

Even though Apple and IBM are major competitors, both companies realize that their competitor's computers have certain features that their own models do not. The Apple line has always been popular for its sophisticated color graphics(图形), whereas the IBM machines have always been favored in offices. In the future, there will probably be more compatibility between the two companies' products, which no doubt will

requ	ire that both Apple and IDM change marketing strategies.					
26.	According to the passage, Apple Computer, Inc, has introduced the Mackintosh I and the Mackintosh					
	SE because					
	A) IBM is changing its computer models continuously					
	B) it wants to make its machines specialize in specific uses					
	C/it wants to stay ahead of IBM in the competitive computer market					
	D) it expects its major competitor IBM to follow its example					
27.	Apple hopes to increase Mackintosh sales chiefly by					
	making its new models capable of running IBM software					
	B) improving the color graphics of its new models					
	C) copying the marketing strategies of IBM					
	D) giving the customers what they want					
28.	Apple sells its new computer models at a high price because					
	A) they have new features and functions					
	B) they are more sophisticated than other models					
	C) they have new accessories attached					
	D)/it wants to accumulate funds for future research					
29.	It can be inferred from the passage that both Apple and IBM try to gain a competitive advantage by					
	•					
	A) copying each other's technology					
	By incorporating features that make their products distinctive					
	C) making their computers more expensive					
	D) making their computers run much faster					
30.	The best title for the passage would be					
	A) Apple's Efforts to Stay Ahead of IBM C) Apple's New personal Computers					
	B) Apple's New Computer Technology D) Apple's Research Activities					
Οι	nestions 31 to 35 are based on the following passage:					
_	and the special entering and the special entering and special entering and					

It is a curious paradox that we think of the physical sciences as "hard", the social sciences as "soft", and the biological sciences as somewhere in between. This is interpreted to mean that our knowledge of physical systems is more certain than our knowledge of biological systems, and these in turn are more certain than our knowledge of social systems. In terms of our capacity to sample the relevant universes, however, and the probability that our images of these universes are at least approximately correct, one suspects that a reverse order is more reasonable. We are able to sample earth's social systems with some degree of confidence that we have a reasonable sample of the total universe being investigated. Our knowledge of social systems, therefore, while it is in many ways extremely inaccurate, is not likely to be seriously overturned by new discoveries. Even the folk knowledge in social systems on which ordinary life is based in earning, spending, organizing, marrying, taking part in political activities, fighting and so on, is not very dissimilar from the more sophisticated images of the social system derived from the social sciences, even though it is built upon the very imperfect samples of personal experience.

In contrast, our image of the astronomical universe, of even of earth's geological history, can easily be subject to revolutionary changes as new data comes in and new theories are worked out. If we define the "security" of our image of various parts of the total system as the probability of their suffering significant changes, then we would reverse the order of hardness and see the social sciences as the most secure, the physical sciences as the least secure, and again the biological sciences as somewhere in between. Our image of

the astronomical universe is the least secure of all simply because we observe such a fantastically small sample of it and its record-keeping is trivial as compared with the rich records of the social systems, or even the limited records of biological systems. Records of the astronomical universe, despite the fact that we see distant things as they were long ago, are limited in the extreme.

Even in regard to such a close neighbour as the moon, which we have actually visited, theories about its origin and history are extremely different, contradictory, and hard to choose among. Our knowledge of physical evolution is incomplete and highly insecure.

31.	The word "paradox" (Para. 1, Line 1) means "".
	A) implication B contradiction C) interpretation D) confusion
32.	According to the author, we should reverse our classification of the physical sciences as "hard" and the
	social sciences as "soft" because
	A) a reverse ordering will help promote the development of the physical sciences
	B) our knowledge of physical systems is more reliable than that of social systems
	C) our understanding of the social systems is approximately correct
	(D) we are better able to investigate social phenomena than physical phenomena
33.	The author believes that our knowledge of social systems is more secure than that of physical systems be
	cause
	A) it is not based on personal experience
	B) hew discoveries are less likely to occur in social sciences
	C) it is based on a fairly representative quantity of data
	D) the records of social systems are more reliable
34.	The chances of the physical sciences being subject to great changes are the biggest because
	A) contradictory theories keep emerging all the time
	new information is constantly coming in
	C) the direction of their development is difficult to predict
	D) our knowledge of the physical world is inaccurate
35.	We know less about the astronomical universe than we do about any social system because
	A) theories of its origin and history are varied
	B) our knowledge of it is highly insecure
	(C) only a very small sample of it has been observed
	D) few scientists are involved in the study of astronomy

#### Questions 36 to 40 are based on the following passage:

In the early days of nuclear power, the United States made money on it. But today opponents have so complicated its development that no nuclear plants have been ordered or built here in 12 years.

The greatest fear of nuclear power opponents has always been a reactor "meltdown"(堆内熔化). Today, the chances of a meltdown that would threaten U. S. public health are very little. But to even further reduce the possibility, engineers are testing new reactors that rely not on human judgement to shut them down but on the laws of nature. Now General Electric is already building two advanced reactors in Japan. But don't expect them ever on U.S. shores unless things change in Washington.

The procedure for licensing nuclear power plants is a bad dream. Any time during, or even after, construction, an objection by any group or individual can bring everything to a halt while the matter is investigated or taken to court. Meanwhile, the builder must add nice-but-not-necessary inprovements, some of which force him to knock down walls and start over. In every case where a plant has been opposed, the Nuclear Regulation Commission has ultimately granted a license to construct or operate. But the victory often costs so

much that the utility ends up abandoning the plant anyway.

A case in point is the Shoreham plant on New York's Long Island. Shoreham was a virtual twin to the Millstone plant in Connecticut, both ordered in the mid-'60s. Millstone, completed for \$101 million, has been generating electricity for two decades. Shoreham, however, was singled out by anti-nuclear activists who, by sending in endless protests, drove the cost over \$5 billion and delayed its use for many years.

Shoreham finally won its operation license. But the plant has never produced a watt of power. Governor Mario Cuomo, an opponent of a Shoreham start-up, used his power to force New York's public-utilities commission to accept the following settlement: the power company could pass the cost of Shoreham along to its consumers only if it agreed not to operate the plant! Today, a perfectly good facility, capable of servicing hundreds of thousands of homes, sits rusting.

cons	sumers only if it ago	reed not to operate the plan	it! Today, a perfectly goo	d facility, capable of servicing				
hun	dreds of thousands	of homes, sits rusting.						
36.	What has made the procedure for licensing nuclear power plants a bad dream?							
	A) The inefficiency	of the Nuclear Regulation	Commission.					
	B) The enormous c	B) The enormous cost of construction and operation.						
	C) The length of ti	me it takes to make investig	gations.					
	D)/The objection o	f the opponents of nuclear p	ower.					
37.	It can be inferred for	om Paragraph 2 that	·•					
	A) it is not technic	A) it is not technical difficulties that prevent the building of nuclear power plants in the U.S.						
	B) there are not en	ough safety measures in the	U.S. for running new nu	clear power plants				
	C) there are alread	y more nuclear power plant	s than necessary in the U.S	S.				
	D) the American g	overnment will not allow Ja	panese nuclear reactors to	be installed in the U.S.				
38.	Any objection, how	vever trivial it may be, can	•					
	A) force the power	companies to cancel the pr	oject

80. 在 without 和 aware 之间加 being

Writing (略) Part

# 1995 年 1 月大学英语六级试题题解

### Part I Listening Comprehension

#### Section A

- 1. W: You wanted to see me, Mr. Wright?
  - M: Yes, Miss Gray. You'll have to start getting to work on time, or your service will no longer be needed here.
  - Q: What happened to Miss Gray?
- 2. M: You know, I'm just not too sure if the new salary will be high enough or even the new position is really what I want. Besides, I like the work that I am doing now.
  - W: It sounds as though you've already made up your mind about what you are going to do.
  - Q: What is the man thinking about?
- 3. W: I'm looking for a textbook for my Psychology course. It's called "Introduction to Educational Psychology". Do you have it?
  - M: Yes, we do. You'll find it in Section 24 on the top shelf.
  - Q: What's the man's occupation?
- 4. W: Oh, this is a beautiful city. I'm really glad I've brought my camera.
  - M: Yes, there are lots of things to take pictures of here. But I hope you will not plan to spend all your time taking pictures. I have some friends who would like to meet you.
  - Q: What does the man want the woman to do?
- 5. M: Why are you so sure that Anne didn't commit the crime?
  - W: She couldn't have committed that crime because I was with her. And we were out of town on that day.
  - O: Where was the crime most probably committed?
- 6. M: Isn't it rather cold outside, Sally?
  - W: It is a bit, but I can't stand the terrible smoke inside. I'd rather stay here if you don't mind.
  - Q: Why does the woman want to stay outside?
- 7. W: We've lived here in Thornton for 5 years now and I think its time to have the house painted.
  - M: You're right. Mr. Johns, our neighbor, just had his house painted. But we cannot afford to do it unless we paint it ourselves.
  - Q: Who is going to paint their house?
- 8. W: I still can't get over the show last Saturday evening. I keep having frightening dreams all night.
  - M: So, next time before you walk into a theatre, make sure you know what you are going to see.
  - Q: What do we learn from this conversation?
- 9. W: How was the job interview? I think you'll make a good journalist. I remember you as the best writer of the class.
  - M: Well, in fact, my application was turned down. They were looking for people with experience in the profession.
  - Q. Why didn't the man get the job?
- 10. W: We have to face the fact that it is a little hard to get fuel for the car.
  - M: Between you and me, I think there is always a way to get around this problem.
  - Q: What does the man mean?
