中共新安县委书记：周宗良

“古今兴废多少事，未识洛阳先新安”。新安置县于秦，距今已有二千多年的历史。二十多个世纪的匆匆步履，古老新安的波谲云诡，沧桑巨变，掀开了一页又一页壮丽的篇章。

这里交通发达，陇海铁路、310国道横贯东西，县乡公路四通八达；这里通讯便捷，邮电市话10000门程控直通海内外；这里地下资源极为丰富，煤炭、硫磺、铝矿石、石英石，品位高，易开采，被誉为“新安四宝”；这里文物荟萃，名胜古迹随处可见；千唐志斋的石刻唐书，青要山的雄奇幽险，王乔洞的古朴典雅，函谷关的扼要踞险，无一不名闻遐迩，令人流连忘返。

回眸这一页页历史，一行行清晰的“字迹”真真切切。新安这块充满阳光、希望和春雨的热土，为历史描绘出了一页又一页浓浓的彩章。铸就了一个又一个辉煌。俱往矣，峥嵘岁月稠。但新安的辉煌从没有象今天这样更加辉煌，这样更加令人欣慰，这样更加令人激动，这样更加令人扬眉吐气。

Great Effort to Create Magnificence of Xin'an, Don't Let People Down;

"Long history, numerous stories; before you get to know Luoyang, you get to know Xin'an". More than 2000 years ago in Qin Dynasty, Xin'an County was established. Magnificent stories happen in this long-history city.

Convenient traffic is provided, e.g. Longhai Railway, No. 301 National Highway, and the local highway network; easy communication is offered, e.g. more than 10,000 programmed telephone connect the world; mineral resource is abundant, e.g. high grade of coal, brim stone, aluminum, and quartz --the "four treasure of Xin'an"--can be easily mined. Many relics and famous historic and cultural sites are in this county: Stone Carved Tang Story in Qiantangzhi House; the magnificent, curious, silent and dangerous Qingyao Mountain; primitive, simple but elegant Wangqiao Cave; dangerous but important Hangu Pass, etc. which are all famous and can make visitors lingering on.

Look back to the history, the clear "writing" of stories seems so true. This hot land covered by sunshine, hope and spring rain paints the history more and more color and stories. From time to time it made glory. Now all of such have passed by. However, Xin'an has never been so magnificent and glorious, make people console and excited for its achievement.

The new achievements are not only talked in people's mouths, but also in our history. In the last five years, leaders of CCP Xin'an Committees and the Xin'an County Government led people to stick to the principle of "general target of making our county rich and powerful, strengthen industry and emphasize agriculture, pay great effort to develop town-and-village enterprises, and make the county prosperous with industry". We looked at the real situation and conditions, cooperated with absolute sincerity, seized the opportunity, worked hard, and fastened our development. All of these resulted in great changes in the County.

--Program Industry Revitalizing The County has achieved important break through of our composite economic strength. Under the negative conditions e.g. hard competition and debt, our industrial enterprises made their reform further and great progress in their establishment and ownership transforming. Normal running of Xin'an Power Group has formed a new developing form linking development of coal, electricity, and aluminum, which has now been the "Carrier" of Xin'an industrial enterprises; technical reform of porcelain and chemical enterprises are fastened; completion of 1st stage of the electrolyze aluminum factory, which is a symbol of the second boom of Xin'an economy, has solidified our industrial and financial foundation.

--Program Helping Poor People has made great progress in improving people's life. Industrialization is emphasized, and program "6610" was implemented. Scale of the constructed base and zones is large, and complete construction structure was set up, and obvious economic benefit has been achieved. Our measures, e.g. unit-to-unit help was strengthened, activities such as "five-levels work together and one help one" are comprehensively executed; all of such ensure the right distribution of the corresponding talent, labor, money, and materials. Average income of Xin'an farmers in 1997 achieved RMB 1,404 yuan.

--Program Strengthening the Countryside and Making People Rich has achieved great break through in the countryside economy. A lot of Town-and-village enterprises have been set up and developed; industrial structure of them is reasonably adjusted and products are upgraded, their management is becoming more and more strict, thus, the quality and qualification of such enterprises are getting better and better. Now such category of enterprises has possessed an important part of the whole economy of the County. Financial income from such town-and-village enterprises achieved 60 million yuan in 1997.

Great Effort to Create Magnificence of Xin'an, Don't Let People Down;

--Program of Drinking Water has made great progress in improving people's living condition. To solve the serious problem of lack of water, the Party Committee and the Government of the county took people's concern as their concern. In the last 5 years, RMB47 million yuan was invested and completed 216 projects of drinking water, and absolutely solved 500 thousand people's problem of water requirement. Water control facilities performed an important role in easy the countryside water using in the lasting dry 1997.

--Traffic and Communication Program has achieved great break through in improving the economic development environment. In the last 5 years, investment in this field amounted to 216 million yuan for building 296 km road. Among which 8 million yuan in building 15 Km of county level and village level cement road; 200 million yuan in building and reconstructing 185 km of Grade 3 asphalt road; 12.75 million yuan in constructing 96 km of sand and stone road. Thus, traffic condition is further improved, and achieved people's dream of road to every village. Our programmed telephone has covered more than 90% of the villages.

--Program Old Town Reconstructing and New Town Area Constructing has made great changes in the county town. In order to renew the image of Xin'an and higher the awareness of the county, CCP Xin'an Committees and the county government designed accurately and implemented the same actively. Now great changes has happened to the old town area, and the construction of new area is also fastened. Construction is undertaken smoothly, and body of the CCP Xin'an Committee and the government's new office building and administration meeting center has been completed. Infrastructure facilities of water supply, power supply, roads, and afforestation are under perfecting. The county town was honored "a civilized & hygiene county town" by the Luoyang City in 1997. Now we have achieved the civilized & hygiene county town of provincial level.

--Program "Base of Two Aspects" of Education has made great progress in improving the educational conditions. In 1997, we took the chance of assessment and receiving by the Province, we gave more governmental investment; RMB 87 million yuan was invested on both "hardware" and "software", 128 primary and secondary schools were built or reconstructed; thus, educational conditions of the County was fundamentally improved. Consequently, we smoothly passed the assessment and receiving by the Province, and our experience was promoted to all over the Province.

--Our progress in the various fields provide an effective channel for the other areas to aware of our County. E.g. smooth implementation of Xiaolangdi Immigration; higher degree of science and & education booming the County; establishment of primary countryside hygiene network; more powerful publicity to other areas; further prosperity brought by high investment on culture, broadcast, and TV; improvement of investment environment, etc. all of these show people an active image of Xin'an County.

Industry supports our agriculture, and agriculture urges our industry, both are making people more an more rich, and show the common mind of Xin'an people. Xin'an decision-makers have done a magnificent blueprint of "struggling for three years, double our economy volume, make the County powerful and our people rich, and renew the County". Thanks to the reform policy of the Country, the geographical advantages, and the harmonic working people, Xin'an has got abundant energy on the road to the 21 century.

Today Xin'an shows you a wonderful picture, tomorrow it will surely be more beautiful.

新城建设 日新月异

重塑自我 再现风姿

由于历史的原因，受地理位置的制约，新安老城建设步伐缓慢，管理受到限制。脏、乱、差现象较为严重。直接影响着新安的外部形象。为彻底改变新安脏、乱、差现象。新安决策者们大胆决策，周密布署，选择了城关镇江庄村为新的行政办公区。目前，一幢幢高楼拔地而起，各种基础设施齐全，布局合理。已具备了现代化城市的所有规划建设标准。97年被洛阳市授予“文明卫生县城”称号。
